Greenwich, Conn.

Nov. 27, 1952.

Dear Allie,

It was sweet of you to write when dear Greta died - and I deeply appreciate your kind message of love and sympathy. Our family circle has grown much smaller in the last eight years - and Dad's & Mother's generation has almost entirely passed away. Death is always sad - no matter how great the age of our loved ones, nor how philosophic one tries

to be.

I was so glad your trip abroad was a success. The amount of territory you covered leaves me breathless. Perhaps Aunt Greta told you that Ted had a pleasant appointment at the Univ. of Minnesota - as visiting prof. of choral interpretation and conductor of the Summer Session Chorus. We rented a beautiful Sorority House and enjoyed the Minnesotans. Ted also held seminars in composition and orchestration - and his students were choir directors, music supervisors from the neighboring states and graduate students. He enjoyed their earnest attitude and advanced musicality - and taught with missionary zeal. Indeed he lost ten pounds conducting - but the glorious recordings were worth that price!

Thank you again, dear Allie, for writing. Ted is looking up John Ringgold and hopes in the near future to make his acquaintance. He sounds worth while. Kindest greetings from us both,
Lovingly yours,
Lorraine N. F.

Gowdram,
out.

7/7/52.

Allie Darling,

Be a Darling

& Cash this & use
it to go & see

Venice. They say
it is so beautiful
& the great Titians
are there from all

accounts. At any
rate the views of
Padma en route
should be worth a

visit. So many
of your astronomers
seem to have studied
at Padua.

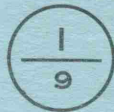

I'll write again
before you fly
but this is to
make sure of
catching you.

Dear Darling Howard
Puss - your old friend,
h.
