**The great Nebula in Andromeda  
as photographed with the two-foot reflector,  
Yerkes Observatory, University of Chicago,  
Williams Bay, Wisconsin.**

**An enormous spiral mass, probably made up of  
separate stars too close to be resolved.**

**1-100 inch corresponds to billions of miles.**

**UNIVERSITY DINNER** — Head table guests were photographed at an annual dinner meeting of Cornwall University Women's Club held in Knox Church hall on Tuesday evening. From left to right are: Mrs. George Cameron, vice-president; Mrs. W. H. Gilleland, vice-president, C.F.U.W., who presented the club charter; Dr. A. Vibert

Douglas, Dean of Women at Queen's University, principal speaker; Miss L. Jean Cameron, president of Cornwall club; Mrs. J. F. Flaherty, president Ottawa U.W.C.; Mrs. J. Reid Campbell, treasurer, and Mrs. John McKeown, secretary of the local group.
