Darling Auntie

8 Jan 83

So lovely to get your letters fr Toronto - & Kingston.

Hope all the movies & visit to Denise etc. went well. What a newsy letter. Thanks so much.

Hope you found something you needed to wear or wear etc - (or eat, even!)

We had good Christmas here - even though it was a working day - had half the day off & the meal for nearly 30 (Buffet) went very well & everyone happy. Next weekend was at the sea - glorious weather - cooling breeze & lovely temp. of water. - & this last weekend climbing in the hills & wadis.

Someone bought tapes for the recorder - "Frideshead
Revisited" "Hamlet" + "Murder in the Cathedral" - lovely
to hear + strange to hear them against a background
of Red Sea surf or desert birds!

Hope Mary had good holiday + all the
kids.

This is to be posted by one of the wives
who now works in Toronto, though husband
+ kids are here. Lots of coming + going around
Christmas. One of the men who owns the car with
me had his youngest son out - a boy of
17 who's at school in England - a Jesuit School -
Stoneyhurst. Very nice fellow + doing his 'A' levels.

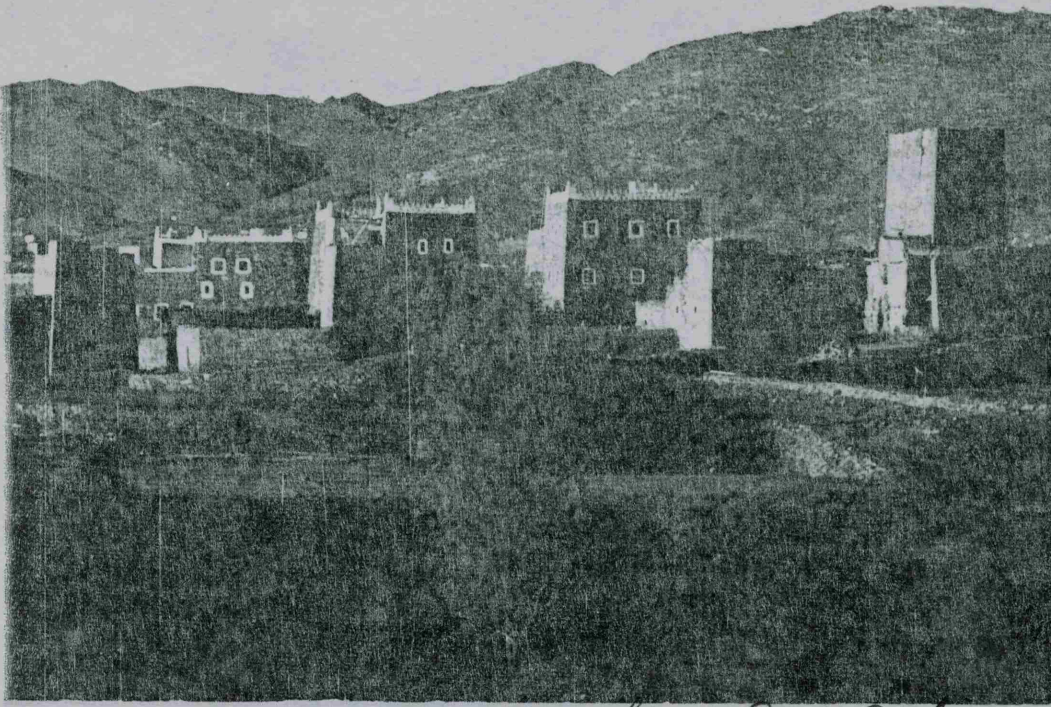

Have got ski plans underway - going to
Austria in March + hopefully Patsy will join
the group for here. Should be fun. Near
Lunenburg - place called Igls.

Great love to all

Darling Auntie

This is typical view of the villages around here - made out of mud - quite charming really. We visited one inside - no furniture except arm rests + mats. The walls are painted with bright blue + orange enamel paint! - quite amazing.

Lovely to get letters with news of everyone and super card for Mary L & E. Please thank her. I had so many wonderful Christmas letters - + they are still coming in - amazing!

Patsy + I are to be staying in Australia

Mar 10 - 21 - hopefully. Haven't heard from her yet. - but hope that suits her too. Glad you had such good music at Christmas - sounds like great fun.

Here we work away + picnic on weekends when not working. A lot of discussion now about getting

nine doctors. The company is cutting down - as
everywhere in the world. We are extremely lucky
here with salary + time off, however.

Reading Lawrence Durrells - The Alexandria Quartet -
- Keep me going for a while. Have you something nice
to read? You are amazing to keep up with all
the news + all you do. Keep up the exercise -
gear for circulation.

Hope winter not too miserable.

Great love to all. Lovely to have
heard for everyone. Hope Steve + Manama
not working too hard.

Audrey's birthday tomorrow

Tally ho

4/2/83. Recd 27th Feb

Dear Auntie,

Lovely letters from you. So glad you saw the
Beilers + Rower - wish you were in the same
building as you.

Heavy storm here with gallons of rain
pouring down the roads + into the houses! Our
patio drain was blocked & the water built up
& overflowed into the hall - no damage -
a lot of mopping! That stopped our trip to the
sea for this weekend unfortunately. However
everyone came in & ate heartily & today we
had a good walk up a small mountain now

far from here - while the rain held off. Then
had tea & played Scrabble - fun.
Have also played it in French!

Next weekend I work - so no sea for a
while.

Am reading Memoirs of Hadrian by
Margaret Yourcenar - first woman admitted to the
Academie Française. Have you met her? Very good.

Thanks for sending on cards from various
people including Cecile Valencei - to whom I will
write. Great to hear from so many people at Christmas.

Now thinking of skiing. Had to do in the
clinics! Party is coming & will have a nice
group & lots of fun, I think.

Having a hard time to ^{get} decisions on
leaving time after that as everyone seems to want the
summer off.

Great love to you all.

Mary.

Proline (sent before was Ordian drawn by a child) 10 who won are
award.

Darling Auntie,

R. Mar 18

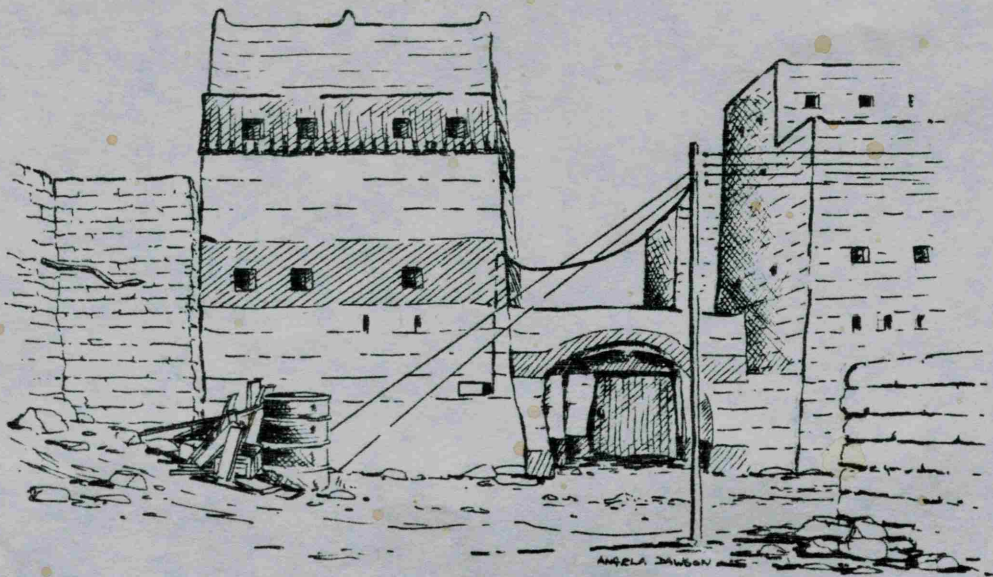

So sorry to have been so long in answering your letters - you are so good at writing. What great weekends you seem to have had with all the group of cousins & concerts & Hillary. Hope you are feeling strong and able to get out now without any icy streets - too much to hope for yet.

Have been jogging & climbing to get in shape for going to Austria - but the snow there may not be very good & so may have

to walk & jog instead of ski! Anyway, it will
be great fun, just being there.

There is an old Turkish fort here on the edge
of the escarpment where a new road goes down
to the sea - no history at all of the Turkish occupation.

Not much left of the place now with everything falling
down & covered with ~~the~~ sand - but the stonework is
still very good. The picture on the card is a
typical 'onud' house of this area. Spring has now
blossoms on trees. Great love to all. M.

Dear Auntie,

Great letters here for you on arrival
back from Austria — a great holiday.

Did I tell you what marvellous views
we had from the plane — first to Cyprus & then
of Greek islands, Greece, Turkey, & Alps & Danube.
Coming back it was dark. We had 4 hrs wait in
Vienna & walked around the city in the dark —
would love to go back in Spring or Summer &
daylight!

Very Happy Easter to you all!

One of doctors is taking this with him tomorrow.

Hope you see Paul Dwyer & he is well.

Hope all summer plans go off well.

Lots of love

M.

No time to see since back as have to work!

Box 101 Khamis Mushayf
Saudi Arabia

25 April 83

Darling Auntie,

How are you? Sorry not to have written for
so long. There seem to be few people leaving
the country these days as we have fewer lorries -
but now two are going to Toronto - so that will
help carry this to you.

So sorry Mary is leaving in the Fall.
You will miss her indeed.

I think it would be a good idea to
have someone else there - don't you? A student?
- only in & out & not a nuisance? Please be
wise about it & interview people in good time.

I have found a refresher course in
Brillia on Aug 14 - just when I arrive - So will
go there & then on to you for about 8-10 days
wish it could be longer but that's all they let
us have in the summer as so many others
want summer holidays.

Had a weekend in Riyadh - 2 weeks
ago - quite fun. Can stay there in the Whittaker
Villa - free & they take you shopping. Lots of

new building & a large city compared to King Saud's day. Strange place for a city though in mid desert! Had a meal in the Intercontinental Hotel & I thought of Kabul - remember the armed guard in the hotel upon the hill where we met? - and then the intercontinental in Peshawa where we had supper? - Great trip we had! (Khyber pass ~~is~~ 3 X in one day!). Dry dusty place is Riyadh.

Last weekend went to the sea and the beach we chose was excellent. Others had trouble with blowing sand. We took a Welsh Radiochemist down with us & think he enjoyed it all. We had a group of Saudis ^{men} nearby celebrating the return from San Francisco & one of them - spoke good English & quite fun. The men were invited over to eat goat, but the women! Funny bunch way of this country! Then at ~~the~~ about 5 am we had a big thunder storm! only lasted about 15 mins. - & had an early rising. Nothing too wet as had a big tent cover.

Hope Steve & Manaimus examus went well & their jobs materialized.
I go to Cyprus with Brigit in June.
Great love to you & Mary May.

Box 101
Khamis Mushayt,
Saudi Arabia

11 May 83

Darling Auntie,

Grand to get your letters & news of the family. So glad that Steve & Marrienne have such good jobs for the summer. How about Dan? The story of his Fort Henry adventure was so funny!

Has anyone been to the Island yet - probably by the time you get this letter: (Is the 24th of May on the 23rd this year?!).

Did I tell you I have found a conference in Orillia just when I arrive in Canada in Aug 14-17: and then on to you - & we can go to the Island if you wish - or have little drives around - or whatever you like. I will probably miss Pat & Audrey all-together but will see away Mrs.

Hope all goes very well with you. What's happening to the conservatives?
Ingram writes that John & Leigy & Brim have arrived
M in Athens & all is well with them.

So glad you all had a good visit with Paul & that maybe he will be back in Canada next year - or rather this Fall.

Have you found someone nice for your room yet? Not a good idea to be alone there and I am sure there must be all sorts of nice people who would like a room - if you like them!

Wonderful weather here - sunny sunny days, some rain & cool breeze. There has been so much rain up here this year that everything is lovely & green up on the hills & there is quite a lot of terrace farming with lovely green fields & wheat & barley. One of the highest points in the Kingdom is not far from here: 10,000 ft. & very clouds gather around it & keep it moist - They've made a good park up there & a conference center.

Box 101, Whittaker
Khamis Mushayf
Saudi Arabia.

30 May 83.

Darling Auntie,

(Excuse the paper!)

Lovely letters from you - so steady & clear.

Glad you have found someone to live there.

Maybe you will speak Spanish together and then you
& I can go back to Mexico ^{the} next winter (1986!) ^{Jan.}

What is the name of the hotel in Mexico City?

The Scotts - friends of the student who'll stay
with you - are a very nice family - originally English -
and have lived in Orillia for about 12 years. They
have two in Med school at Queen's - one now interning
in Ottawa, one in 'communications' in Carleton College &
3 others. Most of them have been out here for holidays and
are great hikers, swimmers & lots of fun. So I expect
that anyone they recommend would be fun to have
there.

Hope Mary L's plans for nieces works out well
& they can be at the island. Maybe I will overlap with
them. If you feel like being at the island in Aug. would
be wonderful; if not, don't worry - There must be an
easy way to land on the front step without having to walk
the plank! Will put out the red carpet!

We have had quite a lot of rain - marvellous
- but torrential - but just a gentle fall in the evening -
- a very good growing year and many parts of the country
are very green - around here anyway. And apparently

The King says that in 2 years they will be able to export grain from the Eastern Province - over near Arabian (Persian) Gulf - where they must have also of irrigation.

Ramadan is coming up again with the next new moon - about June 11. I will be in Cyprus then - hopefully they don't worry about it there too much! . Thank Engid - I will have a great time. Have you been to Cyprus? How lucky I am!

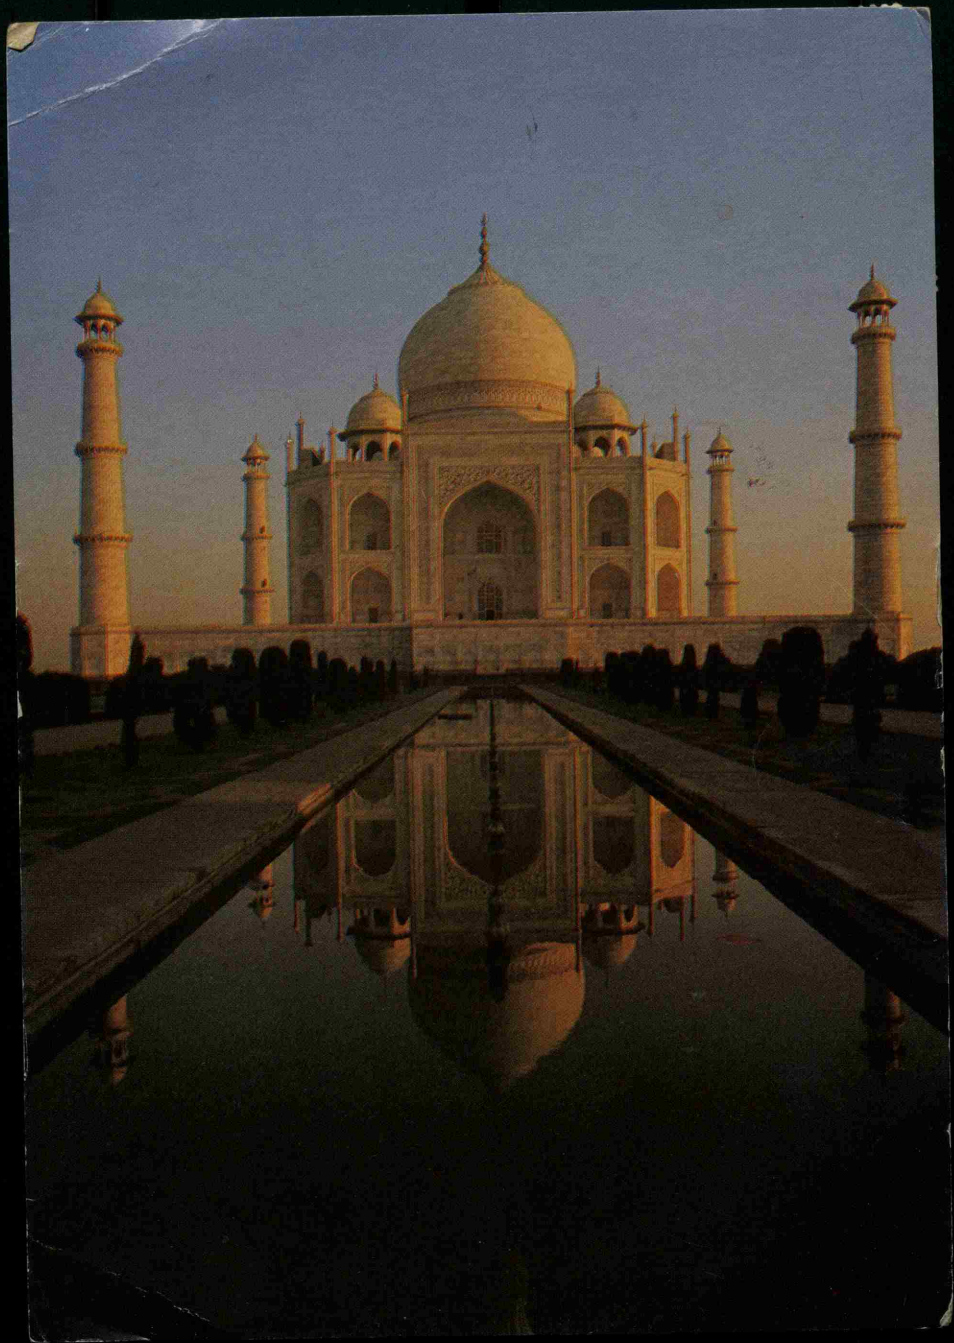

How great that everyone seems to have such good jobs for the summer and can all stay in Toronto. When does Marie Claire go to France - and Alex?

We had another trip to the Med Sea - getting very hot now - but glorious to lie in - like a hammock, hot salt bath! Lots of shiny buds & some flowers go! The new route down is a fine road.

Great love to you all & good eating of Mubarak & soon Strawberries & when the corn & peaches come - so will I!

Love & love to you

May.

Saw the Taj by moonlight! Think
that you did too? Can't remember if
full moon when you here but expect it
was what with eclipse & all. Wish
you were all here to enjoy's nature.
The fairy-tale quality of the Taj &
the surrounding buildings - by moonlight
- truly wonderful.

Taj Mahal at sunrise.

Now back to Saudi Arabia. It has
been a marvellous holiday & going back
to work won't be easy! However, not for
too many more months. Have met so many
nice people travelling around - and what
a lot of people travel - every country & in
every sort of way & style!
Quiet love. Mary.

14 Nov 1983

Darling Anne,

Nepal

Here I am on a high ledge above the Kathmandu Valley looking over to the great Himalayas! On a 5 day ~~trip~~ along the ledge of foothills that forms the Kathmandu Valley - How marvellous it is! Am taking a lot of pictures that will send to you to see. Cannot remember if you came to Nepal - but somehow think not!

Started off from Saudi on 29th Oct - (How time has flown) and attended some of the conference in Bangkok that is advertized on back of this paper. How often they referred to the Alma Mater conference that I attended thanks to you, before we met in Afghanistan - Terrifically full of tiny Thai people & I felt like Gulliver! When left there went north to Chiang Mai, by bus - a northern city that manufactures - or rather, hand make - all sorts of lovely silks, Thai dye cloth, carved wood etc. The bus tour included trips up to the "Elephant working" - very much put on for tourists - fun to see how they name the great logs & have ~~them~~ chains through the forest - wonderful elephant boys - sitting just behind the cars & guiding with their feet. They then take the elephants down to the river to give them a bath - still sitting on their backs & sometimes all the elephants totally emerged except for tips of trunk!

4th Asian Congress of Nutrition

November 1-4, 1983 Bangkok, Thailand

Then they took us up to a hill village where some of northern tribes have been relocated since being displaced near the Laos border. Apparently they are a law unto themselves and grow poppies - probably for opium. Anyway they were selling a lot of lovely things but looked rather depressed & poor. We also visited various places where they do the crafts - layed on for tourists to buy - Me
Then bus back to Bangkok - 11 hrs though the night, & on to Nepal. - all the while met all sorts of great travellers - nice people - quite a number of Australians.

Katmandu is a fairly small city - with wonderful contrasts: the center teeming & full of all sorts of shops & stands & stalls & eager people - though not so pushy as India. And temples - magnificent ancient totally other worldly - so hard to imagine how they have endured & what exactly they do convey to the faithful.

Decided a trek was inevitable? essential? in Nepal!
& found it very easy to get a guide and 2 porters to walk around these hills for 5 days.

A really nice Sherpa guide & two Nepalese porters & me! We meet all sorts of people on the way also hitching along in porters, or Nepalese with heaps of children in the little hamlets (mostly holding out their hands for neppees!)

2

What incredible views - The great white peaks high in the distance. Then wooded & rocky foothills, then deep valleys with incredibly amazingly terraced hillsides up & up & up - little steep narrow terraces. Some of the valleys look quite prosperous & you can see that on the lower terraces they will grow rice (I follow at this time of year) then up millet alternating with wheat & vegetable ~~turnips~~ turnips or parsnips & some beans.

Many of the small high up cottages & barns we pass are thatched & usually built of stone & mud. The better ones have tin roofs & glass windows - but that is rare. The women are such a contrast to the black Sandi ghosts! - They are fairly dressed in Sauri type clothes & very raunchous & demanding & very hard working. They don't find the Westerner rich to their liking though, by their expression & often laughter. Hard to get a friendly feeling from them - but then we must appear so rich.

There are huge numbers of volunteers working in Nepal and it's hard to know how they get on.

I will try & find out when get through this trekking & return to ~~London~~ London. Will be there 3 more days. & then off to Delhi for a short stay & maybe see the Taj by nearly full moon on 19th - then to Sandi by 21st. Back to work.

There is a marvellous sunset as I write this at a half noon up above & big fire to keep us warm.

4th Asian Congress of Nutrition

November 1-4, 1983 Bangkok, Thailand

It gets quite cold in the tent at night despite of sleeping bag + all the cloths I put on! Should have brought a hat. A lot of heat escapes through top of ones head!

The carriers, porters here are incredible. Nepalese don't use animals at all to carry but their own backs. Everything seems to be carried in huge triangular baskets - even an old woman today I saw - so if I get a broken leg or something they can carry me along like that!

The paths go everywhere. Some are very steep + very narrow + deeply cut into the hillside - others quite wide 'super highways' - (about 4' wide!) Occasionally the track is almost too narrow for me!

I carry a small pack + they carry the tents, sleeping bags, food, pots + pans + teapot! What a life!

Seeing the sun-set ^{light} on the high peaks - a pinky orange snow peak - really marvellous - and then in 12 hours rising behind them - glorious. How quickly it warms up - only to get cold again when the clouds come. Right now clouds cover most of the mountains but

Better Nutrition Better Life

expect they'll be gone in the morning

Great love to you & all the others - Have a very happy birthday! Love + love Mary. Will be thinking of you - Keep well.

Women at McGill, The First Hundred Years
Cent ans de présence féminine à McGill
1884-1984

14th March 1983

Dr. A. Vibert Douglas,
401 - 67 Sydenham street,
Kingston, Ontario K7L 3H2.

Dear Professor Douglas,

In 1984 McGill celebrates the 100th anniversary of the Admission of women to the University. Just a hundred years ago, some twenty-eight young women made history by becoming "regular" or "partial" students in the Faculty of Arts. Their achievement and the efforts of the thousands of women who have followed them will be acknowledged in a variety of events now being planned for the 1984-85 academic year by a special Centennial Committee.

As part of the Centennial programme, we are hoping to follow on from We Walked Very Warily: A History of Women at McGill with a book written by some women of McGill. We envisage a series of essays by perhaps twenty women who have been associated with the University as students, as professors or in other capacities. We do not expect these essays to be statistically representative of certain Faculties, disciplines or eras - rather, we would like to know more of the individual women who have contributed to the richness of the McGill milieu. Certainly we would like to have their assessment of their experience at McGill, but we would also like to know more about them personally, to understand what prompted them to undertake the careers they did, to learn their views of women's place in society. We do not expect them to have identical opinions on the latter, some may be feminists, some will not. There is no party line.

We acknowledge that we are, in part, copying from the University of Melbourne where one of the ways in which the centenary of the first woman graduate (1883) is being honoured is by the publication of The Half Open Door. The editors of that book of sixteen essays asked women connected with the University of Melbourne "to reflect on their lives, and attempt to relate for others the most significant formative influences on their lives". Like them, we want to know about the women of our University as writers, scientists, historians, educators and such, and we also want to know about their ideas and values. In a general way, we also want to try to understand what factors have precipitated women into academic life, what accounts for success, why do some women persevere and others not, why are there still relatively few women at the top of the professions. Like the editors of The Half Open Door, we feel a sense of responsibility for preserving for later

generations something of the lives and opinions of our contemporaries. Since letters and diaries have gone out of style and since few ordinary people record their lives in the modern media, it seems to us that the autobiographical essay is one way in which individual voices of this century will be heard in the next. For that is another of our ambitions. We want our publication to be one of the enduring outcomes of the Centennial Celebrations. We are happy to report that The Half Open Door has been met with much acclaim and find this very encouraging, justifying our expectations and leading us to believe that our efforts will be similarly successful. For our title we have borrowed a line from Lillian Hellman and plan to call our book "A Fair Shake".

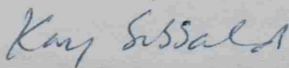

The purpose of this letter is to invite you to participate in our project by contributing an essay on your own life. You may begin with your family and childhood or at any point along the way and deal with any aspect of your career that you care to share with others. We want to assure you that we have no set pattern for these essays. We expect them to be highly individual and you are free to say whatever you want. The only formal guidelines we offer is that your autobiographical essay should be about twenty typed, double-spaced pages and, since we are striving for publication in early autumn 1984, we would need to have your manuscript by August 15, 1983. We trust that it will be feasible for you to squeeze this into your summer schedule.

We do hope you will accept this invitation and would be pleased to answer any queries you may have. We would appreciate your response by April 6th, 1983.

Yours sincerely,

Margaret Gillett
Macdonald Professor of Education.

POST CARD

Dear Dr. Douglas
I arrived in Tokyo last Monday and
am staying with my cousin who works in
the bank here. I'll be heading out into the
countryside soon for about three weeks and
then this on to Australia for awhile.

Yours
David Hutchins.

I'm still working
and selling but the
injury to my CNS slowed
up my typing badly.

We are all going to Sarasota for 3 months, returning April 5th. They think the warm swimming may help me.

I hope you are well and planning more trips. Forgive my bad writing.

Jud's book is doing OK but he needs reviews of it in newspapers & magazines.

Love
Helen

Dear Allie

My friends are being short-changed this year.

I am still surrounded by specialists and have a head scan 10.30 am Dec 31st. What a date! Why not make it 10.30 pm and make it a NY's party at the neuro.

My only fear is that they'll probably find my head empty.

Christmas, 1983

Dear *Allie*

I'm afraid you're being short-changed this year.: do forgive. In October 1982 in China, I jumped off a bus with my camera case in my right hand. Its weight threw me completely off balance, landing my flaton my sacrum. Fortunately we had seen everything and were leaving Canton the next morning so during the five-six days it took to get home, I was either in bed orina wheel chair, waving like Q.E. at my walking friends!

The fall did something to my central nervous system which affects my walking, and also my typing . (My fingers don't seem to know where the keys are any more, so forgive the patches.

Fred's book "This is the Prophet Jesus" is excellent and is doing very well. \$12.50 in stores if they have it butthey could get it. Margie's pace-maker works fine. We are all going to Florida for 10 weeks, hoping the warm swimming will make a new woman out of an old one.

Love,

Helena

Happy Christmas

Dear Allie,

Hope you are keeping well.
We are not too bad - have
got over the worst of my
appendectomy. Have had
one deep scan - another due
in January, 1954. Medics
are keeping track of an
aneurism in the aorta &
deep in my tummy.

Do hope you have a good
Xmas. & that you (lucky you!)
will be able to share it
with the family.

Will be writing more fully
later. All the best from both
of us. May & Les.

Christmas bells ring out again
Their message ever new
To wish you peace
this Christmas Day
And joy
the whole year through.

Yours sincerely,
May & Les (Miss)

Wishing you
Peace and Joy at Christmas
and throughout the year

CHESTER.

Dear Allie,

All our love and Warmth to you
at this Christmas-time, stay warm and
happy as you see-in the new year.

We now live in our own home, Orion is
our wonderfull friend, filling us full of happiness.

I am concentrating to become a bookbinder.
Lizi is living life in love. John, Lizi + Orion.

Happy Birthday!
Merry Christmas! -

Had a lovely letter from Margy L'E
She is really travelling -
going to Kenya in Feb!
off today to walk in the
desert & friends will
take this to Canada
when they go for Christmas.

Post Card

Hope you have a
glorious day and I
will send waves of
love to you.

great love
Mary

Season's
Greetings

Charles K. Smith

have been a ~~lover~~ since last February
but I still have to go to Dublin for
a day or two each week.

Children & grandchildren (3) all well.

Looking forward so much to seeing

Pat & Audrey & family in '84.

Hopefully Dick, Margaret, Susan & Anita
also

Wishing you every happiness
throughout the season.

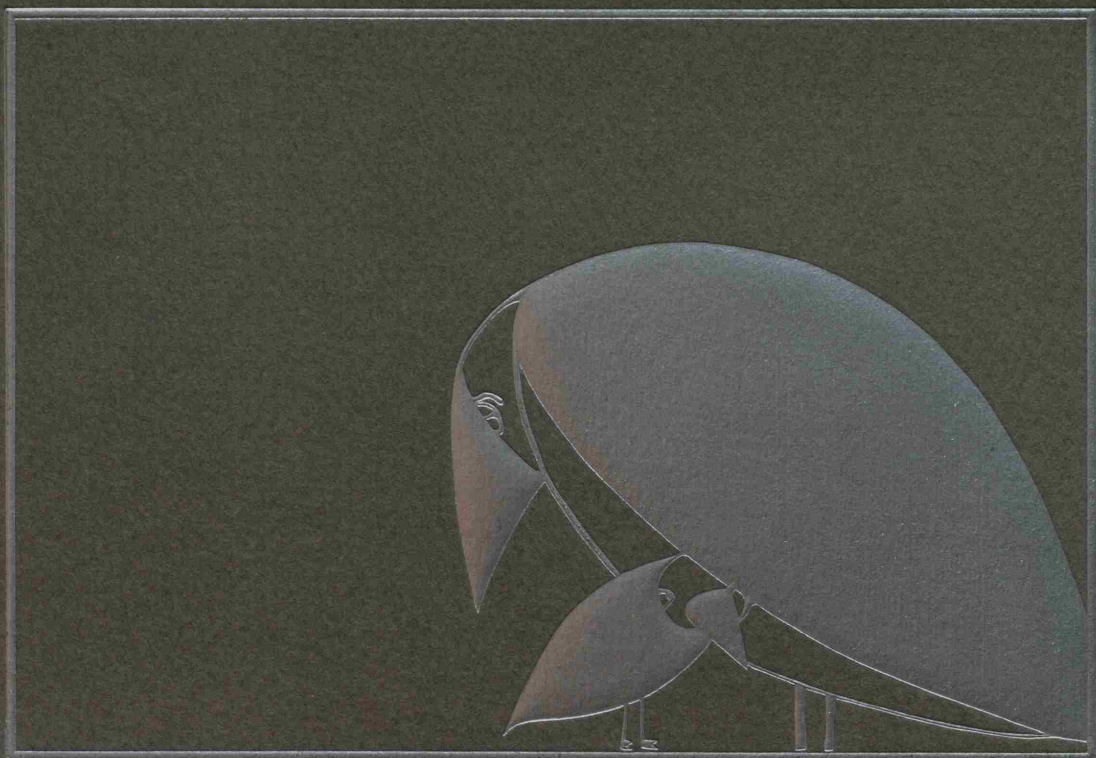

Best love

from

Albion & Joan

Crosby Hall commissioned my
portrait to be hung in the
reception room + everyone tells
me it is very good.

I hope you find life is
still good without travel
+ conferences

With love,

Margaret

Dear Albie, I am sad
that you will not be able to
travel over here again as I
see little chance of my traveling
either. We may not meet
physically again. My 90th
birthday was celebrated at
Crosby Hall but unhappily
followed by a fall caused by
a slight stroke. This has kept
me in hospital ever since or I
do not expect to be able to
get out until mid - January.
I am v. well in myself
but cannot walk. Physio-
therapy is doing its best.

Dear Dr. Douglas -

May your heart be filled

with joy and peace

throughout this

Christmas Season

Glory to God in the highest, and on earth
peace, good will toward men.

Luke 2:14

Reserve warm regards.
H. Irene Johnston.

FROM AN ORIGINAL PAINTING BY
Frederick K. Johnson

This very beautiful bird of the Parrot family is much smaller than most tropical Parrots. He measures about 9" - 10" long and has a lighter, speedier flight and a rather long pointed tail. Like others of his family he nests high up in the cavities of trees and sometimes in termites' nests and feeds on grain. He is also fond of fruit which habit makes him something of a pest in orchards and farms.

MOUNTAIN IMMORTELLE

OLIVE THROATED PARAKEET

76 / 12 / 83.

Dear Mr. Douglas,

I do hope you
will have a joyful Xmas.
Someone snatched my purse, with
my address book, so I had
to ask my friend to get this
to you.

My very best wishes.

Hope to see you soon.

Sincerely
Cloria Box
