*A Chemist Helping Chemists*

January 20, 1997

Ms. Gina M. Ehler  
Advancement Officer  
Carroll College  
100 North East Avenue  
Waukesha, WI 53186

Dear Ms. Ehler:

I am sorry that a long trip to Britain has delayed my thanking you for your letter of November 25th regarding the Isabel and Alfred Bader Chemistry Scholarship at Carroll College.

We set up that scholarship on a trial basis with the understanding that Carroll College would try to award it each year to a minority student. In our discussion we defined minority students as either Black or Hispanic.

As you know, the chemistry department has not been able to find minority students in each of the years and of course, we understand the difficulties involved.

Hence, we would like to discontinue the support of that scholarship.

On a happier note I see that the Helen Bader Foundation, the President of which is my son Daniel Bader, has been able to fund a much more ambitious program at Carroll College, and I am confident that you will succeed in your efforts with that program.

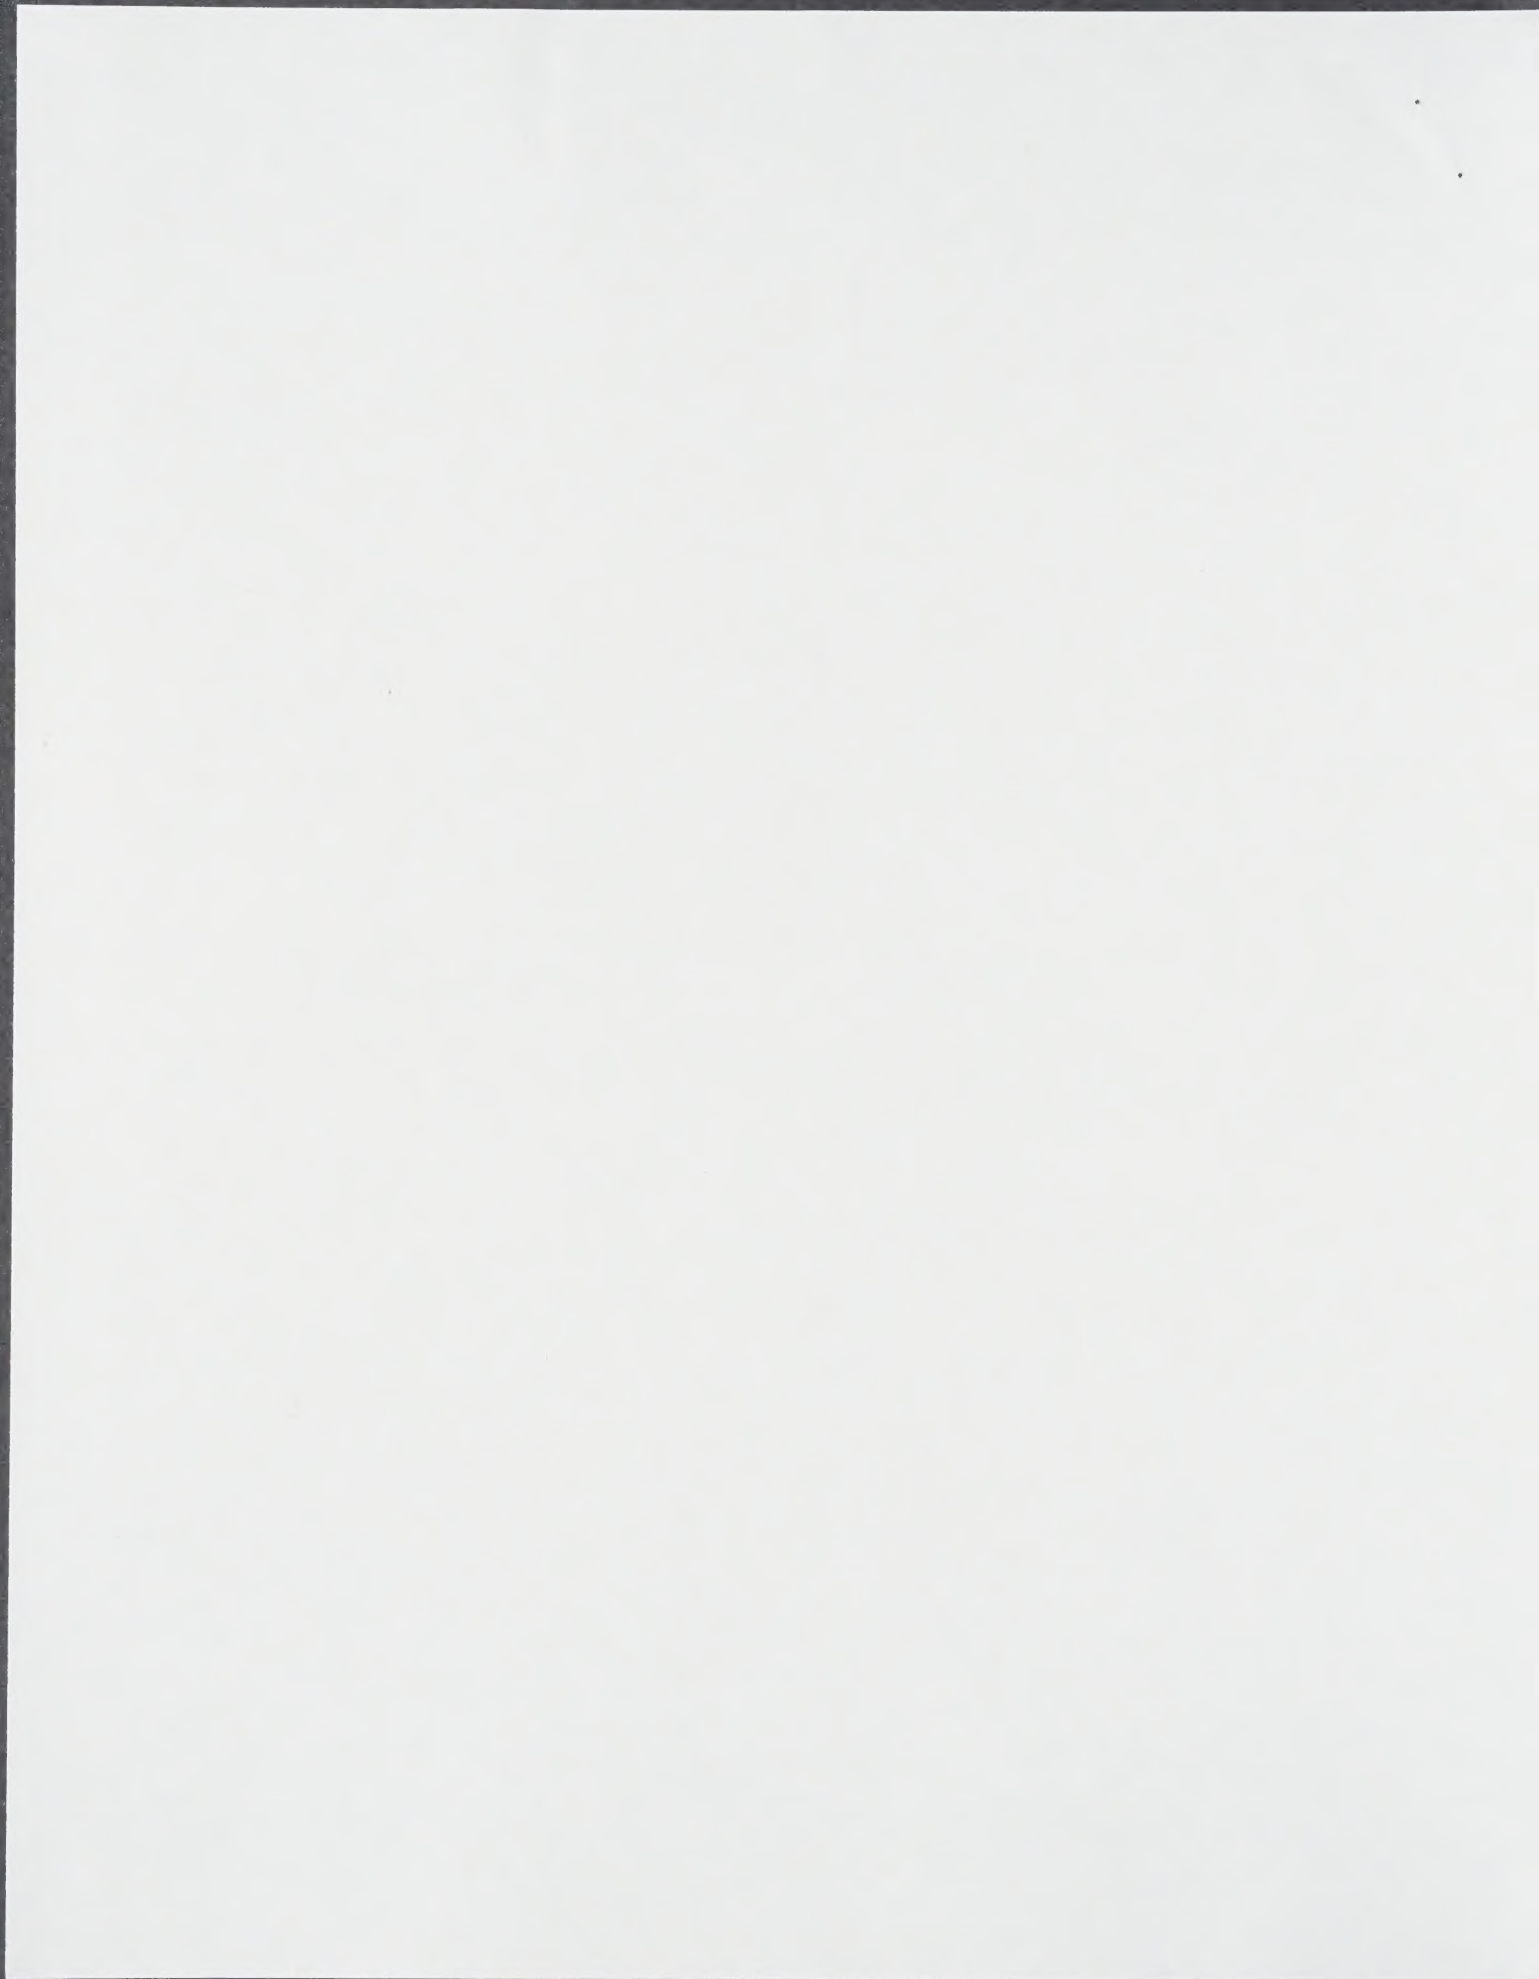

With all good wishes, I remain,

Yours sincerely,

AB/nik

cc: Mr. Daniel Bader

November 25, 1996

Dr. and Mrs. Alfred Bader  
2961 N. Shepard Avenue  
Milwaukee, WI 53211-3435

Dear Dr. and Mrs. Bader,

It is my pleasure to once again thank you for your support of Carroll's students, and to inform you about the recipient of the Alfred and Isabel Bader Scholarship for the 1996-97 academic year.

As we conclude our sesquicentennial anniversary, we reflect upon our achievements, successes, and blessings. One of those blessings is the loyal benefactors of Carroll College. Since 91% of our students receive need-based financial aid, most would be unable to consider a private education without the generosity of individuals like you.

We are grateful to you for your investment in Carroll's students. Best wishes for an enjoyable holiday season!

Sincerely,

Gina M. Ehler  
Advancement Officer

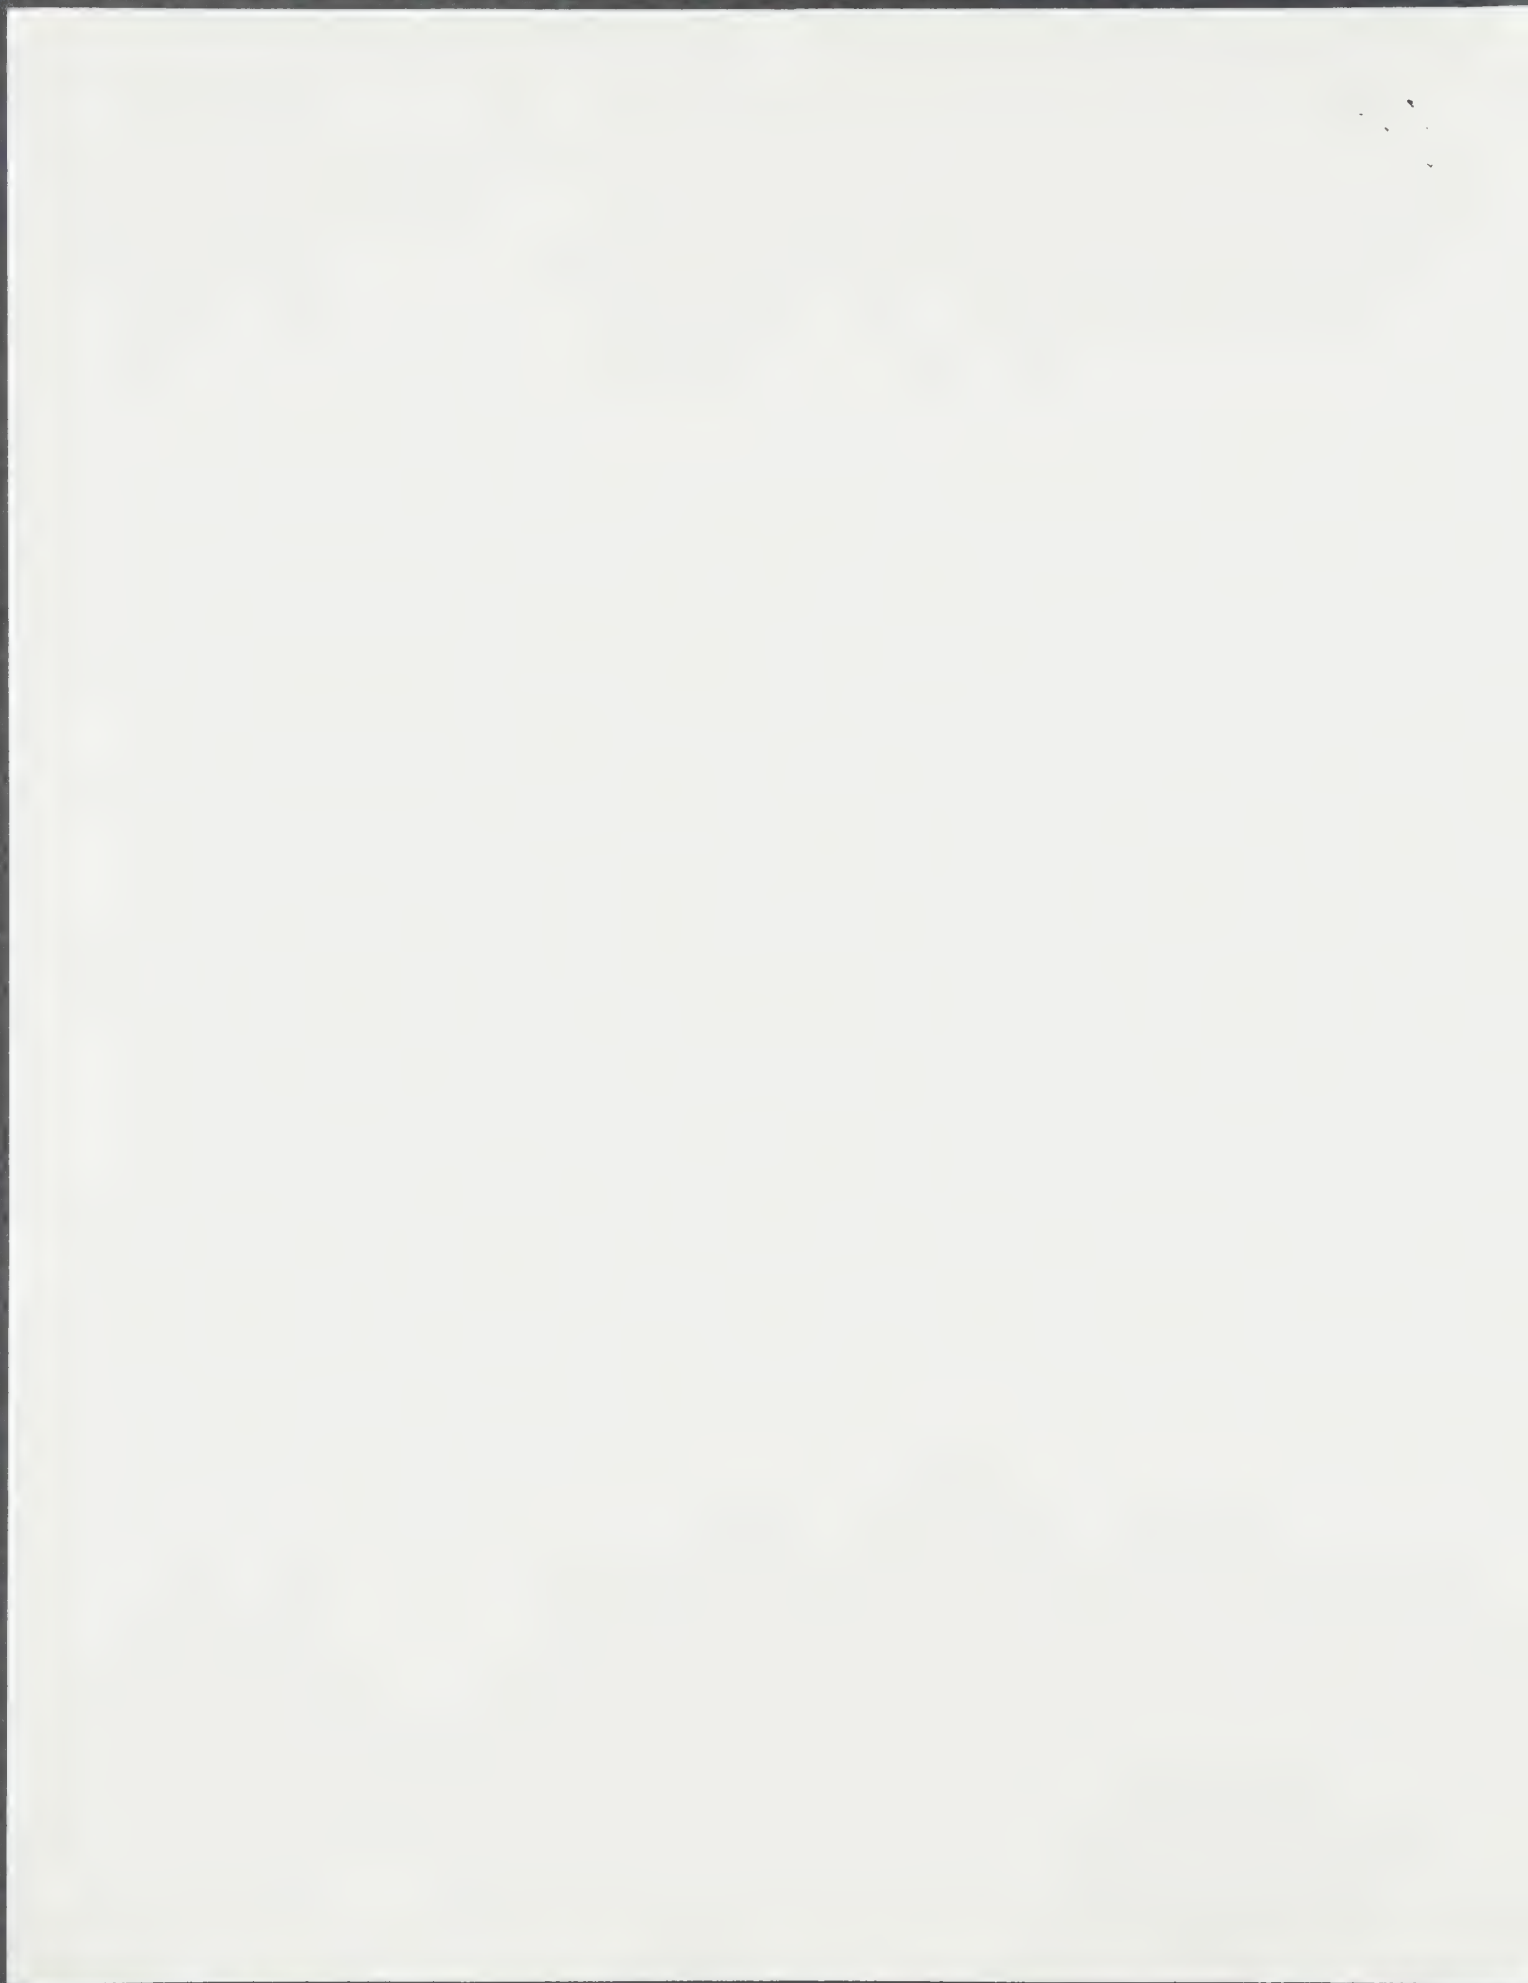

Presented to the Board of Directors  
of the University of California  
at Berkeley

Isabel and Alfred Bader Chemistry Scholarship  
Carroll College 1996-97

Recipient's Name:	Robin Rueth
Class Standing:	Freshman
Major:	Chem/Fitness Management

# SCHOLARSHIP LUNCHEON

**April 22, 1994**

- Welcome ..... Dr. Frank S. Falcone  
President
- "De' Animals Are Coming" ..... Fenno Heath  
Sons of the Pioneers
- Invocation ..... The Reverend Susan Panek Polizzi  
Chaplain
- Luncheon ..... Background music by harpist Jenny Druse
- Guest Speaker ..... Mr. Jack Reichert  
Trustee
- "Carroll College Alma Mater" ..... Henderson-Smith  
Sons of the Pioneers
- Student Remarks ..... Chad Hardy '94
- Closing Remarks ..... Dr. Falcone

*Many of Carroll's scholarships exist only through the generosity of alumni and other friends of the College. Through their donations many students benefit from the excellent education Carroll offers. More than 80 percent of Carroll students require some form of financial assistance.*

## NAMED SCHOLARSHIP RECIPIENTS 1993-94

*Endowed scholarships at Carroll currently account for 36 percent of the College's \$14,700,000 endowment fund. Scholarship recipients meet criteria agreed upon by the College and the donors. Criteria may include academic performance, major fields of study and leadership. Some scholarships are based upon need. There are currently more than one hundred named endowed scholarships at Carroll.*

Endowed Scholarships	Recipients
----------------------	------------

John H. Alexander	Becky Copper '94
Charles W. Anderson	Jennifer Tibbett '95

## Speakers and Entertainment

---

**J**ack Reichert has been a trustee of Carroll College since 1972. He is Chairman, President and CEO of the Brunswick Corporation. Reichert did his undergraduate work at the University of Wisconsin-Milwaukee and completed the Advanced Management Program (AMP) at Harvard University in 1970. He received the Distinguished Alumnus Award at UWM in 1979 and has received numerous awards for both civic and corporate work. Reichert is a strong benefactor of student scholarships.

---

**C**had (Chip) Hardy is a senior from Menasha. He is a sociology major and a human services minor. Chip is currently the Assistant Complex Director in the Steele/Swarthout Hall. He is a founding father and an active member of Psi Sigma Chi Fraternity. He has been involved in the football program at Carroll for the past four years. He has also been a member of the college's track team for the past three years and has been captain of the team for the past two years.

---

**T**he Sons of the Pioneers is a men's choir which was established at Carroll in 1988 by Tom Ajack and Mark Aamot. Male choruses were common in Carroll's early years and this choir continues in this tradition. Students participating in this choir receive course credit and meet for rehearsals twice a week. Tom Ajack '87 is currently director of the group. Ajack teaches music at Randall School and is choir director at Southminster Presbyterian Church in Waukesha. Choir members include Brett Williams, Steve Good, Thomas Fallin, Joel Herbst, Will Patrick, Scott Wiemerslage, Steve Tennies, Mike Morgan, Patrick Jackson, Hans Schumacher.

---

**J**enny Druse is a freshman from Greendale. She has played the Harp for 10 years and is currently studying under Jerry Elliott at Carroll. Jenny is a social work major.

Dr. Thomas Jones  
Carroll College  
Room 213 Lowery Hall  
100 N. East Avenue  
Waukesha, WI 53186

Dear Dr. Jones:

Ms. Diane Szydel visited me yesterday and inquired whether I would sponsor one Project Seed student at a cost of \$800. My check is enclosed.

I have little doubt that Ms. Szydel's enthusiasm will persuade a number of Milwaukee companies to sponsor one or more students, and there are likely to be sufficient students. The great question is whether there will be sufficient mentors in the area.

I would appreciate it if you or Ms. Szydel will let me know late next spring how many Project Seed One students were actually placed.

With all good wishes, I remain,

Yours sincerely,

AB/cw

Milwaukee, WI 53211

From: Diane Sydell

It was a pleasure meeting you on Monday Oct 16th. I want to thank you for spending time with me and for showing me your beautiful gallery. Most importantly, thank you for supporting my efforts to help the young people of Milwaukee. I am hoping that with the continued support from people like you that we can and will make a difference in a young person's life. If you would like I will periodically send you information on our progress with Project Seed. Also if at anytime you would like to offer any suggestions or advice, they will always be welcome.

I will contact Dr. Thomas Jones who is the ACS Treasurer here in Wisconsin and inform him that you will be sending a check to sponsor a student next summer. At your convenience could you please forward the check to:

Capitol College  
Room 213 Lowery Hall  
100 N East Ave  
Waukesha, WI 53186  
Attn: Dr. T. Jones

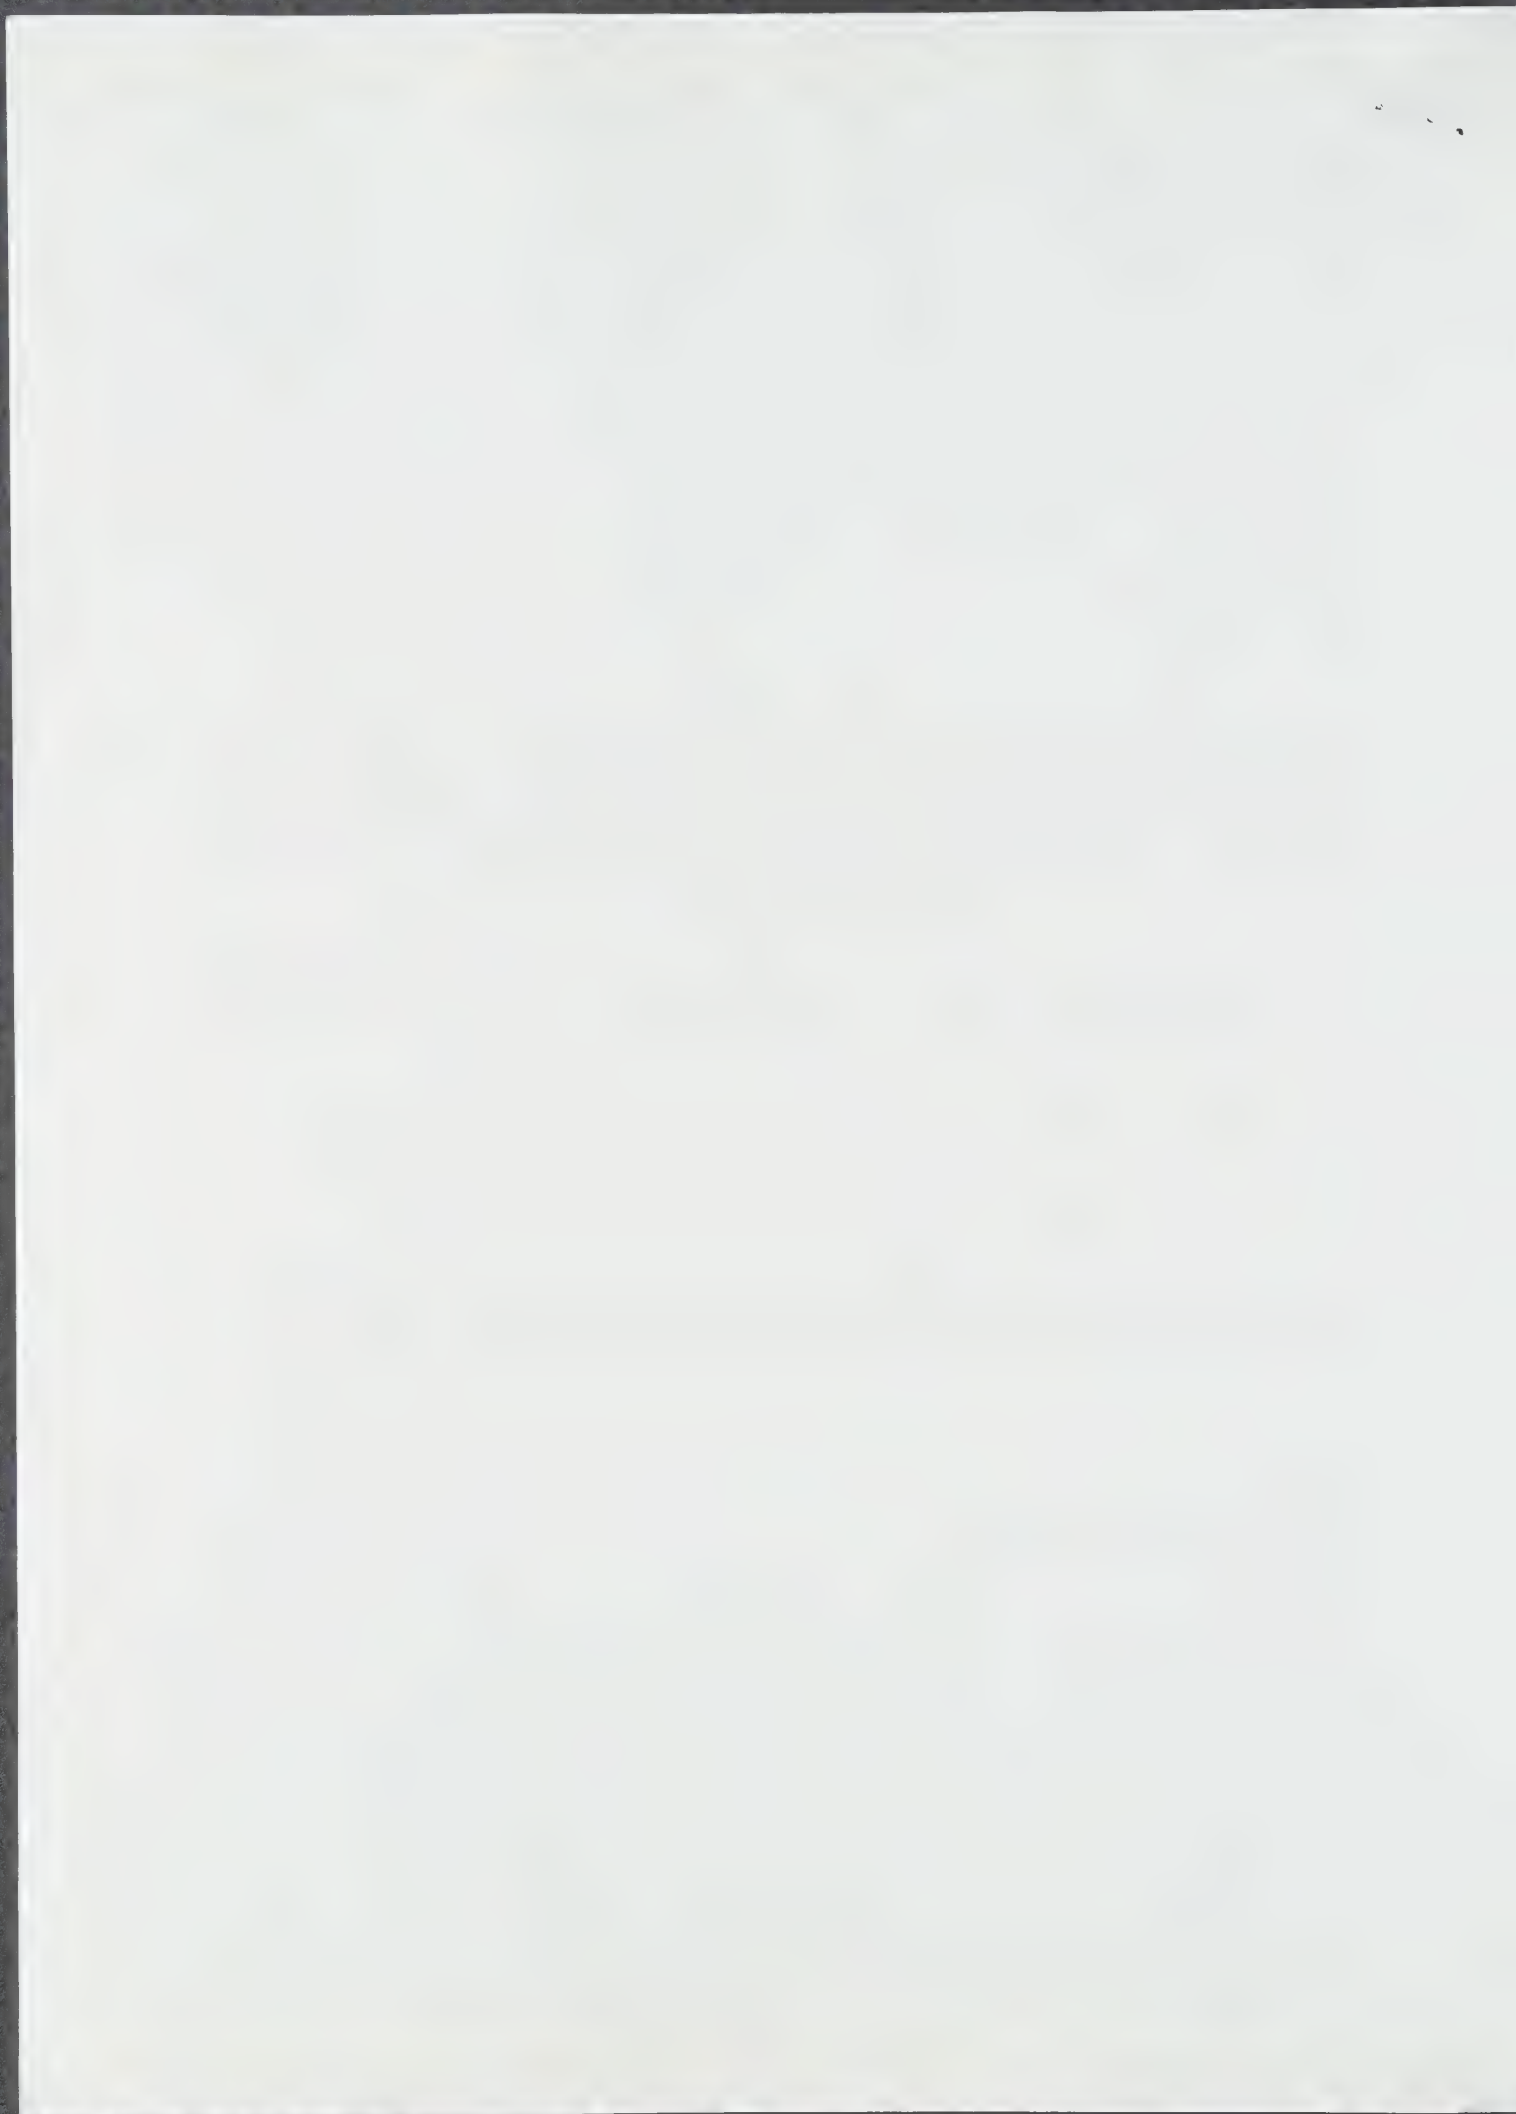

\$ 800 -

Thank you again for your support and I look forward to meeting you again. If you would need to contact me, my home number is 355-5842 or you can reach me at Aldrich 273-3850 ext 5702.

Sincerely,

*Diane Sydell*

Prof. Richard E. Bayer  
Department of Chemistry  
Carroll College  
100 North East Avenue  
Waukesha, Wisconsin 53186

Dear Richard:

Isabel and I spent most of the last three months in Europe, hence my long silence.

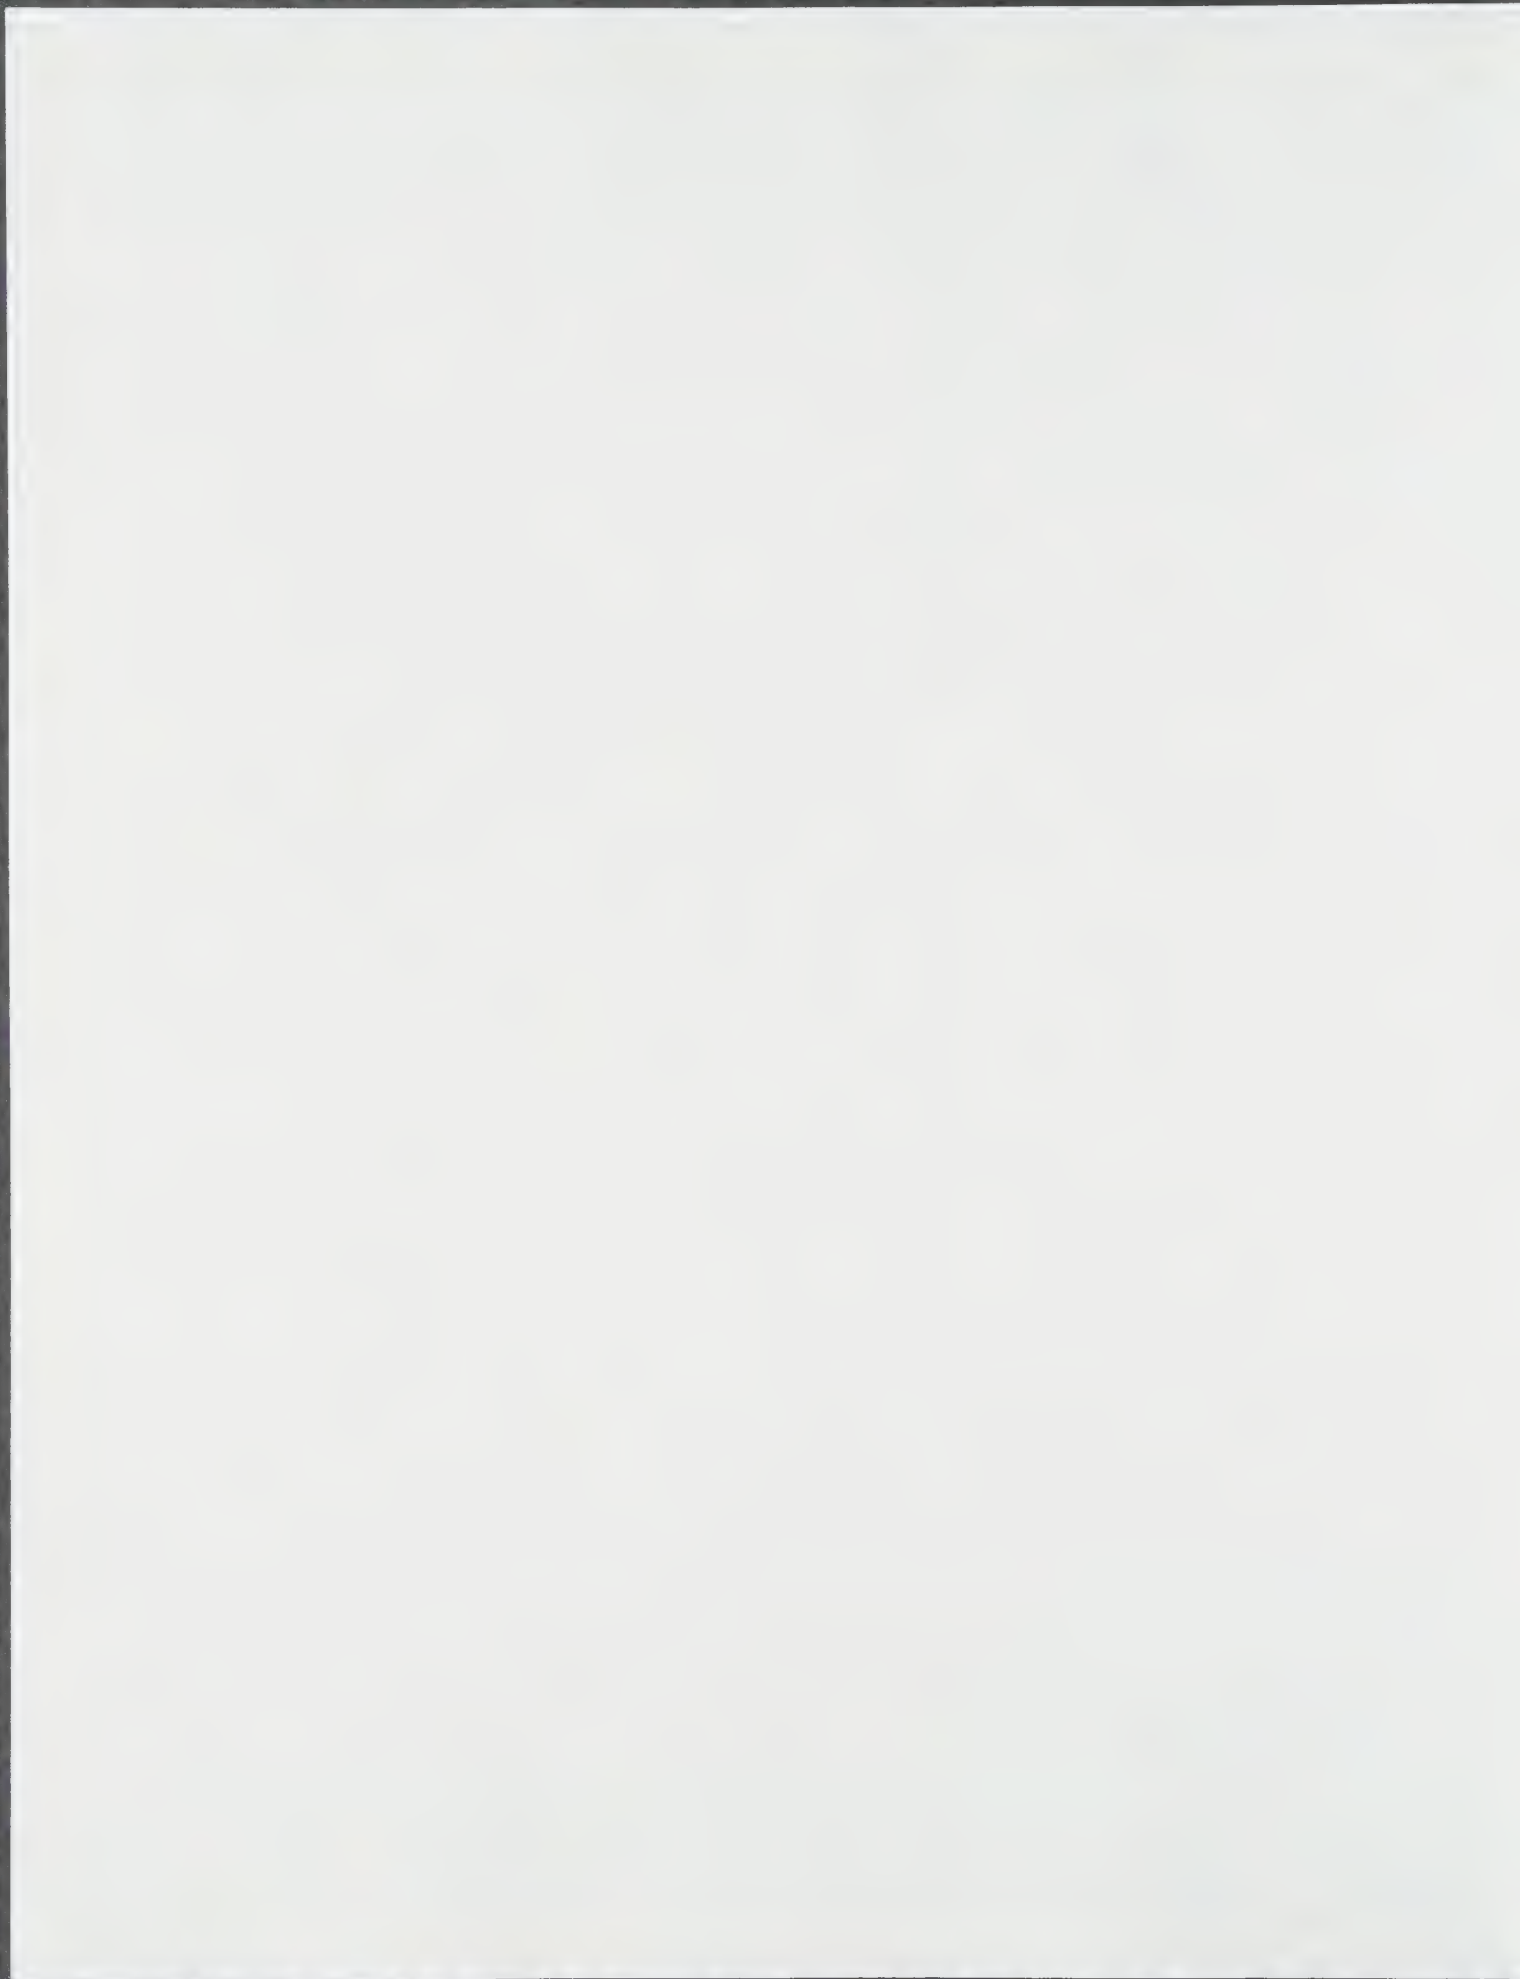

I heard just before we left in May that you had not been well, and I hope that you have fully recovered.

Also, I hope that you have received all of the spectra libraries which Aldrich sent you early in May. The enclosed rough draft of a chapter from my autobiography will explain how Carroll College got these books.

All good wishes.

Sincerely,

Enclosure

Dear Dr. Bader,

On behalf of Carroll College I want to express my congratulations to you for your recent recognition by the American Chemical Society. The world is a better place because of your outstanding public service as both an eminent chemist and philanthropist.

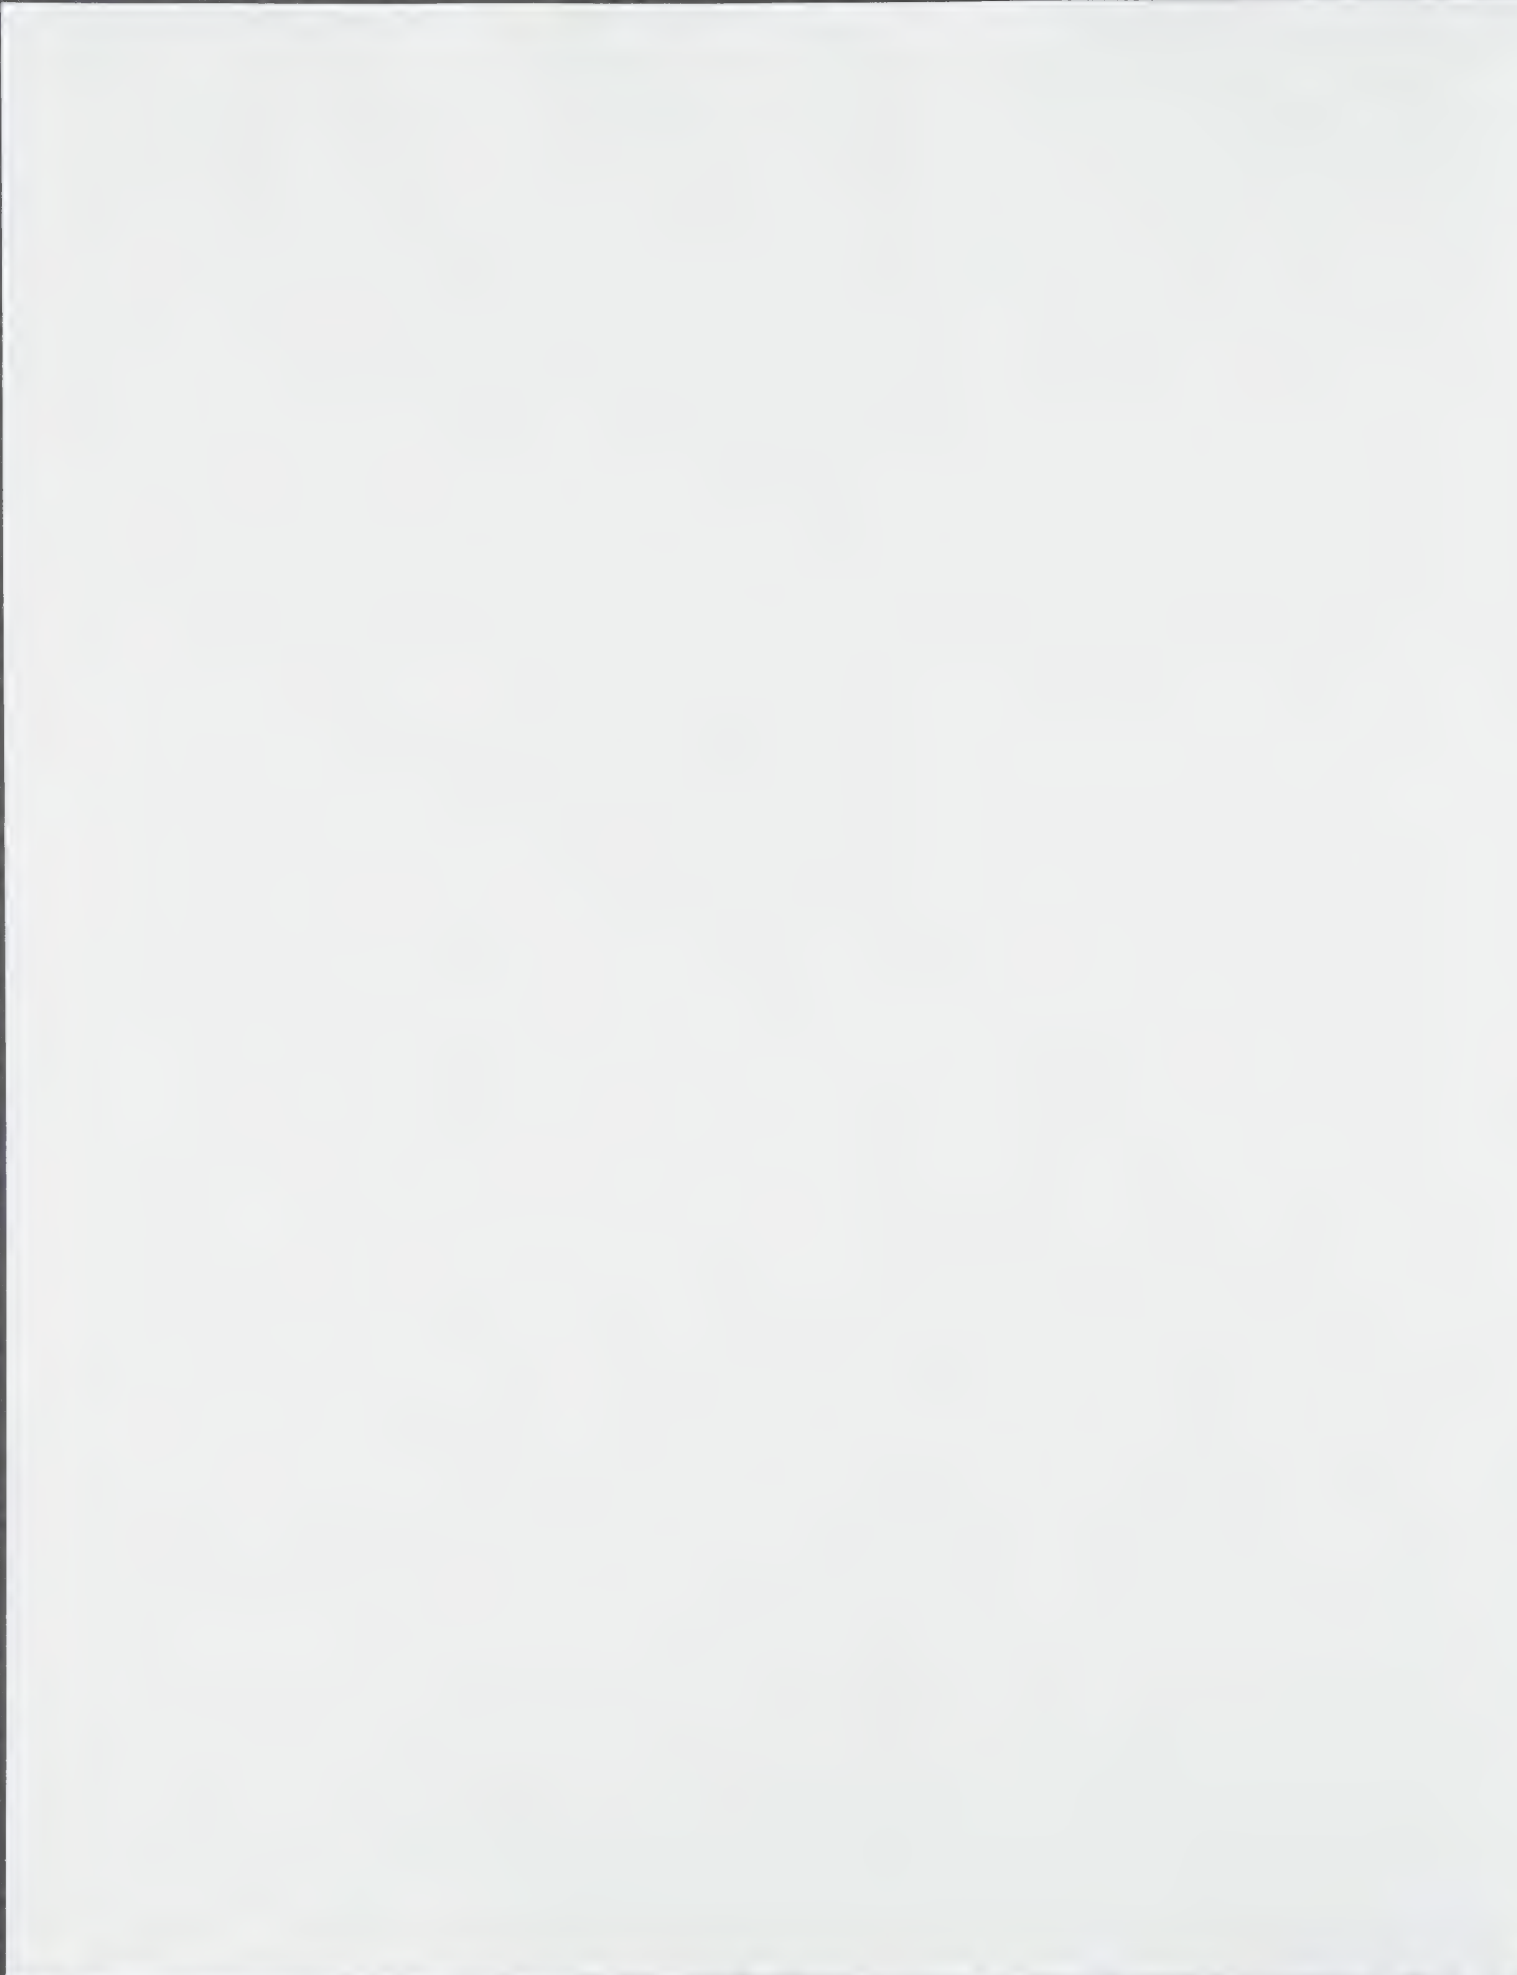

We here at Carroll feel fortunate to have you in our midst and appreciate being one of the benefactors of your generosity. Again, congratulations on your much deserved recognition.

Sincerely,

Frank S. Falcone  
President

ALFRED BADER FINE ARTS

DR. ALFRED BADER

ESTABLISHED 1961

June 1, 1995

Professor Richard J. Watkins  
Department of Chemistry  
Carroll College  
100 North East Avenue  
Waukesha, WI 53186

Dear Professor Watkins:

In response to your letter of May 24th, Isabel and I have never helped with the acquisition of equipment, and I hope that you will understand.

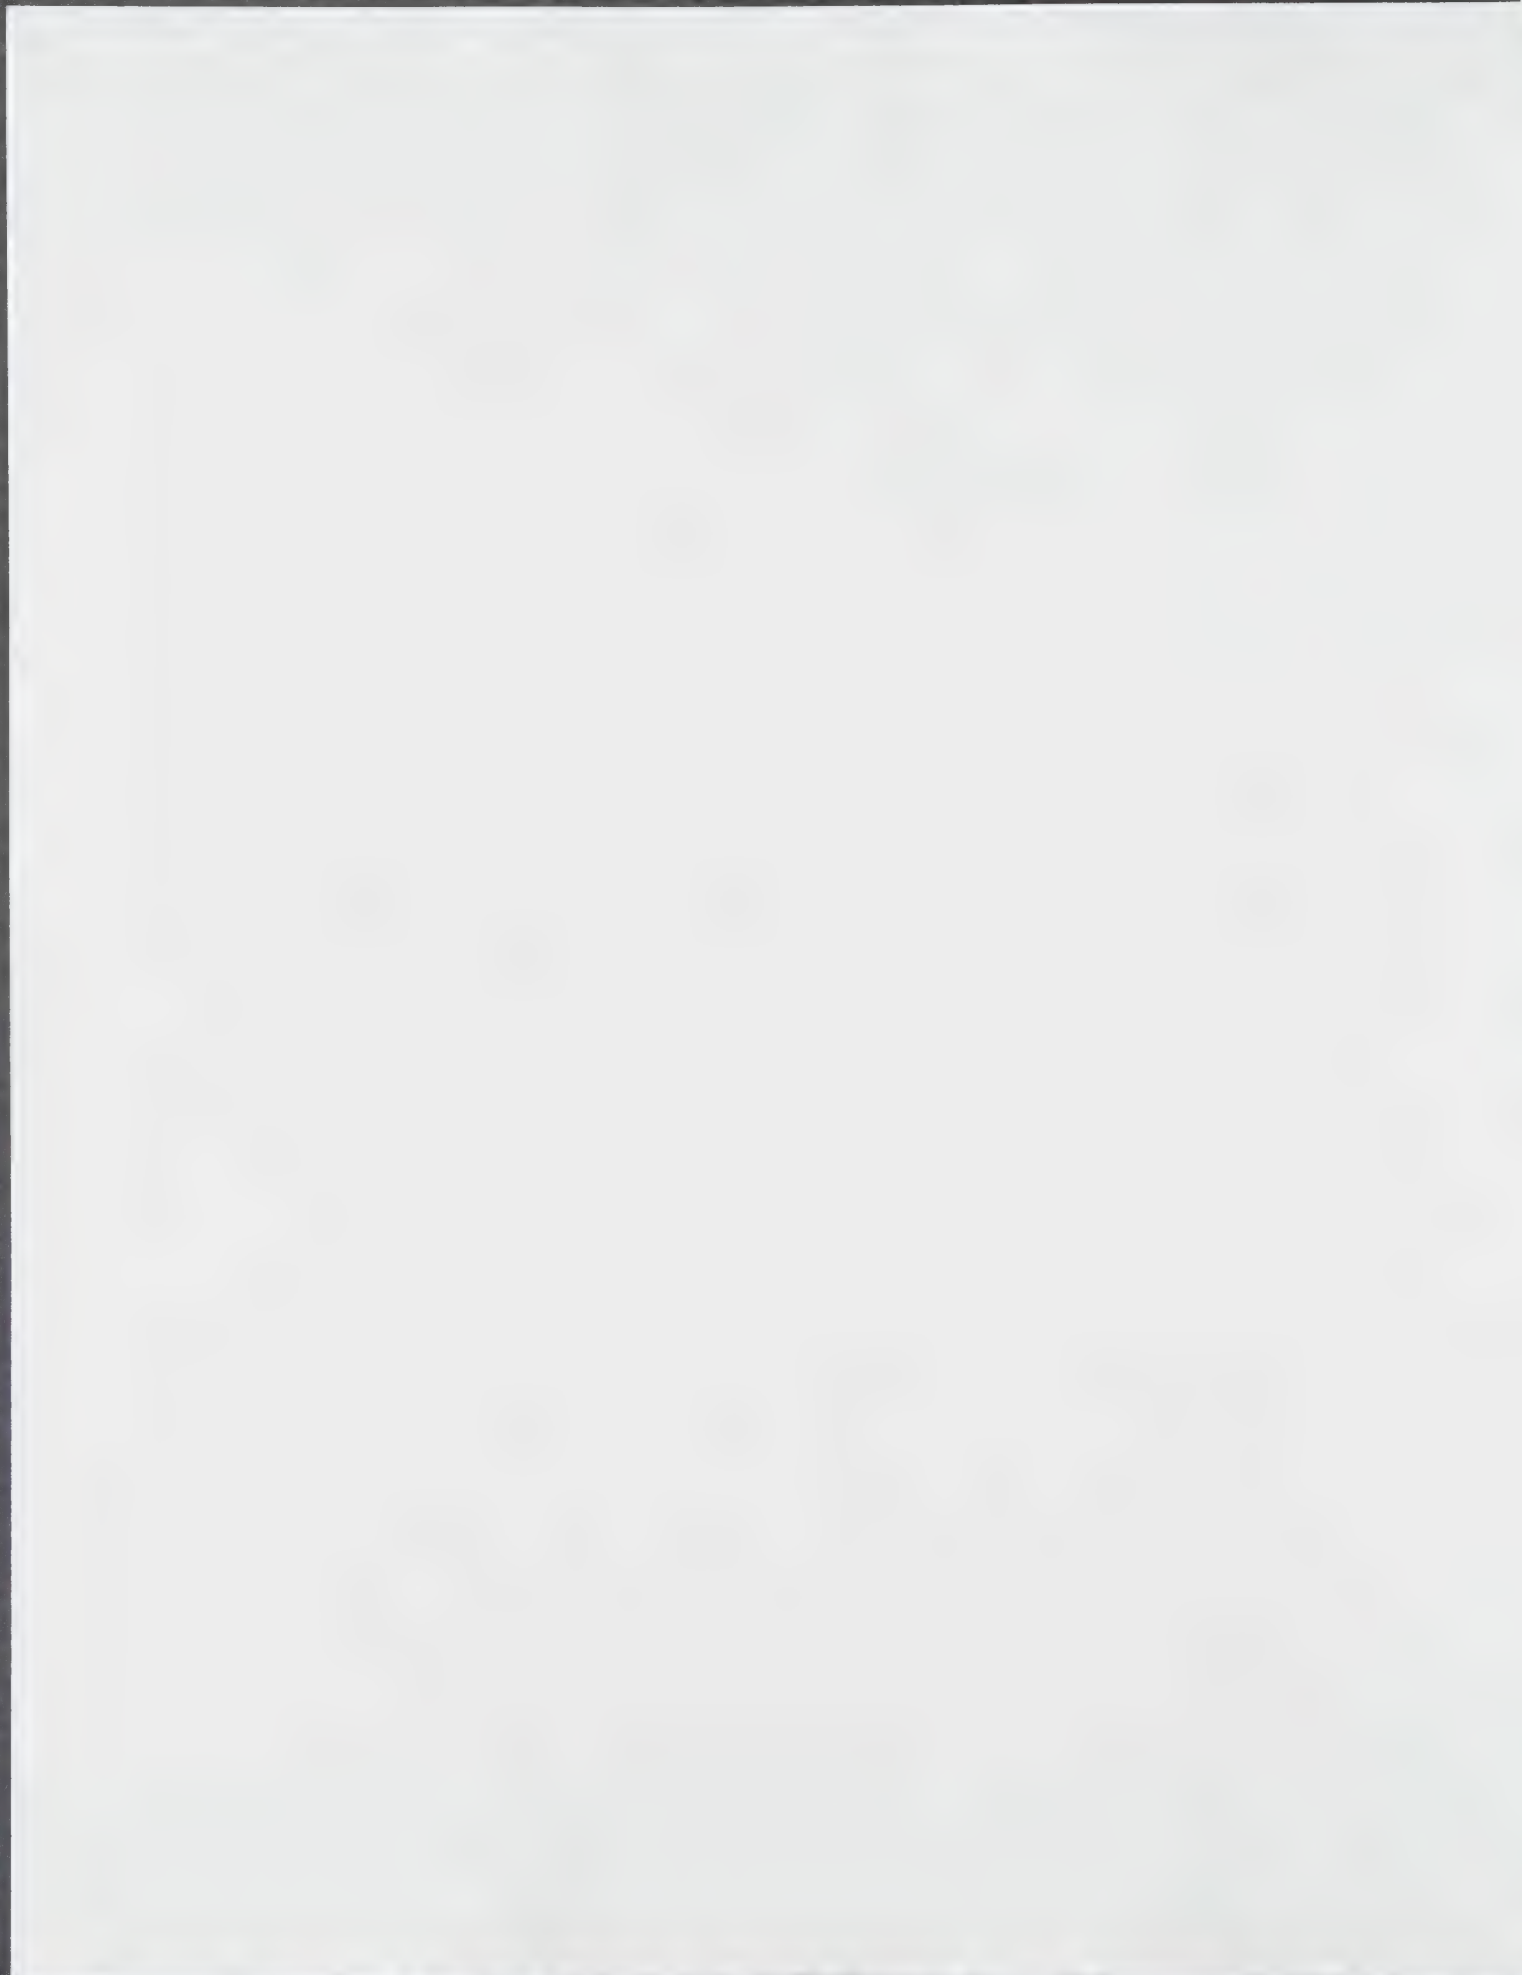

Beyond that, please also understand our discouragement about the prize in chemistry, which we have tried to establish at Carroll College. This was specifically for minority students, but clearly Carroll has not been able to find such students to come into chemistry. Of course, we understand that this is not in any way the fault of Carroll College.

With all good wishes, I remain,

Yours sincerely,

AB/cw

Dr. Alfred Bader  
2961 N. Shepard Avenue  
Milwaukee, WI 53211-3435

Dear Dr. Bader:

The Chemistry Department looks forward to strengthening our relationship with you by having you visit again next year. Students always enjoy hearing about the origins and development of Aldrich Chemical, and now that story can be reinforced by your new book. Dr. Michael Schuder will be making arrangements with you later in the summer.

The department has been very active and productive this year. Our students have presented nine papers on their research at state and national ACS meetings. They have also formed teams to present chemical demonstration "Magic Shows" to over 1400 young people at Discovery World and local elementary schools. We are proud of their accomplishments as they receive fellowships and teaching assistantships to top graduate programs.

One of our challenges as faculty is to continue to provide an atmosphere in which these talented young people can develop. That requires modern instrumentation. Acquisition of a Fourier Transform Nuclear Magnetic Resonance (FT-NMR) Spectrometer is needed to be able to determine the structure of organic molecules. It is the final instrument in our 1990-95 five year plan. While the NSF has funded half of this instrument and given our proposal glowing reviews, we are looking for the matching funds to complete this project. I am attaching a copy of the fund raising letter that was sent to our chemistry alumni.

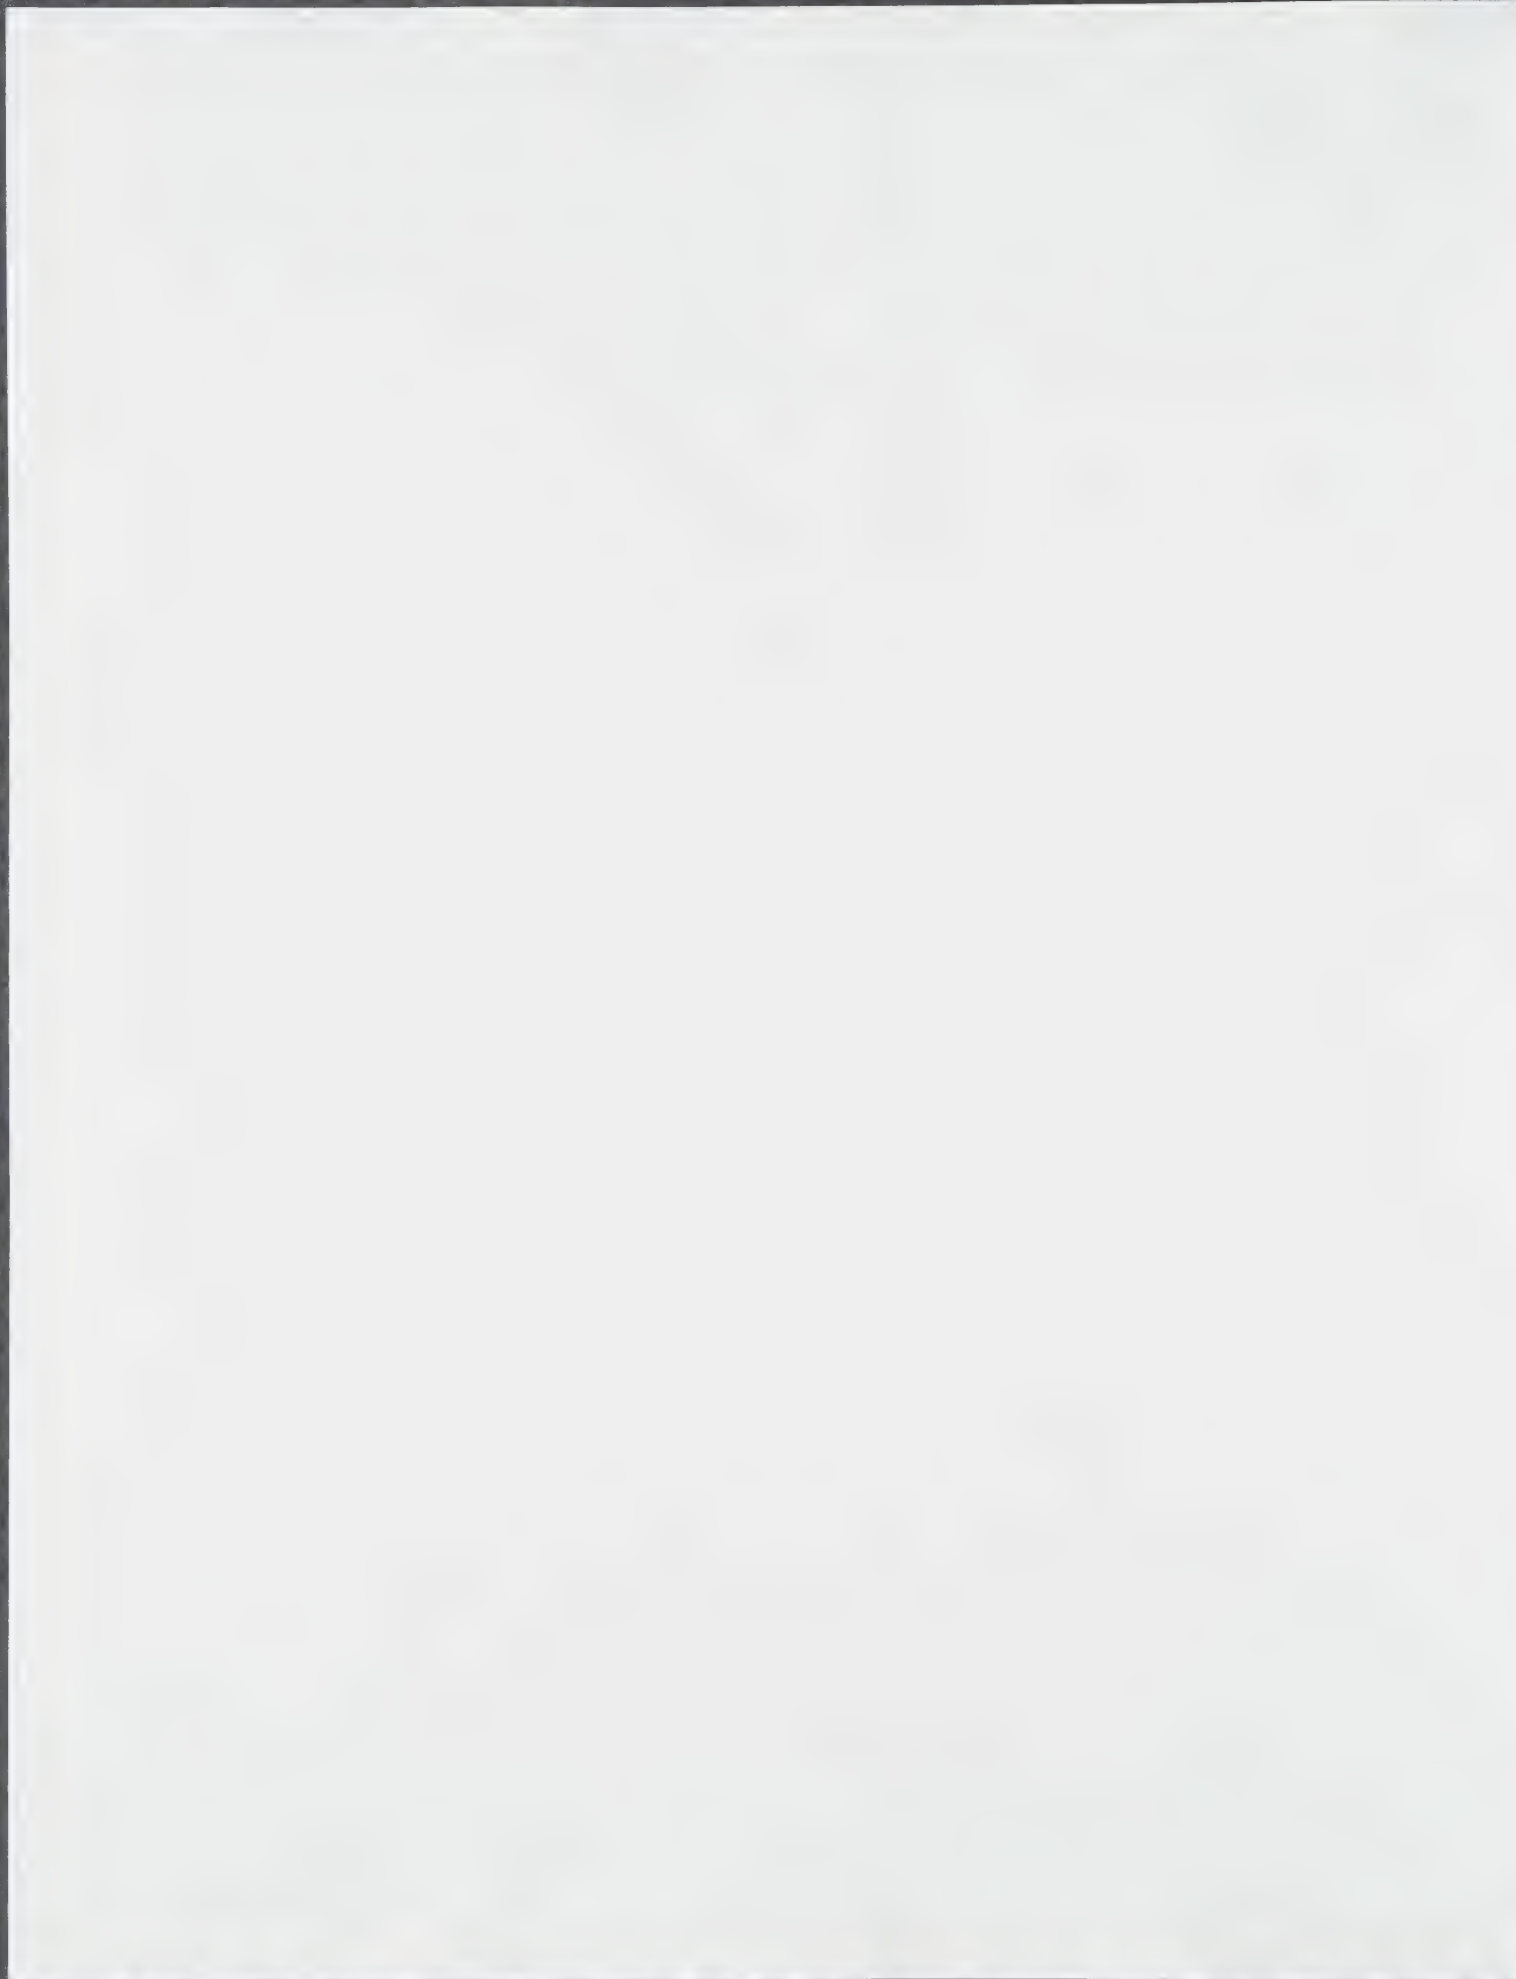

We are asking you to consider a gift of \$5,000 toward this very important acquisition. While you once told me that you support "people, not things", I am sure that you recognize that people must have some necessary things in order to be productive. For us, the FT-NMR falls into that category and keeps us competitive with the best liberal arts colleges in the state.

We will look forward to hearing from you.

Regards,

*Dick Watkins*

Professor Bud Hudson  
Department of Chemistry  
Carroll College  
100 North East Avenue  
Waukesha, Wisconsin 53186

Dear Bud:

As you are the professor in the chemistry department at Carroll College whom I know the best, I hope that you will understand why I am writing to you about the Bader Award in Chemistry.

Last week we had the pleasure of having lunch with the scholarship recipients, among them Eric Glad, who won our scholarship. Eric is a likeable and intelligent fellow who will undoubtedly do well, but please note the description of the award.

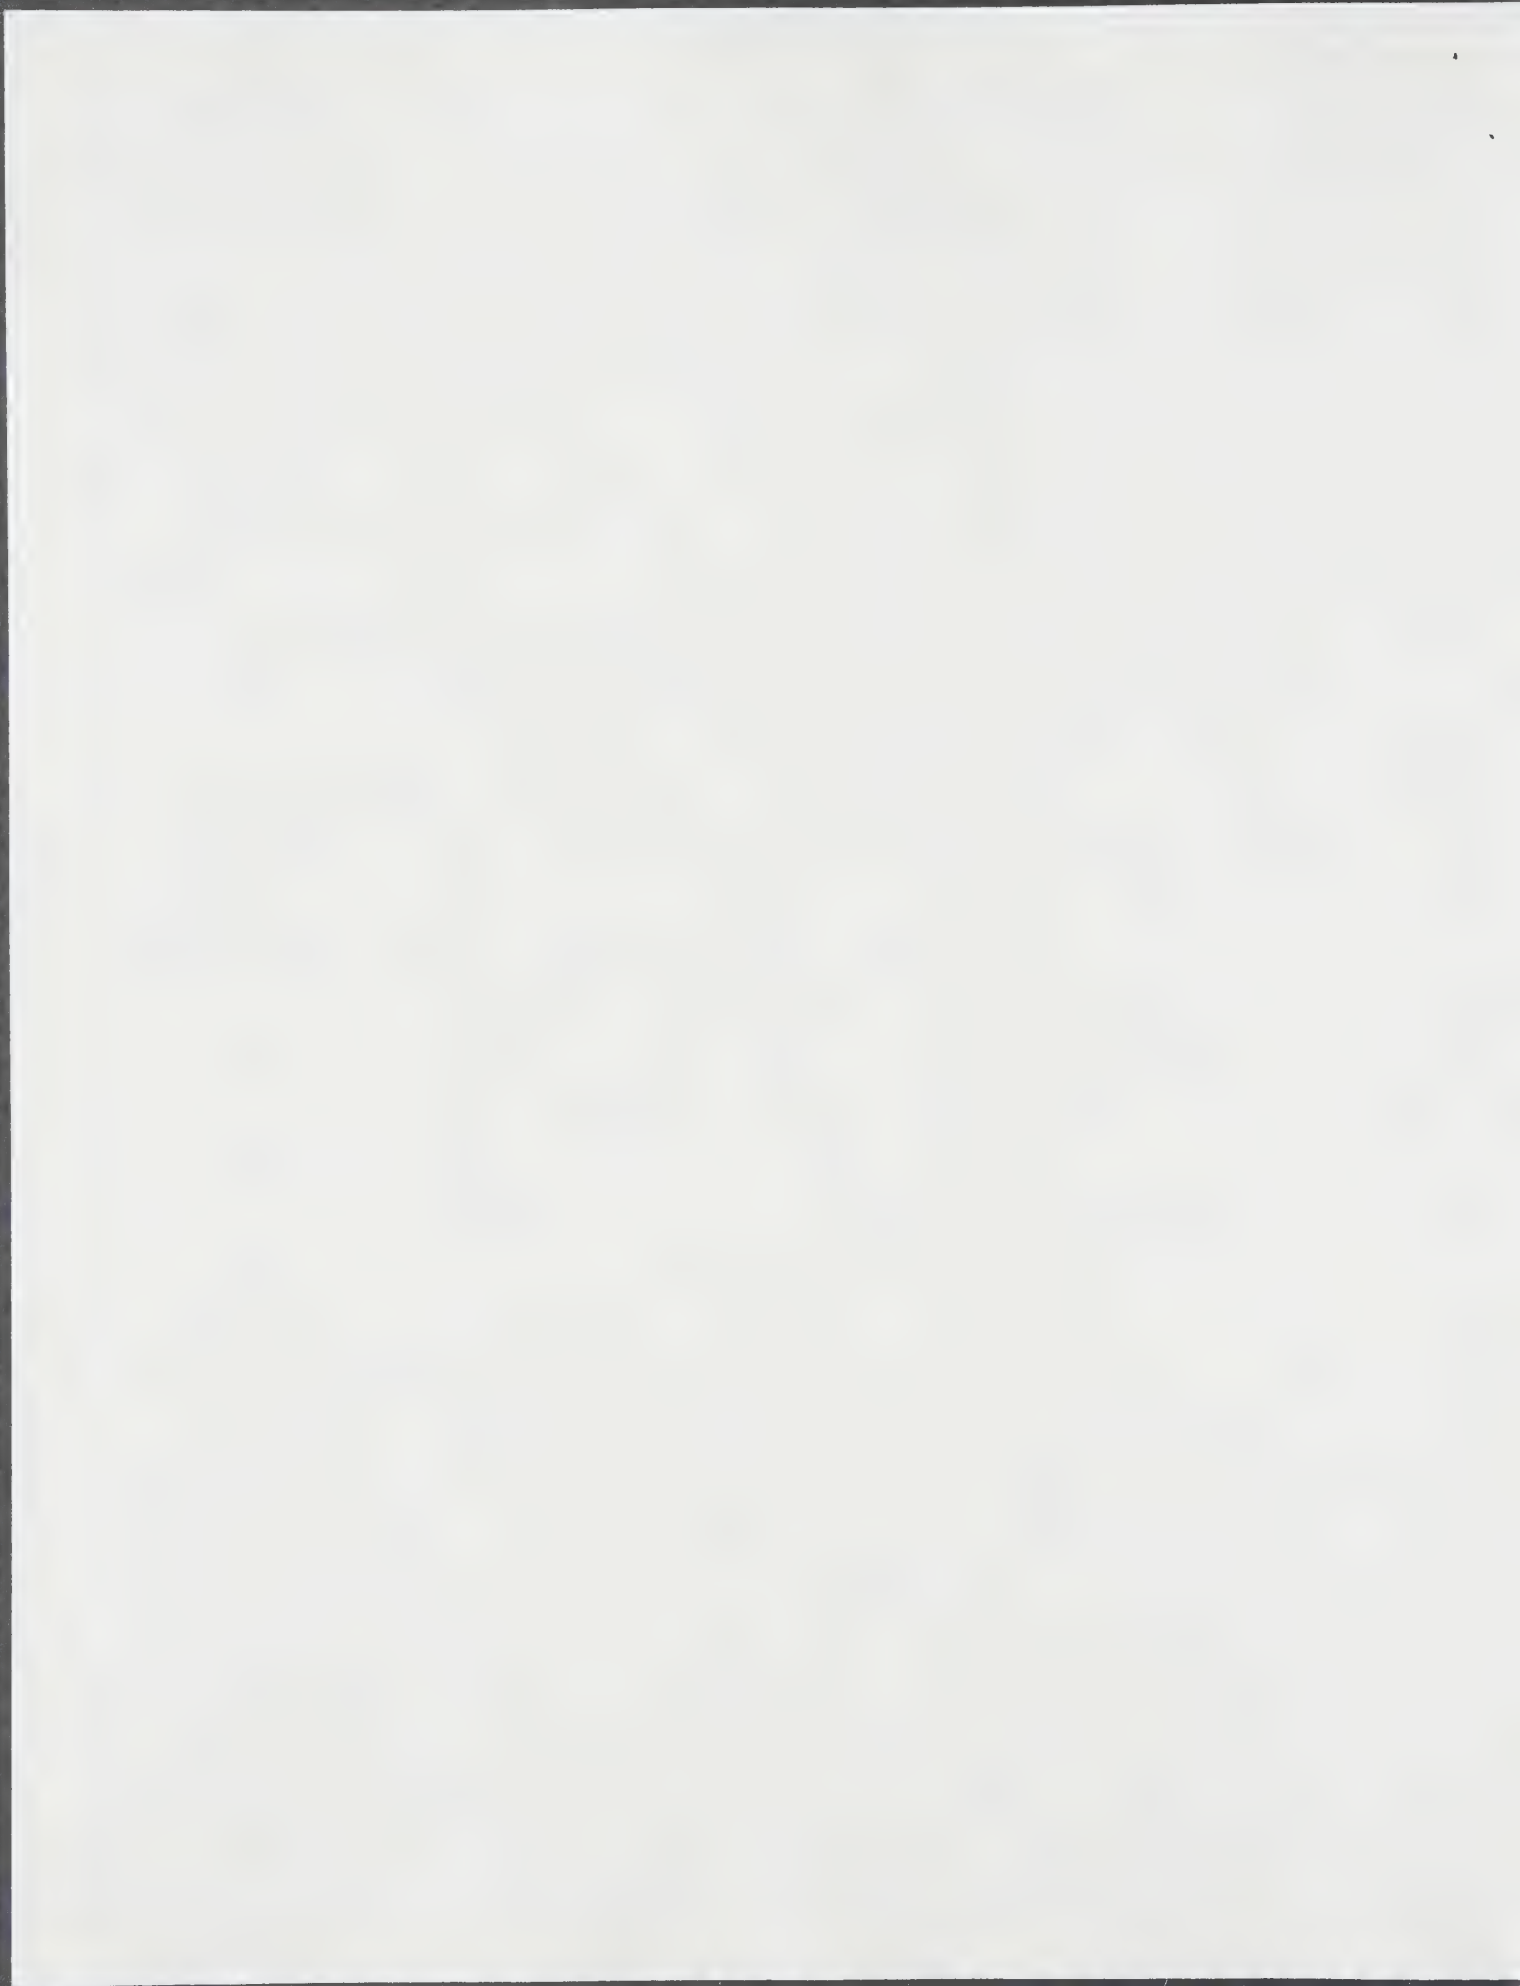

Is Eric the first recipient, or was there a recipient last year?

Best wishes.

Sincerely,

Prof. Richard E. Bayer  
Department of Chemistry  
Carroll College  
100 North East Avenue  
Waukesha, Wisconsin 53186

Dear Richard:

Thank you so much for your letter of February 23rd, but after all these years why the formality of calling me Dr. Bader? Must I think of you as Prof. Bayer?

The award as set up is entirely satisfactory, and I hope that you will receive students who will succeed at Carroll.

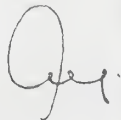

Our Foundation's check for \$3,000 to cover the first three years is enclosed.

Could you please let me know each year the name of the student and which high school he or she came from, and then the next year how the student or students in the previous years have done.

In 1995 let's discuss how to proceed, but Isabel and I very much hope to have a chance to meet you and also to visit Carroll College before then.

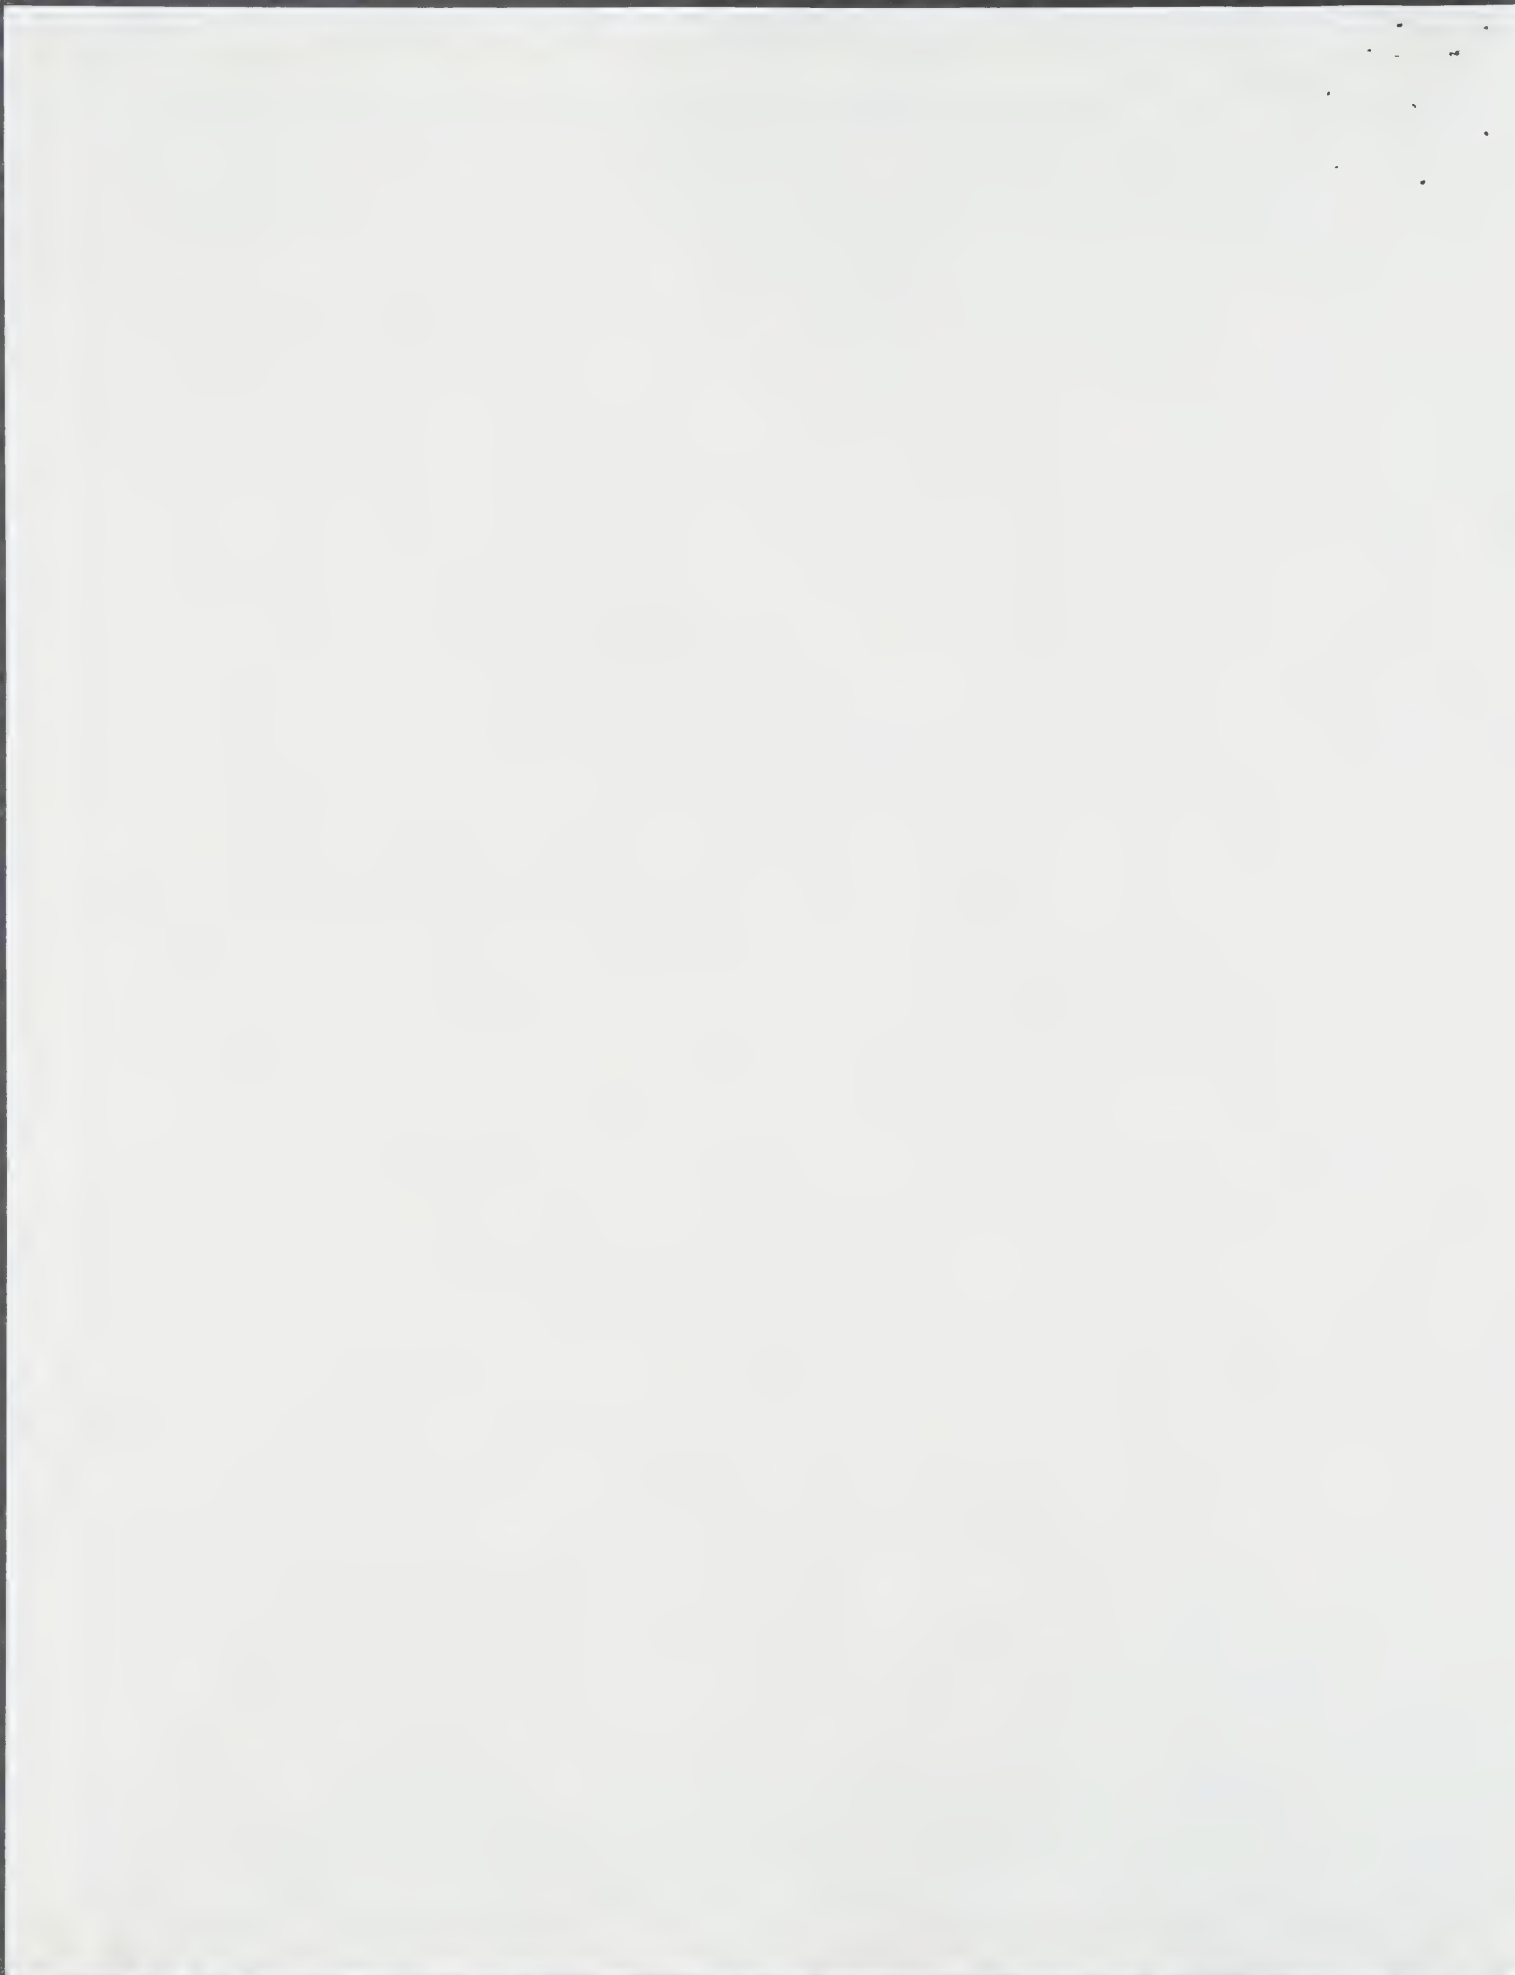

Thanks for all your help.

Sincerely,

Prof. Richard E. Bayer  
Department of Chemistry  
Carroll College  
100 North East Avenue  
Waukesha, Wisconsin 53186

Dear Richard:

Thank you so much for your letter of February 23rd, but after all these years why the formality of calling me Dr. Bader? Must I think of you as Prof. Bayer?

The award as set up is entirely satisfactory, and I hope that you will receive students who will succeed at Carroll.

Our Foundation's check for \$3,000 to cover the first three years is enclosed.

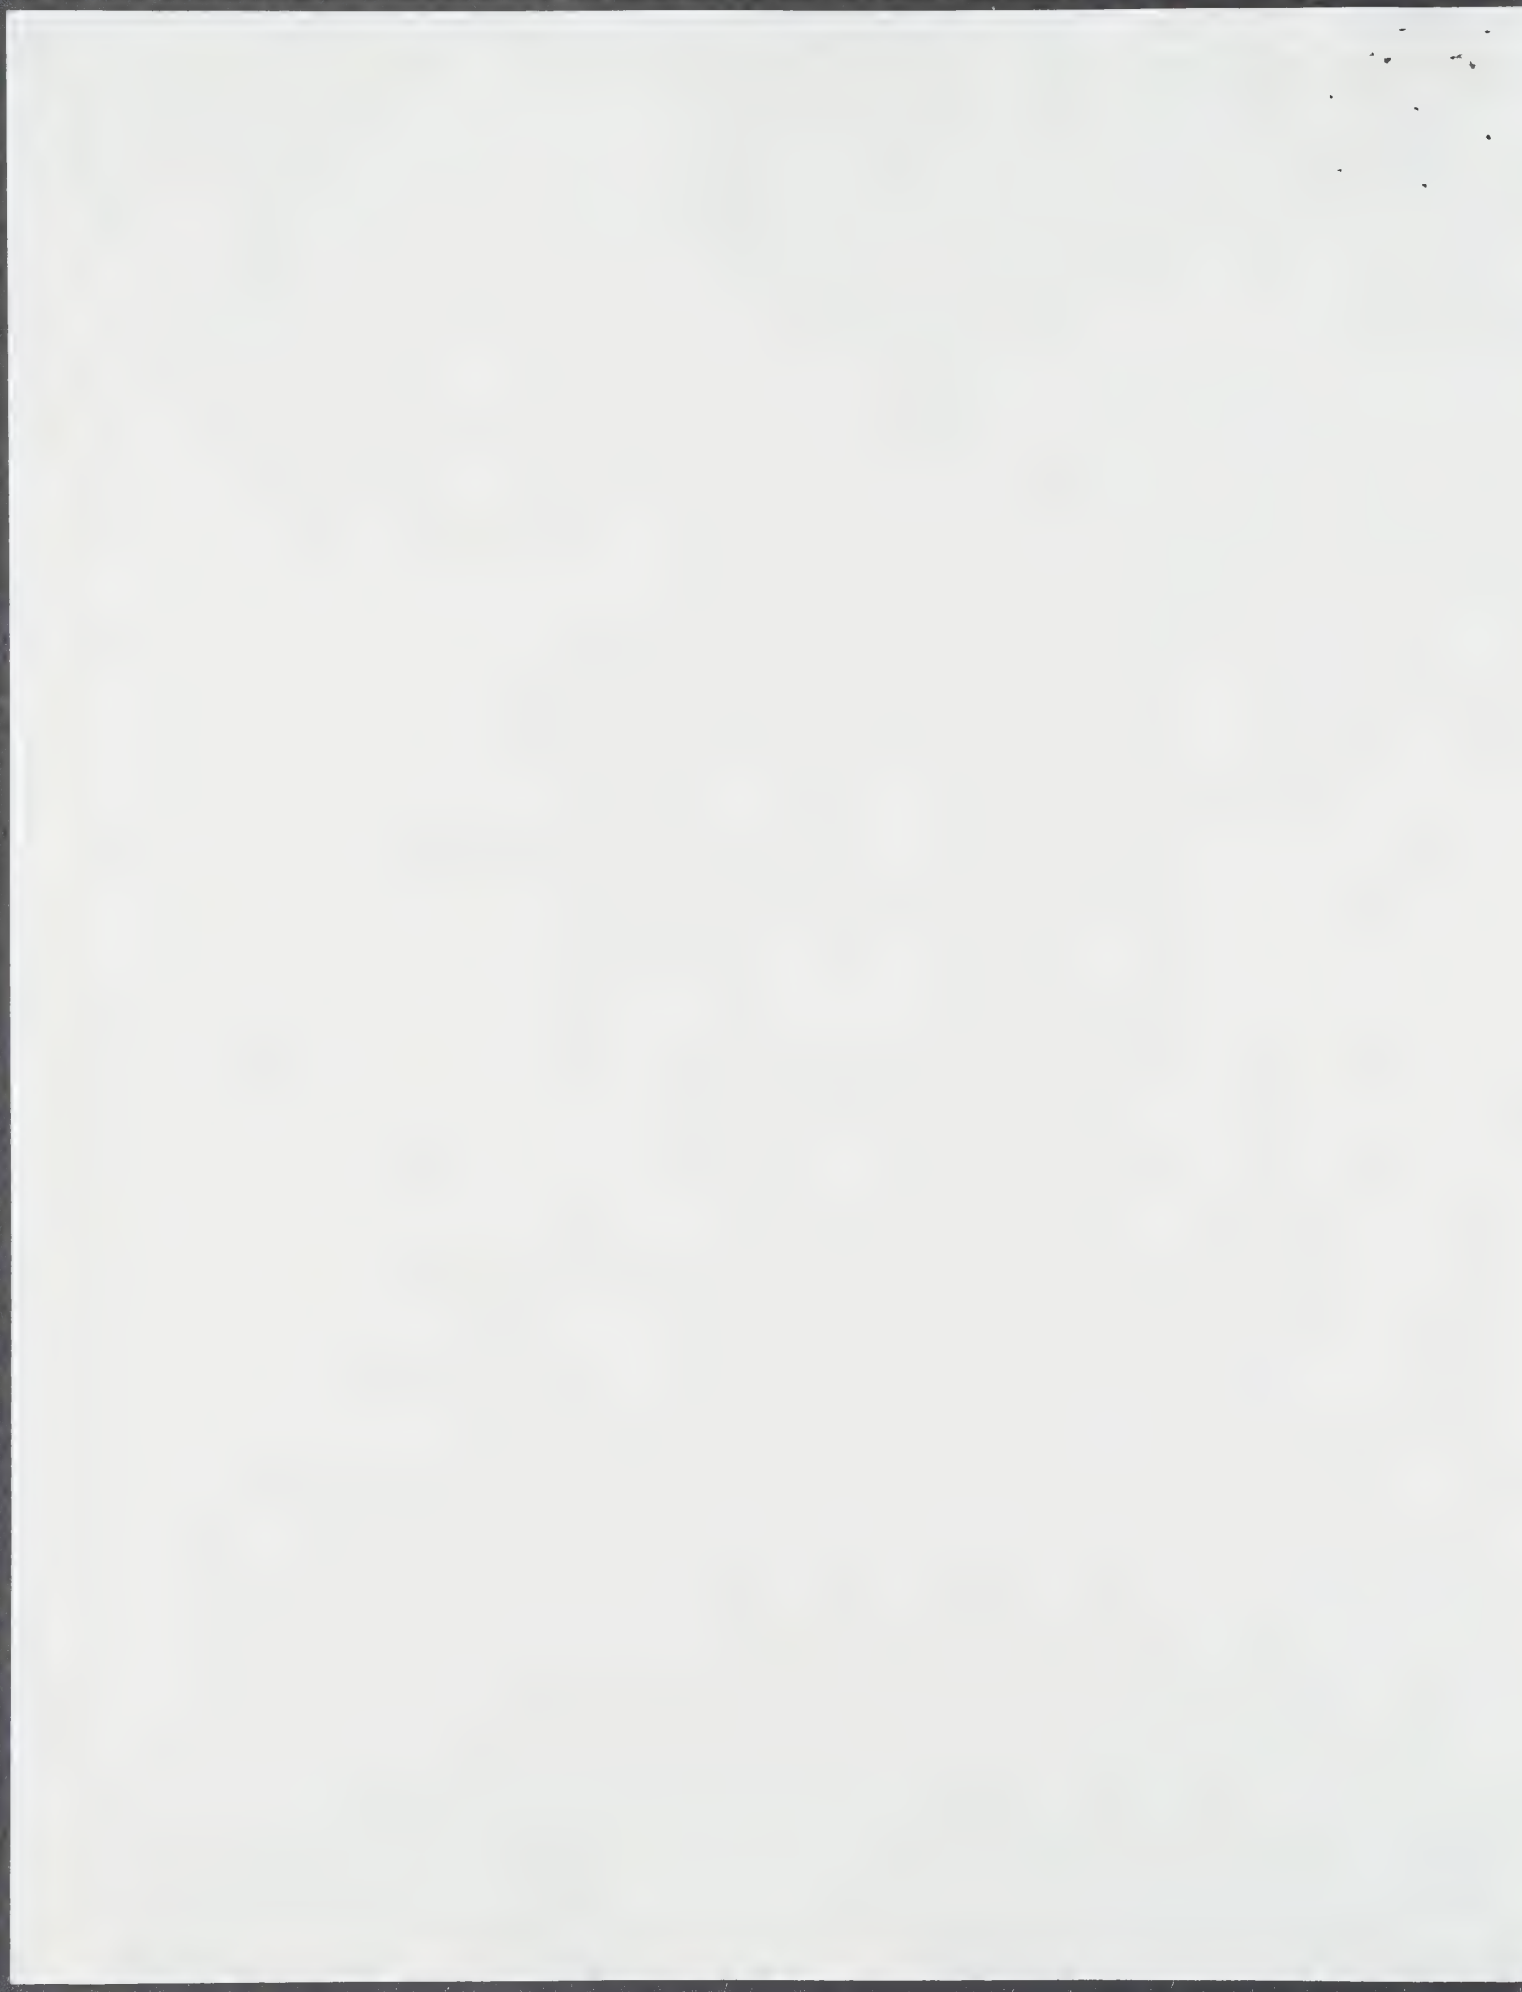

Could you please let me know each year the name of the student and which high school he or she came from, and then the next year how the student or students in the previous years have done.

In 1995 let's discuss how to proceed, but Isabel and I very much hope to have a chance to meet you and also to visit Carroll College before then.

Thanks for all your help.

Sincerely,

Enclosure

February 23, 1993

Alfred Bader  
2961 N. Shepard Avenue  
Milwaukee, WI 53211

Dear Dr. Bader:

Carroll College is pleased to be able to provide the Isabel and Alfred Bader Award as described. A Department of Education ruling prevents Carroll from offering an award exclusively for students of multicultural origins and hence the enclosed wording. The Award will become part of each student's financial aid package and Carroll will be responsible for providing the \$1000 in each of the remaining three years of study at the College.

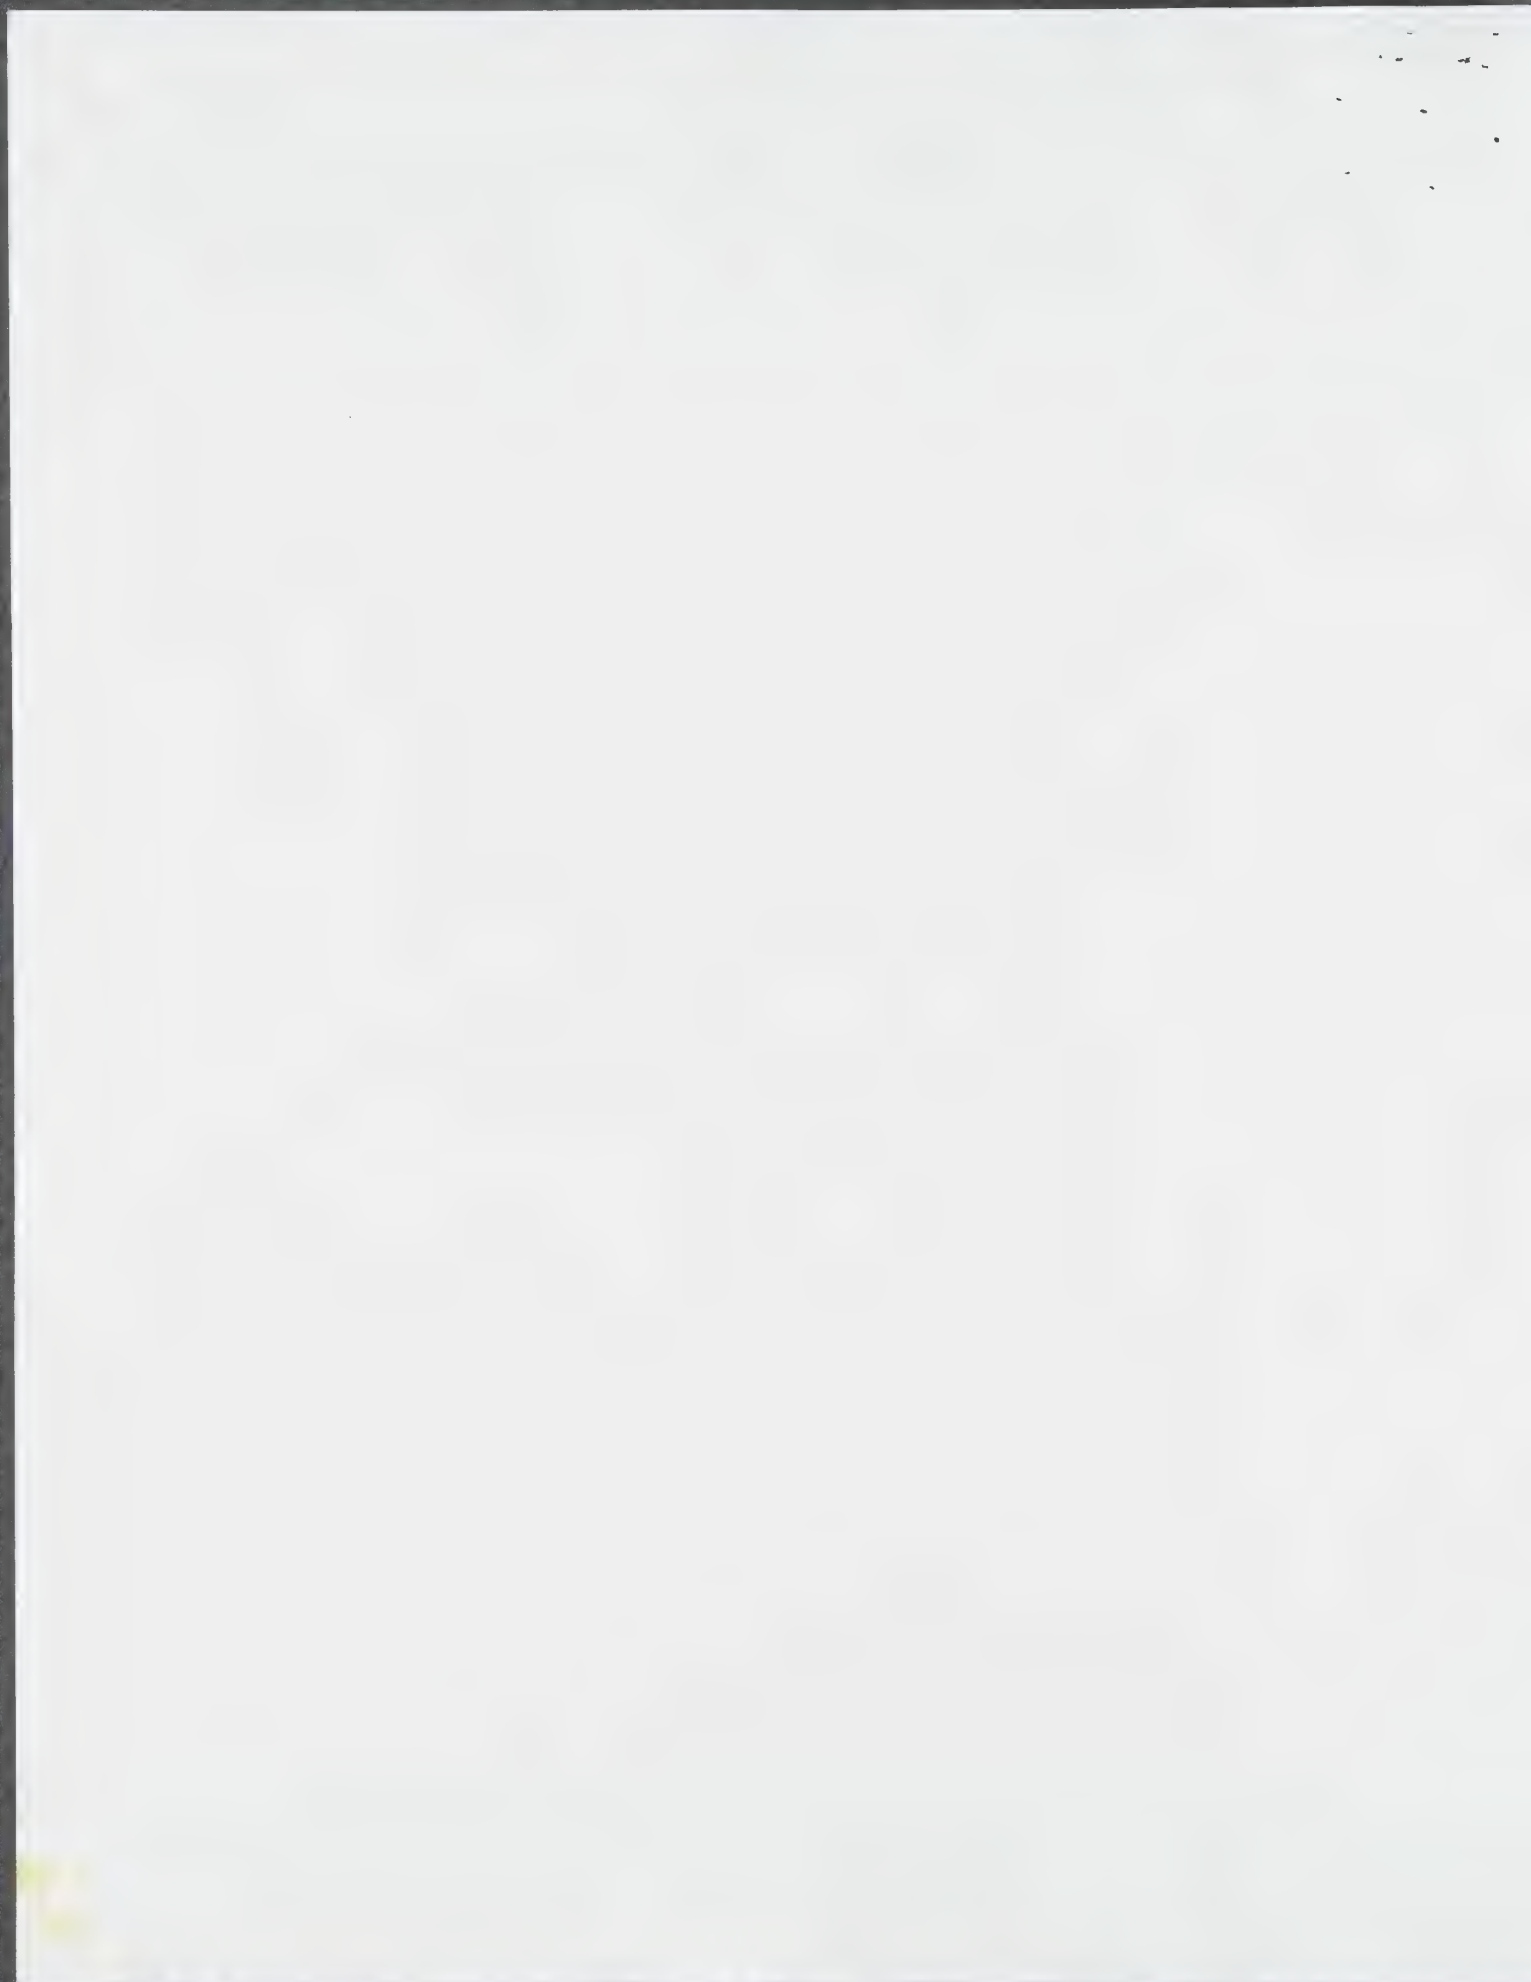

As per our discussion, \$1000 will be provided for each of the next three years. At the end of this three year period it is your intent to provide an endowment that would continue this award into the future.

As you know, chemistry and Carroll have been my life for the last 35 years and we have worked together on many things over this time span. Your support has always been a stimulus to move forward in new directions. We thank you again for making the award possible and allowing us the opportunity to serve our community.

Sincerely,

Dr. Richard E. Bayer  
Professor Emeritus of Chemistry

### Isabel and Alfred Bader Chemistry Award

The Isabel and Alfred Bader Chemistry Award will be given annually to an outstanding Carroll College freshman majoring in chemistry. Prospective students who meet the following selection criteria will be eligible for the Award:

- \* Graduate from one of following Milwaukee Public Schools: Alexander Hamilton High School, Custer High School, Milwaukee Trade and Technical School, Pulaski High School, Riverside University High School, Rufus King High School, South Division High School or North Division High School. Strong preference will be given to students who are African American, Hispanic or Native-American.
- \* Demonstrate significant academic potential as indicated by high school class rank and college entrance examination scores. Only those students who predict a first-year cumulative grade point average at Carroll College of 2.50 or better will be eligible for this Award.

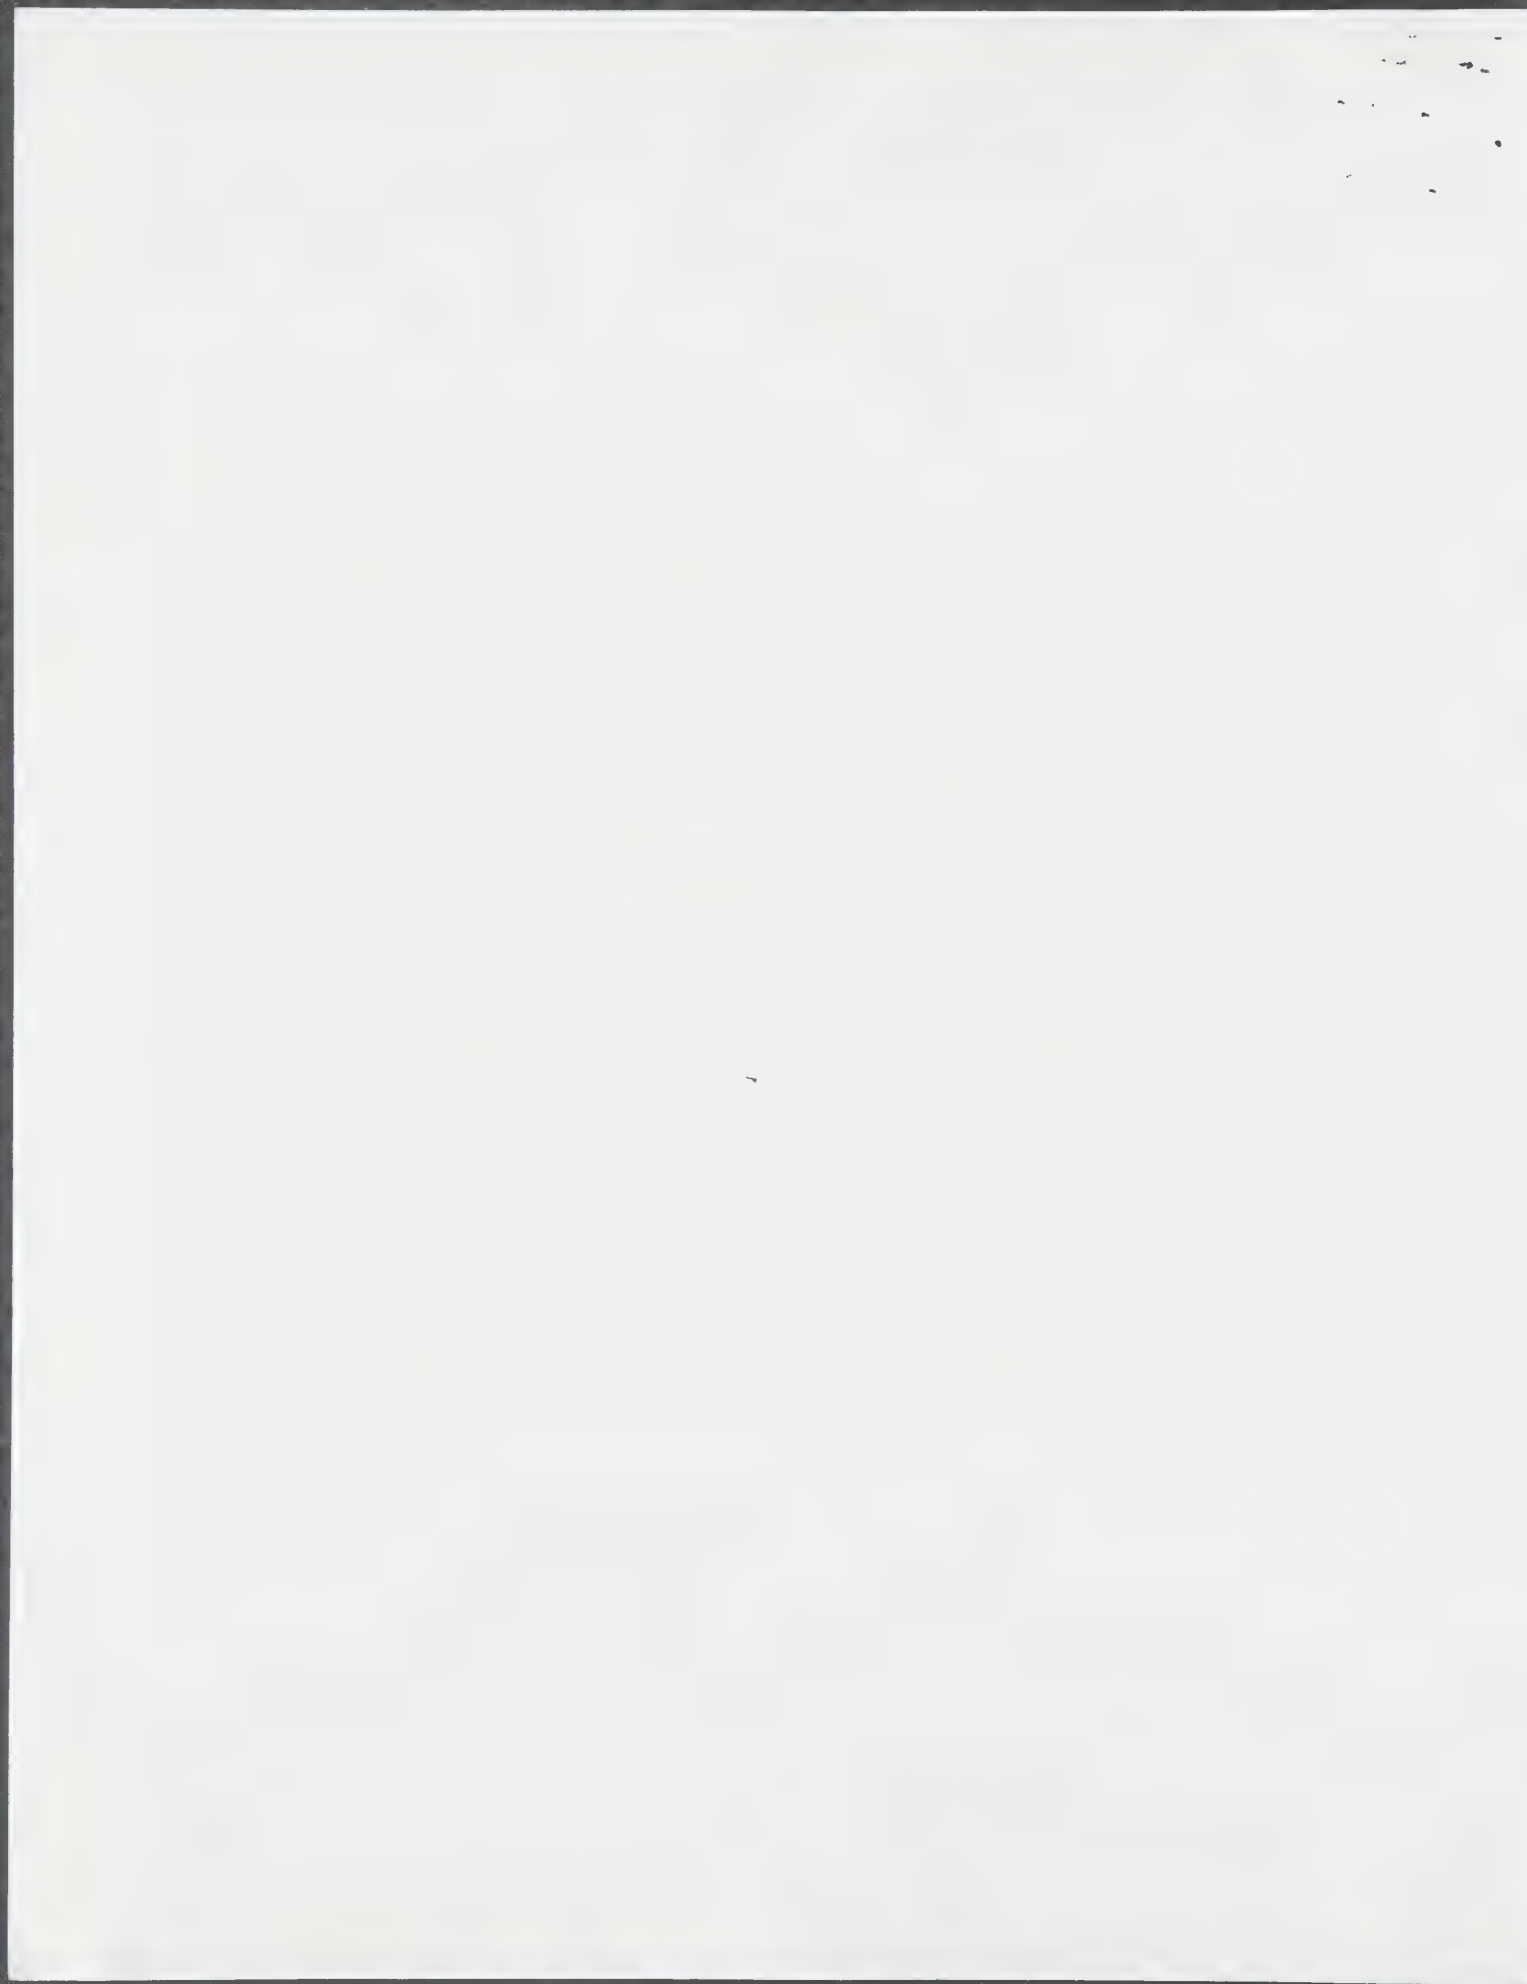

In the event that multiple candidates for the Bader Award are identified, selection of the recipient will be determined by the chairperson of Carroll's Department of Chemistry in collaboration with the Office of Admission. The \$1,000 non-renewable Award will be administered through Carroll College's Office of Student Financial Services.

The Isabel and Alfred Bader Chemistry Award will be presented for the first time to a freshman chemistry student enrolling at the College in the fall of 1993.

Professor Richard Bayer  
Carroll College  
100 North East Avenue  
Waukesha, Wisconsin 53186

Dear Richard:

I am sorry to have to tell you that I will not be able to see you on Thursday evening, February 11th.

I am returning from a lecture tour in Florida on February 1st, and I will then call you to see whether we might get together for lunch at your convenience.

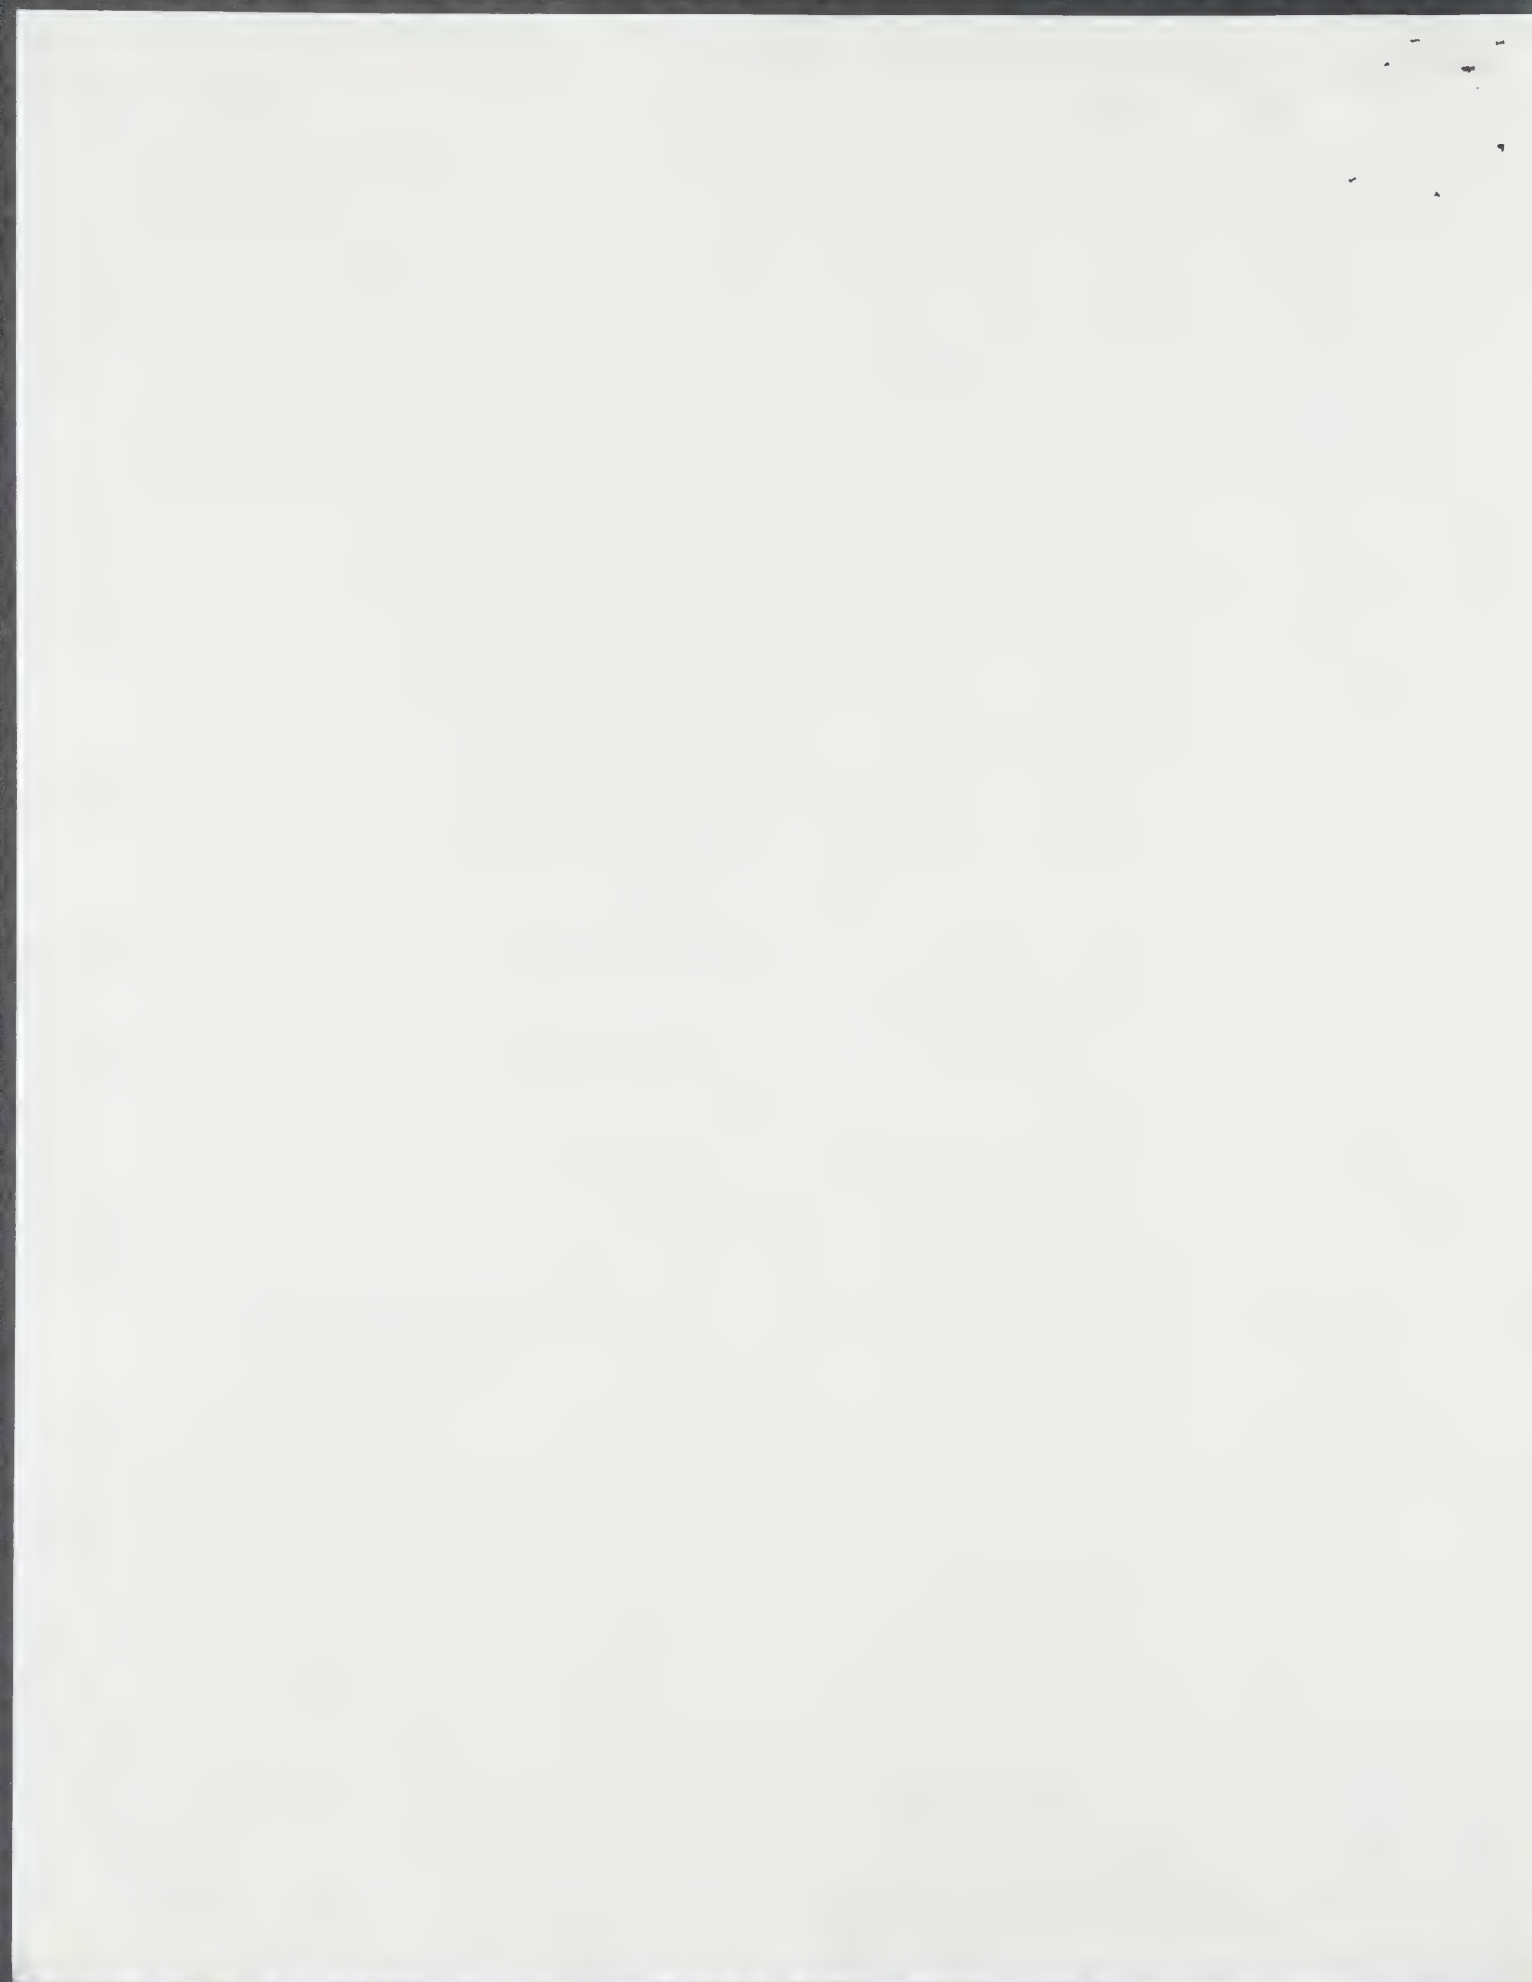

You know that I have promised to set up a bursary for a minority student at Carroll College, and we can set up the mechanics when I see you.

I would be uncomfortable not only at Mader's, but in any setting where I felt put under pressure. Whatever Isabel and I have done--and we have established many bursaries, scholarships and prizes--has been because we really wanted to do it, and not because a group put us under pressure. I do hope you will understand.

Best regards.

Sincerely,

c: Mr. J. Frisch

Dr. Alfred Bader  
2961 North Shepard Avenue  
Milwaukee, WI 53211

Dear Alfred:

Thank you for your note of April 29, 1994 indicating that you had been able to join us at Carroll College for the Scholarship Luncheon. I am glad that you were also able to meet Eric Glad, the first recipient of the *Isabel and Alfred Bader Chemistry Award*. He is a very hard-working and pleasant student, though a bit on the quiet side. He is not, however, as you have noted, an ethnic minority. Why then, was he selected?

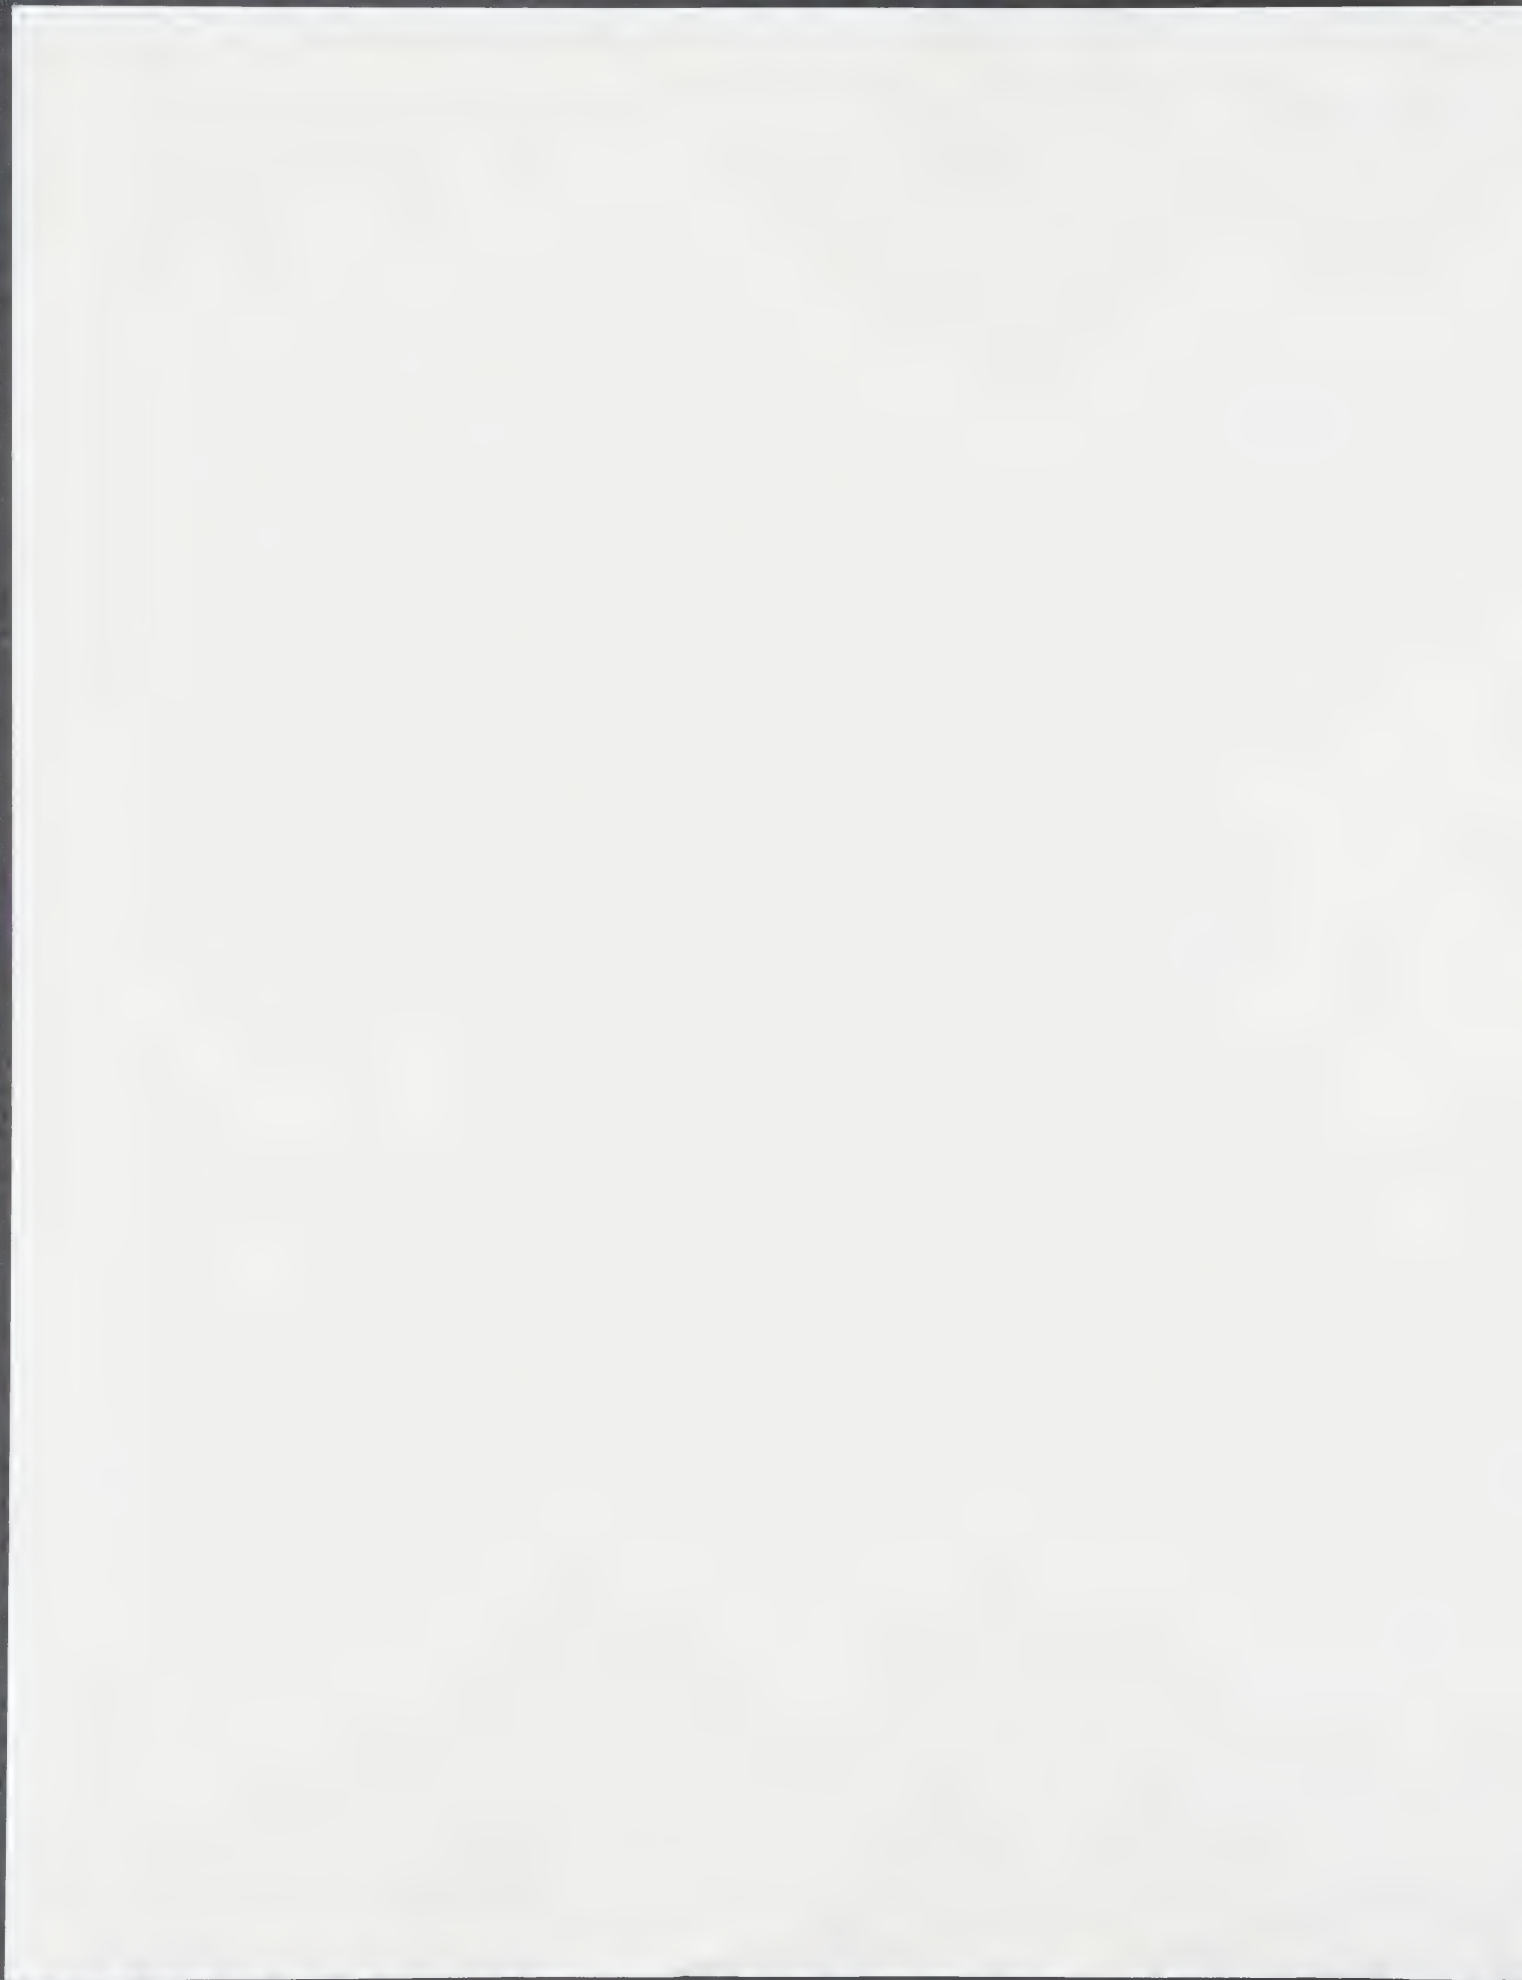

As the freshmen students with declared chemistry majors were being reviewed last year during the selection of the first awardee, strong preference was given to those students who were African American, Hispanic, or Native-American. However, there were none who would have met the goal of demonstrating "significant academic potential." Thus, we felt it was most important for this first selection to have a student who had a high potential for continuing in and likely finishing the chemistry major at Carroll. Eric, we felt, had this potential and met the other criterion of having graduated from one of the designated Milwaukee public schools.

We were personally disappointed, as I am sure you and Isabel were, to not have the opportunity to meet all the desired goals of this award. Be assured that if we are to have the opportunity to select a second award winner, we will again make every attempt to match all desired criteria. However, as with many smaller schools, that is not always possible, especially with a program as challenging as chemistry.

I look forward to talking with you further about your concerns, Alfred, and will call you within the week. Thank you again for your support of Carroll College. The books you donated to us are located in Lowry Hall for ready use by our students.

Sincerely,

Bud Hudson  
Chemistry Department

Dr. & Mrs. Alfred Bader  
2961 N. Shepard Ave.  
Milwaukee, WI 53211-3435

Dear Dr. & Mrs. Bader:

We have just begun our planning for Carroll College's 1994 Scholarship Luncheon. We enjoy this annual opportunity to introduce our scholarship donors to the students who benefit from their generosity. We are hoping you will be able to attend this year. We are announcing the date early hoping that people will put it on their calendars and hold the day open. This year's luncheon will be held on **April 22nd**. You will receive a formal invitation with a reply card in mid-March. In a few weeks we will be sending you some biographical information on the recipient(s) of your scholarship for 1993-94.

We hope to see you in April.

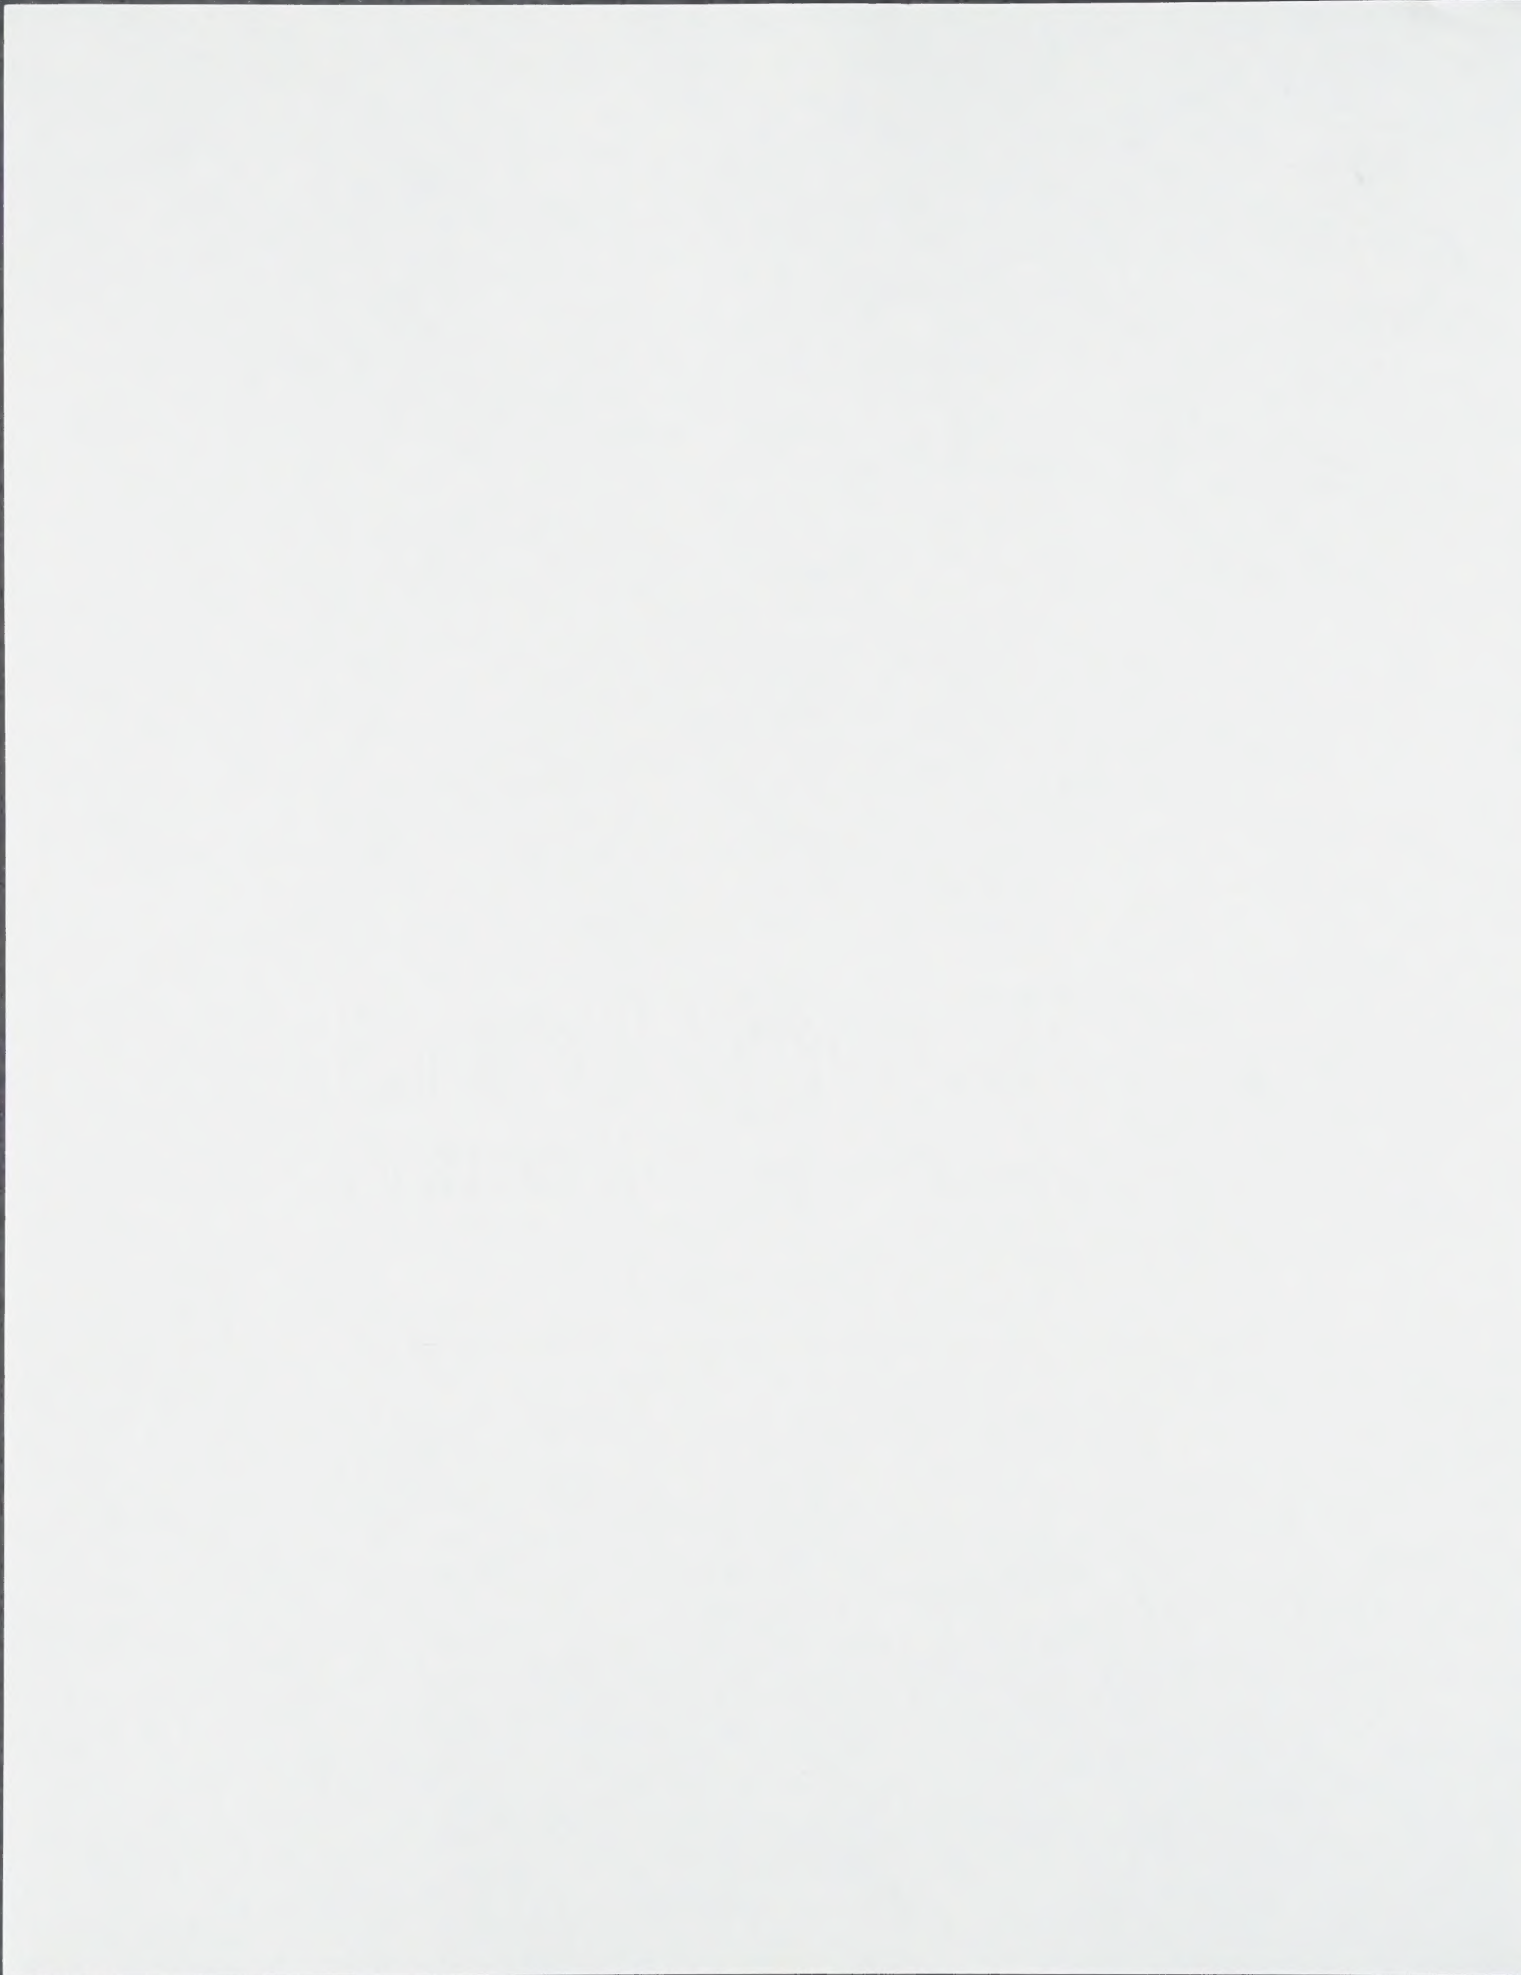

Sincerely,

Linda G. Thompson  
Director of Corporate and  
Foundation Relations

Dr. and Mrs. Alfred Bader  
2961 North Shepard Avenue  
Milwaukee, WI 53211

Dear Dr. and Mrs. Bader,

I am writing in regards to the generous scholarship you have funded through your foundation. We have awarded Eric Glad \$1,000 for the 1993/1994 academic year.

Eric comes to Carroll from Milwaukee Trade and Technical School. He is a professional chemistry major and is currently enrolled in Calculus I, Fundamentals of Chemistry, Introduction to Sociology and Introduction to the New Testament.

We will be having our annual scholarship luncheon in April, 1994, to extend our grateful appreciation to the scholarship donors, as yourselves, and to recognize the scholarship recipients. We will be in touch with you closer to that time to notify of date, place and time.

If you have any questions, please do not hesitate to call me at 524-7133.

Most sincerely,

Stacey L. Balsley  
Dir. of Information & Research
