Dear Alfred,

I have just received your catalogue "The Bible Through Dutch Eyes" 1976 exhibition. It is precisely the catalogue I was hoping for and that I had viewed with envy in other dealers' libraries. I couldn't be more excited or happier to have it.

Like the last catalogue you gave me, I will read every word and no doubt learn much, in an area in which I sorely lack knowledge. I am in awe of your extensive knowledge and I envy the patience and dedication it must have taken to develop such an academic mind to go along with a good eye.

As for myself, coming from a modest middle class Jewish background and starting with a few hundred dollars, I was from the

start, forced to devote a disproportionately
amount of time and effort to searching, buying
and selling. I relied on an eye for quality
far more than a knowledge of the subject.

My knowledge of art history was learned
over 30 years in the business and followed
my development as a dealer rather than
preceding it.

I am sure that's another whole, long
story not nearly so interesting as your own.
The fact is you continued to surprise me
with your accomplishments and I
repeat that I am honored to have had
these opportunities to share with you.
My thanks and more thanks again.

Lewis

Dear Alfred,

Enclosed is your receipt for the "Elijah" Painting along with some photos for your records. I had taken pictures for my records a few days before your arrival and just got them back.

It was truly nice seeing you both and our conversation and negotiations were as pleasant an adventure as I would have expected. I hope you enjoyed the rest of your vacation and perhaps had a bit more success. I personally have found nothing further at two big antique shows — but there are two more remaining this week and next.

You mentioned your relationship with Dr. Sam Segal. I was wondering if I could impose upon you to send me his address as

I would like to ask his opinion about the authorship of the fine gouache floral signed I.L. and dating from the 1820's which you saw. I have personally never corresponded with him although I did have intentions of showing him 1003 flower painting — you bought it for Isabel so quickly, the varnish was barely dry. Now the pleasure and excitement of research shall be yours along with the pleasure of the painting's sheer quality.

With thanks again for your business, your assistance and your friendship and best regards to both of you from Geraldine as well.

Yours Truly in A.D.
Crews
