Ashkirk.

Allie, Precious Darling,

Welcome -

Douglas Trimmis, who says
he knows you & was glee
Club leader will give you
this & drive you to K'lon.

I have given him \$70⁰⁰ &
he will pay for gasoline
oil etc. Tell him not to
exceed 50 m.p.h. At Three
Rivers call at wharf & see
if the Seaboard Star is there
& we can meet!

Trimmis should pay himself

2.

! suppose \$ 7⁰⁰ / day -

Sun, Monday & part of Tues.

It will be a bit of a

strain to you to travel so
long & far but the strike

complicated the arrival.

Askink keeps all with

M^r or Mrs Sadwick at

Jaramozuk.

Dear Lord & great One

Bless you always.

Your old friend,

h.

20, Kent St.,

Halifax, N.S.

28th Oct. 1946

My dear Mary, Bless your dear heart &
20 years of life, may the next
20 years be full of joy & may
the 2nd of Nov. be a lovely day of
sunshine in the air & in your heart.

I saw Dr. Curry the other day at the
hospital & he told me that the great
swell would be over in a year or two
& that he thought that medicine
was a grand profession for a woman.
So do not give up your ideas
if you still hold to them for I
believe that it is one of the
grandest professions. There is need
for good doctors, people who have
heart as well as brains. So many of

the profession have brains + no hearts + some have neither B nor H.

Mom had a bad day yesterday. Turning furious + left leg sore. I telephoned the doctor re phlebitis but he thinks it was the injection + blood transfusion.

Such a lovely letter from A.A. today which cheered her up.

Also a very nice one from Mrs Wilson re Mom's letter to Home + School. Letters do help so much.

Enclosed something for you get what you like - + I wish it were more - Bless you + love to A.A. + E. My love to you + 20 kisses, Dad.

13/12/46

My darling Pass, God bless you
for all that you are &
have been. Dear precious Pet.
It is so lovely that you will
soon be here.

I fear this will arrive
late but I hope that
the book got there in
time. Many many happy
returns for this blessed
day that landed you
on the Earth.

I'm in the midst of
Exam something. The sharks
vary from 0-90!
I asked them to write notes
on various things - Galena

as one of them -

Galena da Vinci was a
noted geologist who
worked in the alps he
was also a painter!

Pat sang over C.H.N.S.
to-night! wrapped tasse
Sypris - & Parsny by.
He did remarkably well.
He is a lad!

Oh how we long to
see you.

Love & more love,

Your old love,

H.
