for knowing you.

Thank you also for lending me the books. I found much that was useful. I shall certainly join the Canadian Society immediately. I should have done so long ago, but I put it off because one has to belong to so many societies.

I hope that you enjoyed the Thanksgiving weekend. I spent the time working for there is so much to do. (I did find time to collect more maple leaves and cones - in the rain!)

My gratitude again for your hospitality and kindness.
Very sincerely
Ruth Hodgkinson

My dear Dr. Douglas,

I shall never forget my visit with you last Thursday. It was one of the happiest and most exciting experiences since I came to Queen's - nearly three years ago. I apologise for staying so long but I was so interested in everything you told me and showed to me that I forgot all time.

How many people you must have inspired and also made happier

Dear Dr. Douglas,

Thank you for receiving us so graciously when we were in Kingston and offering us your hospitality with tea by the fire. It was very pleasant indeed.

To see and talk with you again was special for me and I shall cherish the memory of this visit as I have also cherished the memories it evoked from the past. You were an inspiration to us at Ban Righ and I have always

Felt privileged to have known
you there.

You and Mary will be in
my thoughts at Christmas time.

We wish you the warmth and
happiness of the holiday season
and a good year in 1978.

affectionately
Elizabeth Durley

Xmas 1977

My dear D-Douglas it is
so delightful to be remembered!
At 94 it means much, tho'
I still look back to Kingston with
pleasure & nostalgia, & all
that comes & means -
