Dr. Alfred Bader
Suite 622
924 East Juneau Avenue
Milwaukee, Wisconsin 53202

Dear Alfred:

I was in meetings all afternoon yesterday regarding the search for a new Director of Communications and so I know this message will not reach you until your return from Britain. I hope you were successful dealing with British Heritage and shall look forward to learning more about this magnificent painting.

The Vancouver alumni are very excited about the possibility of your lecture and the evening of April 6 is the preferred time. I will pass your message along so that they can deal directly with Professor Edward Piers. That makes good sense.

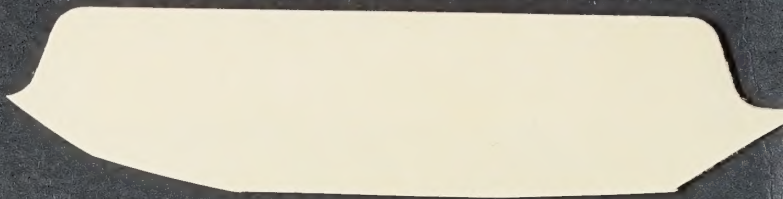

We learned Friday that the Ontario Government is planning to make an announcement on February 1 in Kingston regarding the Agnes Etherington Art Centre. Bill Leggett was hoping to get in touch with you to tell you about this so I hope he connected before you left for Britain. We'll be able to bring you up-to-date shortly.

With best regards,

Sincerely,

A handwritten signature in cursive script that reads "Florence".

Florence M. Campbell

Fax Message from Edward Piers

March 10, 1995

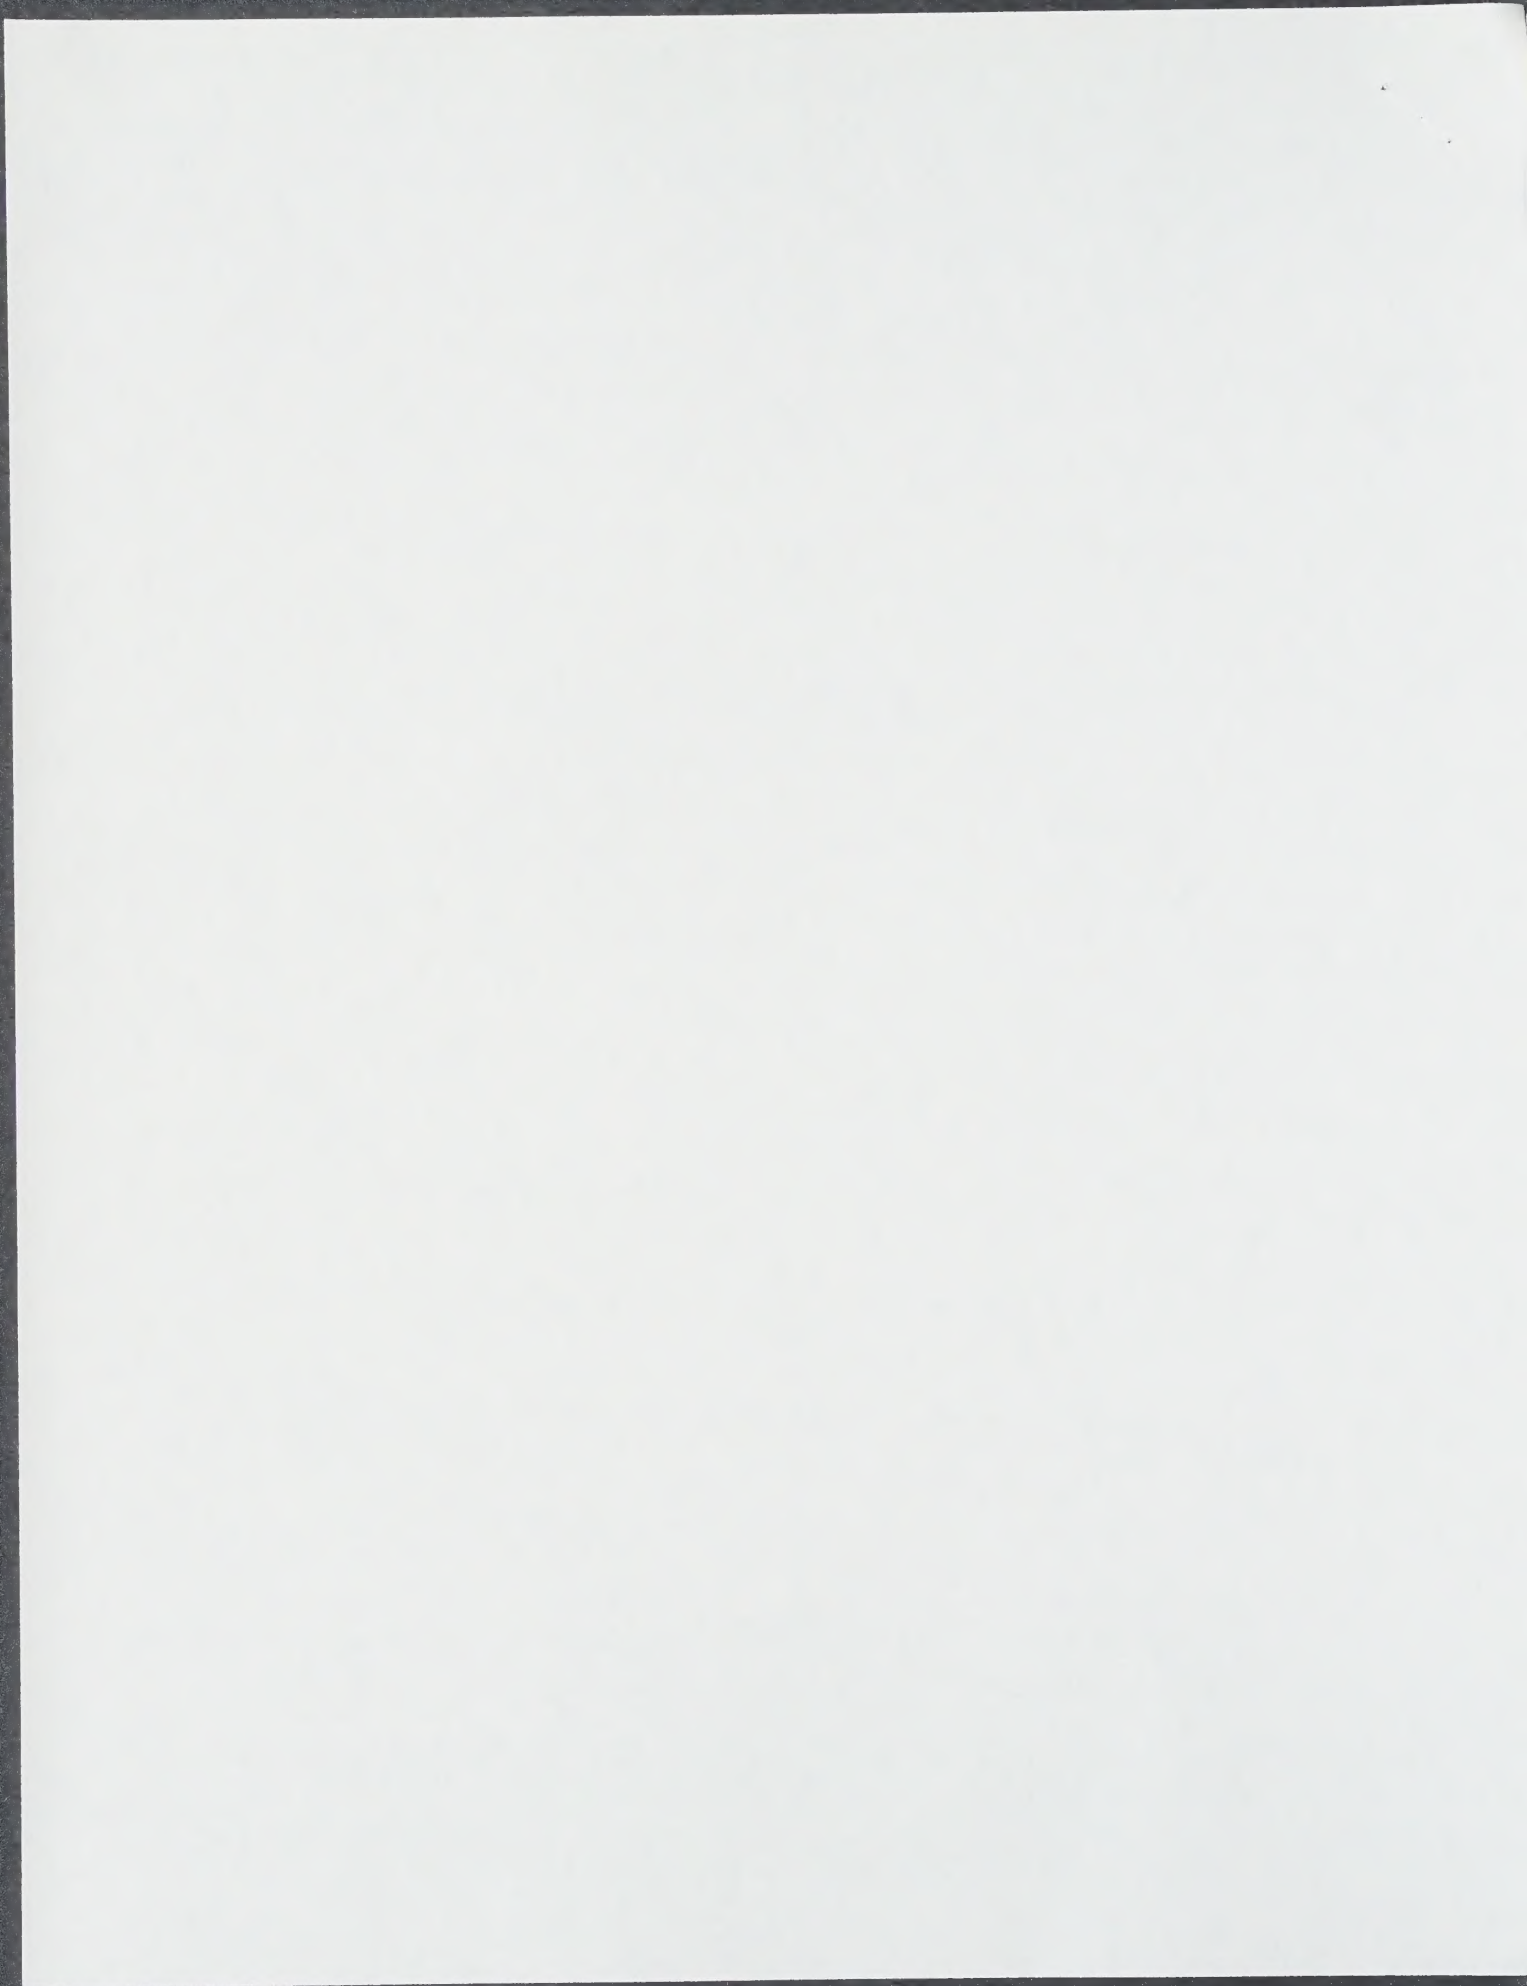

Dr. Alfred Bader
Suite 622
924 East Juneau Avenue
Milwaukee, Wisconsin 53202
USA

Dear Alfred:

In connection with making the final preparations for your visit to UBC, I have a few questions.

1. Would you like us to pick you up at your brother-in-law's home to transport you and Isabel to UBC?
2. Will you supply me with a telephone number in Vancouver where I can contact you?
3. Would 9:30 am be a suitable time for you to arrive at UBC on Thursday, April 6?
4. Will you be available on Thursday afternoon and on (parts of) Friday to meet individually with some of my colleagues?

Please also note that, as we had agreed earlier, we will take you and Isabel out for dinner on Friday evening (April 7).

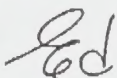

If there is anything else that I need to know in connection with your visit, please let me know. We are very much looking forward to seeing you next week.

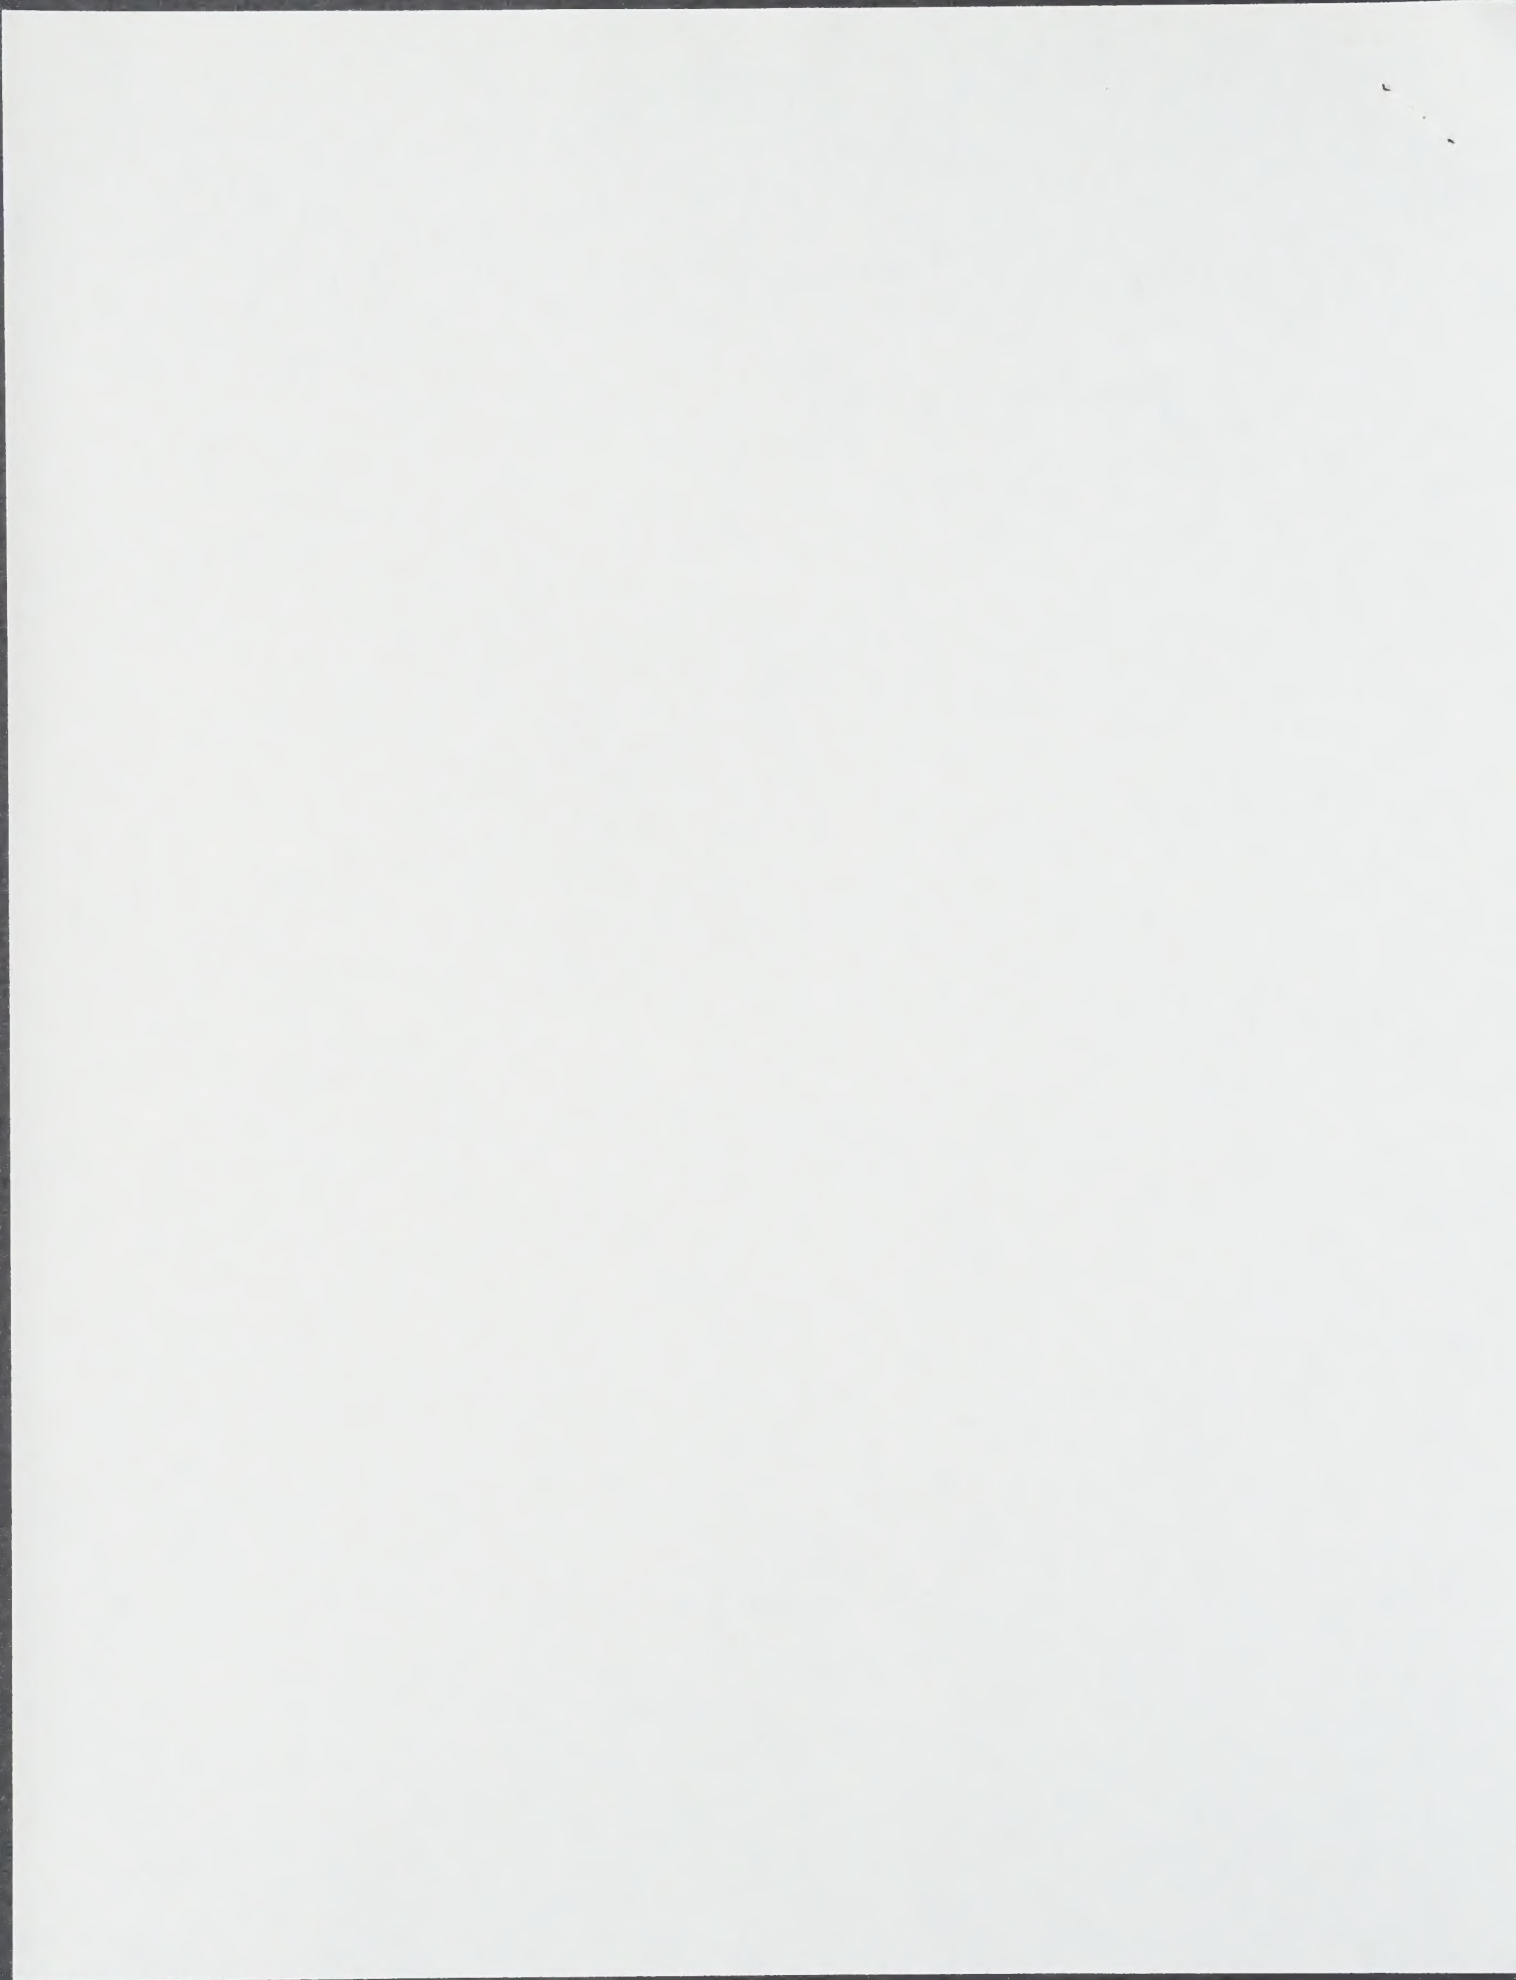

I look forward to hearing from you.

With very best regards,

Yours sincerely,

A handwritten signature in cursive script, appearing to read "Ed".

Comments:

Thank you for your prompt note of March 14, 1995.

We will meet your plane on April 9 and take you and Mrs. Bader to your hotel.

The air fares look very reasonable to us. We will have a US money order ready for you.

Since our last correspondence we have been in contact with representatives from the Queen's Alumni. We heard that you would like to meet with them. However, there does not seem to be any convenient time in which we can schedule a separate meeting for this group. Queen's will be inviting their alumni to the two evening public lectures. They will be identified by a Queen's name tag so that during our informal discussion/refreshment time following each lecture you will be able to meet some of them. I think this compromise should work well.

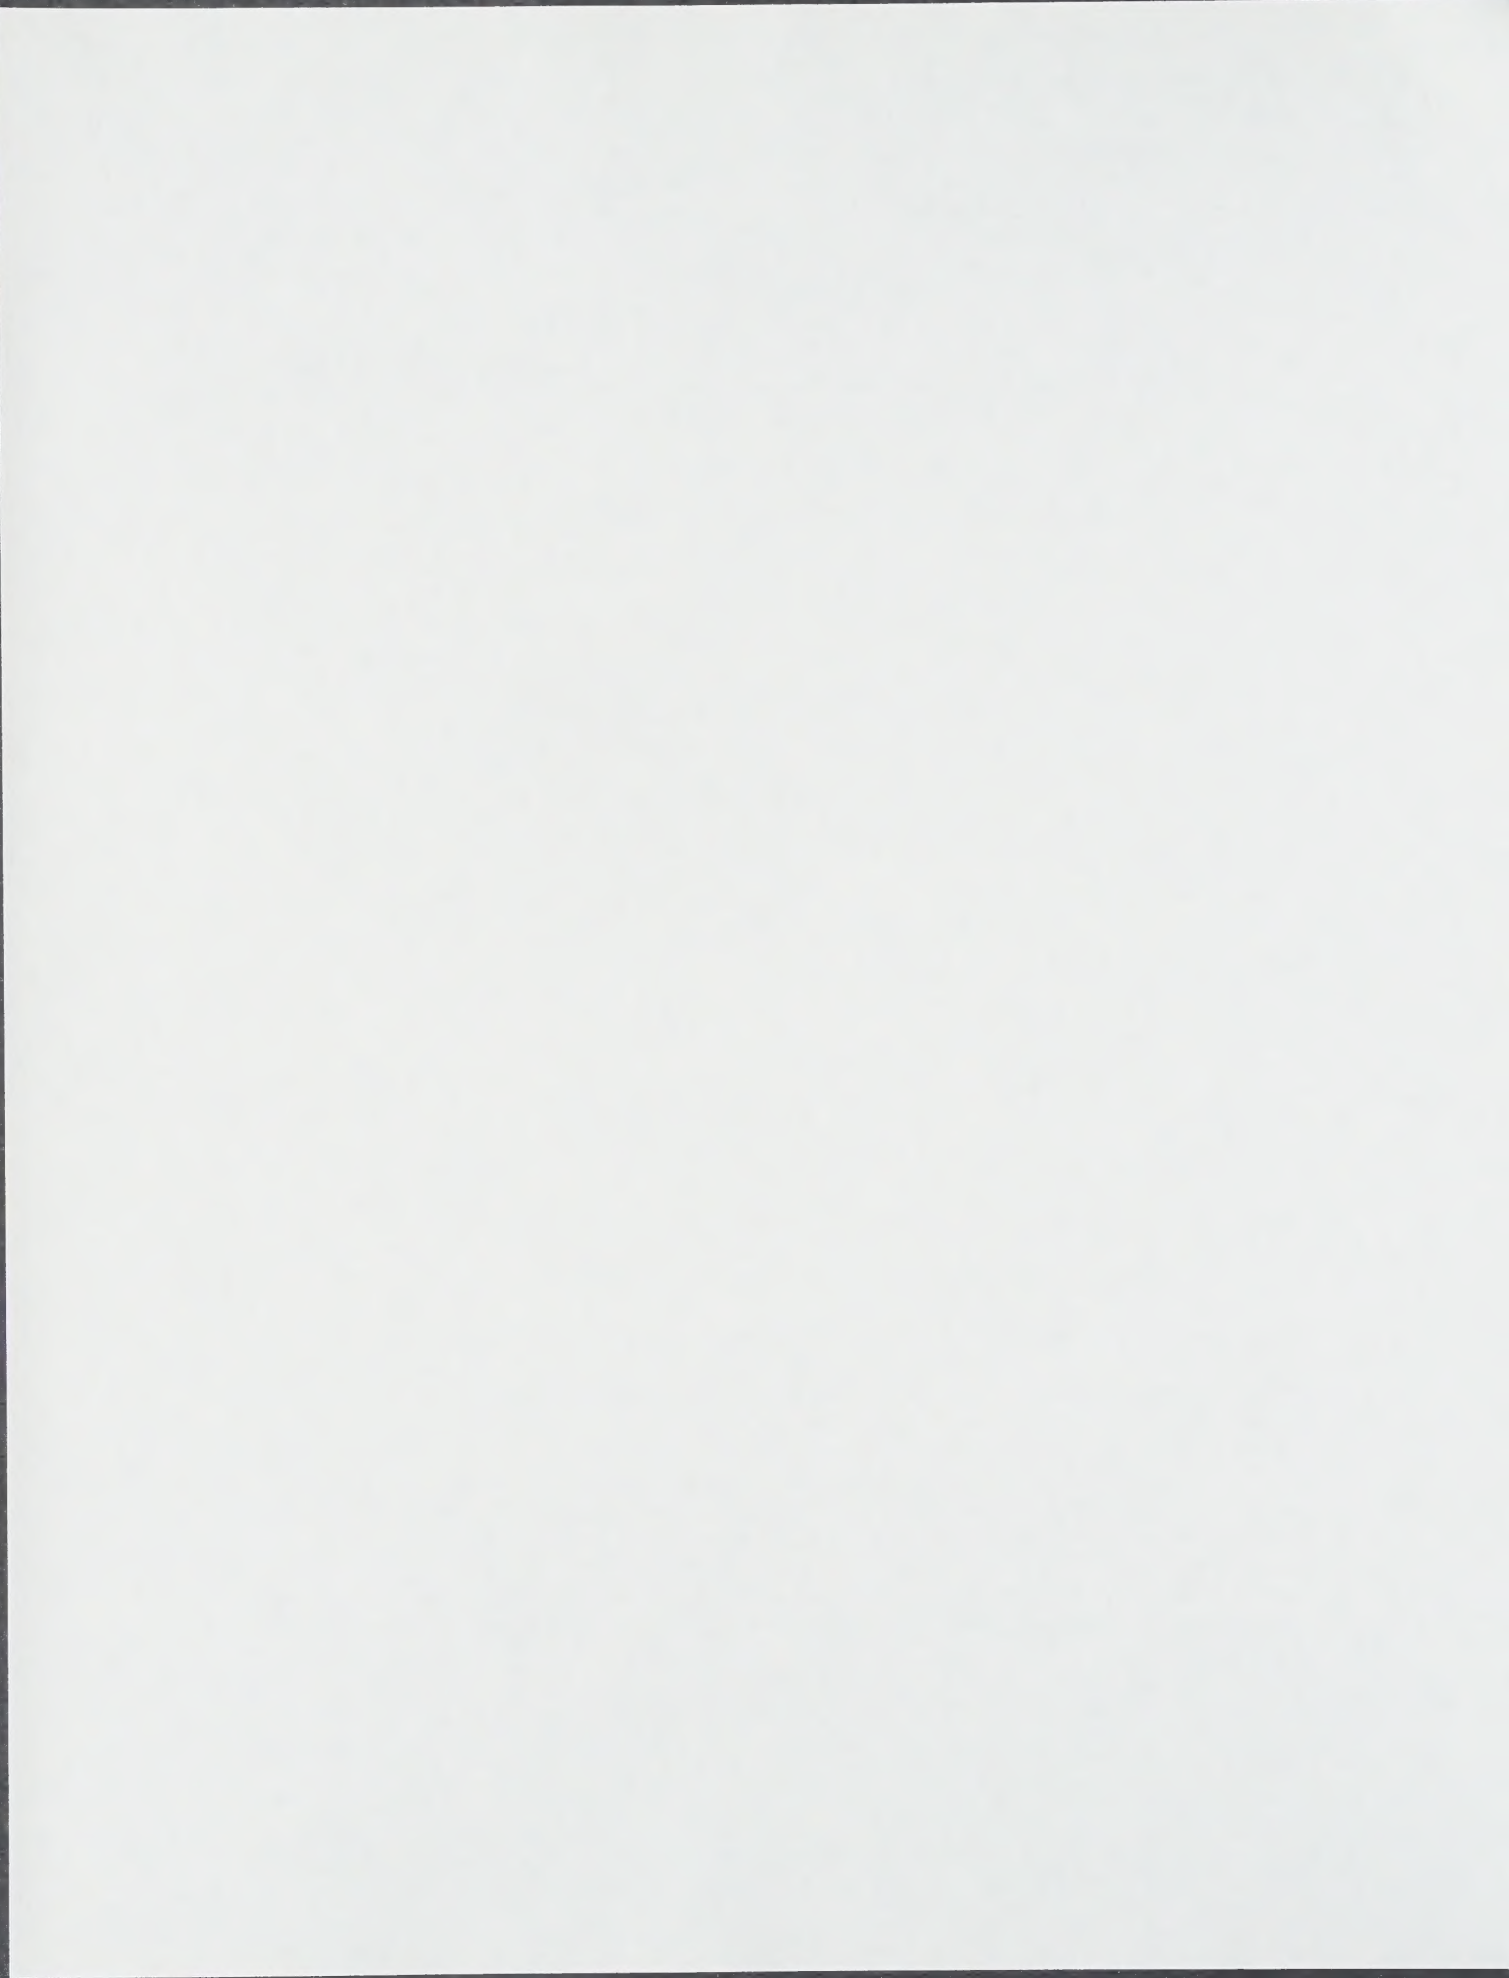

I will be taking holidays next week and you will be leaving on April 1 to begin your trip. If there is anything which needs to be done during the next week please contact Roger Cowles Fax 403-970-6805.

The Edmonton community is looking forward to your visit.

Jean

Dear Ed:

I am happy to have your fax of March 10 and the schedule looks easy and straight-forward. For the first two talks, I will require two slide projectors so that I can show two slides simultaneously, either on two screens or one large screen.

For the afternoon presentation on Friday, on the history of Aldrich, I would like to use an overhead projector.

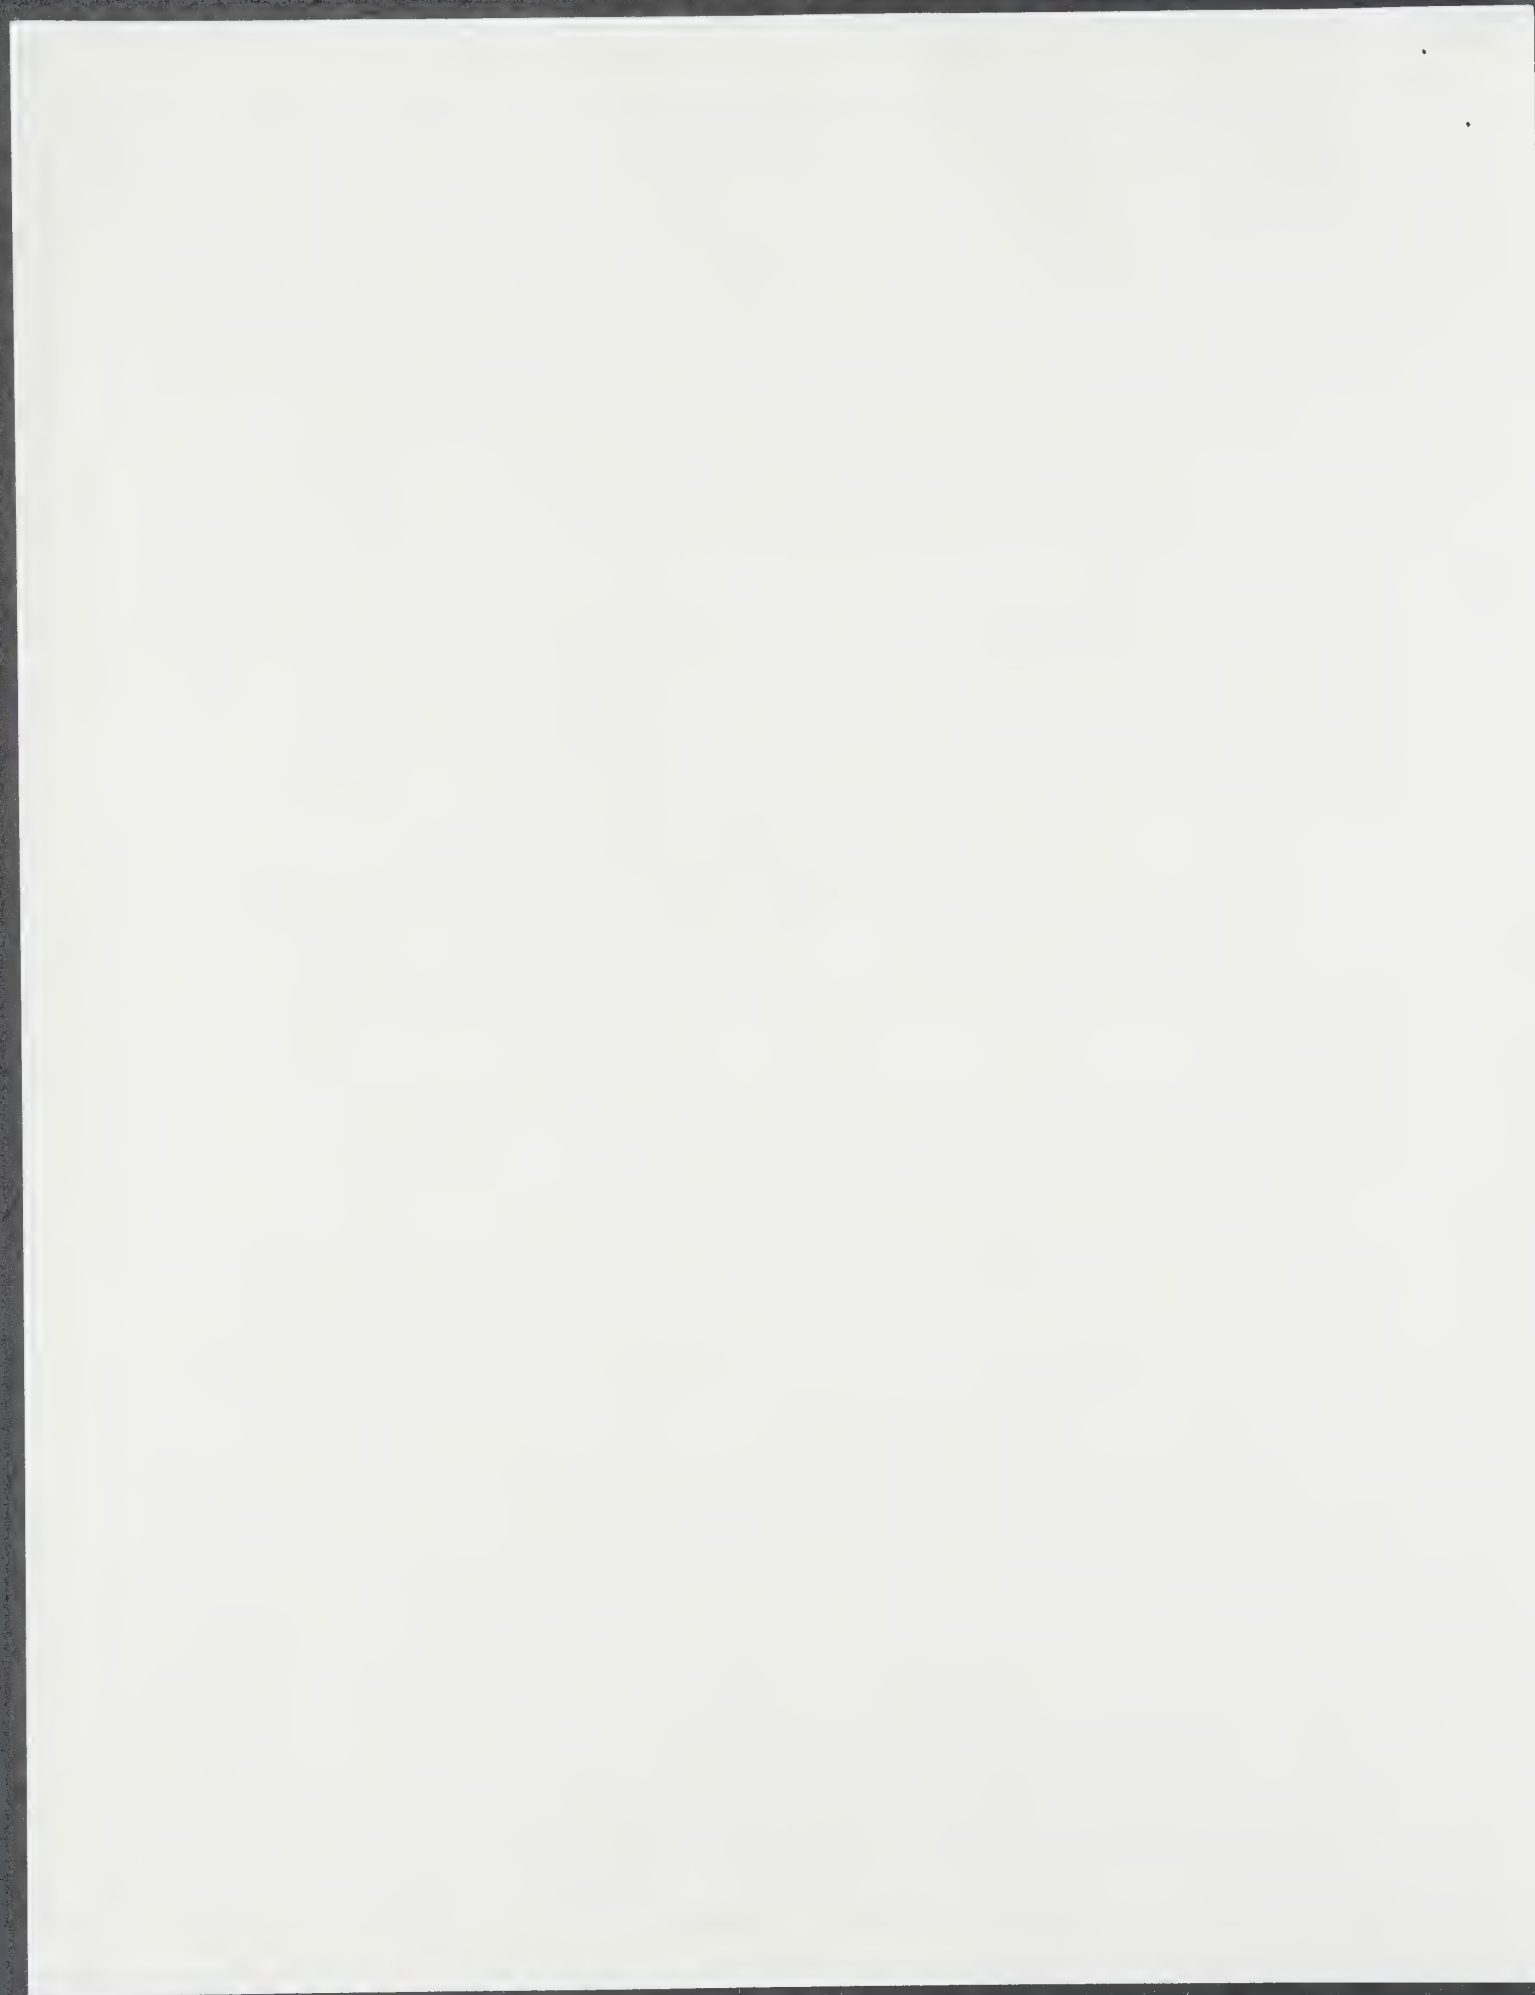

I have not yet heard from Mr. Don Kossuth but would be happy to speak to the Queen's Alumni Association, either on Friday evening or on Saturday. We will be leaving on Sunday noon for Edmonton.

For the Queen's Alumni Association, it might be best to present a talk akin to "The Adventures of a Chemist Collector" but concentrating on paintings that I have already given to Queen's University.

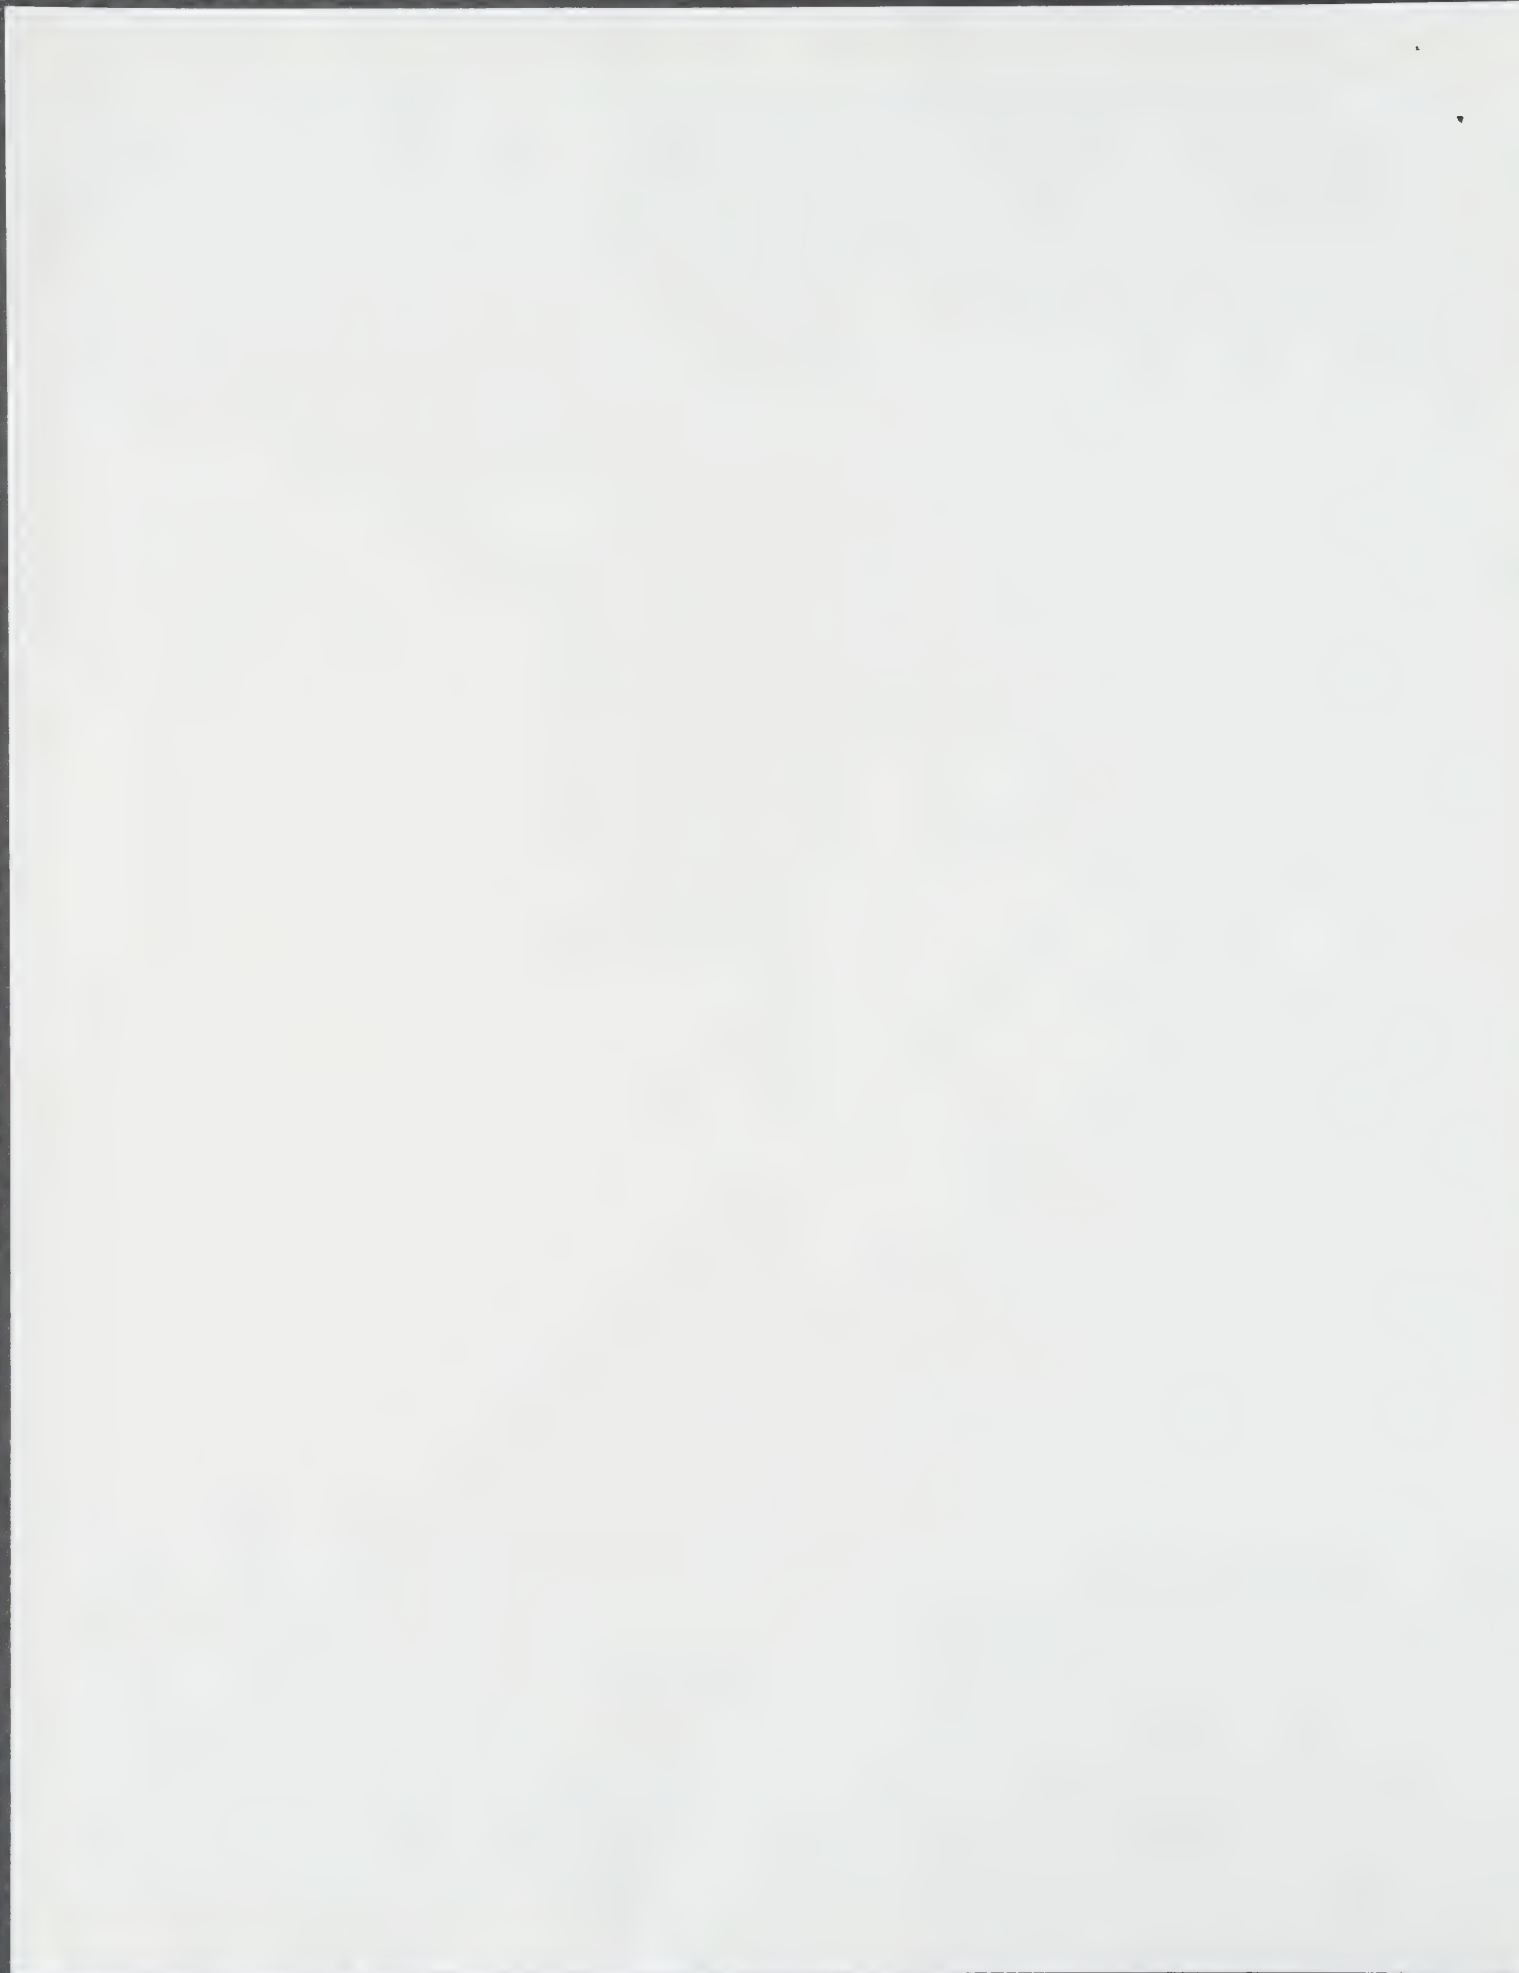

With all good wishes, I remain,

Yours sincerely,

March 13, 1995

Dear Dr. Bader

We have made further plans for your visit to Edmonton on April 9-11 and I want to confirm them with you.

I have booked you and Mrs. Bader at the Hotel MacDonald which is a CP hotel located downtown. I have requested a non smoking room with two double beds. I think you will be very comfortable in this hotel.

I assume you will be making your own travel arrangements. If you tell us on which flight you will be arriving we can arrange for some one to meet you and take you to your hotel and later to the Tertzakians' home. As you know the Tertzakians have invited you and Mrs. Bader to dinner on Sunday.

On Monday the first lecture is scheduled at 11:00 am at the University. Prior to that Dr. Kratochvil, Chemistry Department Chair, would like to give you a tour of the Department. Also he would like to schedule some time for you to meet with Dr. Stan Brown who will be joining Queen's University as Chair of the Chemistry Department. If you suggest at what time you would like to begin your day, Dr. Kratochvil will arrange transportation to the University for you.

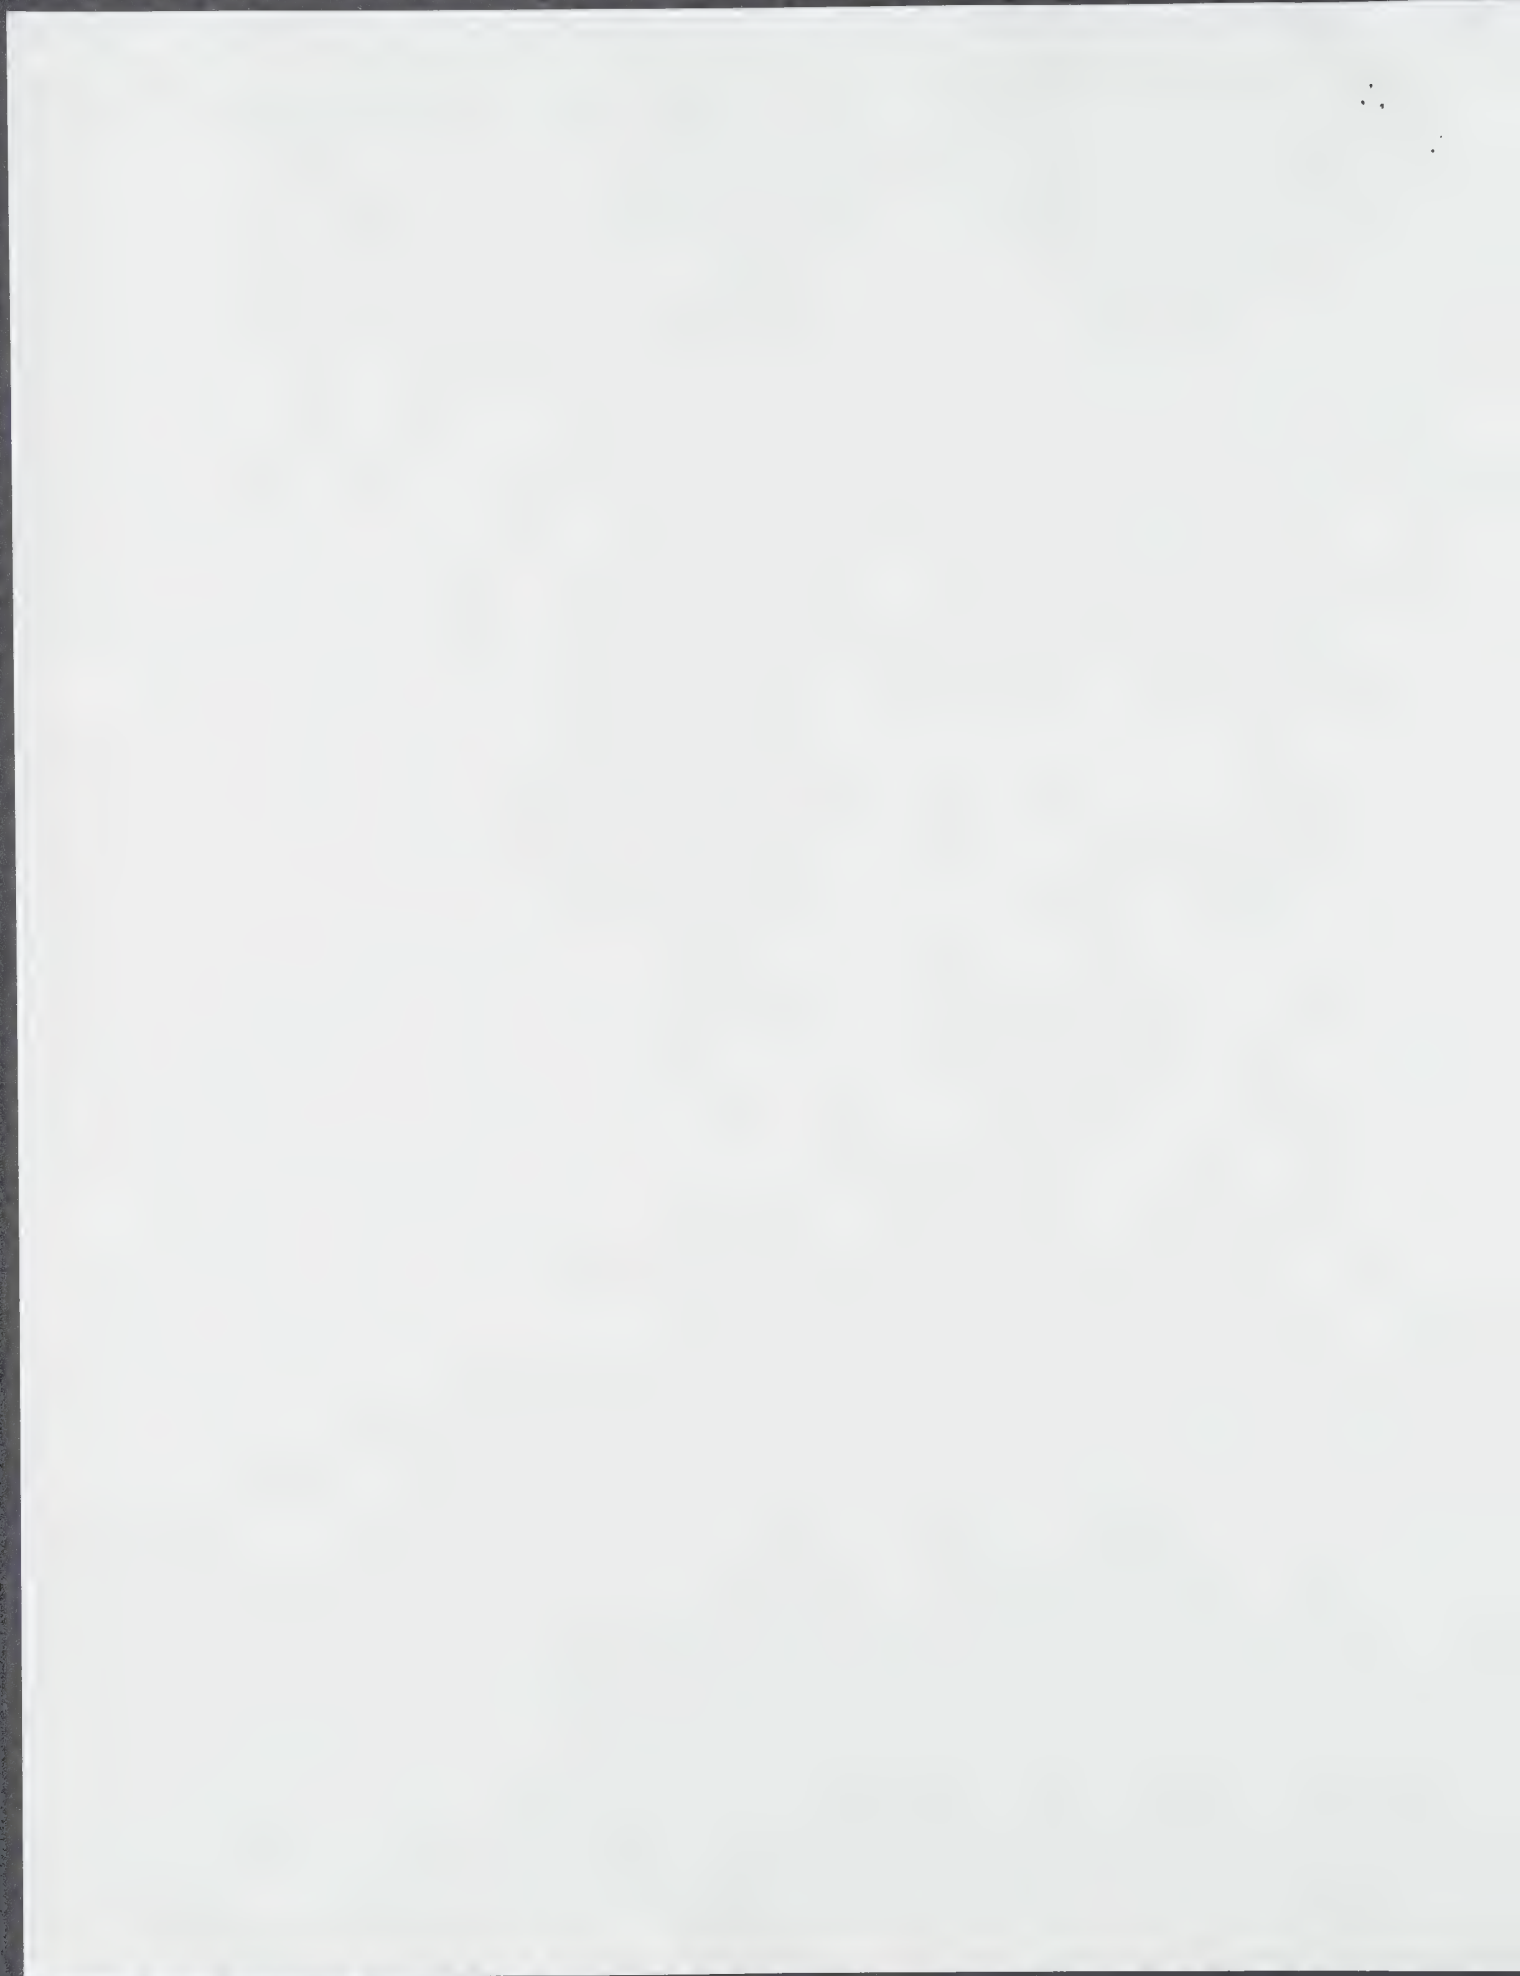

We are publicizing your lectures at the Art Gallery and at King's College University. An additional means to do this would be through a Monday morning short interview on our local CBC radio station. If you are amenable we would like to arrange this prior to going to the University - but we will wait your instructions on this matter.

We would like you to join some members of the Chemistry Department for lunch on Monday. Following lunch the afternoon has been reserved for you and Mrs. Bader to visit with Dr. and Mrs. Norman Jones and have an early dinner with them. We have confirmed this time with the Jones.

Monday evening we have scheduled a lecture at the Art Gallery at 8:00 pm. Prior to your lecture the Art Gallery will be open for one hour to allow us to visit their exhibits.

On Tuesday morning we hope you will again visit the Chemistry Department to meet with additional faculty members prior to your 11:00 am lecture. As on Monday morning transportation can be arranged for you at your convenience.

Dr. Rod Fraser, the new University of Alberta President and a former Queen's University faculty person, would like you to join him for lunch and some discussions on Tuesday. Following lunch there is some free time in the late afternoon. Some chemists who were involved in the 75th CSC Conference would like to take you for an early dinner on

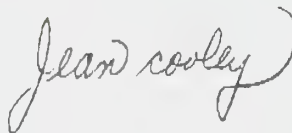

Tuesday night prior to your lecture at King's College University. This would be at La Ronde Restaurant which is the revolving restaurant on top of the Crowne Plaza Hotel.

The above schedule is open to any suggestions you have. We know Mrs. Bader will want to accompany you during your social visits to the Tertzakians and the Jones. Is there any special arrangements she would like for the remaining time or would she prefer to accompany you throughout the visit? She would be most welcome at all our events.

We agreed we would reimburse you for your expenses to travel to Edmonton. Please let us know the cost of the air lines tickets and we will arrange for a cheque.

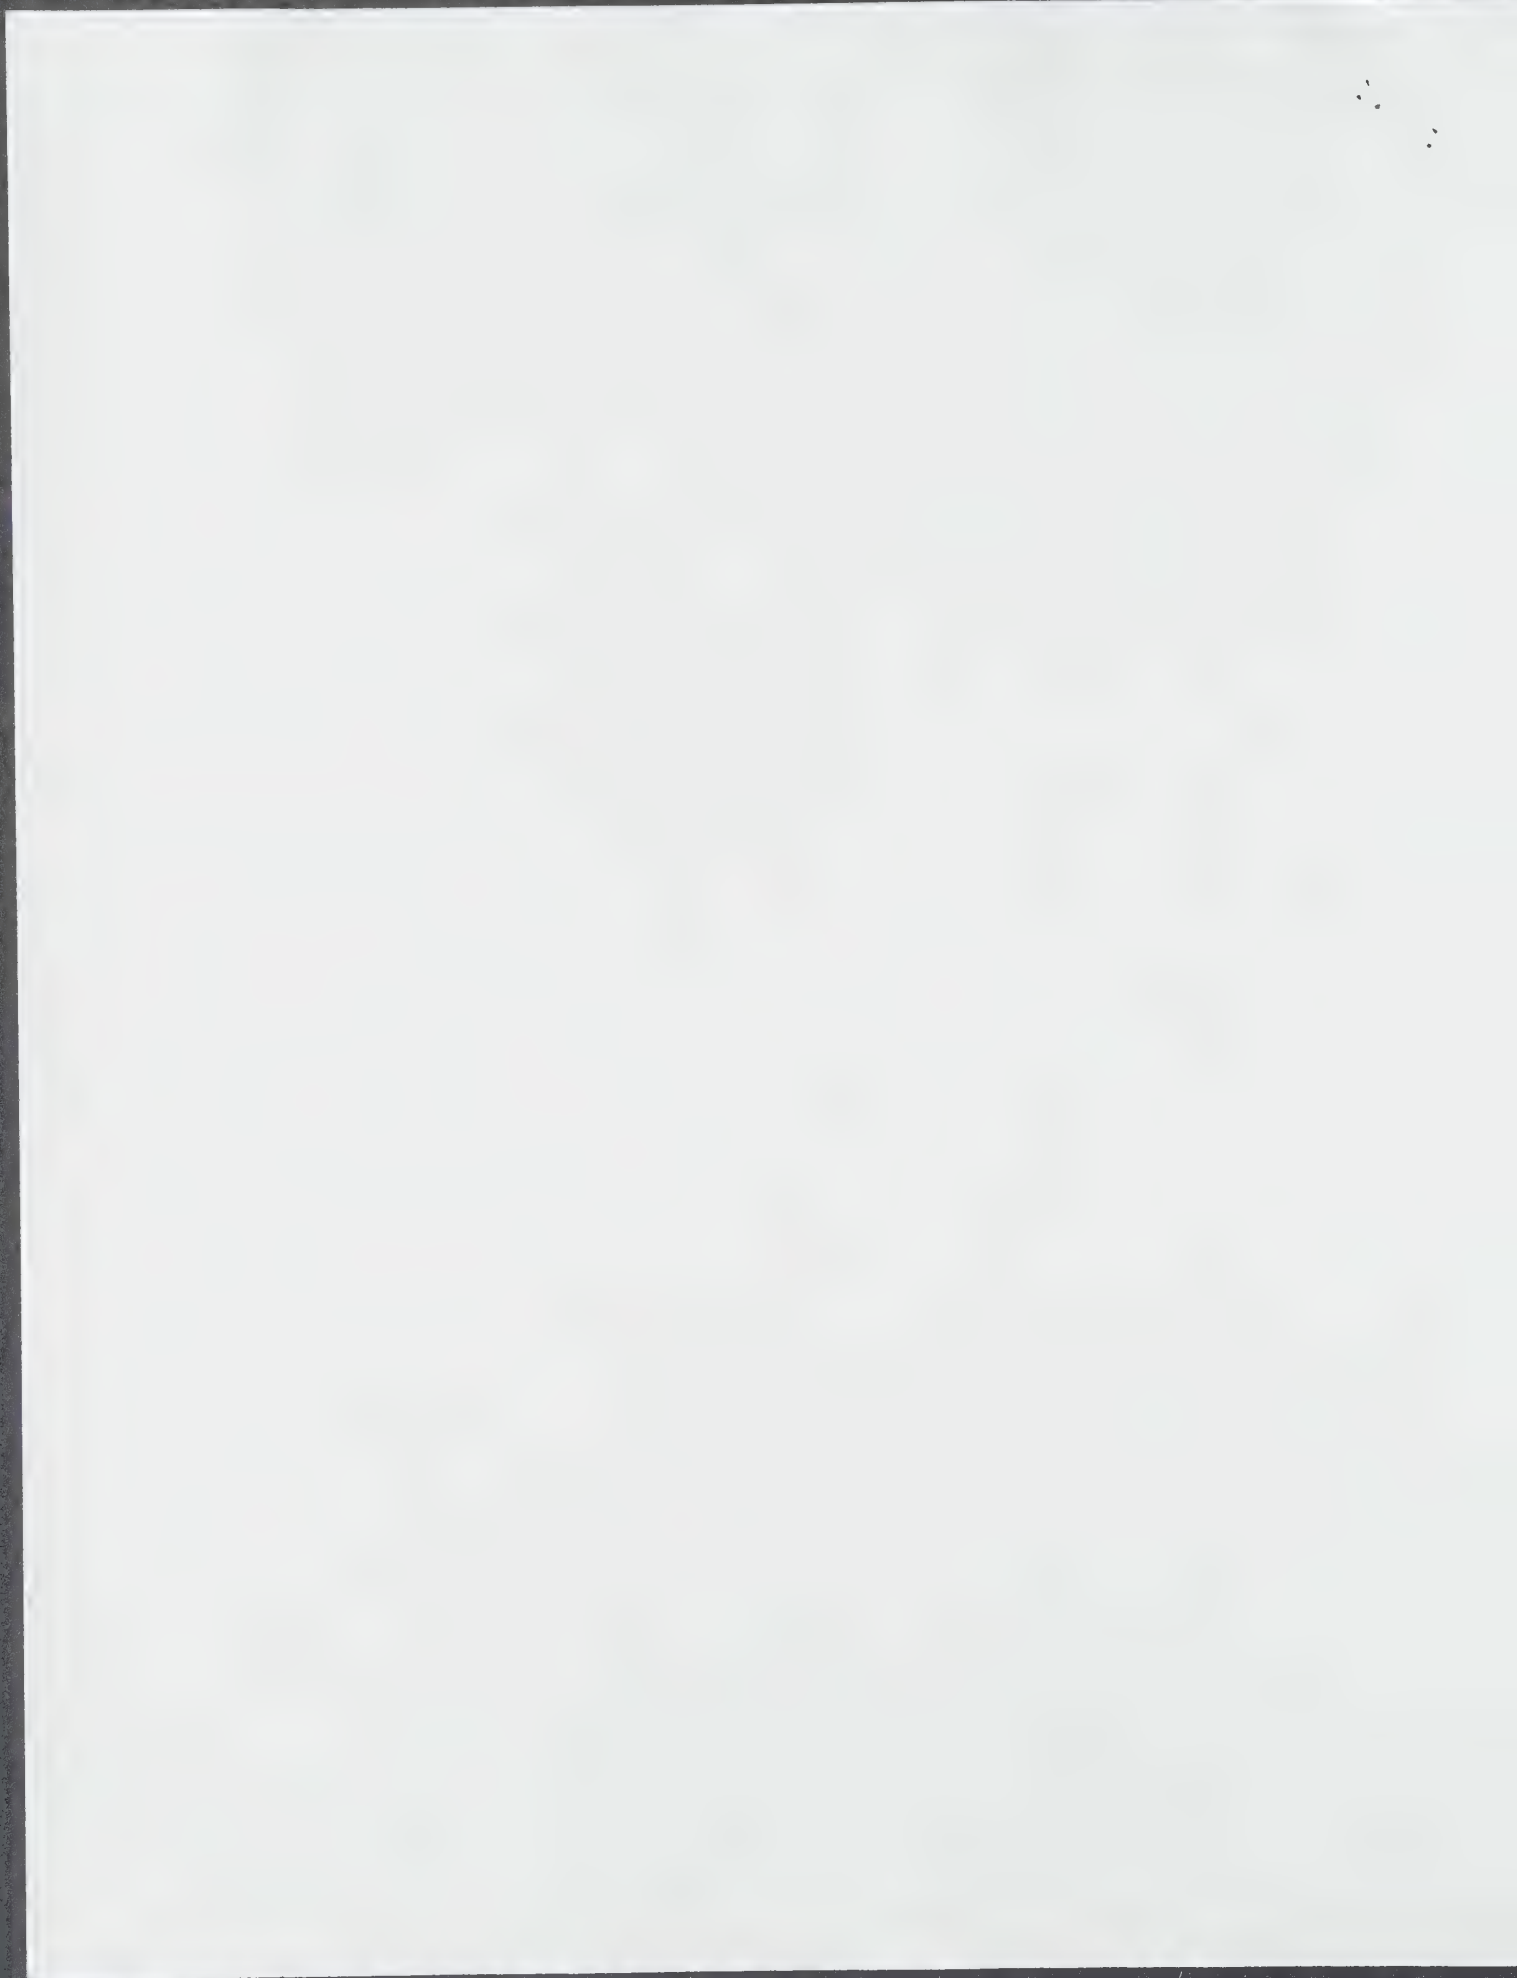

We are looking forward to your visit.

Sincerely

A handwritten signature in cursive script that reads "Jean Cooley".

75th CSC Conference Lectures

Schedule for Dr. Alfred Bader's visit April 9-12th 1995

Sunday 9th April:

Dr. and Mrs. Bader arrive. Early afternoon (time to be confirmed)
We will meet the plane if we have the flight information.

Hotel MacDonald, 10065 100 Street
April 9 - 12
Confirmation number 6364
Non Smoking room with two double beds

Evening: dinner with Gerry Tertzakian

Monday 10th April:

Early Morning

Morning Transportation arranged from Hotel to U of A Chemistry Department
Tour of Chemistry Department by Dr. Ron Kratochvil, Chair
Discussion with Dr. Stan Brown (future Chair of the Chemistry Department, Queen's University)
Discussion with other members of the Chemistry Department

11.00am talk at U of A Chemistry Department

"Josef Loschmidt - The Father of Molecular Modelling"

Lunch

Members of the Chemistry Department

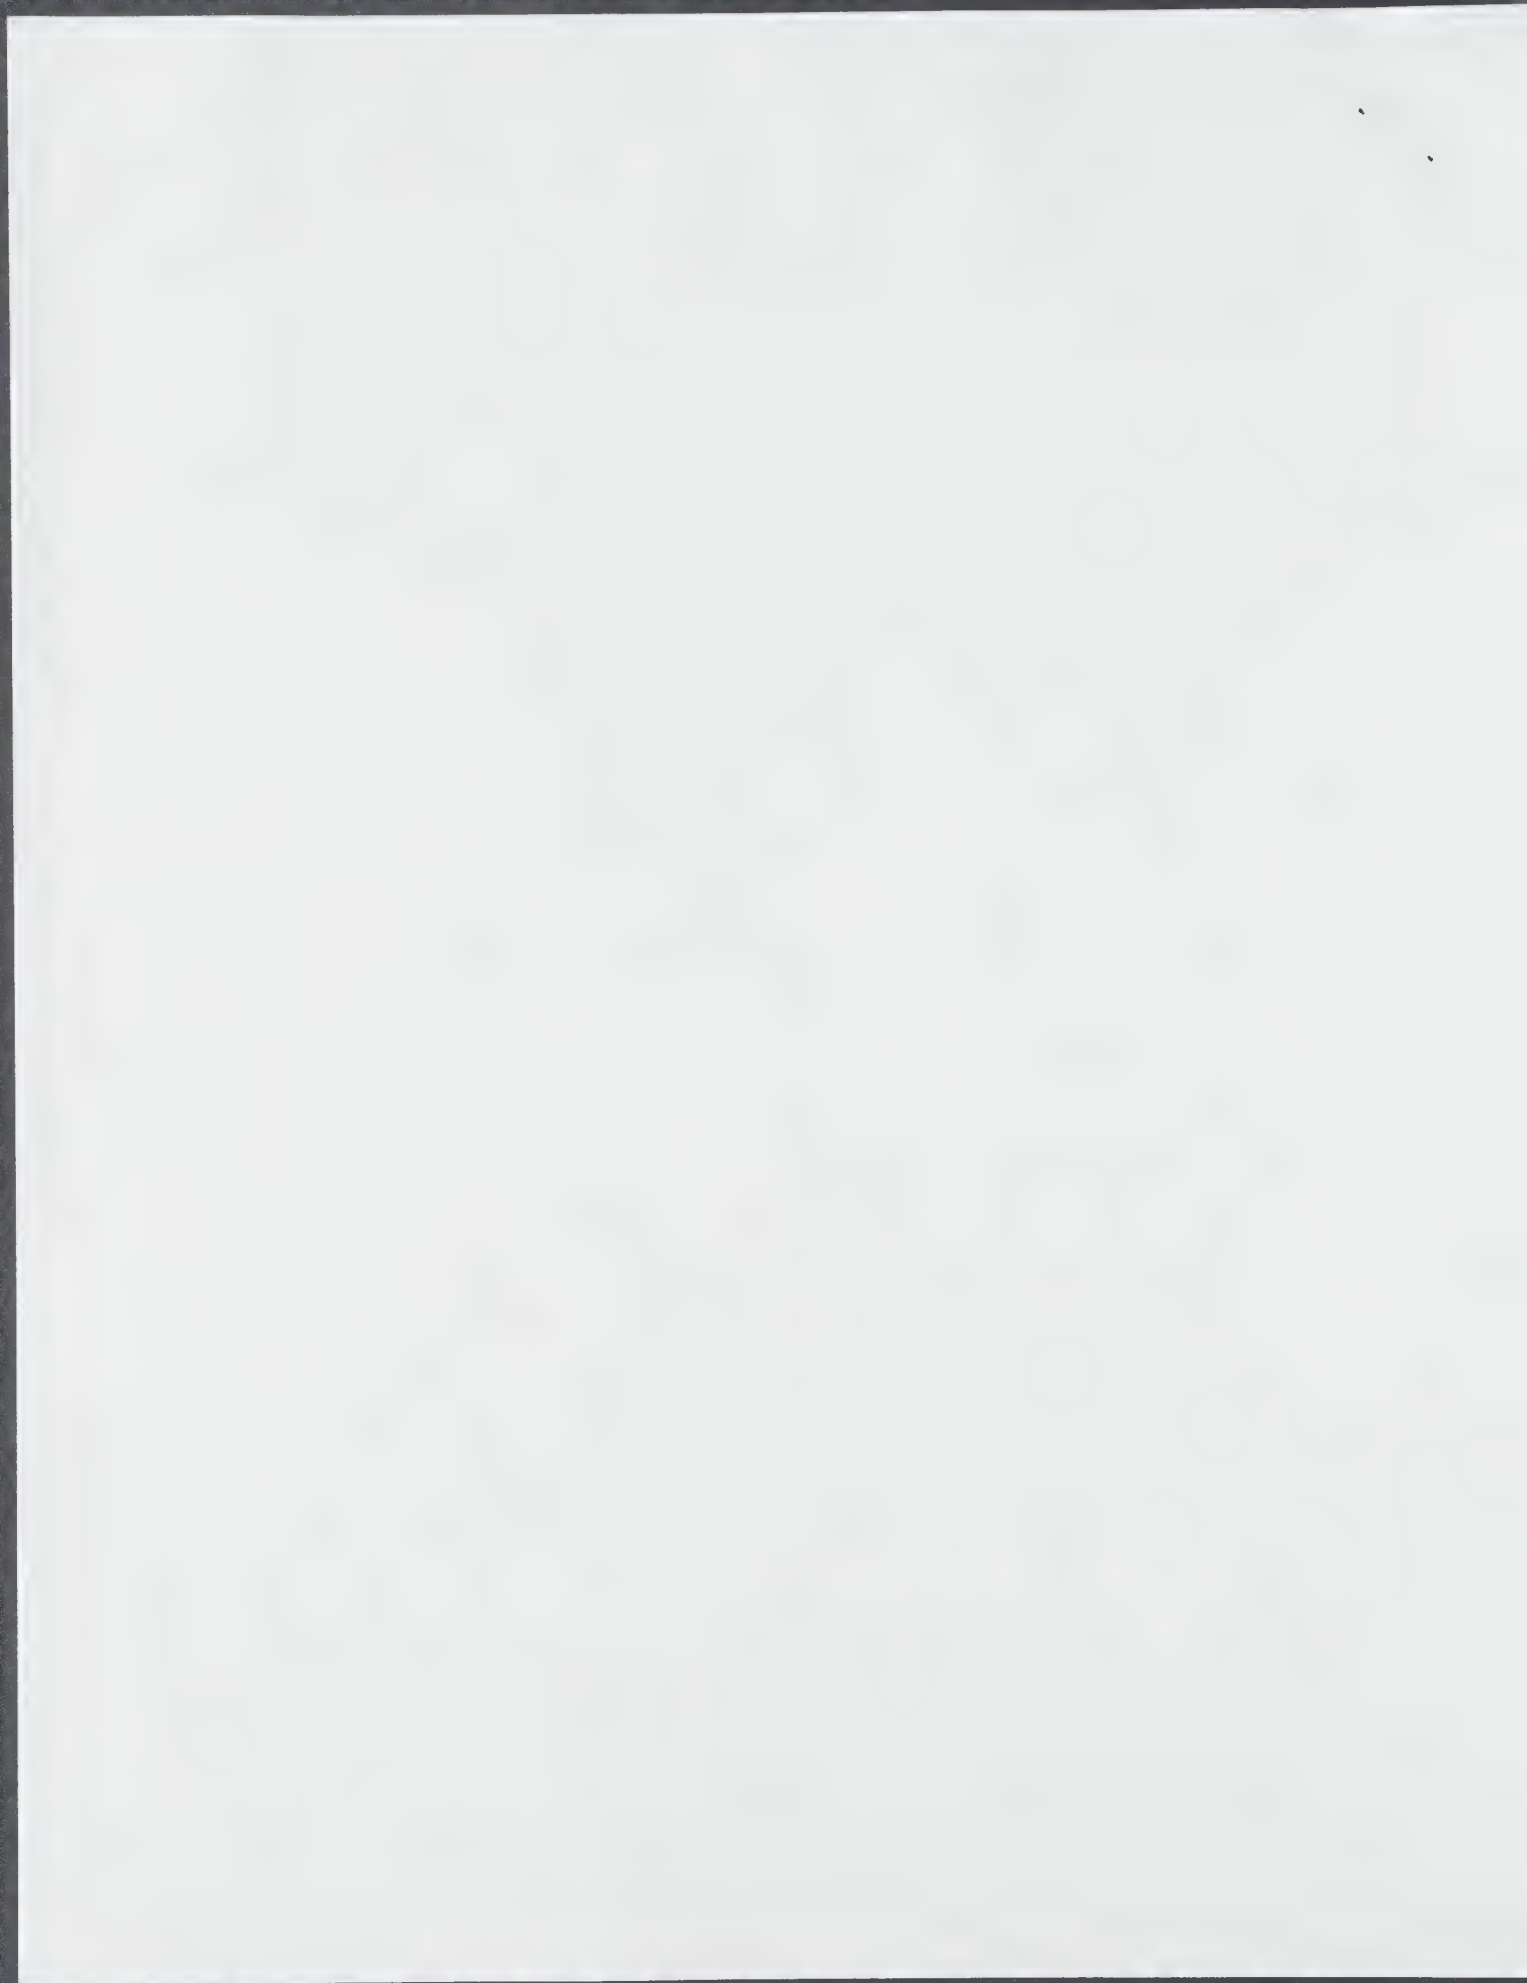

Afternoon and Dinner

with Dr. Norman Jones and Mrs. Jones

Evening

7.00 pm at the Edmonton Art Gallery

7.00-8.00 Gallery will be open for viewing.
8.00 Talk **"The Adventures of a Chemist-Collector"**

Tuesday 11th April

Morning

Continue in the Chemistry Department (same as April 10)

11.00 am talk at U of A Chemistry Department

"History of the Aldrich Chemical Co."

Lunch: with Dr Fraser (President U of A and Alumnus of Queen's) → 3.30pm

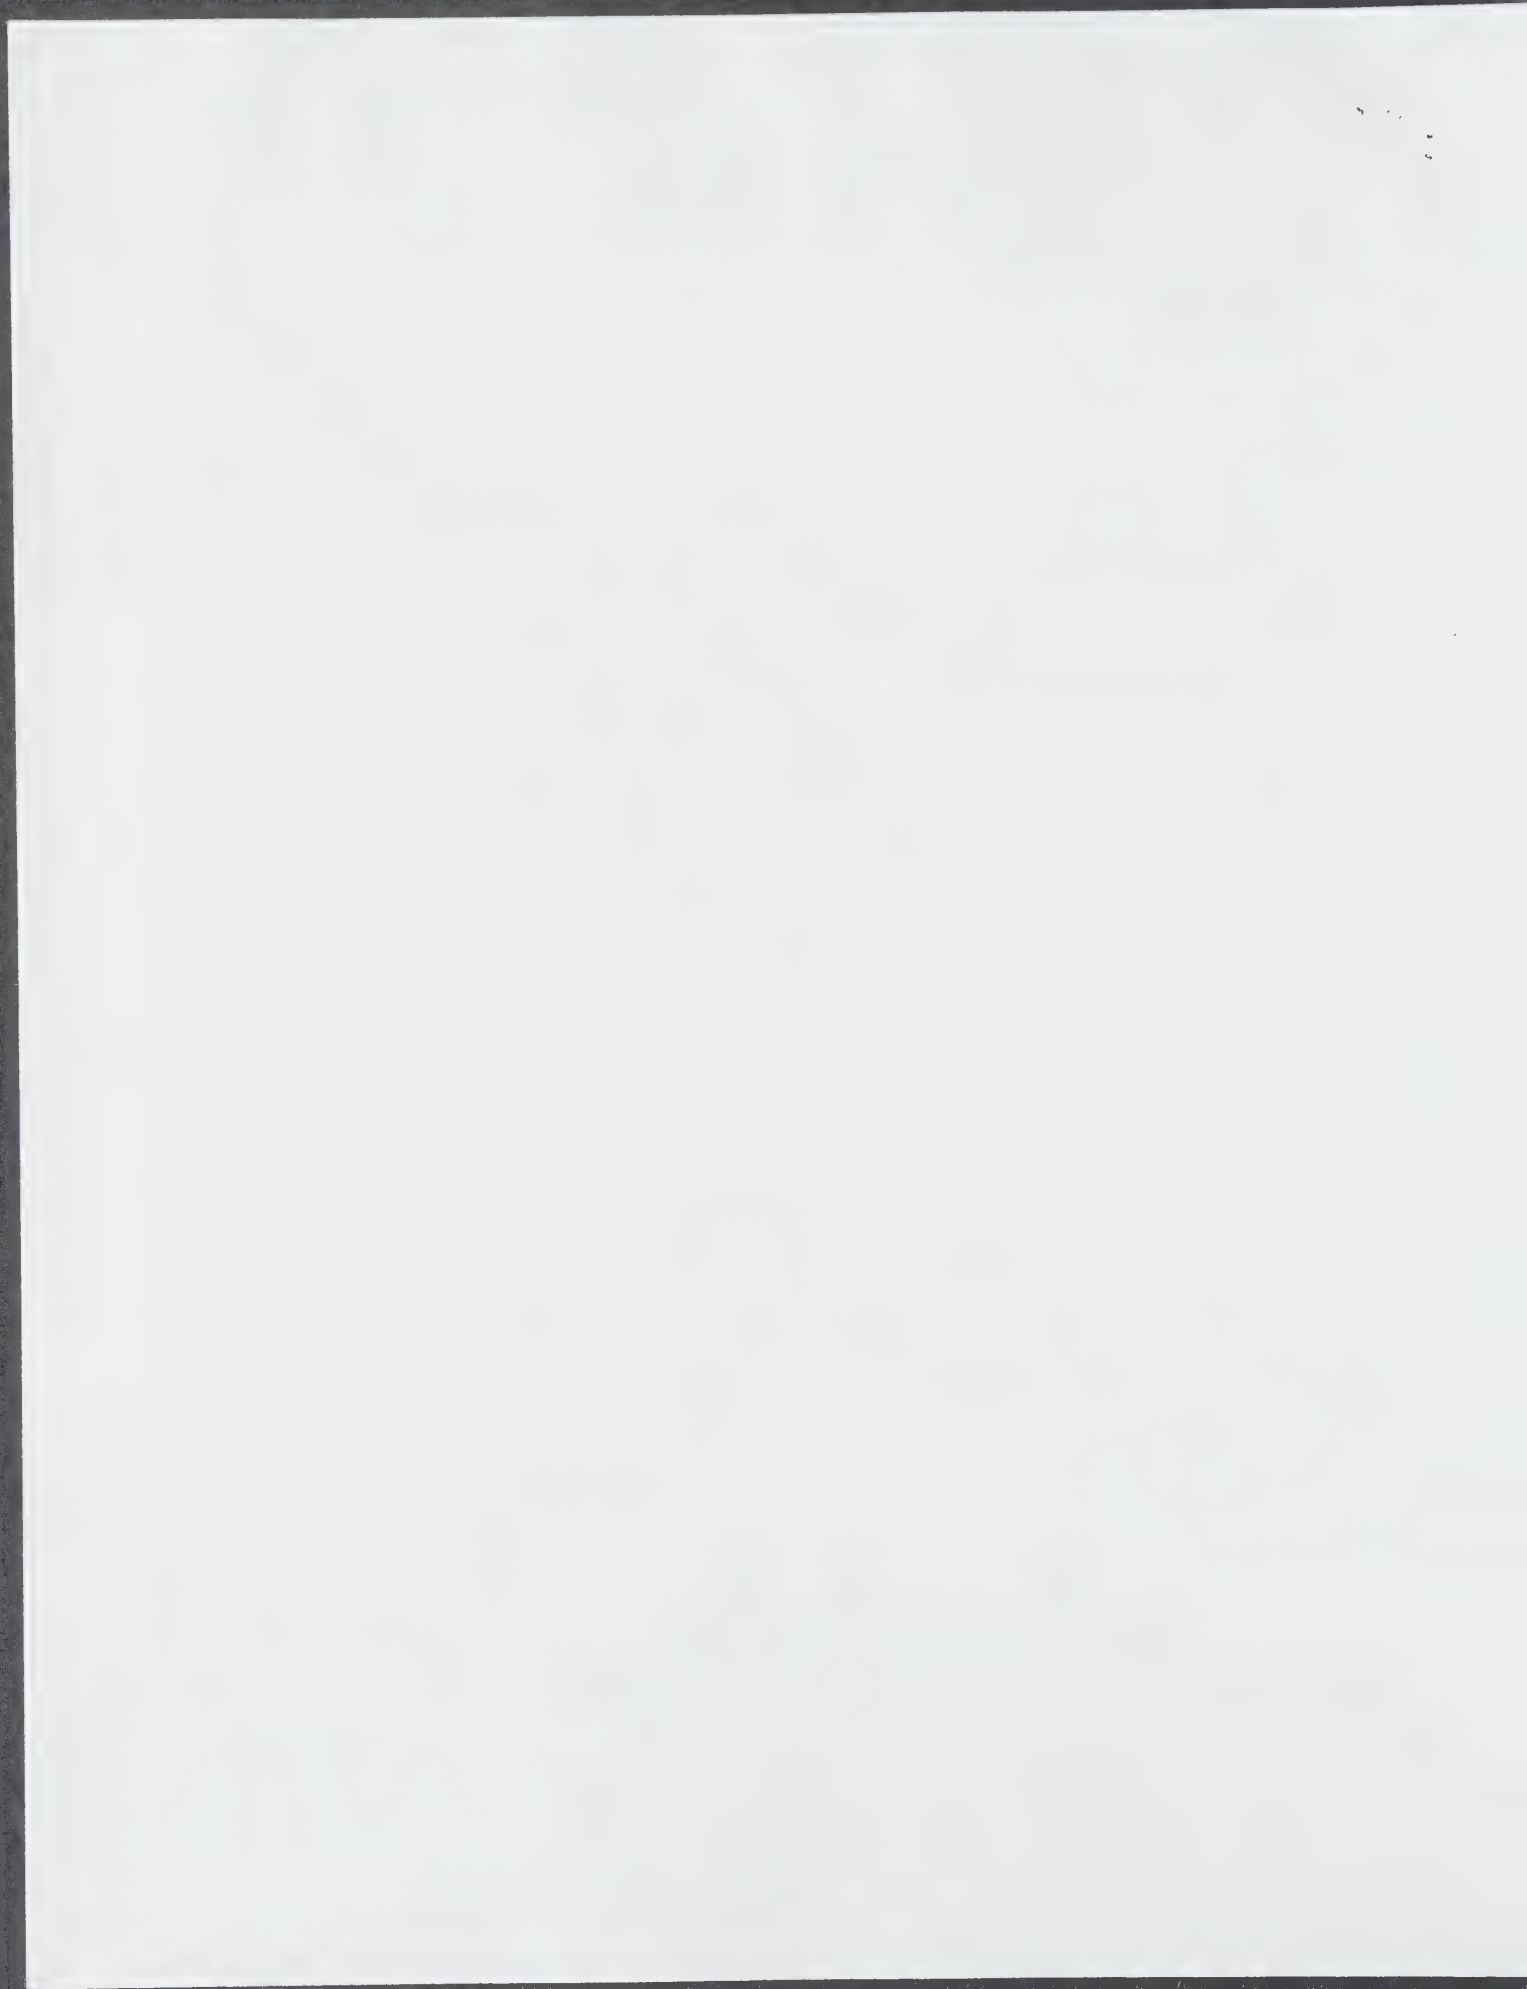

Early dinner

Members of the CSC Lecture series, La Ronde Restaurant at Crowne Plaza Hotel

7.30pm Talk at King's University College

"The Bible Through Dutch Eyes (Rembrandt and the Jews)"

Wednesday 12th April: Depart

FAX FROM

Fax No. 414-277-0709

March 14, 1995

Page 1 of 4

To: Dr. Jean Cooley
Syncrude Canada Ltd.
Fax: 403/970-6805

Dear Dr. Cooley:

Thank you so much for your five-page fax received today and for the wonderful care you have taken of us.

To answer your various questions one by one:

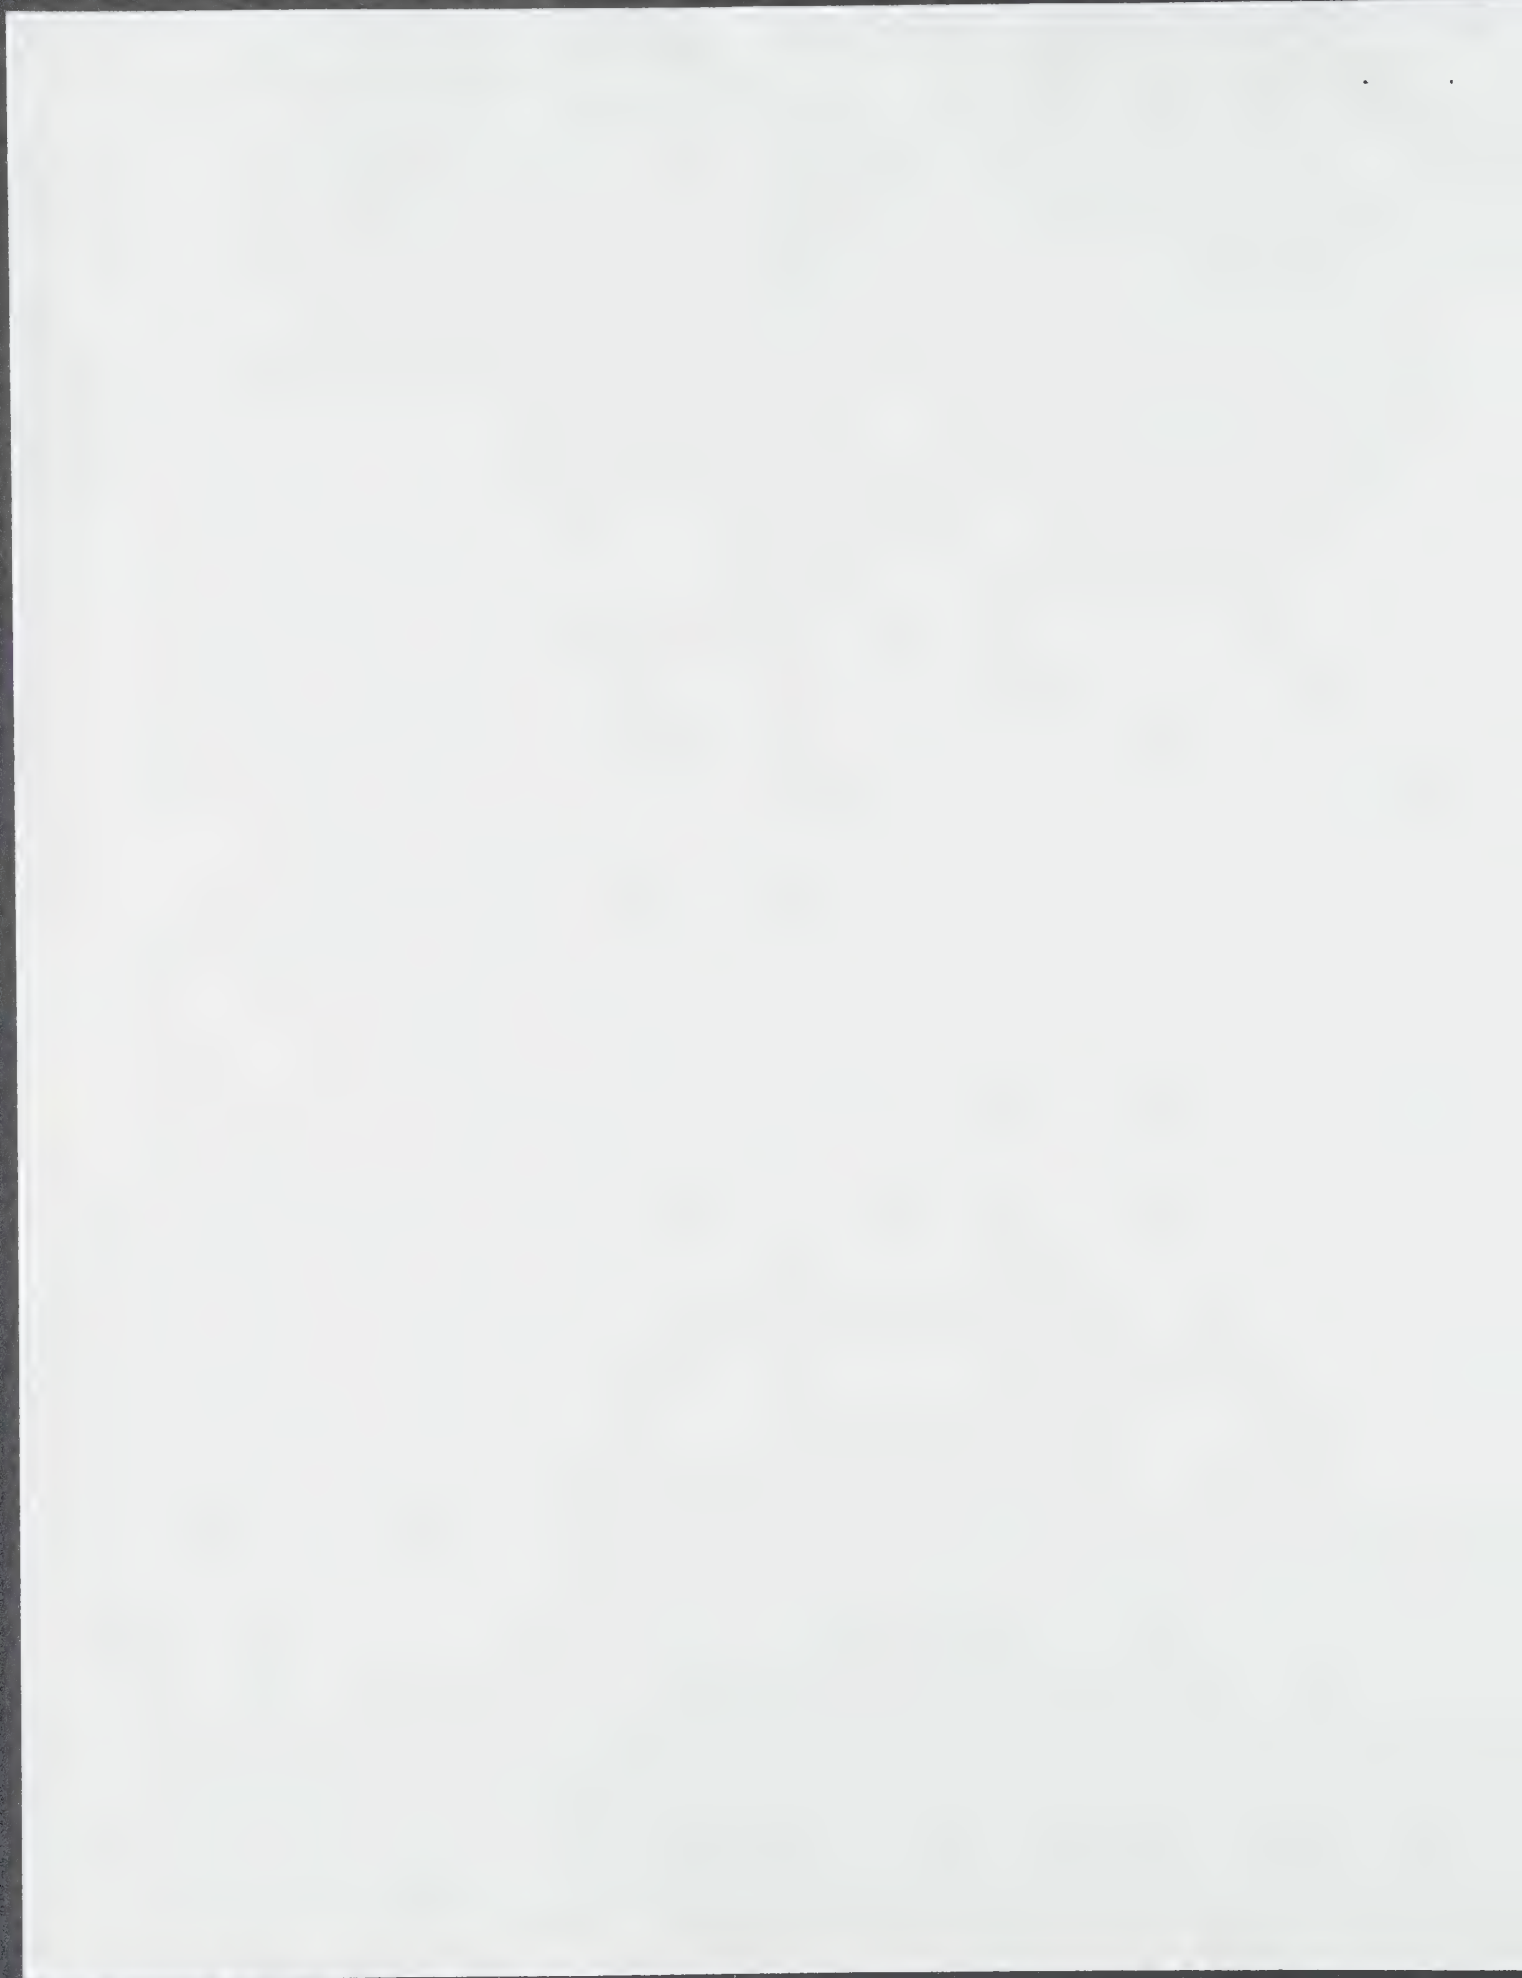

We expect to arrive in Edmonton from Vancouver on Canadian Air Flight #644 at 2:22 p.m. on Sunday, April the 9th.

On Monday morning, could we be picked up at 9:00 a.m.? We much look forward to spending time with Professors Kratochvil and Brown, though we would much rather spend more time with them just talking about chemistry, the Czech Republic and Queen's, rather than a lengthy tour of the department. I know, of course, that the Chemistry Department at the University of Alberta has long been one of the very best in Canada, but talking to people is more important than looking at laboratories.

Of course, I would be happy to give an interview on your local radio station.

Norman Jones is the man who first excited me in chemical research, at Queen's in 1945, and he and Magda have been our good friends ever since. We so look forward to being with them and the Tertzakians.

President Rod Fraser was Vice Principal at Queen's, and we much look forward to seeing him. It was clear from his first speech at the University of Alberta how much he enjoys coming back to Alberta.

Dr. Jean Cooley
March 14, 1995
Page 2

For the talks on Loschmidt and the two talks on paintings, I will require two slide projectors so that we can show two slides at the same time. We will bring our own packed Kodak carousels, and Isabel will look after these during the talks.

For the Tuesday morning talk on the history of Aldrich, I would like to use an overhead projector.

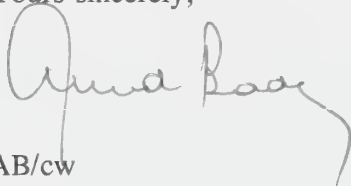

As you will see from the flight schedule, we plan to leave Edmonton at 8:30 a.m. on Wednesday morning.

Also, as you will see from the enclosed, our total airline charges are \$1,618.66 ^{US} (\$809.33 each). I presume that we will spend practically nothing during our days in Edmonton. Hence, would it seem fair to you that Edmonton and Vancouver each pay for 1/4 of our airline expenses? If that seems satisfactory, please let me have a check for U.S.\$404.66 at your convenience.

Throughout the trip, Isabel will want to be with me, and both of us look forward to meeting you and thanking you personally for all your help.

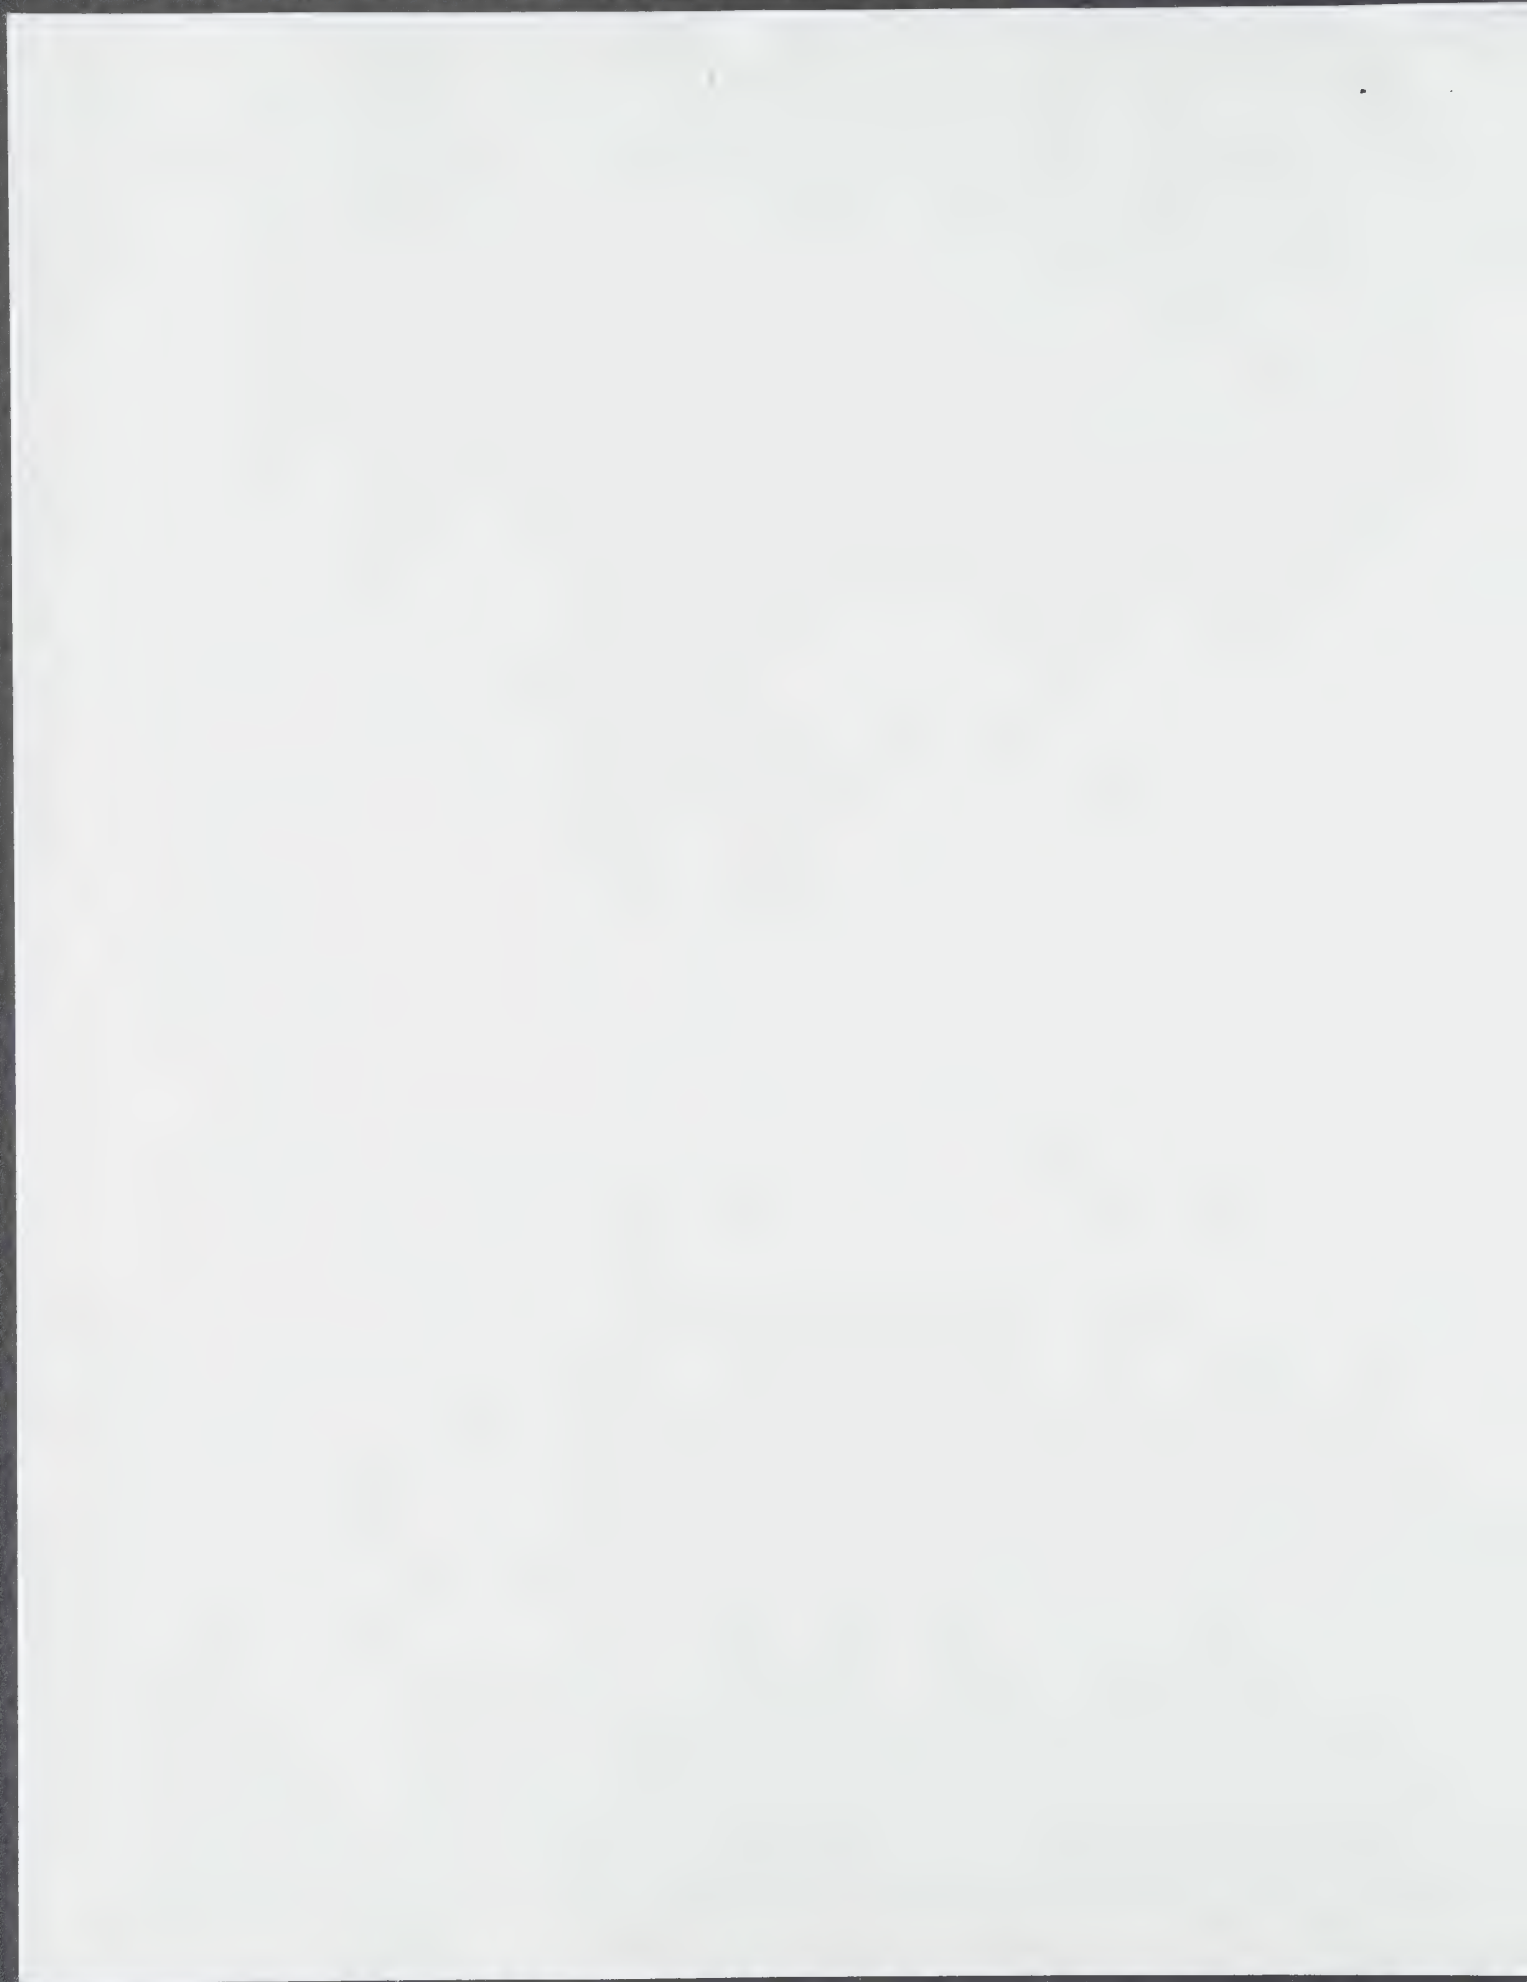

With best regards, I remain,

Yours sincerely,

AB/cw

Dear Ed:

I much look forward to being with you in Vancouver on the 6th and 7th of April.

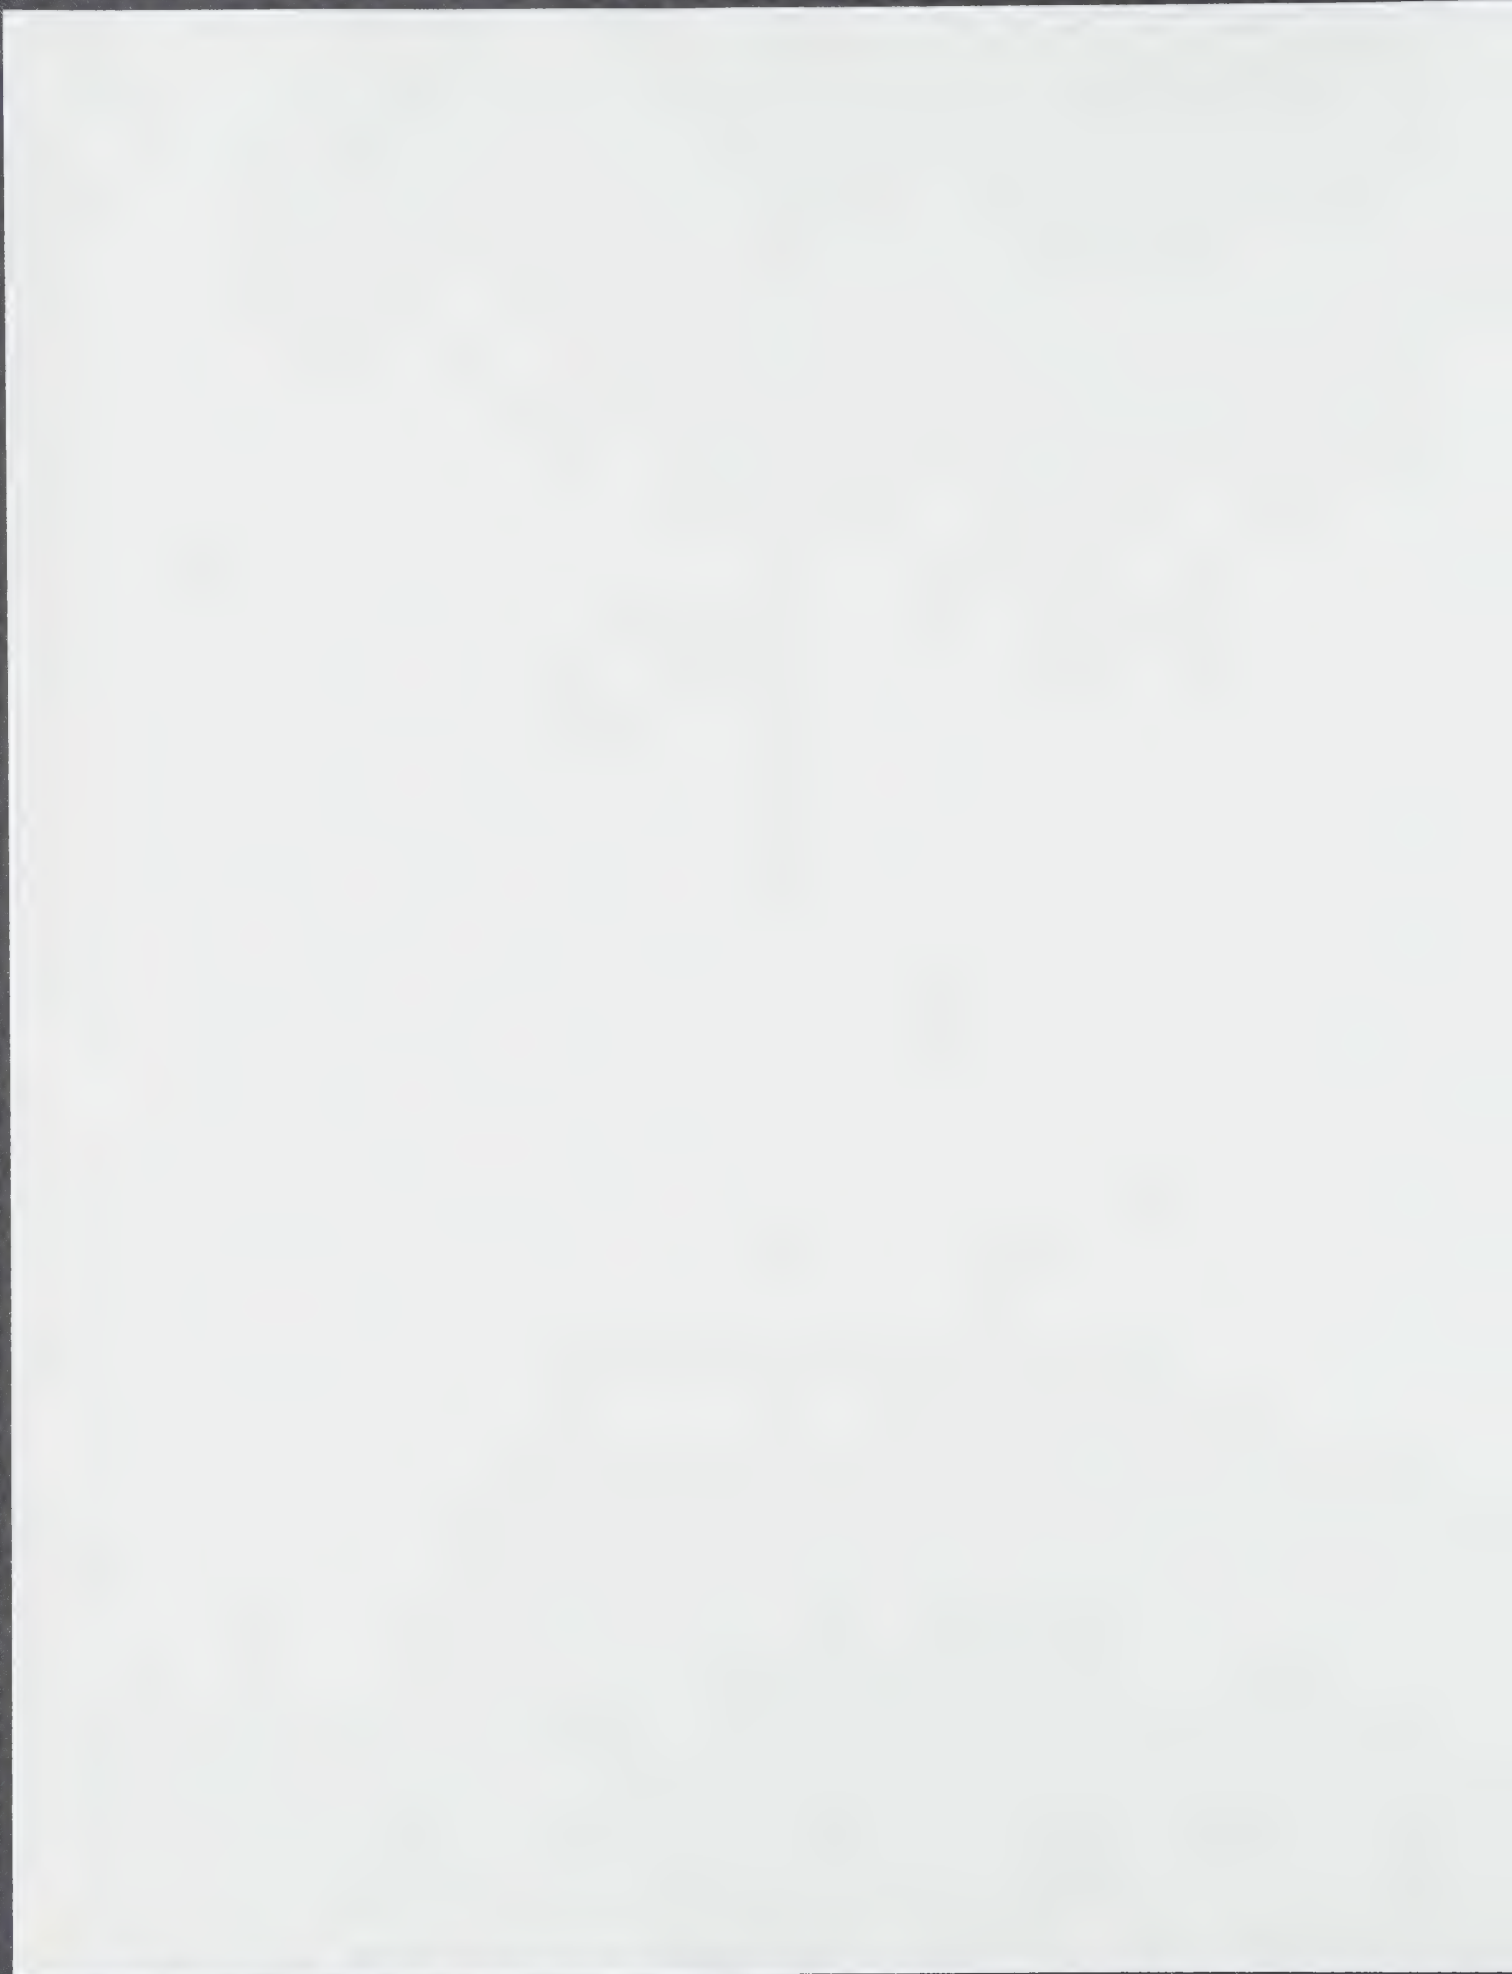

As you know, we will be staying with Isabel's brother, and then fly to Edmonton on April 9th, to give lectures there on the 10th and 11th.

You have the menu of my talks, and I would appreciate your letting me know which subject you picked, and what time.

All good wishes.

Sincerely,

Dear Alfred:

Greetings from Vancouver!

From our previous correspondence and from your letters to Dr. Cooley in Edmonton, it is my understanding that you and Isabel will be available to visit UBC on April 6 and 7, 1995, after you have attended the ACS meeting in Anaheim. These proposed arrangements are fine with us. We note that you are willing to give three or four lectures during your visit and I will give you our lecture preferences later this fall, after I have consulted further with my colleagues. We will make sure that your talks are widely advertised on campus.

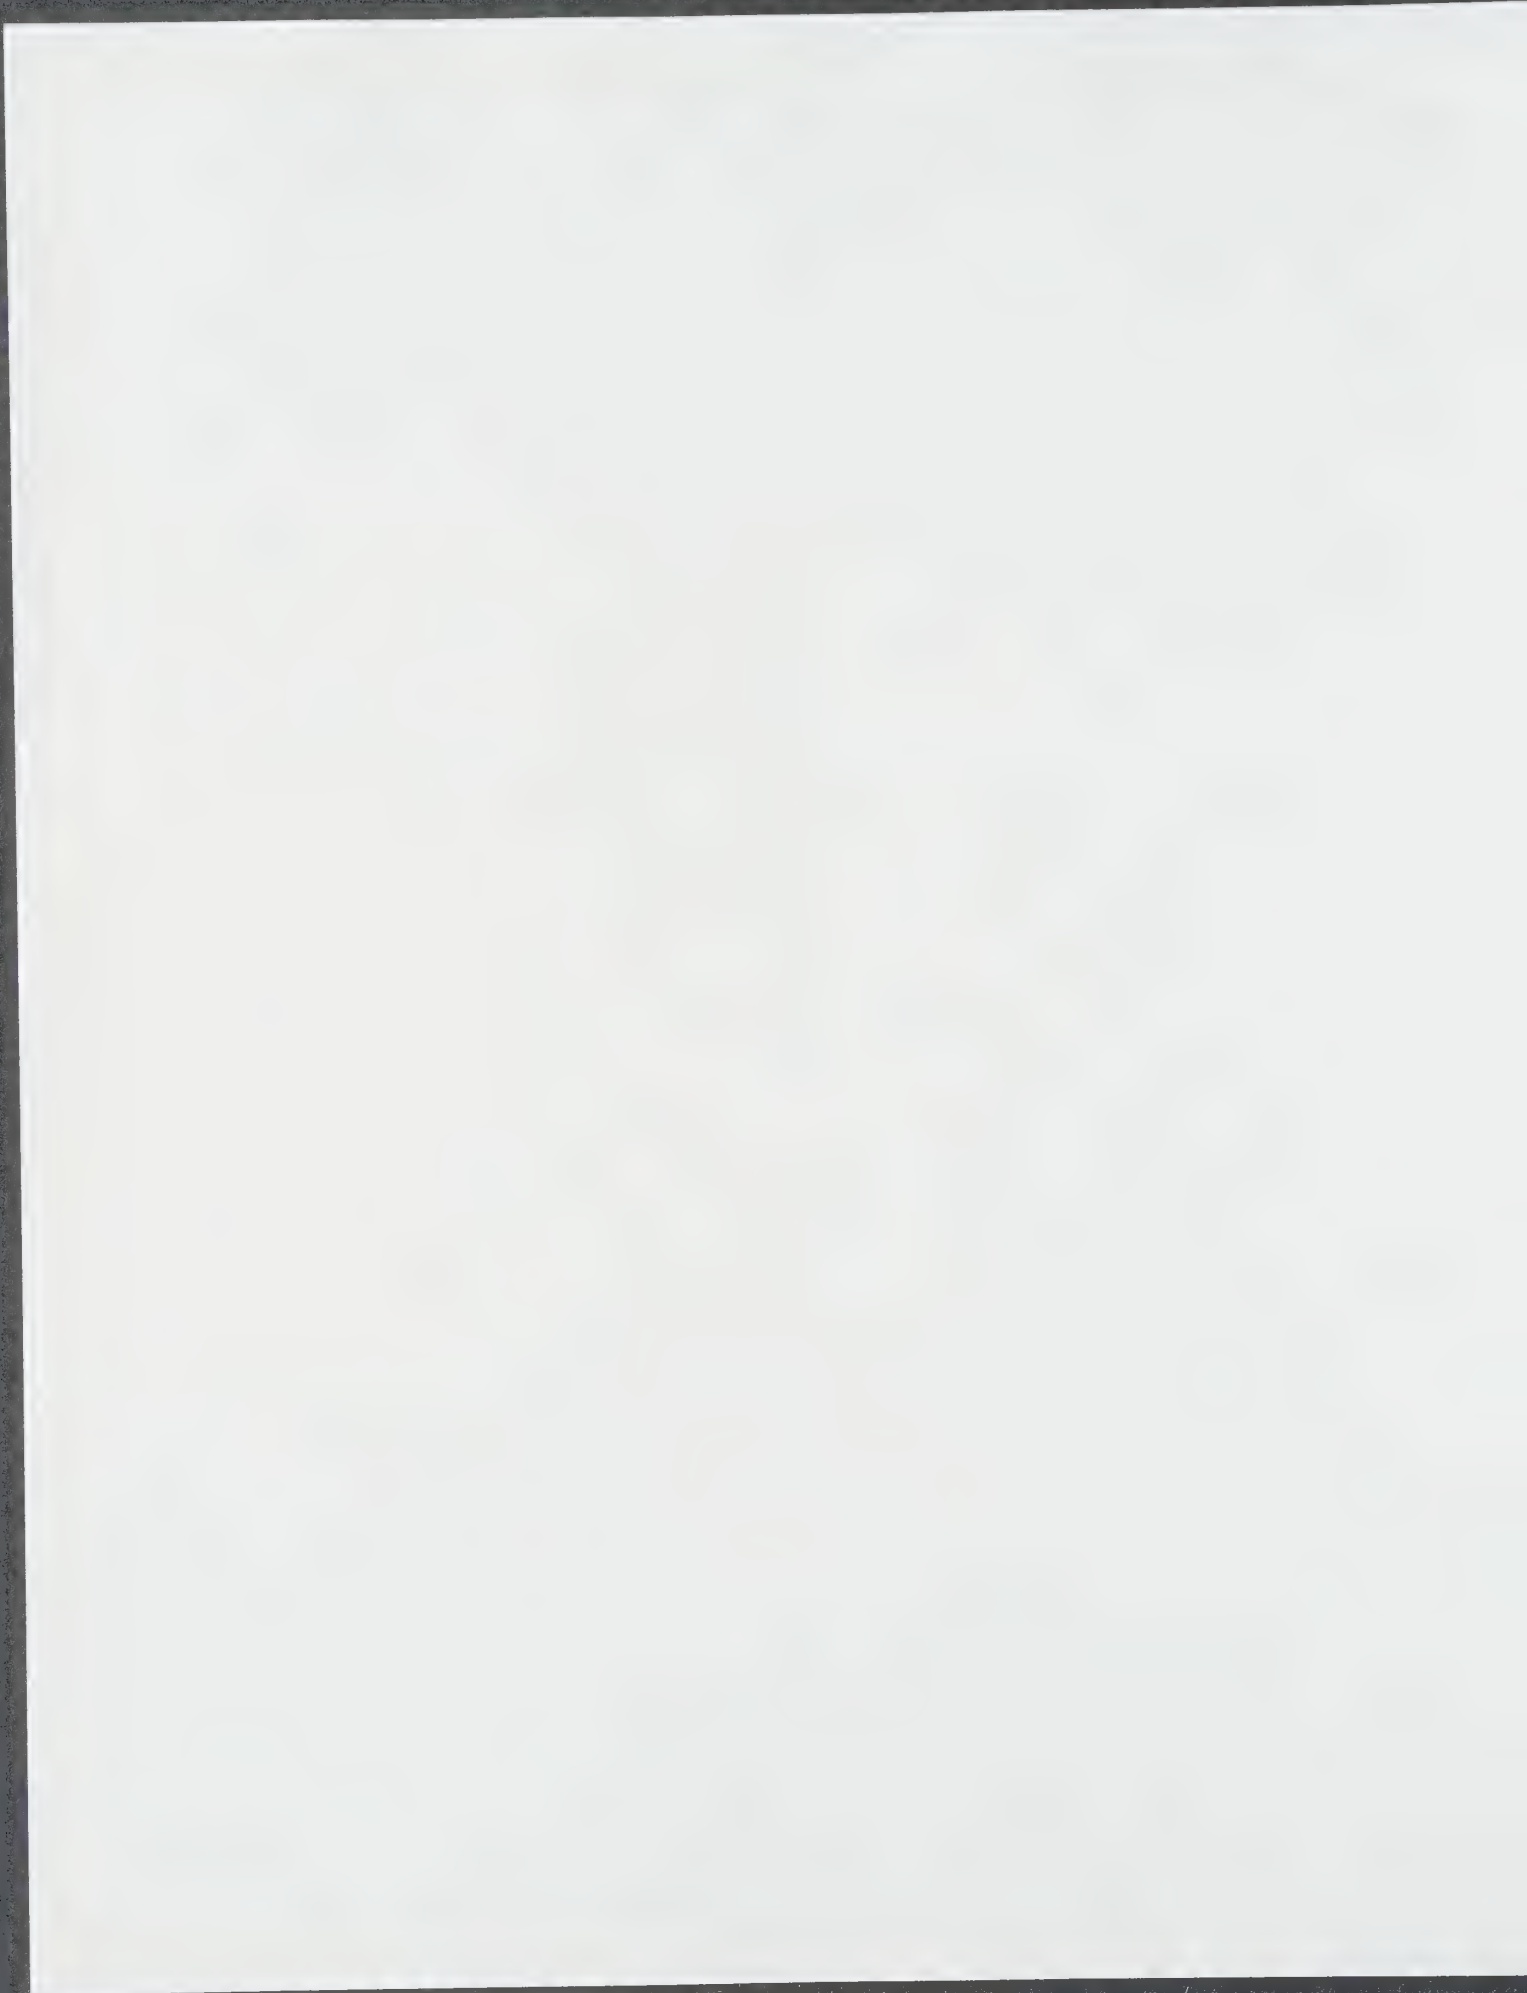

We will be happy to reimburse you and Isabel for your travel costs. I assume that these will be related to your travelling from Anaheim to Milwaukee via Vancouver and Edmonton and that they will be shared with our colleagues in Edmonton.

It will be a pleasure for us to have you visit UBC again.

With very best regards,

Yours sincerely,

Edward Piers

University of British Columbia
2036 Main Mall
Vancouver, British Columbia
Canada V6T 1Z1

Dear Edward:

I am sorry that a trip to Europe has delayed my thanking you for your kind letter of June 14th.

I know that Dr. Stephen Branca, editor of the *Aldrichimica Acta*, looks forward to your manuscript.

There may be one logistical problem about visiting the UBC. Of course, I don't accept honoraria from universities, but Isabel and I would like to be reimbursed for our travel expenses, which we try to keep as modest as possible.

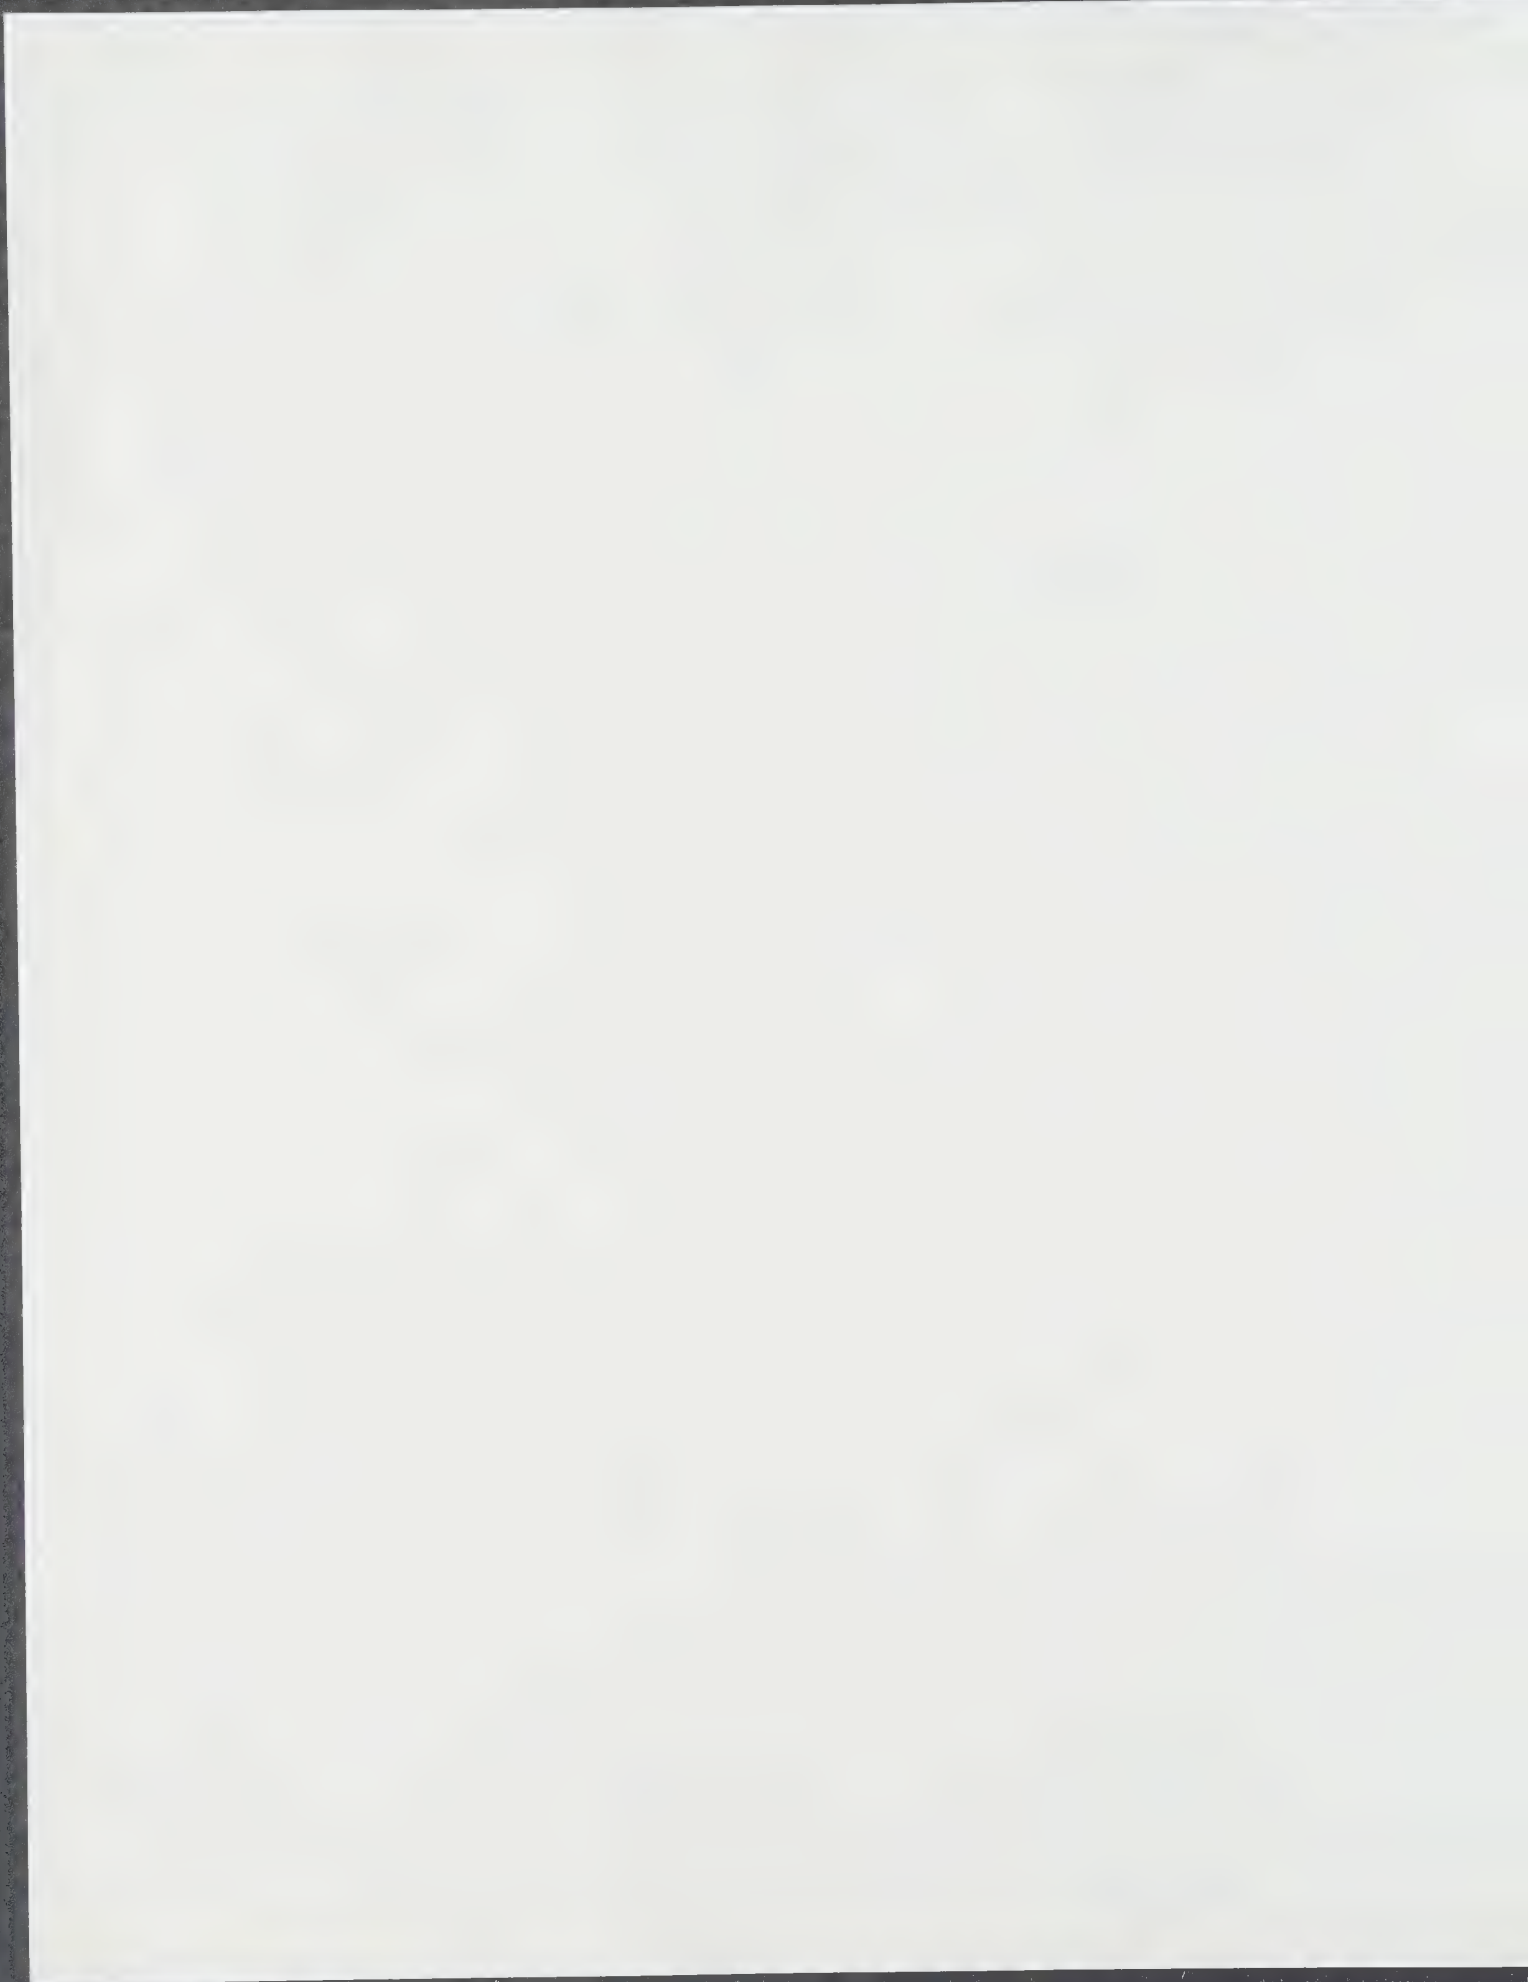

Flying from here to Vancouver could be quite costly, but as we do plan to attend the A.C.S. meeting in Anaheim early next April, anyway, there probably are reasonable ways of flying from Anaheim to Vancouver. Also, we would have no housing expenses in Vancouver, as I am sure that Isabel's brother and family would welcome us as they always have.

Enclosed is a "menu" of my lectures. I would be happy to give three or four talks in two days. The most suitable for chemists is the one on Josef Loschmidt. The history of Sigma-Aldrich would be of interest to chemists and students in business administration. The various lectures on art would be of interest to your art museum. If you have a substantial Jewish community, it might be interested in the talk "The Bible through Dutch Eyes", which has a subtitle--Rembrandt and the Jews.

By next April I hope to have copies of my autobiography--*The Adventures of a Chemist Collector*.

Sincerely,

Enclosure

Dear Alfred:

Thank you very much for your letter of June 6 and for your gracious words regarding my lecture in Winnipeg. I plan to send a manuscript to *Aldrichimica Acta* later this year.

You may recall that we spoke in Winnipeg about the possibility of you and Isabel visiting UBC at some time during the Spring of 1995. I would now like to extend to you a "formal" invitation to do so. I have two questions. 1. When would you like to come and how many days would you like to spend in our Department? From our perspective, some time during the last half of March would be preferable. 2. How many lectures would you be prepared to give? If I recall correctly, you mentioned that you have three "prepared" talks that you could give. Is this correct? In any case, my colleagues and I, along with our graduate students and postdoctoral fellows, would be delighted to welcome you and Isabel to UBC again. We have fond memories of your previous visits.

I look forward to hearing from you.

With very best regards,

Yours sincerely,

Edward Piers

Dear Alfred and Isabel:

What wonderful news to see that you have been selected to receive the Charles Lathrop Parsons Award for Outstanding Service by a member of the American Chemical Society. Congratulations to both you and Isabel. Certainly your friends here at Penn are delighted with this extraordinarily well deserved honor. Your careers serve as models for all of us interested in the further development of our chosen profession, chemistry.

I look forward to congratulating both of you in person.

Best personal regards.

Sincerely yours,

Amos B. Smith, III

June 6, 1994

TO: Professor Ed Piers
Department of Chemistry
University of British Columbia

604 822 2847

Dear Professor Piers:

I so enjoyed your award lecture; it was one of the finest I have ever heard.

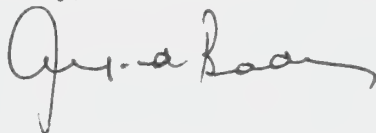

I very much hope that you will submit the manuscript to the *Aldrichimica Acta*. You may have noticed that Professor Bryan Jones submitted his paper which was published recently. There is no need to mention that this is the Bader Award address.

Almost all of the chemists at Aldrich have remained my very good friends, and I am still the largest individual stockholder and so of course want the company to do well.

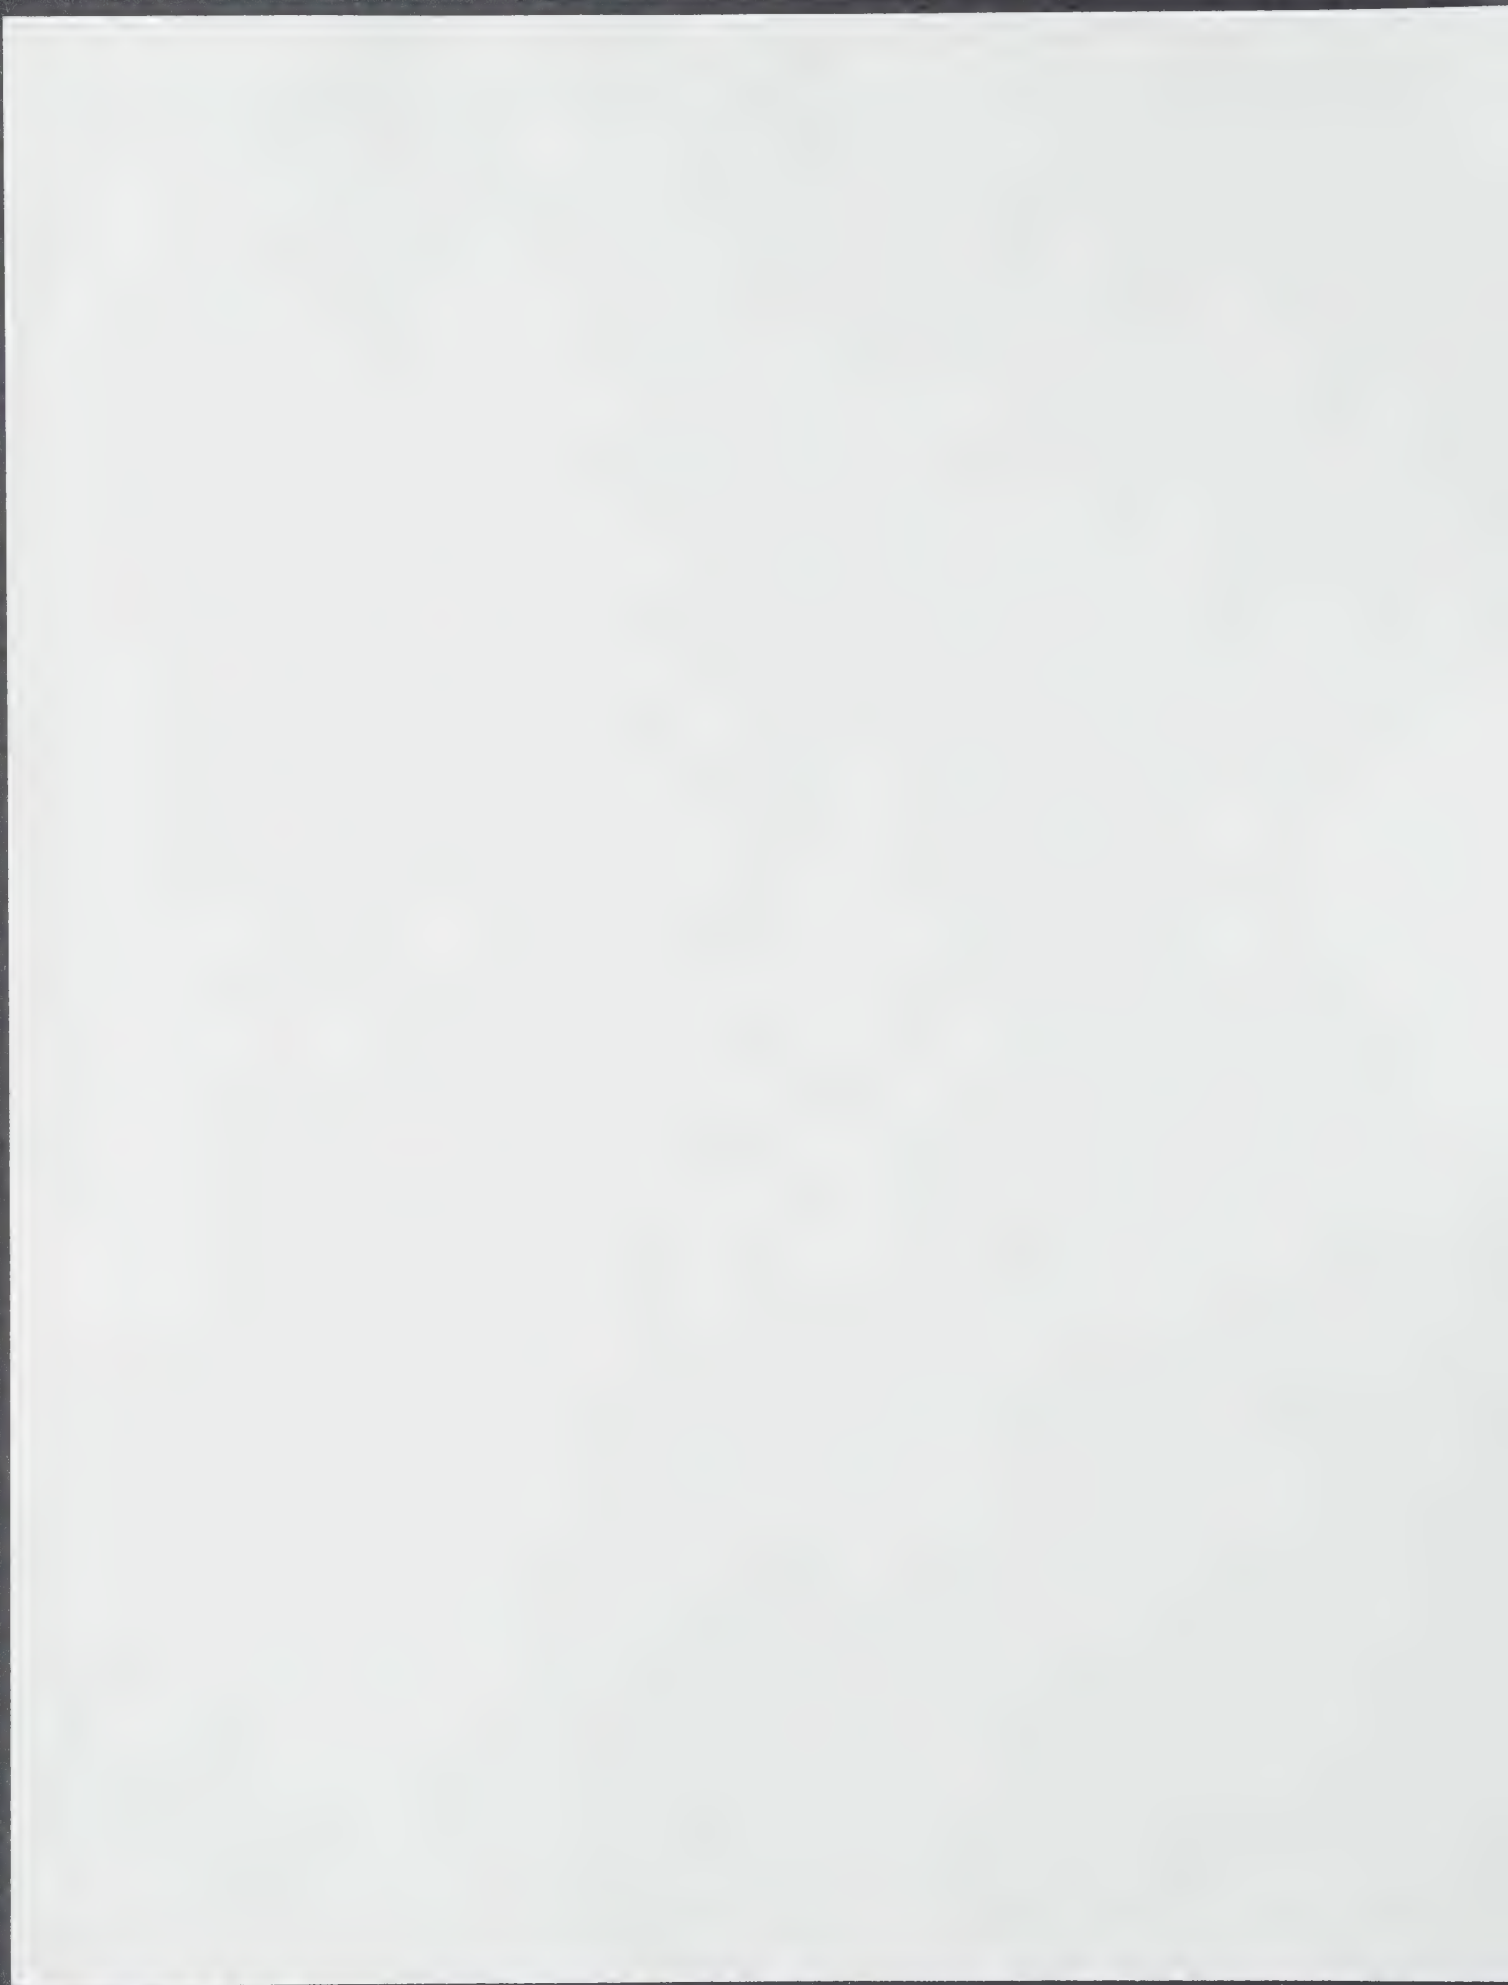

One of our ablest chemists, Dr. Stephen Branca, who has recently been promoted to vice president of Aldrich, is in charge of the Act and I know that he will assure that great care is taken with your manuscript. Of course, the very nature of the manuscript makes it of such importance to Aldrich: how many other manuscripts have discussed such exciting new synthetic tools?

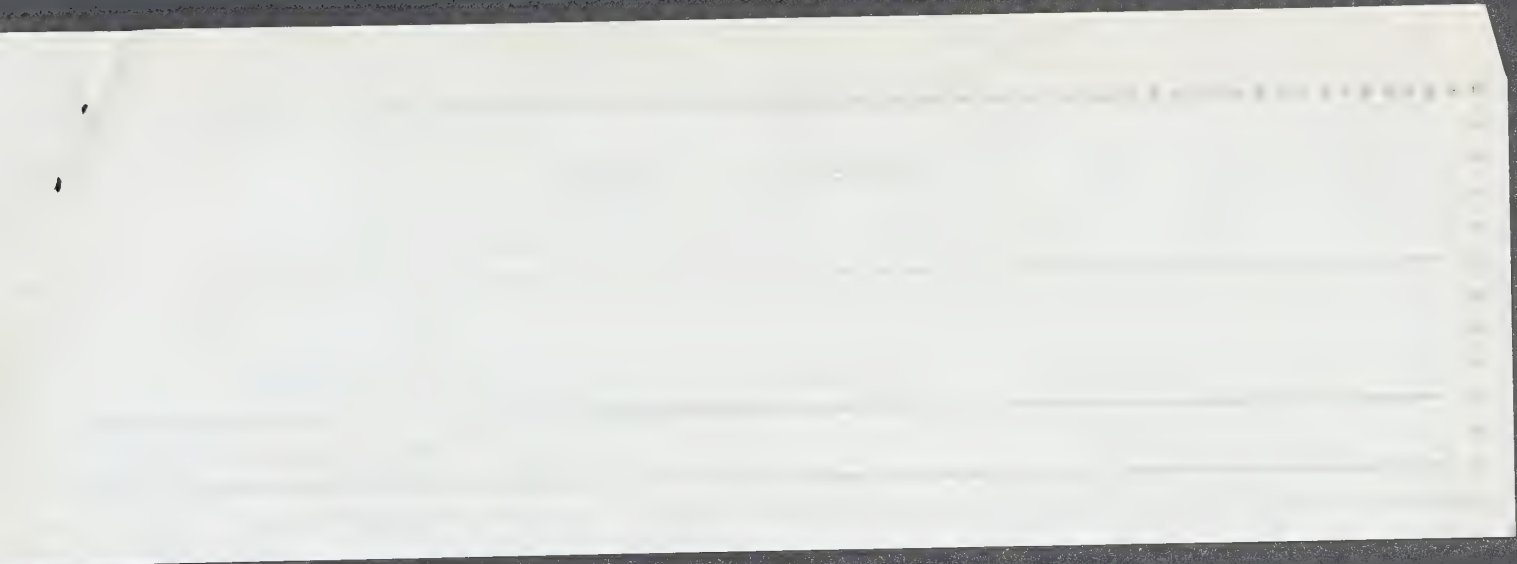

All good wishes.

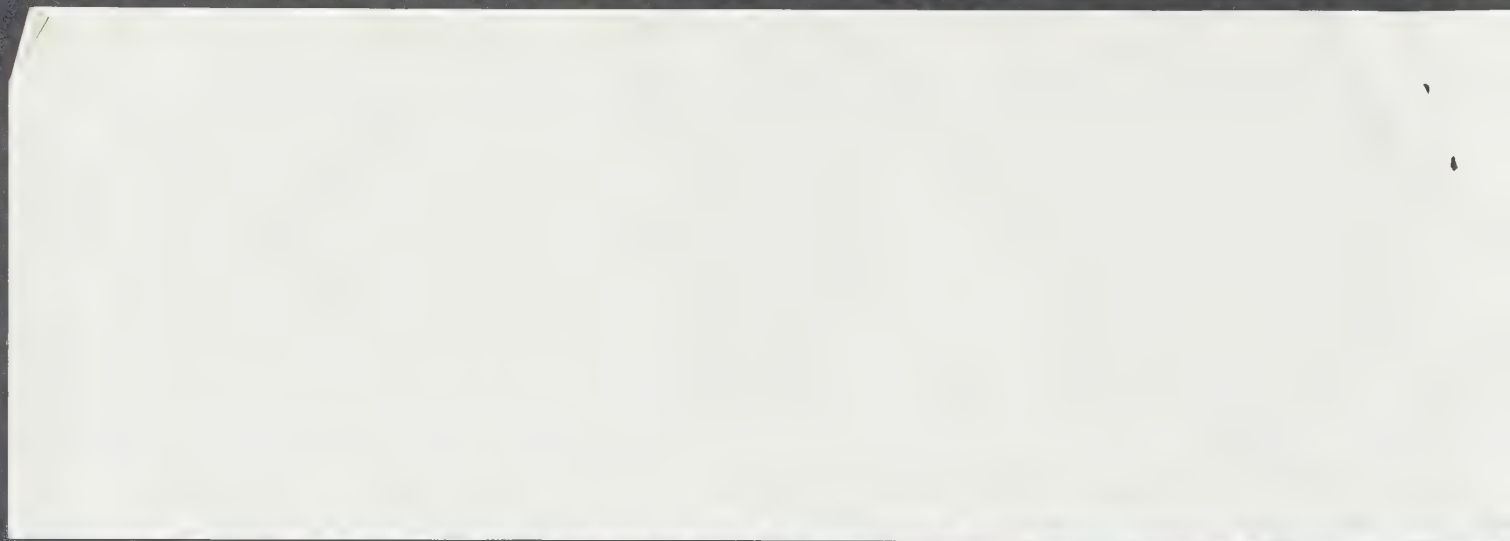

Sincerely,

c: Dr. Stephen Branca

March 15, 1955

Dear Dr. Baizer:

We have made further plans for your visit to Edmonton on April 11 and I want to analyze them with you.

I have booked you and Mrs. Baizer at the Hotel MacDonald which is a CP hotel located downtown. I have requested a non smoking room with two double beds. I think you will be very comfortable in this hotel.

I assume you will be making your own travel arrangements. If you feel as in which flight you will be arriving we can arrange for some one to meet you and take you to your hotel and later to the Terzaskans home. As you know the Terzaskans have invited you and Mrs. Baizer to dinner on Sunday.

On Monday the first lecture is scheduled at 11:00 am at the University. Prof. G. H. 29. Kratochvil, Chemistry Department Chair, would like to give you a tour of the Department. Also he would like to schedule some time for you to meet with Dr. Stan Brown who will be joining Queen's University as Chair of the Chemistry Department. If you suggest at what time you would like to meet with Dr. Stan Brown Dr. Kratochvil will arrange transportation to the University for you.

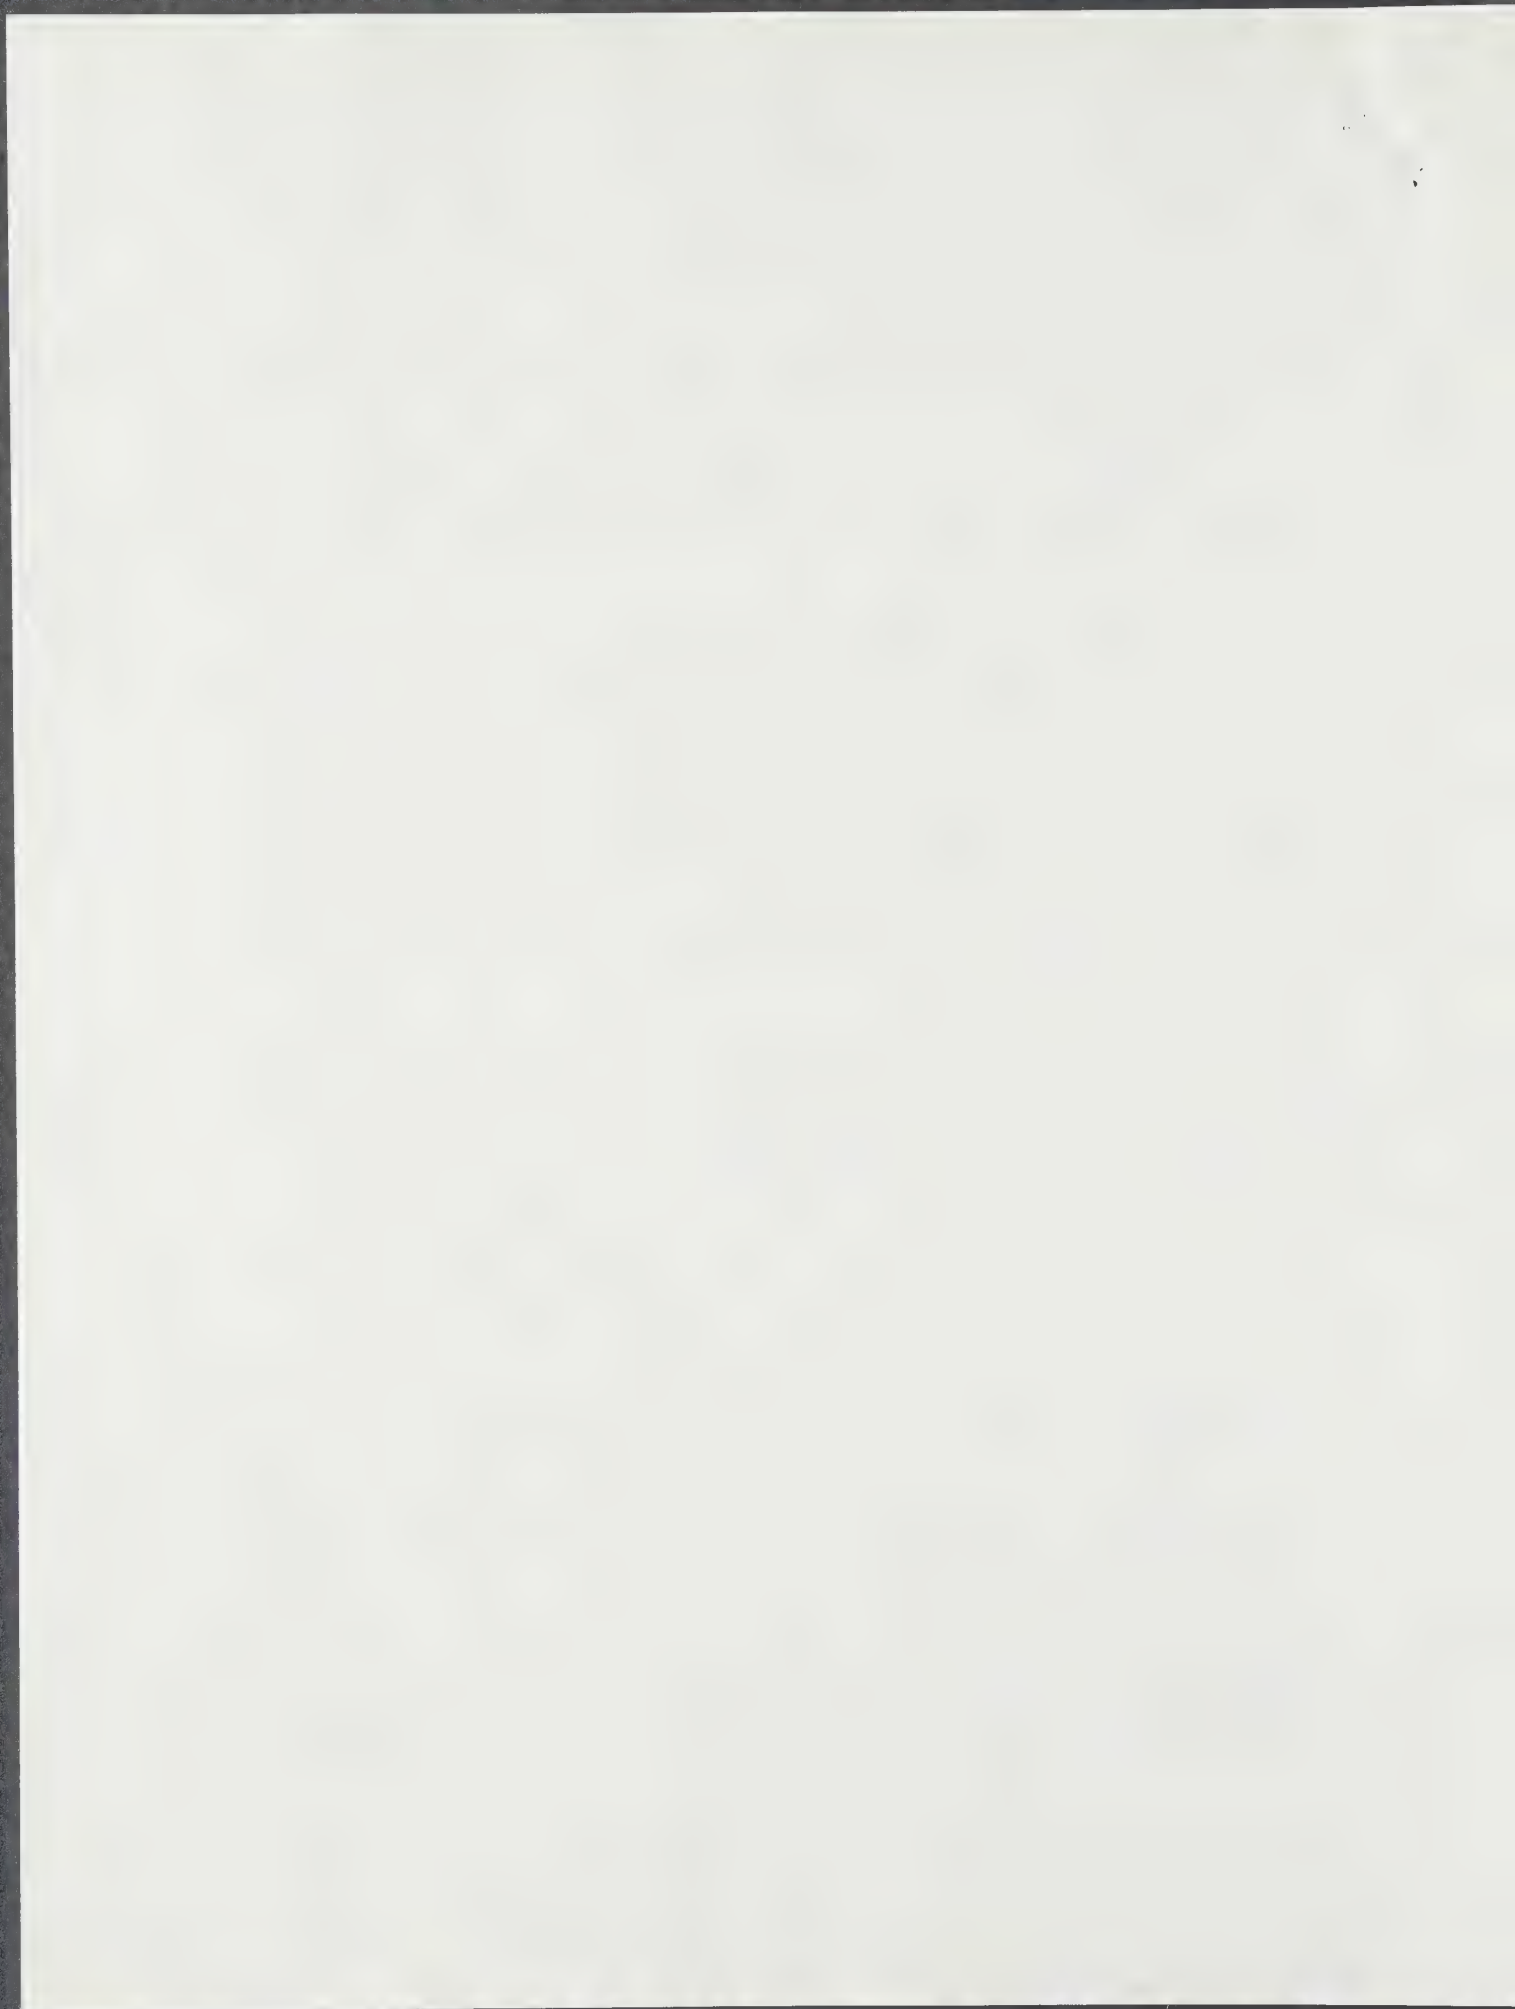

We are publishing your lecture at the Art Gallery and a King's College University. An additional means to do this would be through a Sunday morning short interview on local CHC radio station. If you are amenable we would like to arrange this prior to going to the University - but we will wait your instructions on this matter.

We would like you to join some members of the Chemistry Department for dinner on Monday. Following lunch the afternoon has been reserved for you and Mrs. Baizer to visit with Dr. and Mrs. Norman Jones and have an early dinner with them. We have confirmed this dinner with the Jones.

Monday evening we have scheduled a lecture at the Art Gallery at 8:00 pm. Prior to your lecture the Art Gallery will be open for one hour to allow us to see all their exhibits.

On Tuesday morning we hope you will again visit the Chemistry Department to meet with additional faculty members prior to your 1:00 am lecture. As on Monday morning transportation will be arranged for you at your convenience.

Dr. Rod Fraser, the new University of Alberta President and a former Queen's University faculty person, would like you to meet him for lunch and some discussion on Tuesday. Following lunch there is some free time in the late afternoon. Some chemists who were involved in the 75th CSC Conference would like to take you for an early dinner on

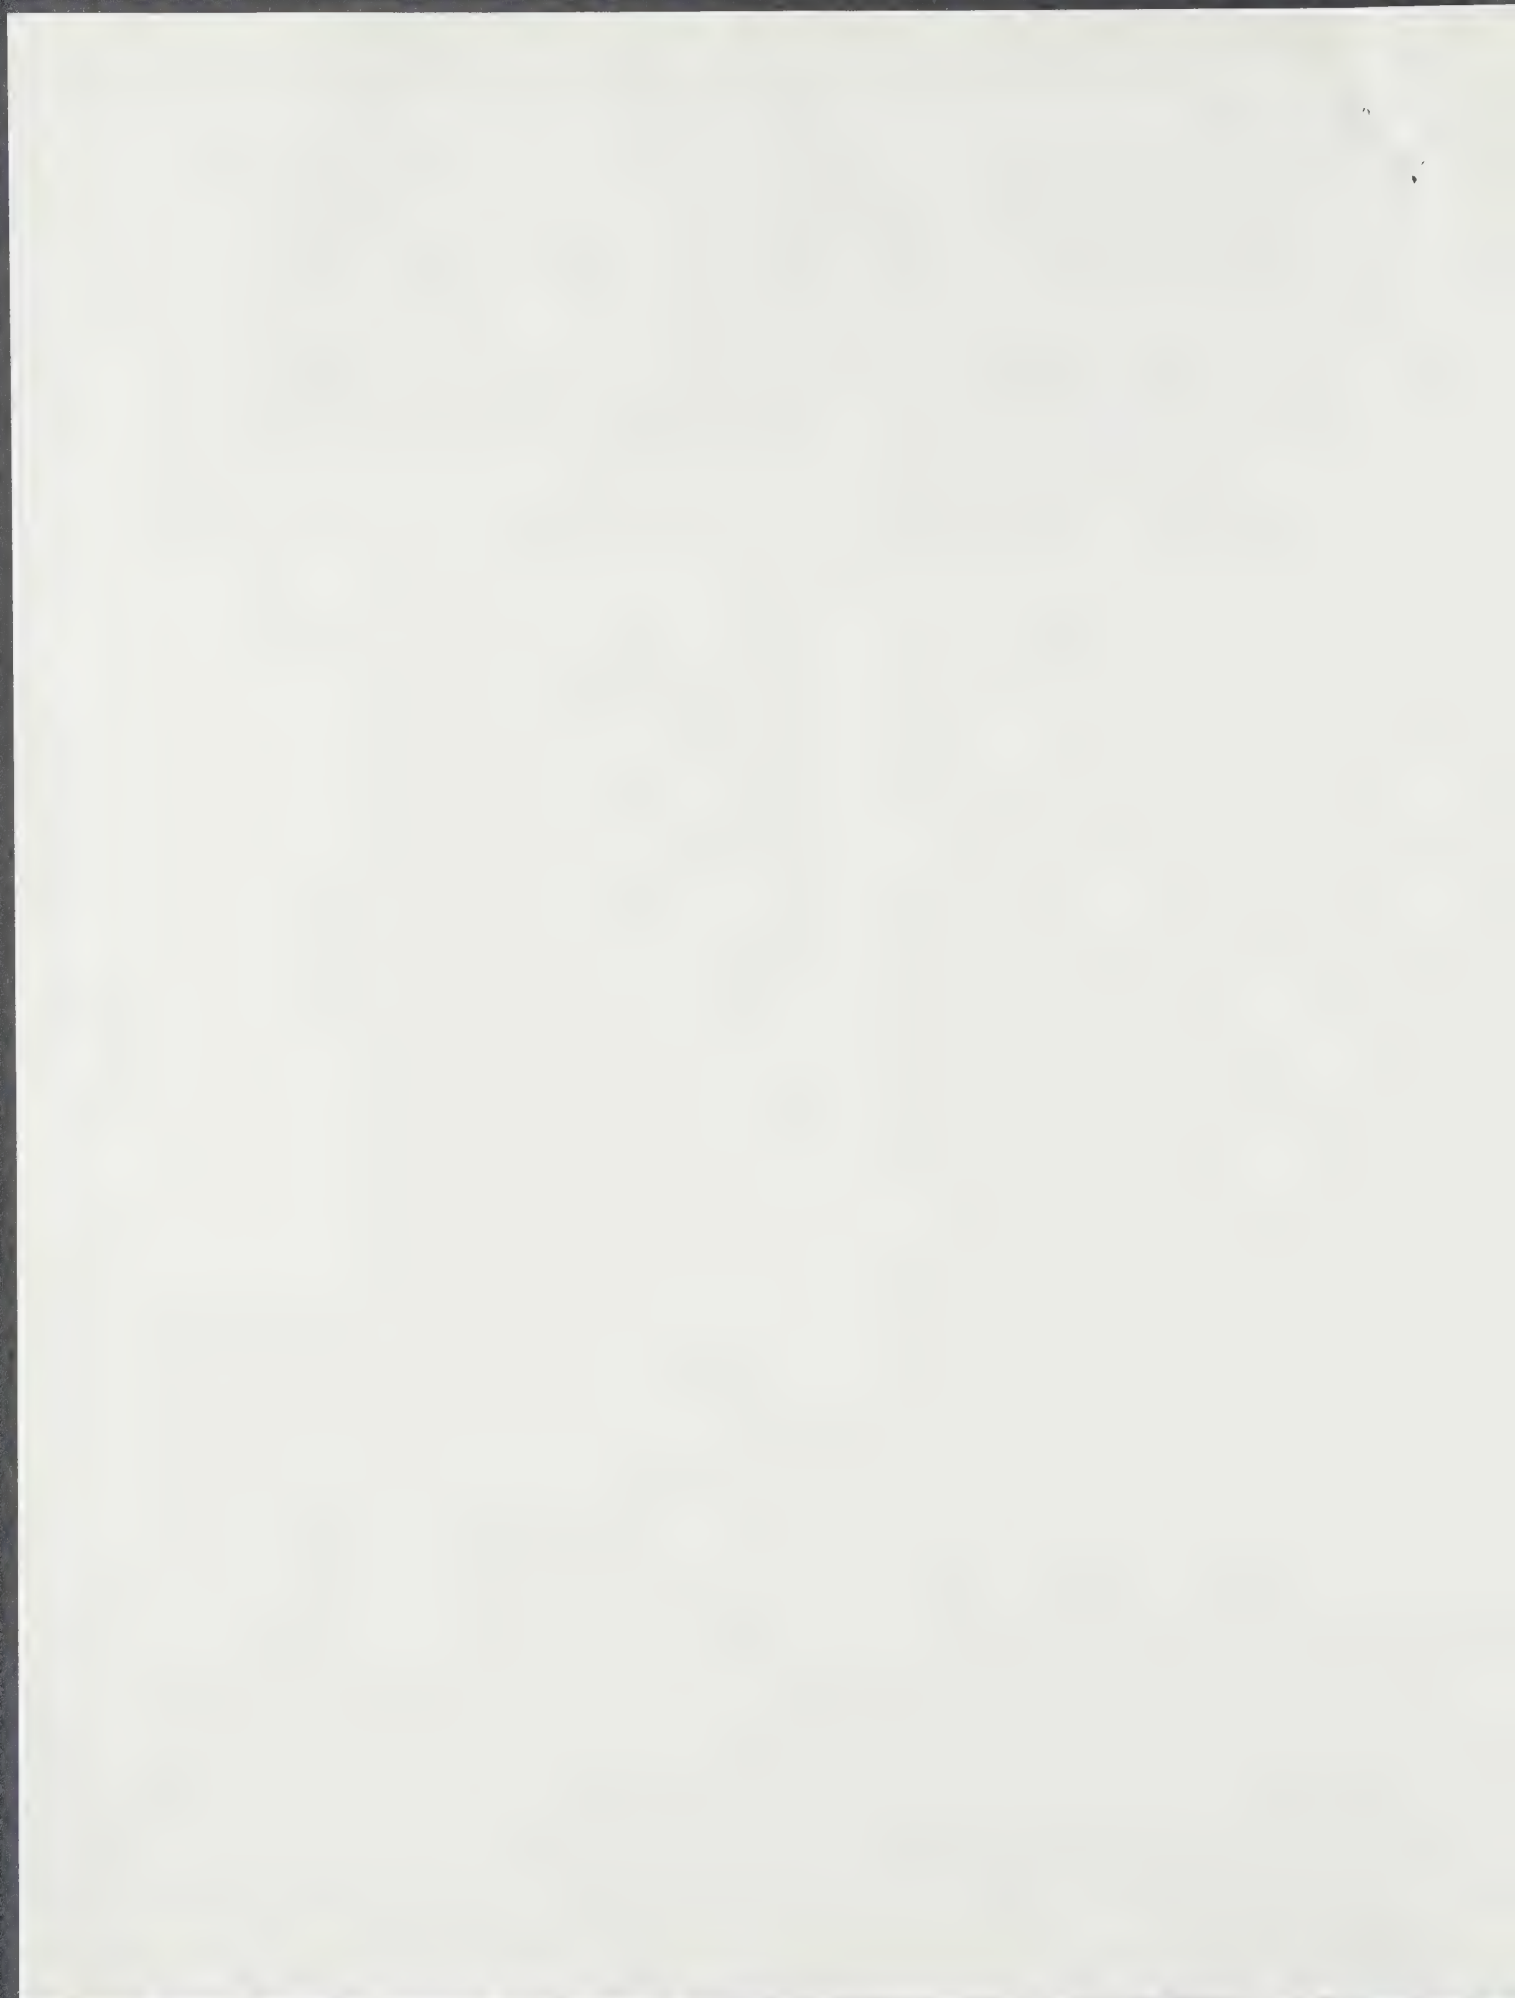

Tuesday night prior to your lecture at King's College University. This would be at La Ronde Restaurant which is the revolving restaurant on top of the Crowne Plaza Hotel.

The above schedule is open to any suggestions you have. We know Mrs. Bader will want to accompany you during your social visits to the Fertzakans and the Spies. Is there any special arrangements she would like for the remaining time or would you prefer to accompany you throughout the visit? She would be most welcome at all our events.

We agreed we would reimburse you for your expenses to travel to Edmonton. Please let us know the cost of the air lines tickets and we will arrange for a cheque.

We are looking forward to your visit.

January 18, 1995

To: Dr. Robert Cowles
Syncrude - 403 970 6805

Dear Dr. Cowles:

In response to your fax of yesterday, I haven't yet made any plans about flying from Vancouver to Edmonton. In Vancouver, we will be staying with Isabel's family, and you might like to pick a reasonable flight in the middle of the day, and then we will try to book that flight.

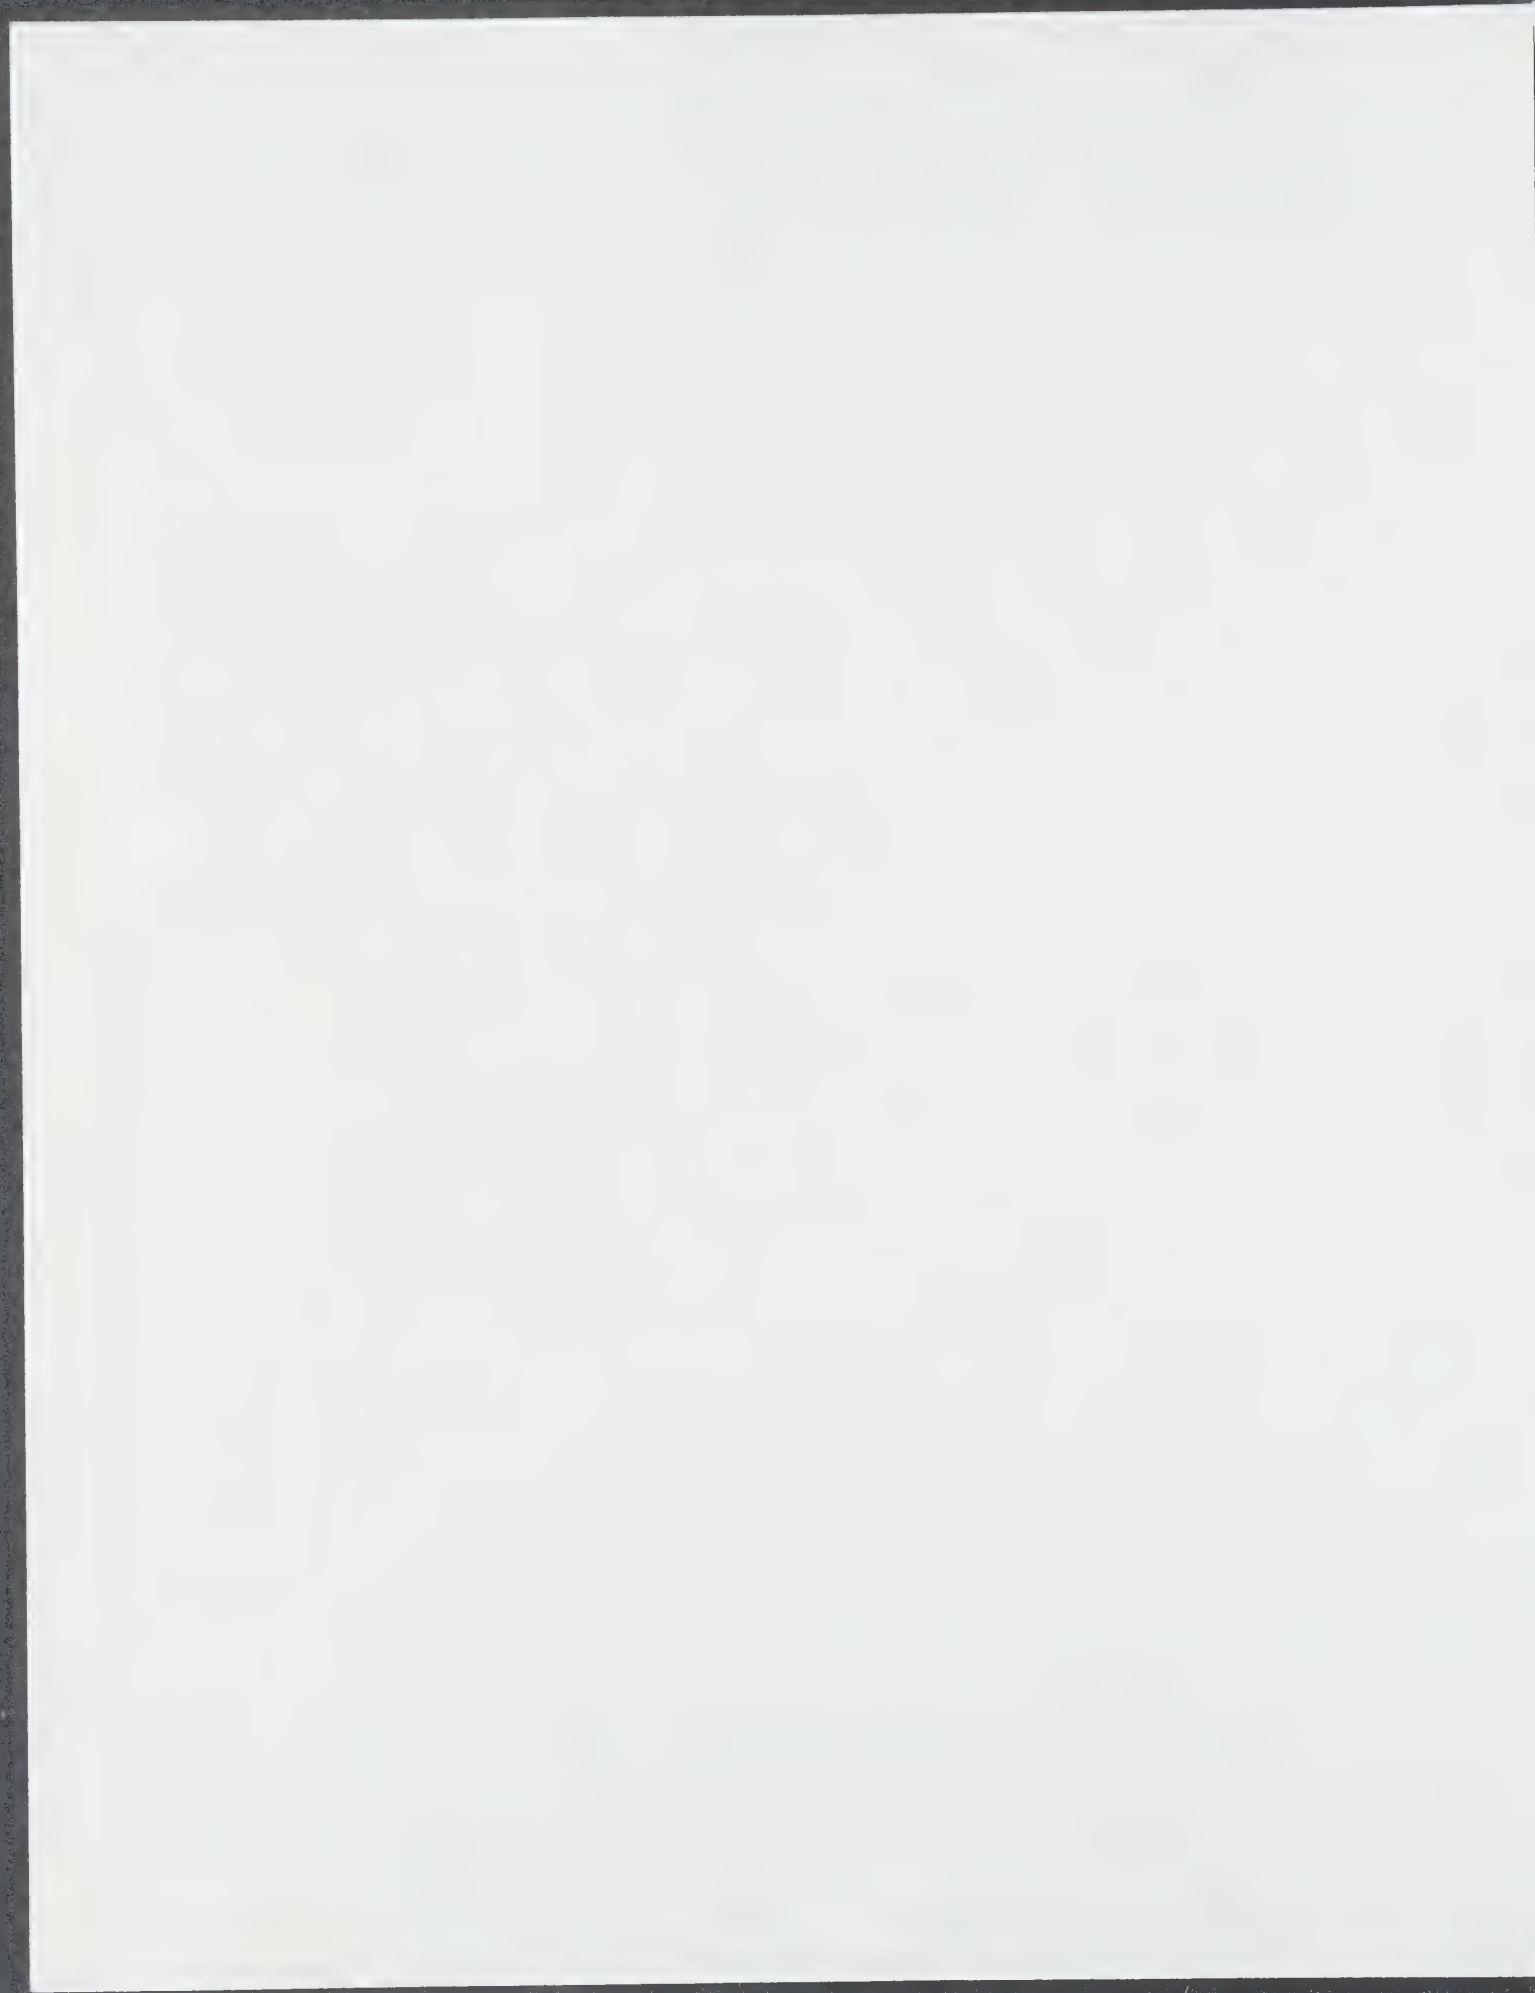

Professor Norman Jones was the one man who really got me excited in chemical research, and he and Magda have been our good friends ever since.

I much look forward to being with you in Edmonton.

Best wishes,

P.S. Under separate cover I am sending you the synopses you requested.

Dr. Alfred Bader
2961 North Shepard Avenue
Milwaukee, Wisconsin 53211

January 18, 1995

Dr. Roger Cowles
Syncrude
Edmonton Research Center
9421 - 17th Avenue
Edmonton, Alberta T6N 1H4
Canada

Dear Dr. Cowles:

Further to Dr. Bader's fax of today regarding his lectures, enclosed are abstracts for three of his talks; namely, "The Bible through Dutch Eyes", "Adventures of a Chemist-Collector" and "Josef Loschmidt--The Father of Molecular Modelling". For each of these talks could you please provide two slide projectors and two screens (or one large screen) so that Dr. Bader can show two slides simultaneously.

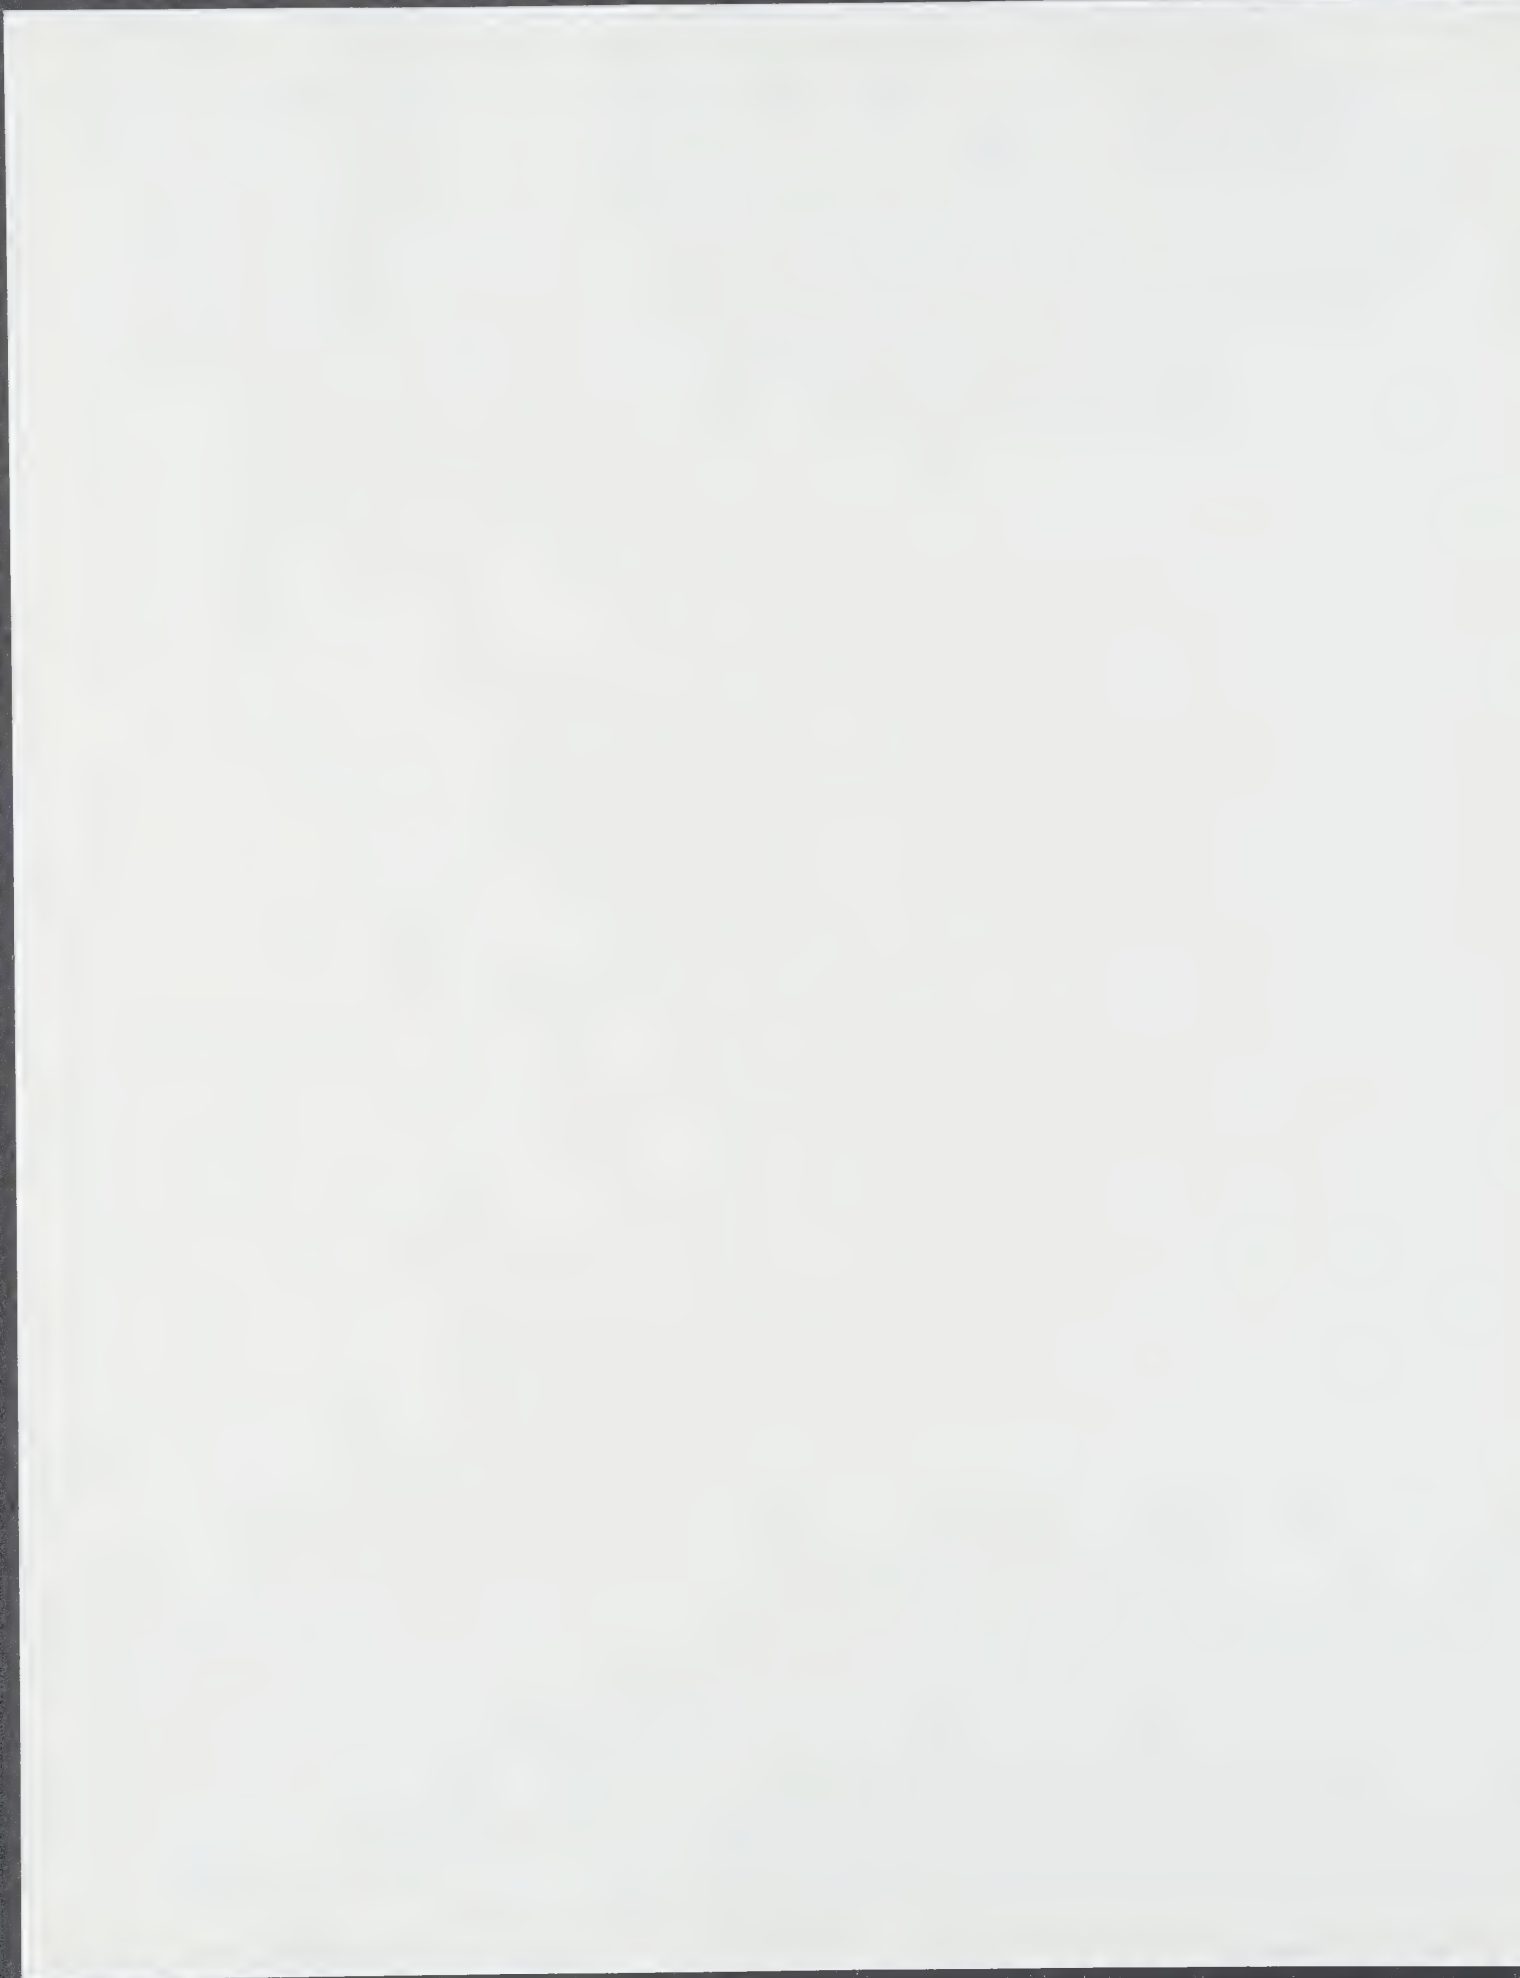

There is no abstract for the Aldrich talk and no need for projector and screen.

If you need anything further, please let me know.

Cordially,

Marilyn Hassmann

Comments: Thank you for your Fax of January 4. I have confirmed the facilities for the talks that you suggested. I have also spoken to Gerry Tertakian and Norman Jones so that we can schedule the rest of your visit. Dr. and Mrs. Jones are already quite excited about your visit!

Could you please let me know your approximate arrival time on the Sunday because Gerry would like to entertain you and Mrs. Bader that evening. Of course, if you are arriving too late for that we can schedule it on Monday or Tuesday. I would also like a brief synopsis of each of the talks so that we can prepare material to introduce your visit.

75th CSC Conference Lectures

November 30, 1994

Dr. Arpad Bader
2961 North Shepard Avenue
Milwaukee, Wisconsin, USA
53211

Dear Dr. Bader

I have circulated your list of talks to a number of chemists in the Edmonton area. For the chemistry ones the preferred ranking is

- History of the Aldrich Chemical Co.
- Josef Loschmidt --The Father of Molecular Modelling
- Richard Anschutz: Acts of Atonement

For the public lectures the preferred ranking is

- The Adventures of a Chemist Collector
- The Bible through Dutch Eyes

*20 James
Jenny Perzetic*

Most people expressed interest in any of the talks and found it very hard to rank them.

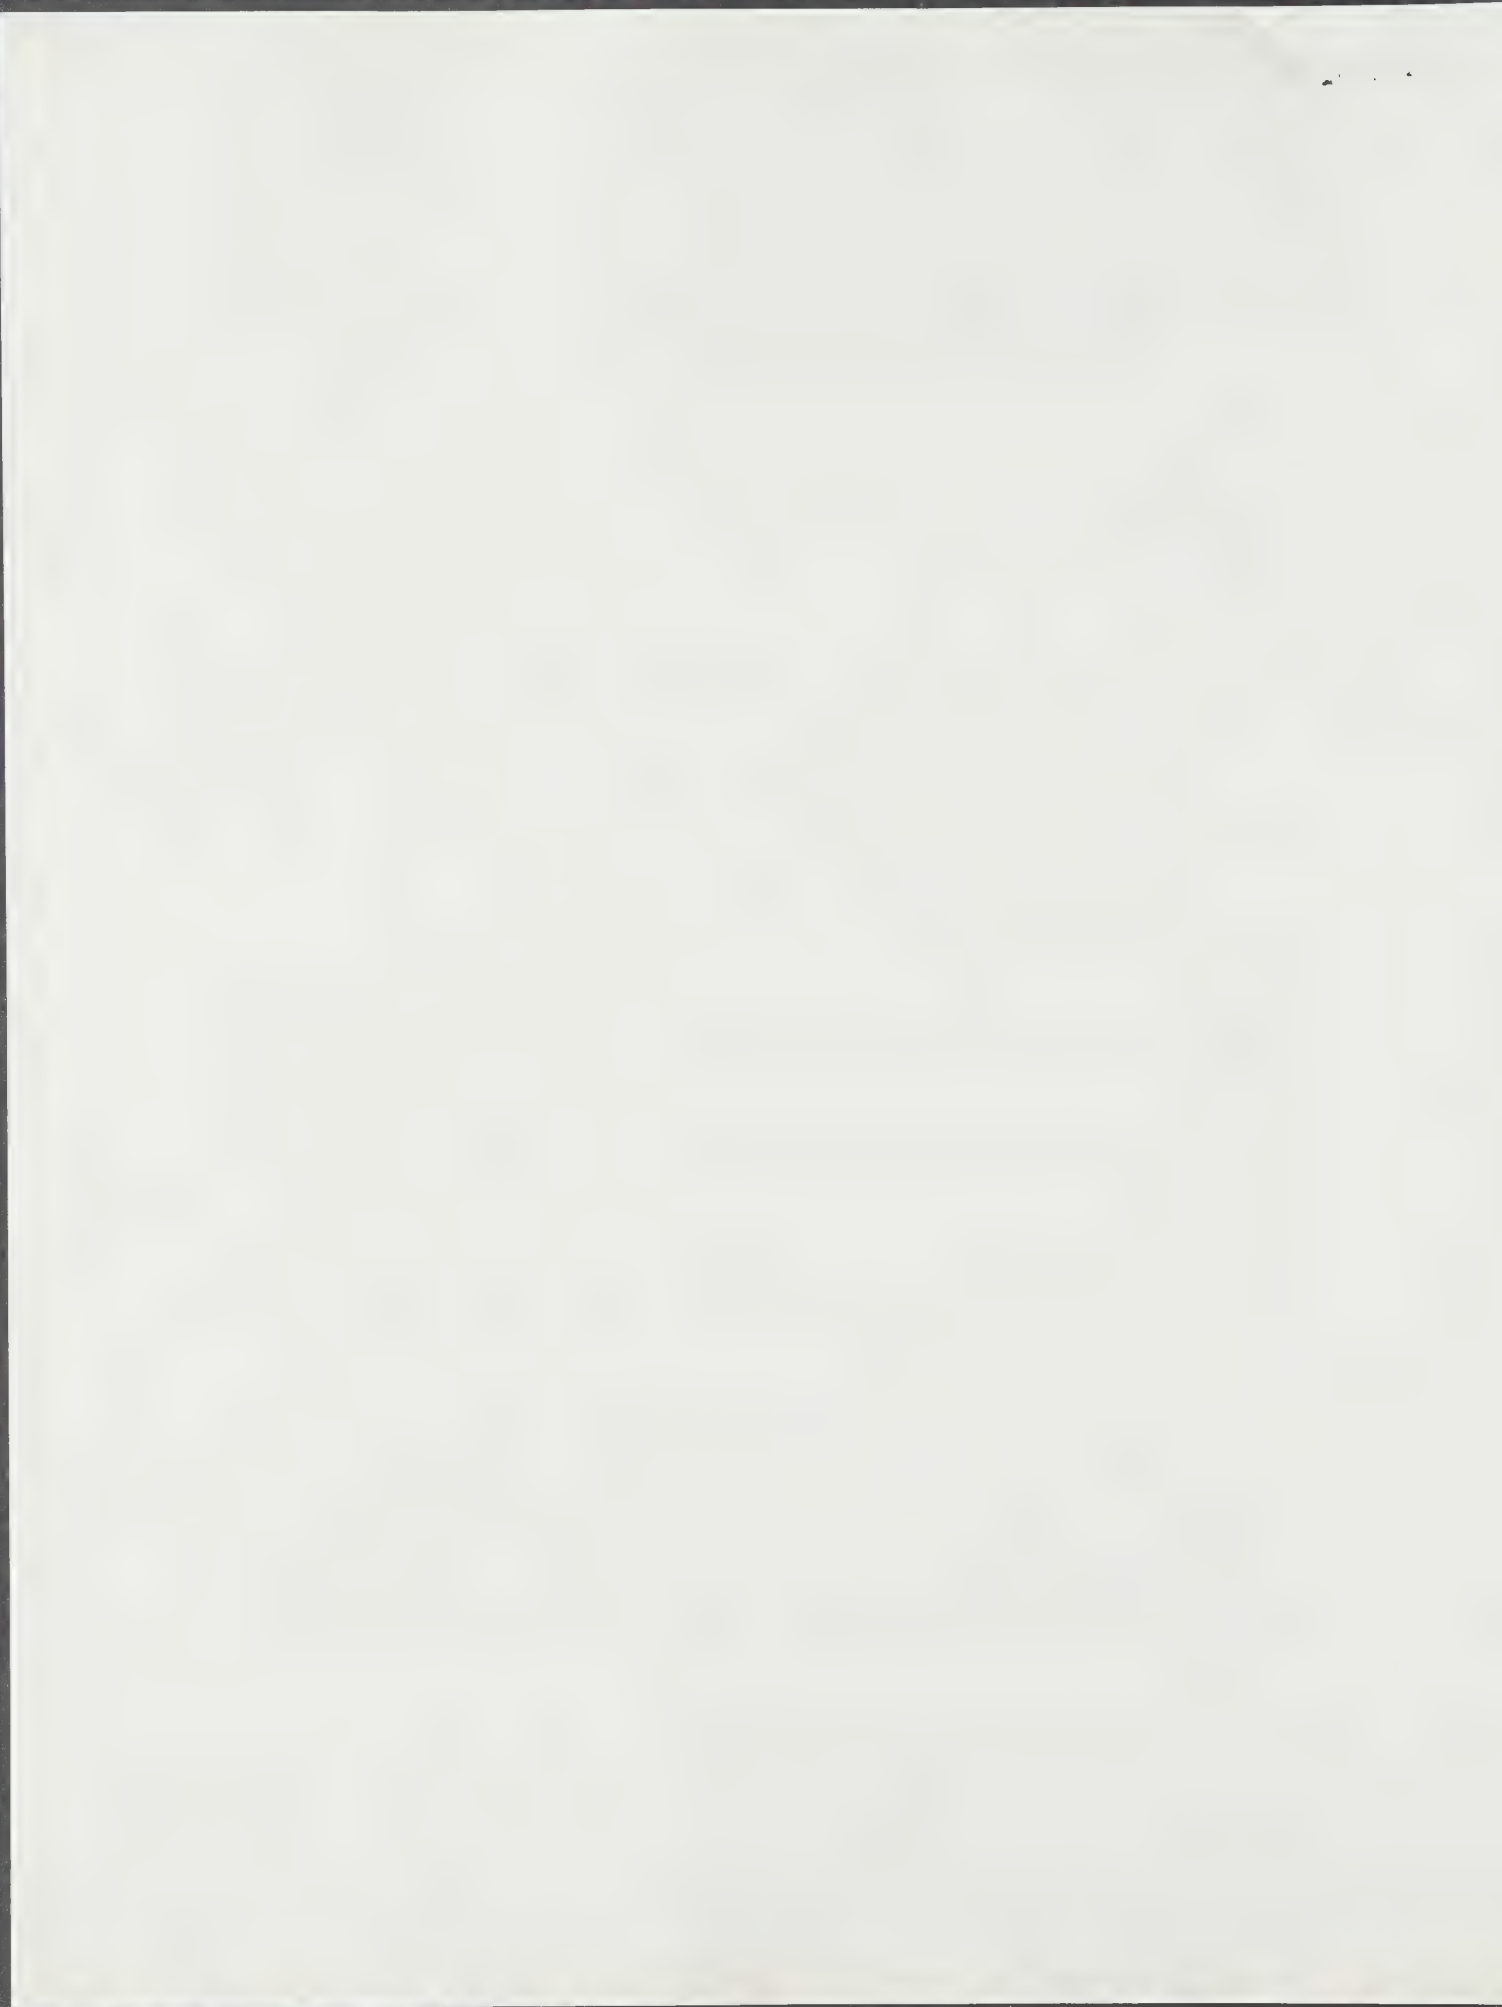

I have tried to work out a schedule of presentations which will allow us to hear a number of talks, allow you time to visit with your friends here and also allow some time for other activities. This is the first draft and I hope you will comment on it so we can improve it.

On Monday we propose a chemistry lecture, either the Josef Loschmidt or the Richard Anschutz presentation, at the University of Alberta Chemistry Department at 11:00 am. This is the time for regularly scheduled seminars in the Department so it will be convenient for many University of Alberta chemists.

We propose that the "History of the Aldrich Chemical Company" be given at the University of Alberta Chemistry Department at 4:00 pm on Monday. By having it late in the afternoon, we feel that in addition to University of Alberta staff and students it will be possible to attract attendees from industry and government labs

| 2

On Monday evening we propose having a public lecture, "The Adventures of a Chemist Collector" at the Art Gallery. I have discussed this with the Executive Director of the Art Gallery and he is excited about this possibility. He will open the Art Gallery that evening for us (it is not normally open on Monday evenings) and he will waive the normal admission charge. He has suggested that we allow some time prior to your lecture during which we can visit the gallery (7:00 to 8:00 pm). This would be followed by your lecture and we would have coffee and informal conversations afterwards. If this aspect of your visit could be finalized by the end of the month he would be able to begin advertising it in the art community in his late December mailings. This should be an excellent opportunity for chemists and the art community to meet.

NO *Alou*

On Tuesday we propose that the third chemistry lecture be given at the University of Alberta Chemistry Department at 11:00 am.

If you are still here on Tuesday evening and we hope that you will be, we would like you to present "The Bible Through Dutch Eyes" at The King's University College. This is a small Christian private University which was founded by Dutch Immigrants many years ago. Therefore we expect to attract chemists as well as Bible students and the Dutch community to this talk. The University relocated about two years ago and they have good auditorium facilities as well as residences for their students. Previous functions which we have held there have been very successful

Jews

The above is a draft. We have scheduled the number of talks bearing in mind that you wish to give two or three talks per day. There is still flexibility in the schedule.

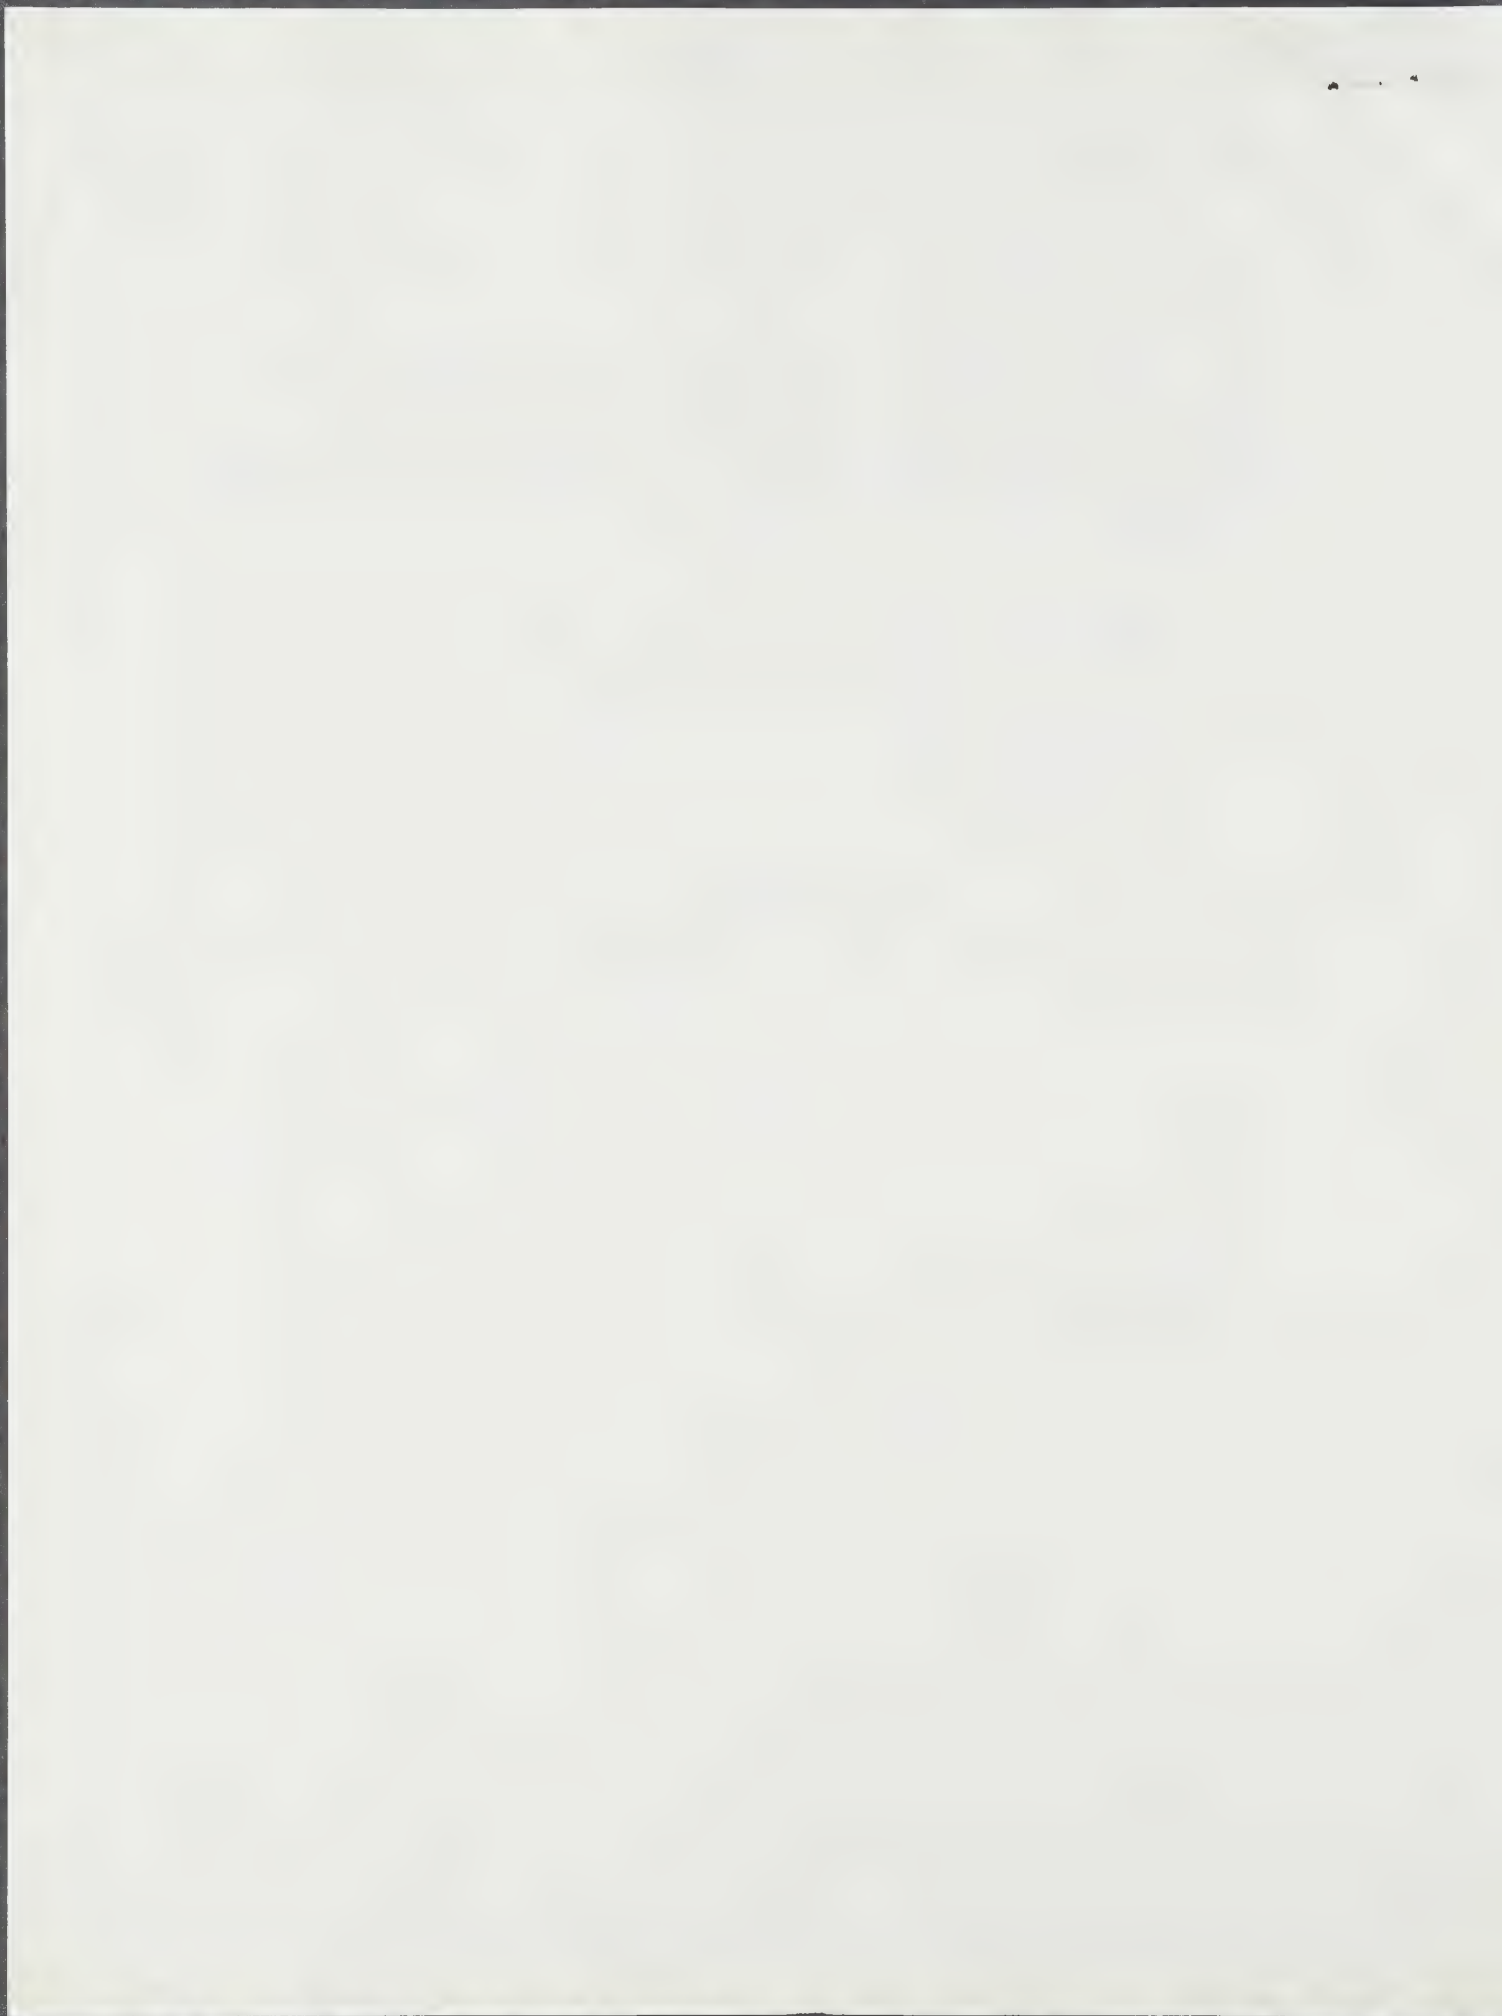

Since my last correspondence with you Syncrude Research has moved into a new facility in a Research Park. Our new address is
Syncrude Canada Ltd.
Edmonton Research Center
9421 - 17 Avenue
Edmonton, Alberta
T6N 1H4

My new phone number is 403-970-6934 and the new fax number is 403-970-6805.

We have had a very successful season of local chemistry meetings this year and we are looking forward to your visit in 1995.

75th CSC Conference Lectures

December 28, 1994

Dear Dr. Bader

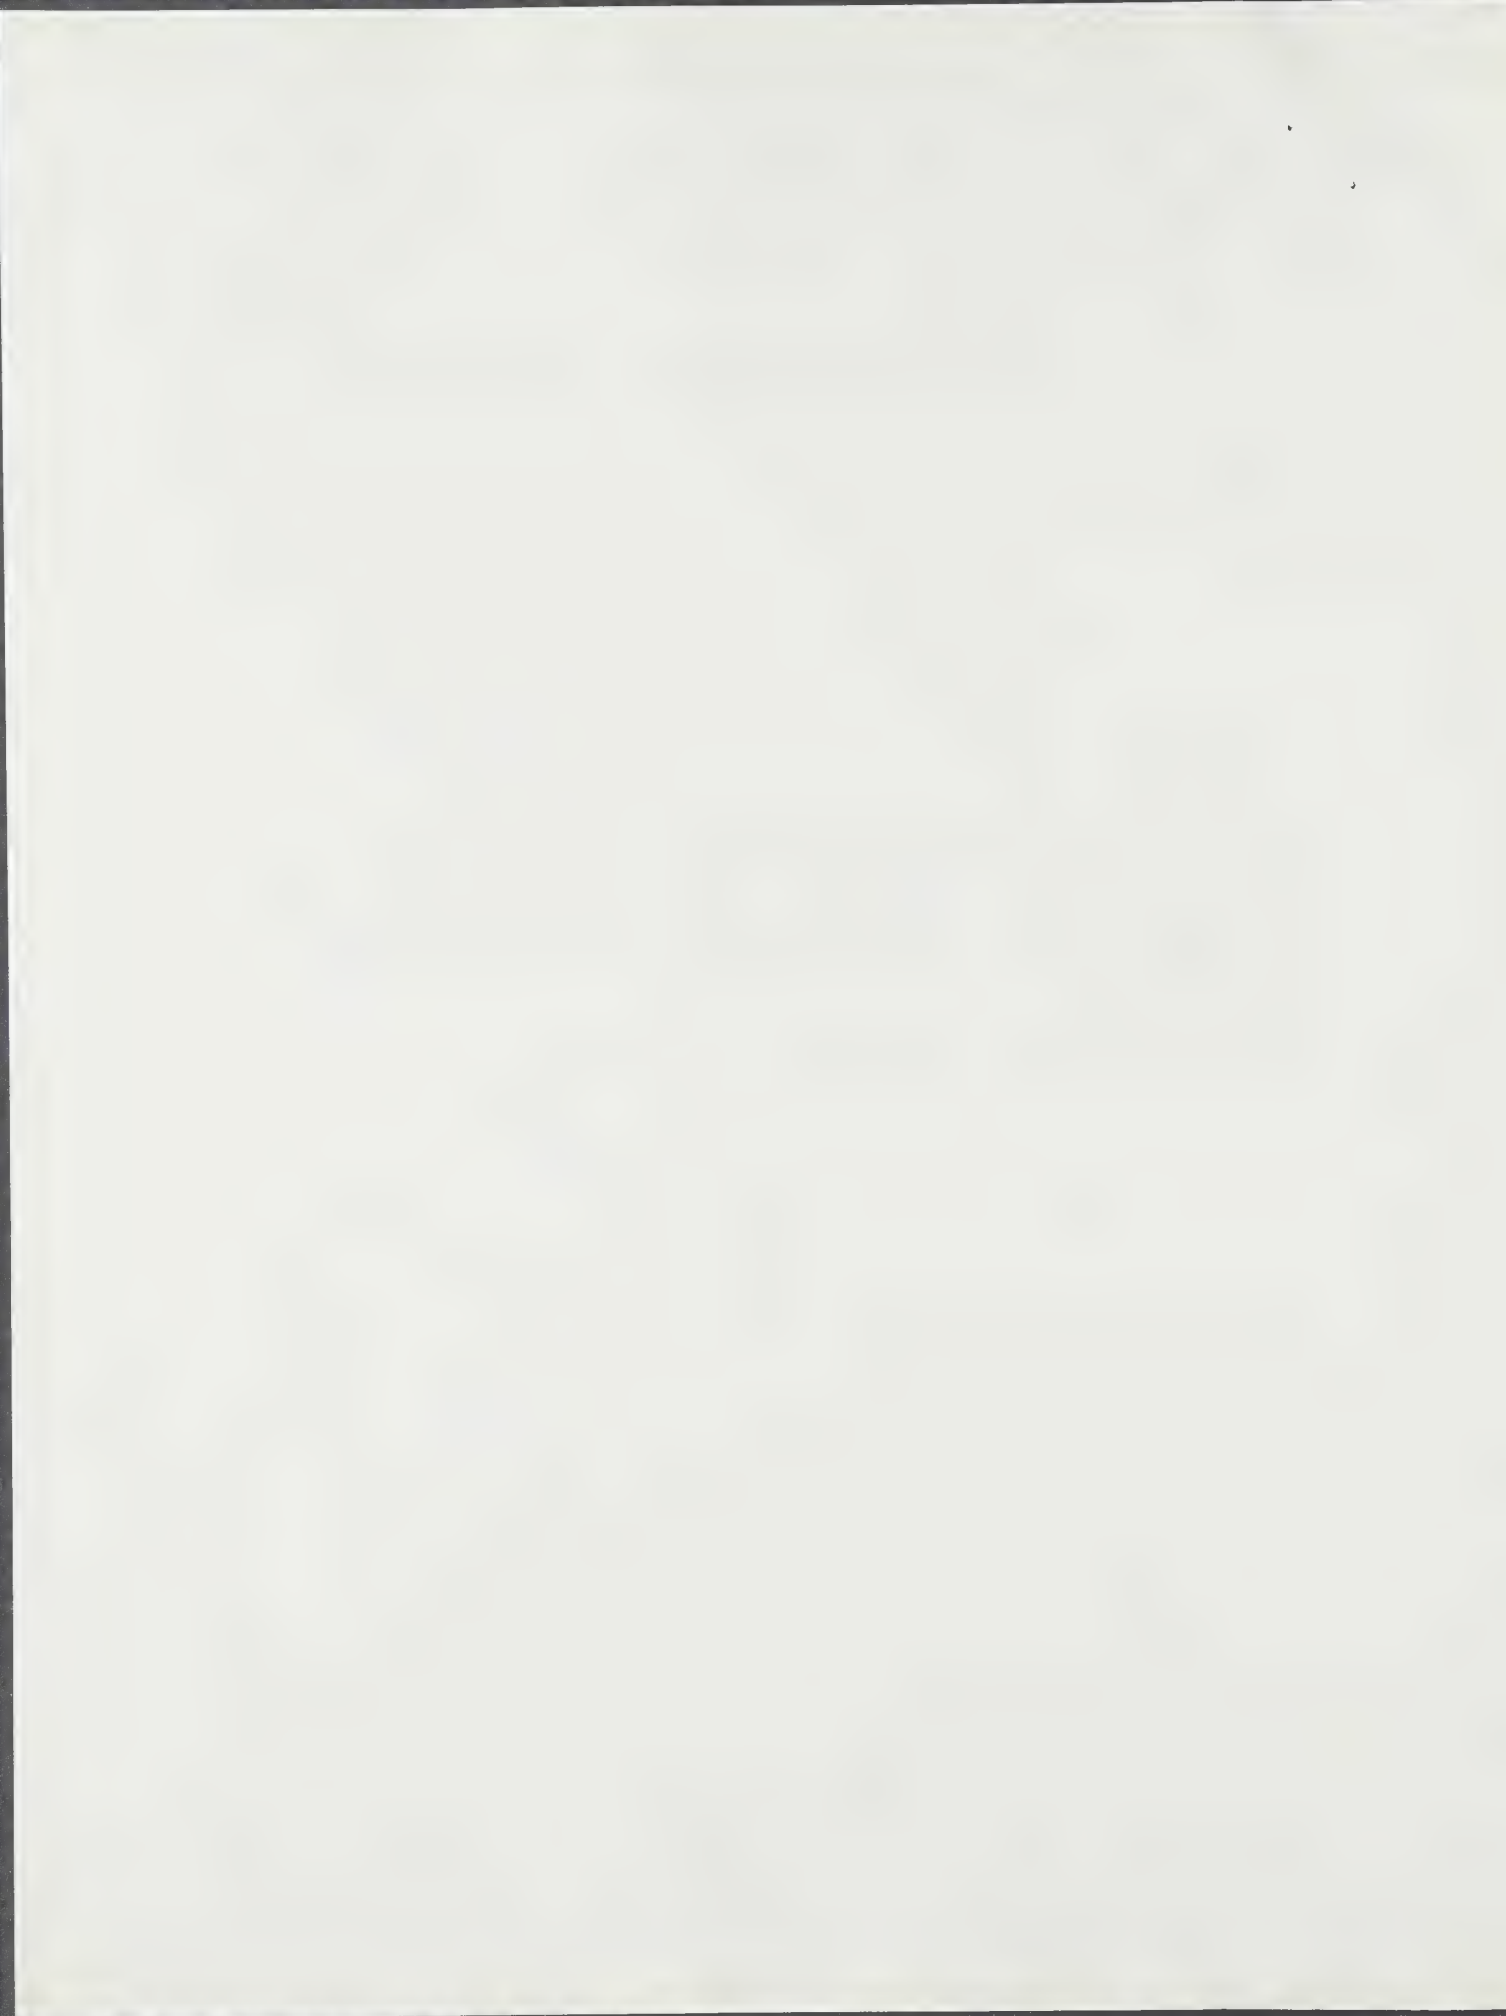

I plan to be away from work for all of January and February 1995. Roger Cowles who also worked on the CSC conference in Edmonton has agreed to coordinate any activities with respect to your trip during my absence. Roger works with me at Syncrude and his fax number is the same as my new fax number - 403-970-6805. We look forward to hearing your comments on our proposed schedule.

I hope you and Mrs. Bader are enjoying the Christmas season.

Sincerely,

Law Cooley

Via Fax 403 449 2805

Dear Dr. Cooley:

I am happy to know from your fax of August 4th that April 10th and 11th are satisfactory for several talks in Edmonton. Of course, the frosting on the cake will be spending some time with Magda and Norman Jones, who guided me into chemical research back in 1945.

By next April my autobiography, *The Adventures of a Chemist-Collector*, should be out and some chemists in Edmonton might be interested in it.

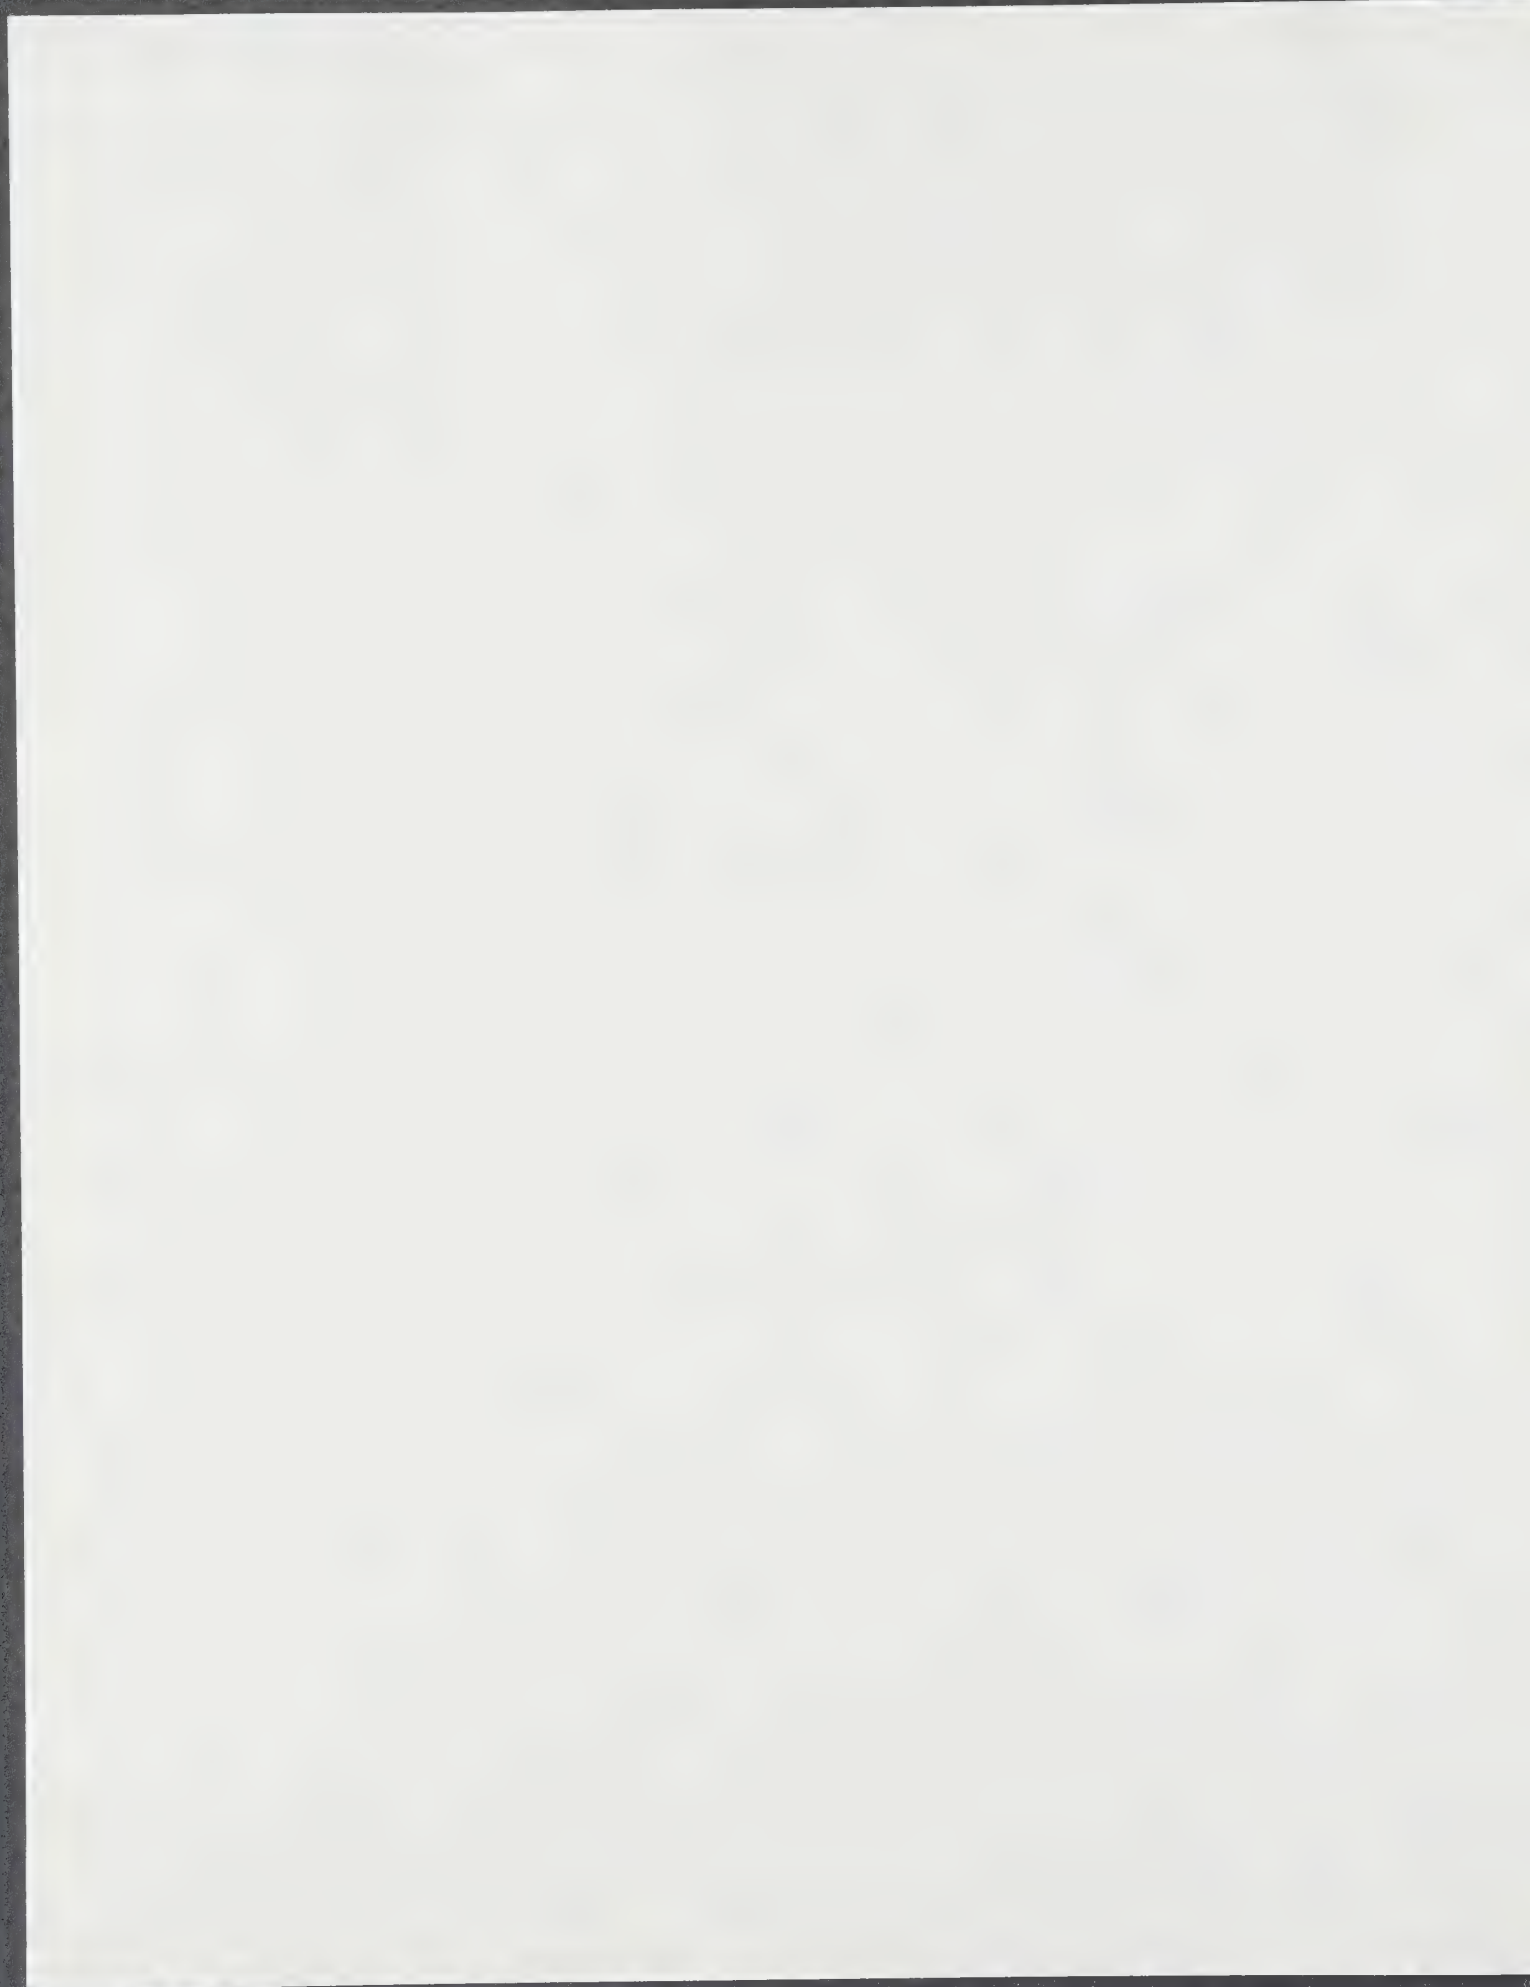

The talk on Richard Anschütz is not just for chemists, but also deals with ethics and physics, and is almost as much a detective story as a scientific one.

I am not sure if I have mentioned this before: I do not demand honoraria from universities, but do expect that travel expenses for Isabel and me be reimbursed. However, they should not be very high as they will be shared, and you might like to put a cap on them and let us know what it is.

What would hurt is if you ask me to give only one talk a day. Two is fine, and three even better. Once I tried to give four, and that was too many.

Sincerely,

c: Prof. Edward Piers

53211

Fax 414-277-0709

Dear Dr. Bader

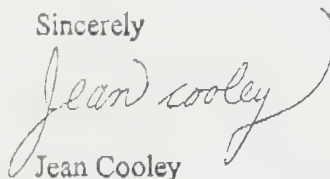

We are pleased that you will be able to visit Edmonton on April 10 and 11, 1995. I have confirmed these dates with Ron Kratochvil (University of Alberta Chemistry Department), my colleagues in the 75th CSC Conference Lecture Series and Gerry Tertzakian. These dates will work out well for us and we are looking forward to your visit and lectures.

Thank you for providing us with a list of proposed talks. The talks all look very interesting. We would like to consult with a few more of our colleagues before selecting the Edmonton talks so I propose that we suggest the titles to you at a later date. We do have one question - is the talk on Richard Anschutz for chemists only? If so, could you give us an idea of what might be covered in this talk.

Anticipating that you may wish to see Dr. Norman Jones and Mrs. Jones, Ron Kratochvil will inform them of your plans to visit Edmonton.

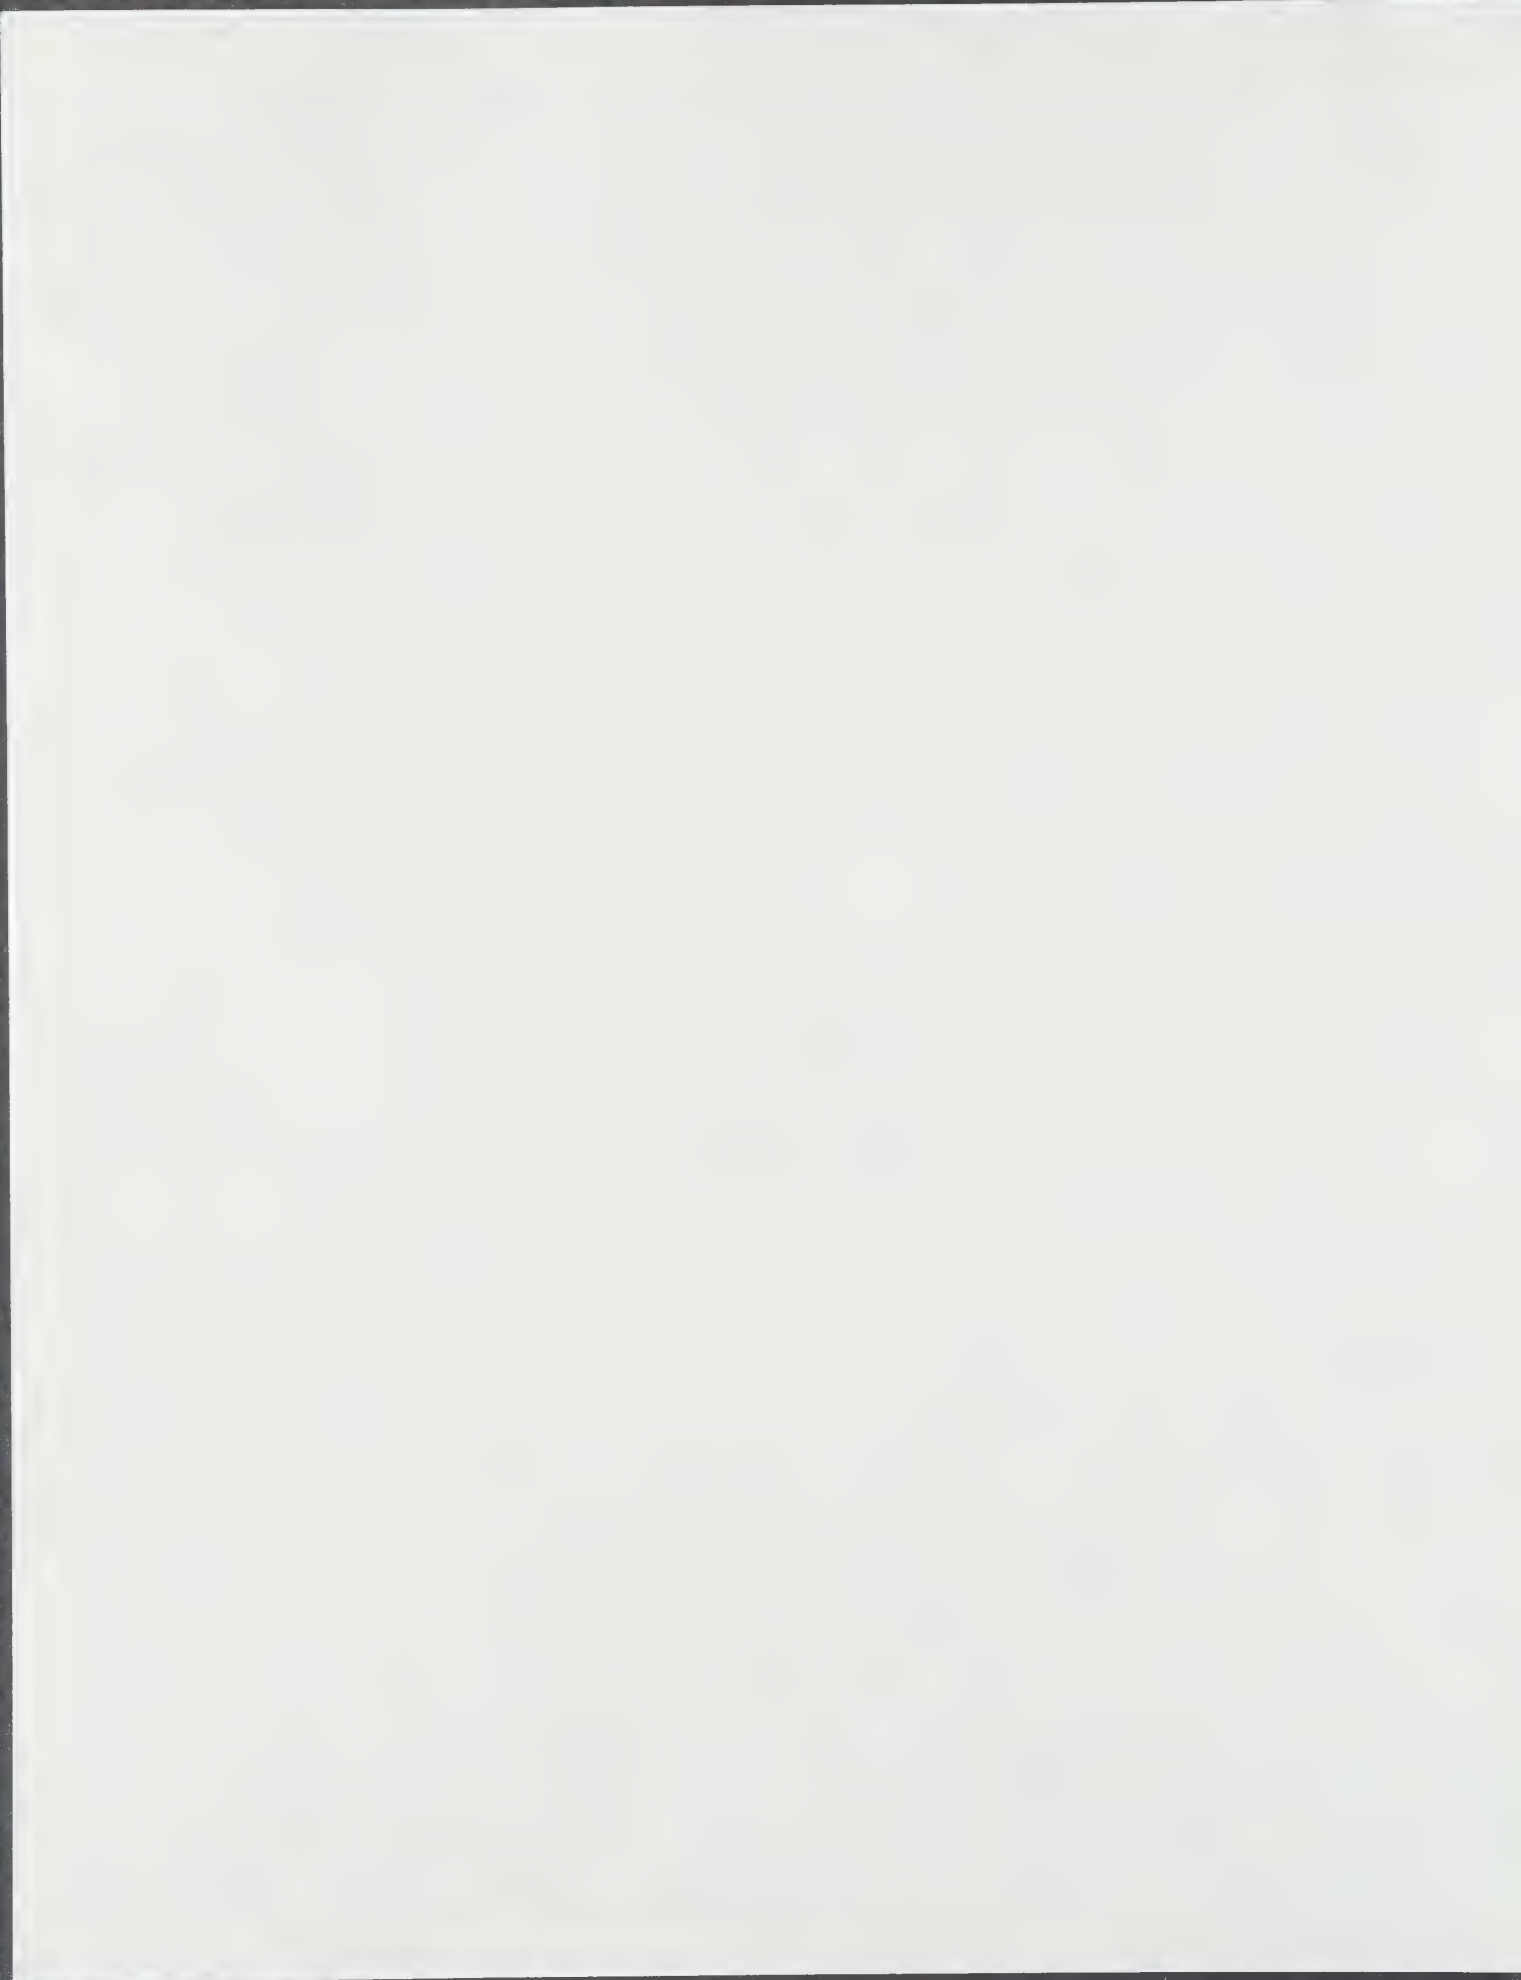

I am certain we will enjoy your 1995 visit as much as your previous visit.

Sincerely

Jean Cooley

Edmonton, Alberta
Canada T6P 1V8

Via Fax 403 449 2805

Dear Dr. Cooley:

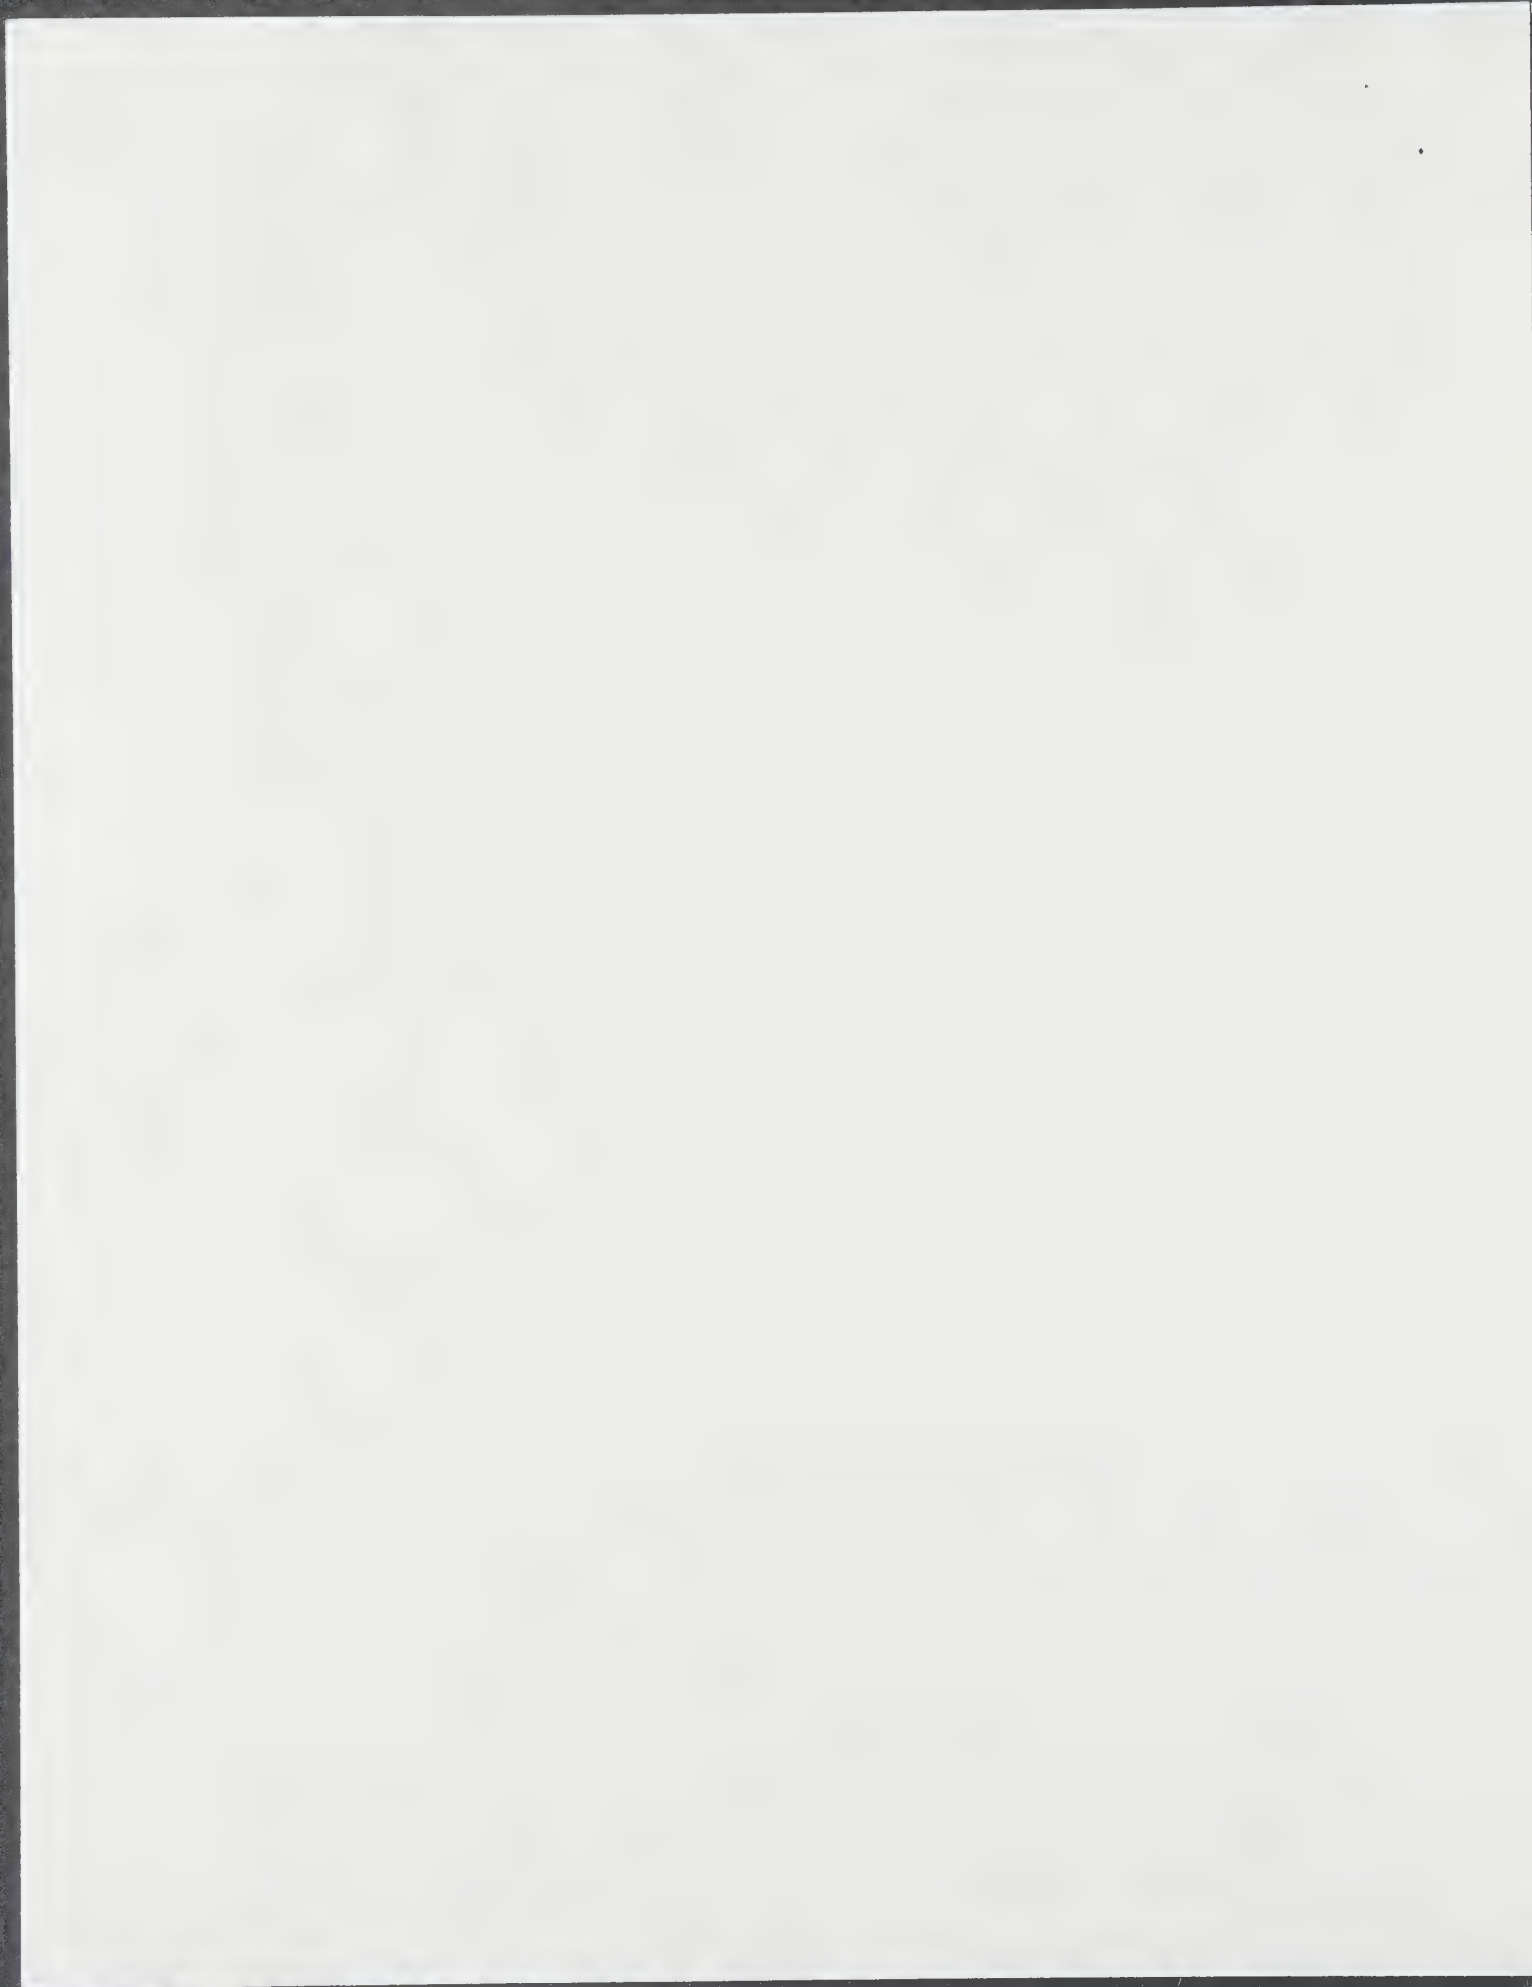

Thank you for your kind invitation to lecture in Edmonton next spring.

The only problem that I see is one of timing. I will be at the American Chemical Society meeting in Anaheim next April, to receive the Parsons Award. Thus, I will be there from the 3rd to the 5th of April.

Professor Edward Piers at the University of British Columbia has invited me to speak at UBC, and the most convenient dates for my talks at UBC would be April 6th and 7th. We have many relatives in Vancouver, and thus we would like to spend the following weekend there, and could be with you in Edmonton on Monday and Tuesday, April 10th and 11th.

I enclose a "menu" of lectures from which you are free to choose. The one of greatest interest to chemists would either be "Josef Loschmidt--The Father of Molecular Modelling" or "The History of Sigma-Aldrich". For the art museum, I suggest either "The Bible through Dutch Eyes" or "The Rembrandt Research Project and the Collector".

Edmonton is the only city in the world where I was invited to give a talk early one evening and the audience then asked me to give a second talk, beginning 15 minutes later. That second talk, I believe, was "The Bible through Dutch Eyes", but some lovers of art coming to your art museum may have forgotten that talk.

Dr. Jean Cooley
Syncrude Canada Ltd.
August 2, 1994

QUEEN'S ALUMNI

003/004

Itinerary for Queen's Alumni Events
For Dr. Alfred and Mrs. Isabel Bader

Vancouver

Thursday, April 6, 1995

- 5:30 pm Mrs. Katie Hill, Arts'50, and her husband Jim Hill will pick up Dr. and Mrs. Bader at the home of Mrs. Bader's brother, Mr. Clifford Overton. Mrs Hill will telephone Mr. Overton to confirm the final arrangements. The reception will take place at the Reception Centre of the UBC Botanical Gardens.
- 6:00 pm Wine and Cheese Reception at UBC Botanical Gardens Reception Centre, 6804 S.W. Marine Dr. Non-alcoholic beverages will also be provided.
- 7:00 pm Dr. Bader's presentation followed by a further opportunity to mingle with the guests.
- 8:30 pm Dr. and Mrs. Bader will be taken to dinner by Mr. and Mrs. Hill who will also drive them back to Mr. Overton's house at the end of the evening. This departure time is flexible and is at the discretion of Dr. and Mrs. Bader and Mr. and Mrs. Hill.

Friday, April 7, 1995

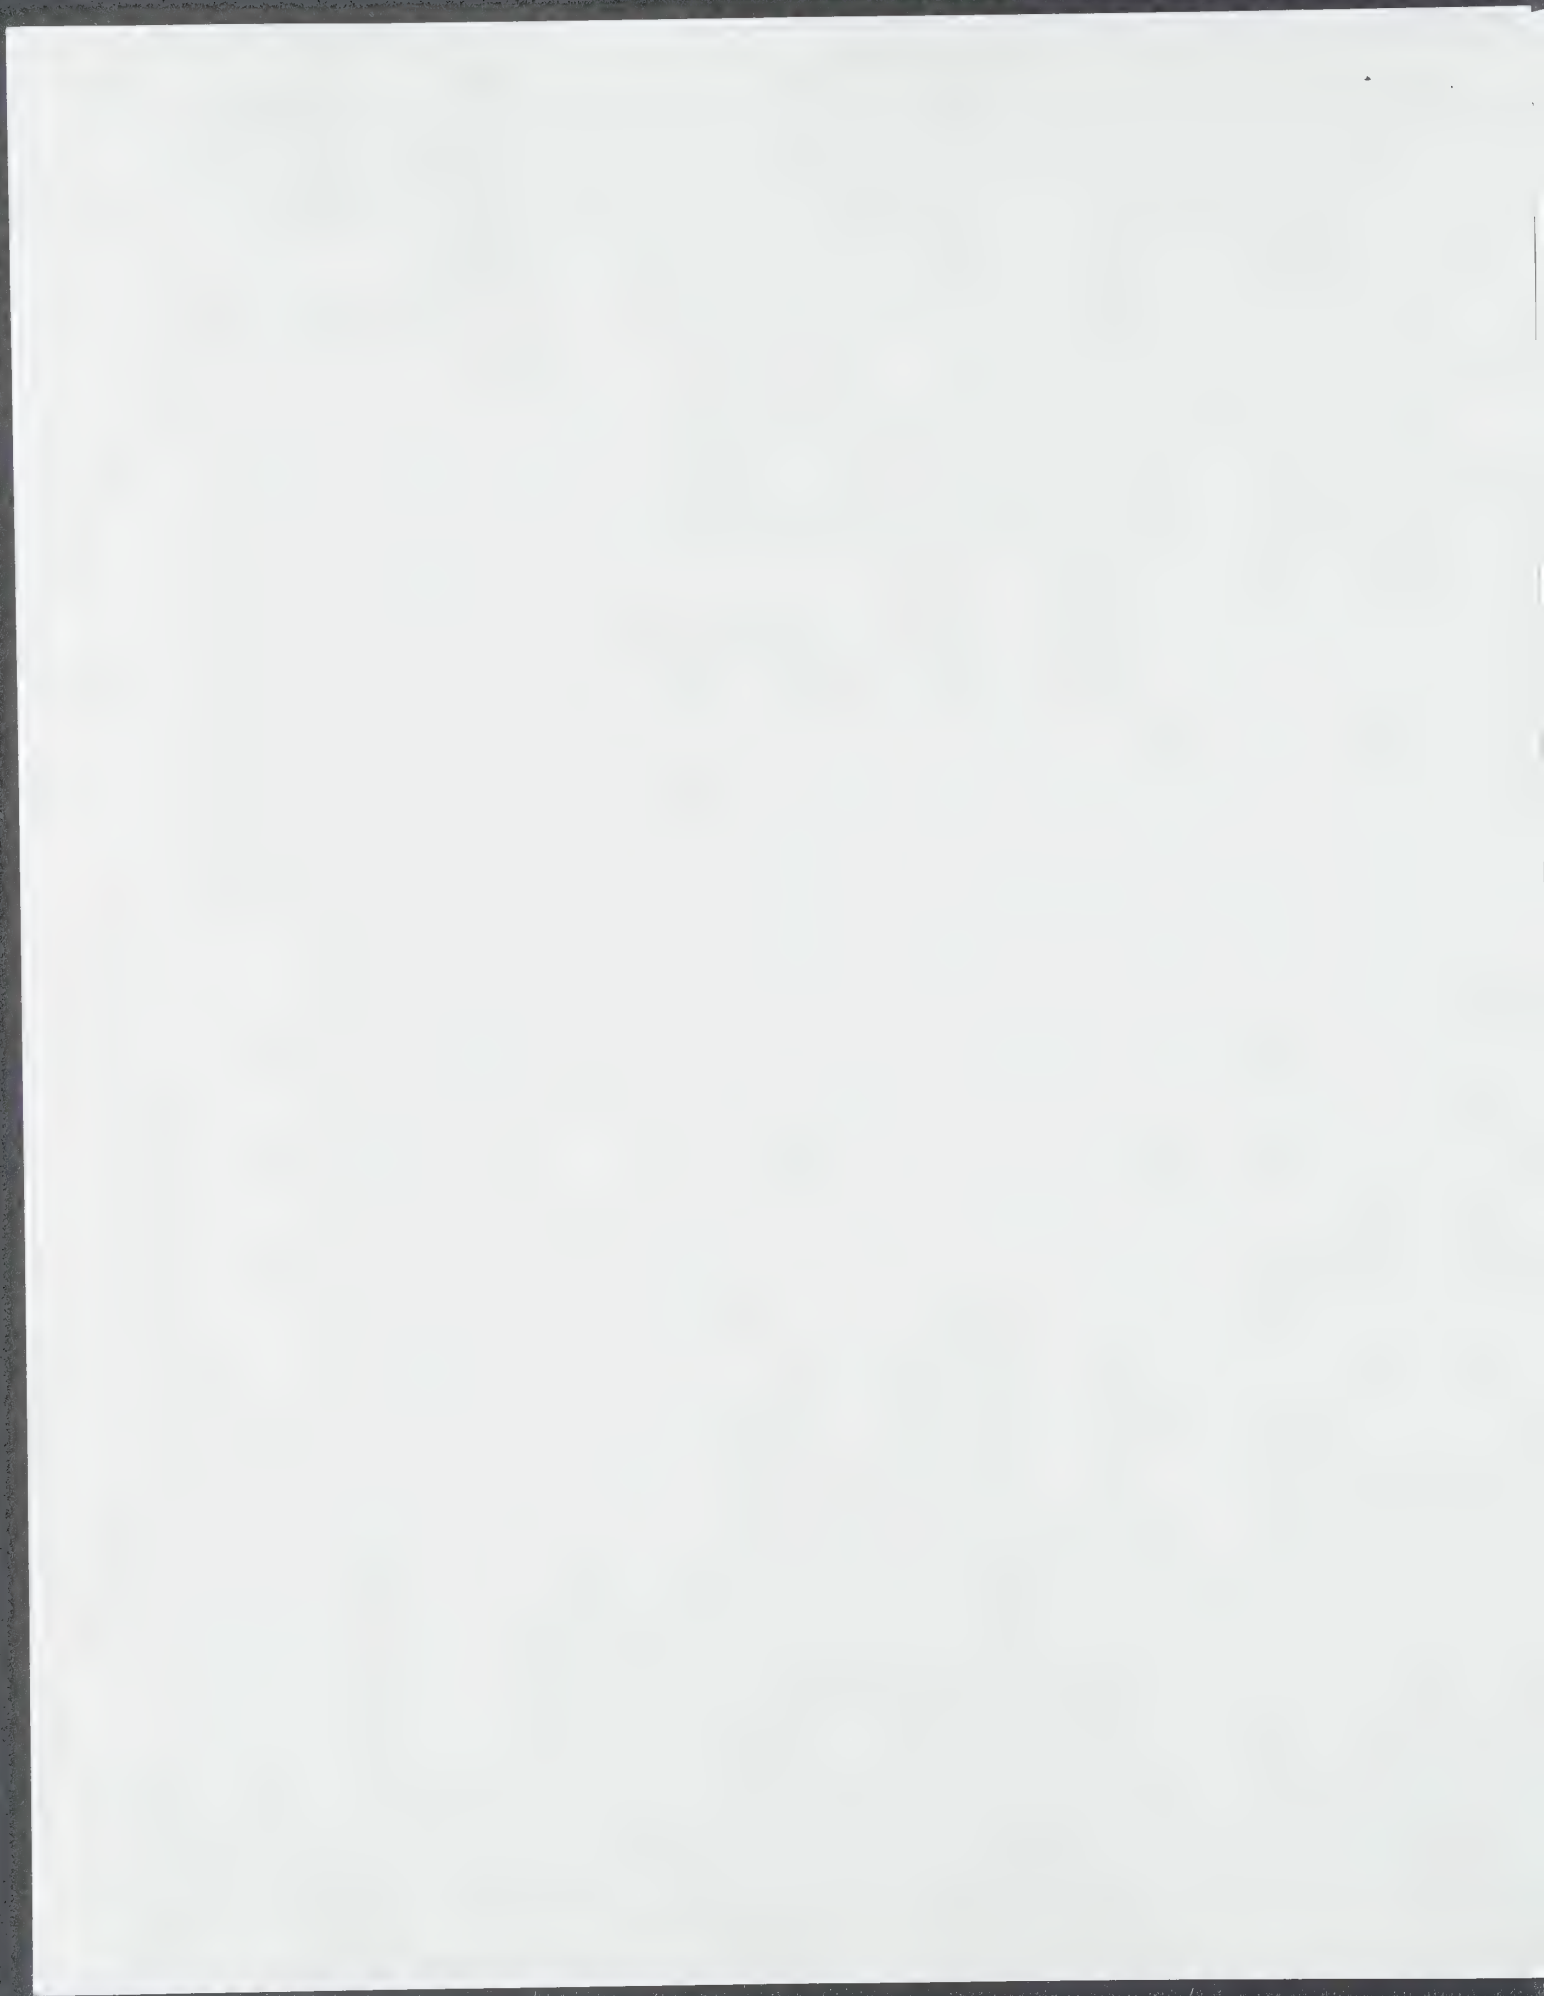

- 2:30 pm Professor Edward Piers will drive Dr. and Mrs. Bader to the CBC Radio Studio.
- 3:30 pm Dr. Bader will be interviewed by CBC Radio Host, Vicki Gabereau. (Interview should last 20 to 30 minutes)

Saturday, April 8, 1995

- 1:00 pm Brenda and David McLean will pick up Dr. and Mrs. Bader at the home of Mr. Overton and host them to lunch. Afterwards they will take Dr. and Mrs. Bader to the Vancouver Art Gallery (VAG) where Mr. Brian Foreman, Coordinator of General Programs will give them a private tour of the Gallery. The VAG will be exhibiting a small collection of still life and landscape Dutch paintings from 1600 and 1700 which might be of interest to Dr. and Mrs. Bader.

Edmonton

Because the schedule arranged by Jean Cooley of the Canadian Society of Chemistry is very full

03/31/95 10:50 ☎ 813 545 6777

QUEEN'S ALUMNI

☐ 004/004

there is no opportunity to arrange a special reception with Queen's alumni during this visit. An arrangement has been made with Jean that Queen's alumni living in Edmonton will be invited to attend the two public lectures to be presented at the Edmonton Art Gallery and at King's University College.

The Branch Development Unit of the Department of Alumni Affairs has sent an invitation to alumni living in Edmonton. Alumni in attendance at the public lectures will wear a Queen's University Alumni Association name tag showing the Queen's flag.

Toronto

Wednesday, May 17, 1995

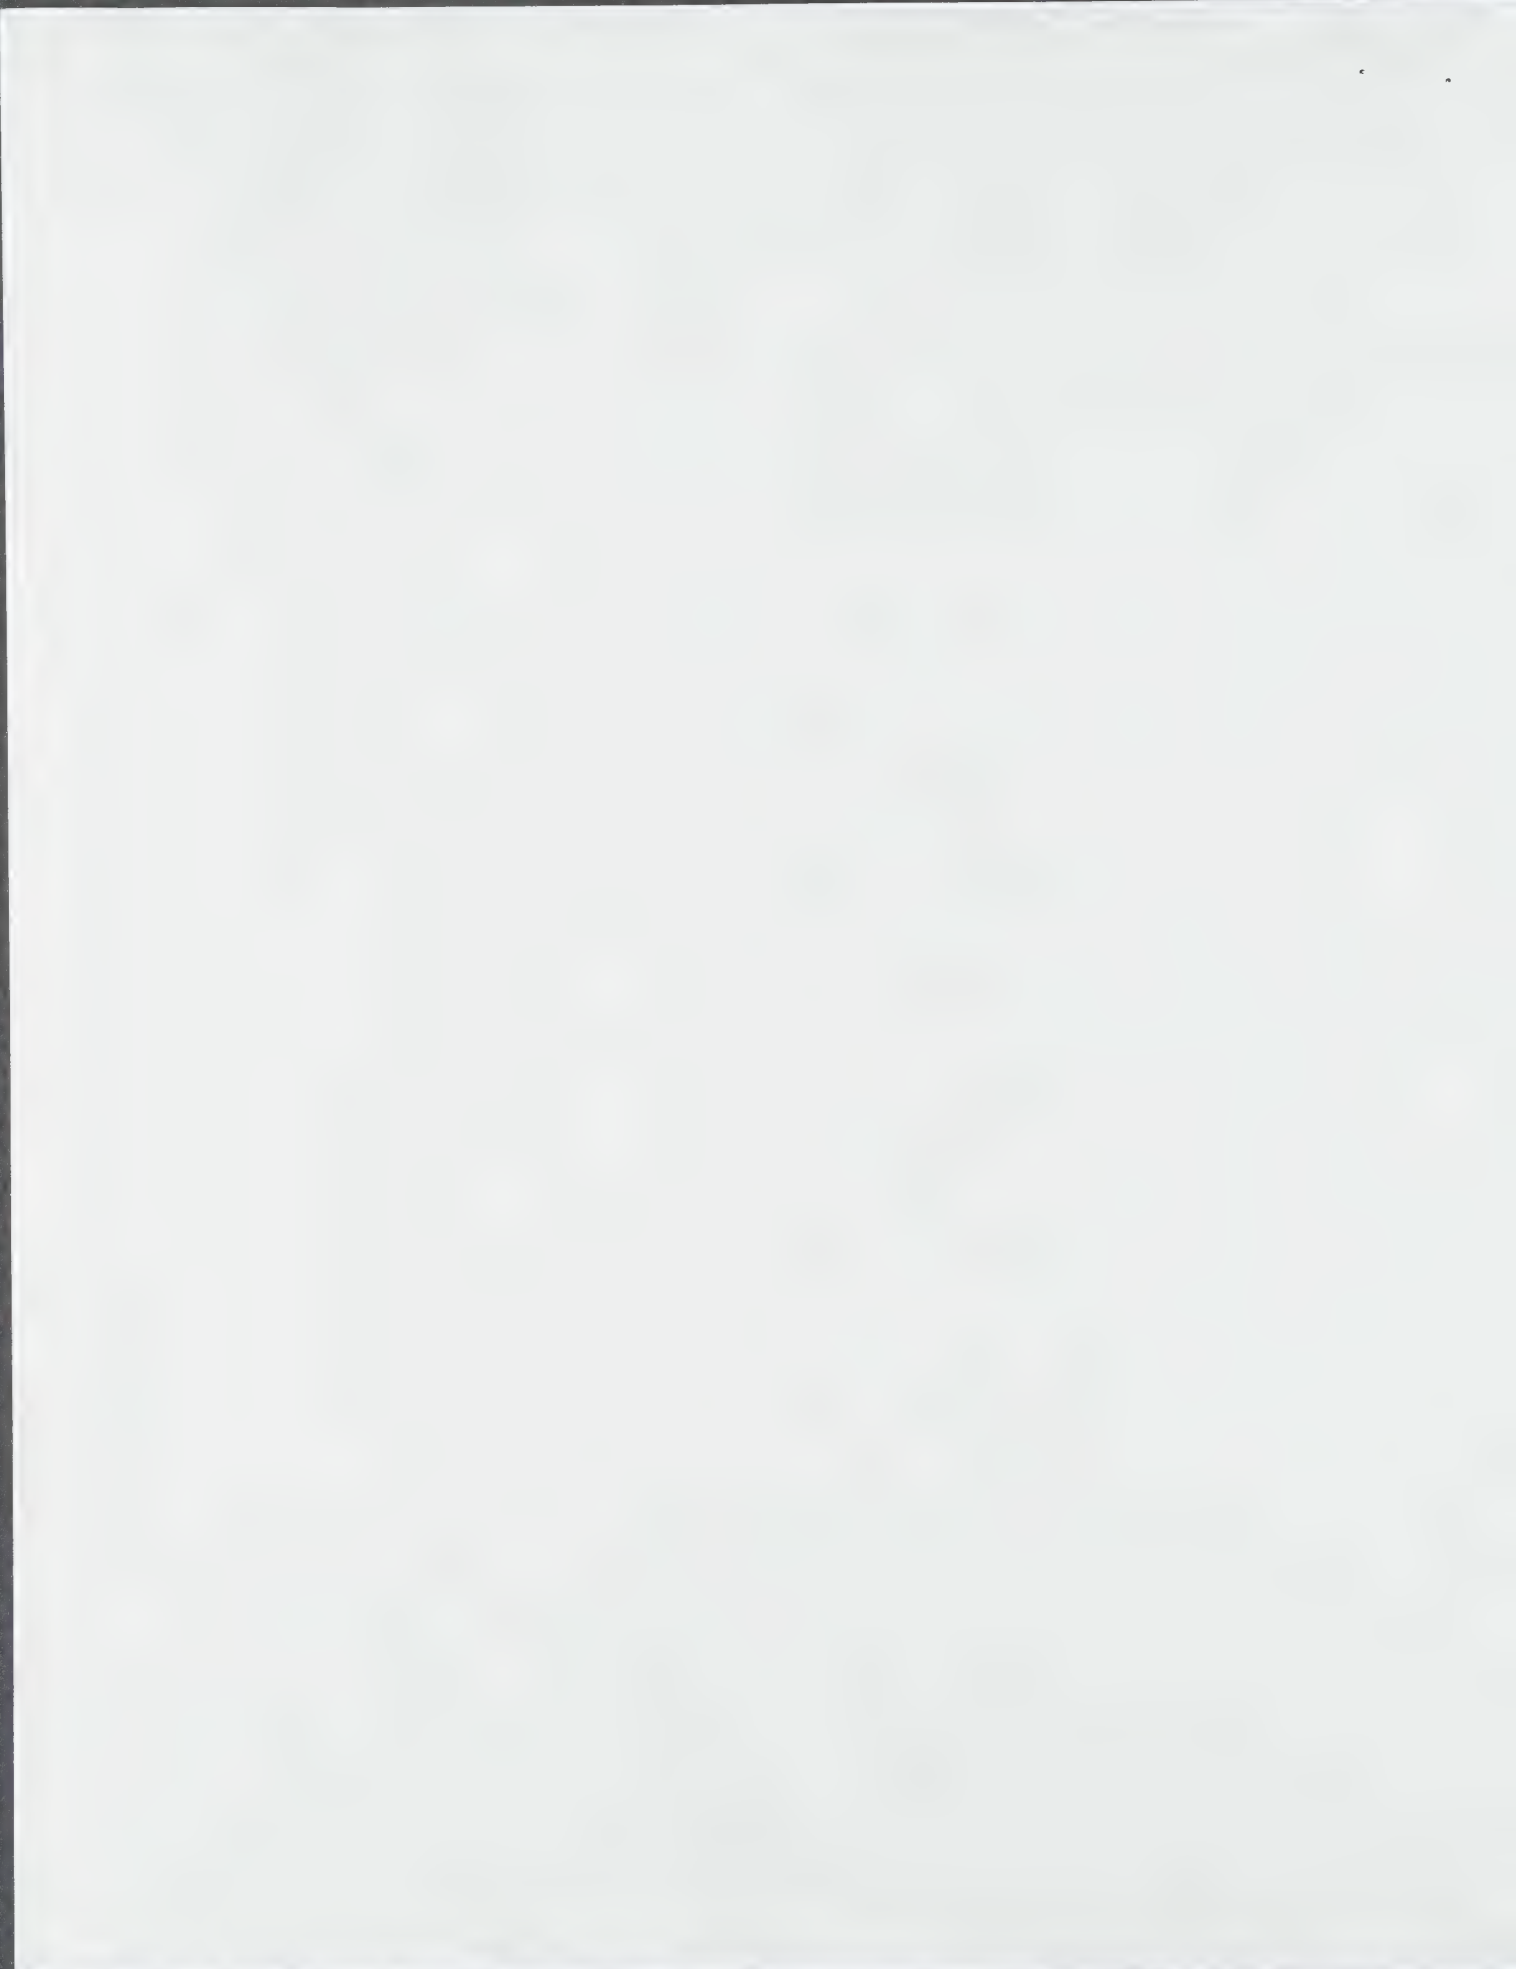

The Toronto Branch is very interested in having Dr. Bader speak to alumni. Details are still being worked out and we will consult with Dr. Bader as more information becomes available.

Guelph

Monday, May 29, 1995

The Guelph Branch and the Kitchener/Waterloo Branch have planned to jointly host a coffee and seasonal dessert reception for Dr. and Mrs. Bader on the evening of Monday, May 29, 1995. Upon discussion with Professor Oakley we arranged that Professor Oakley will take Dr. and Mrs. Bader to their hotel in mid-afternoon on Monday.

- 5:00 pm Branch Development Coordinator, Ivanka Franjkovic will pick up Dr. and Mrs. Bader for dinner with the presidents of the two alumni branches and their spouses. She will also drive them to the reception and finally back to their hotel at the end of the evening.
- 7:30 pm Reception featuring coffee/tea and seasonal dessert.
- 8:00 pm Dr. Bader's presentation followed by a further opportunity to talk with the guests.
- 9:30 pm Ivanka Franjkovic will take Dr. and Mrs. Bader to their hotel. The departure time as indicated is flexible and is at the discretion of Dr. and Mrs. Bader.

FAX FROM

DR. ALFRED R. BADER
Suite 622
924 East Juneau Avenue
Milwaukee, Wisconsin 53202
Telephone 414-277-0730
Fax No. 414-277-0709

March 28, 1995

To: Professor Edward Piers
Department of Chemistry
University of British Columbia
Fax: 604/822-2847

Dear Edward:

In response to your yesterday's fax, Isabel and I plan to arrive in Vancouver on Wednesday evening, April 5th, and will undoubtedly be picked up by someone in the family; Isabel's brother and sister-in-law live at 3707 West 13th Avenue, Vancouver V6R 2S7, and their telephone number is 604/222-0820.

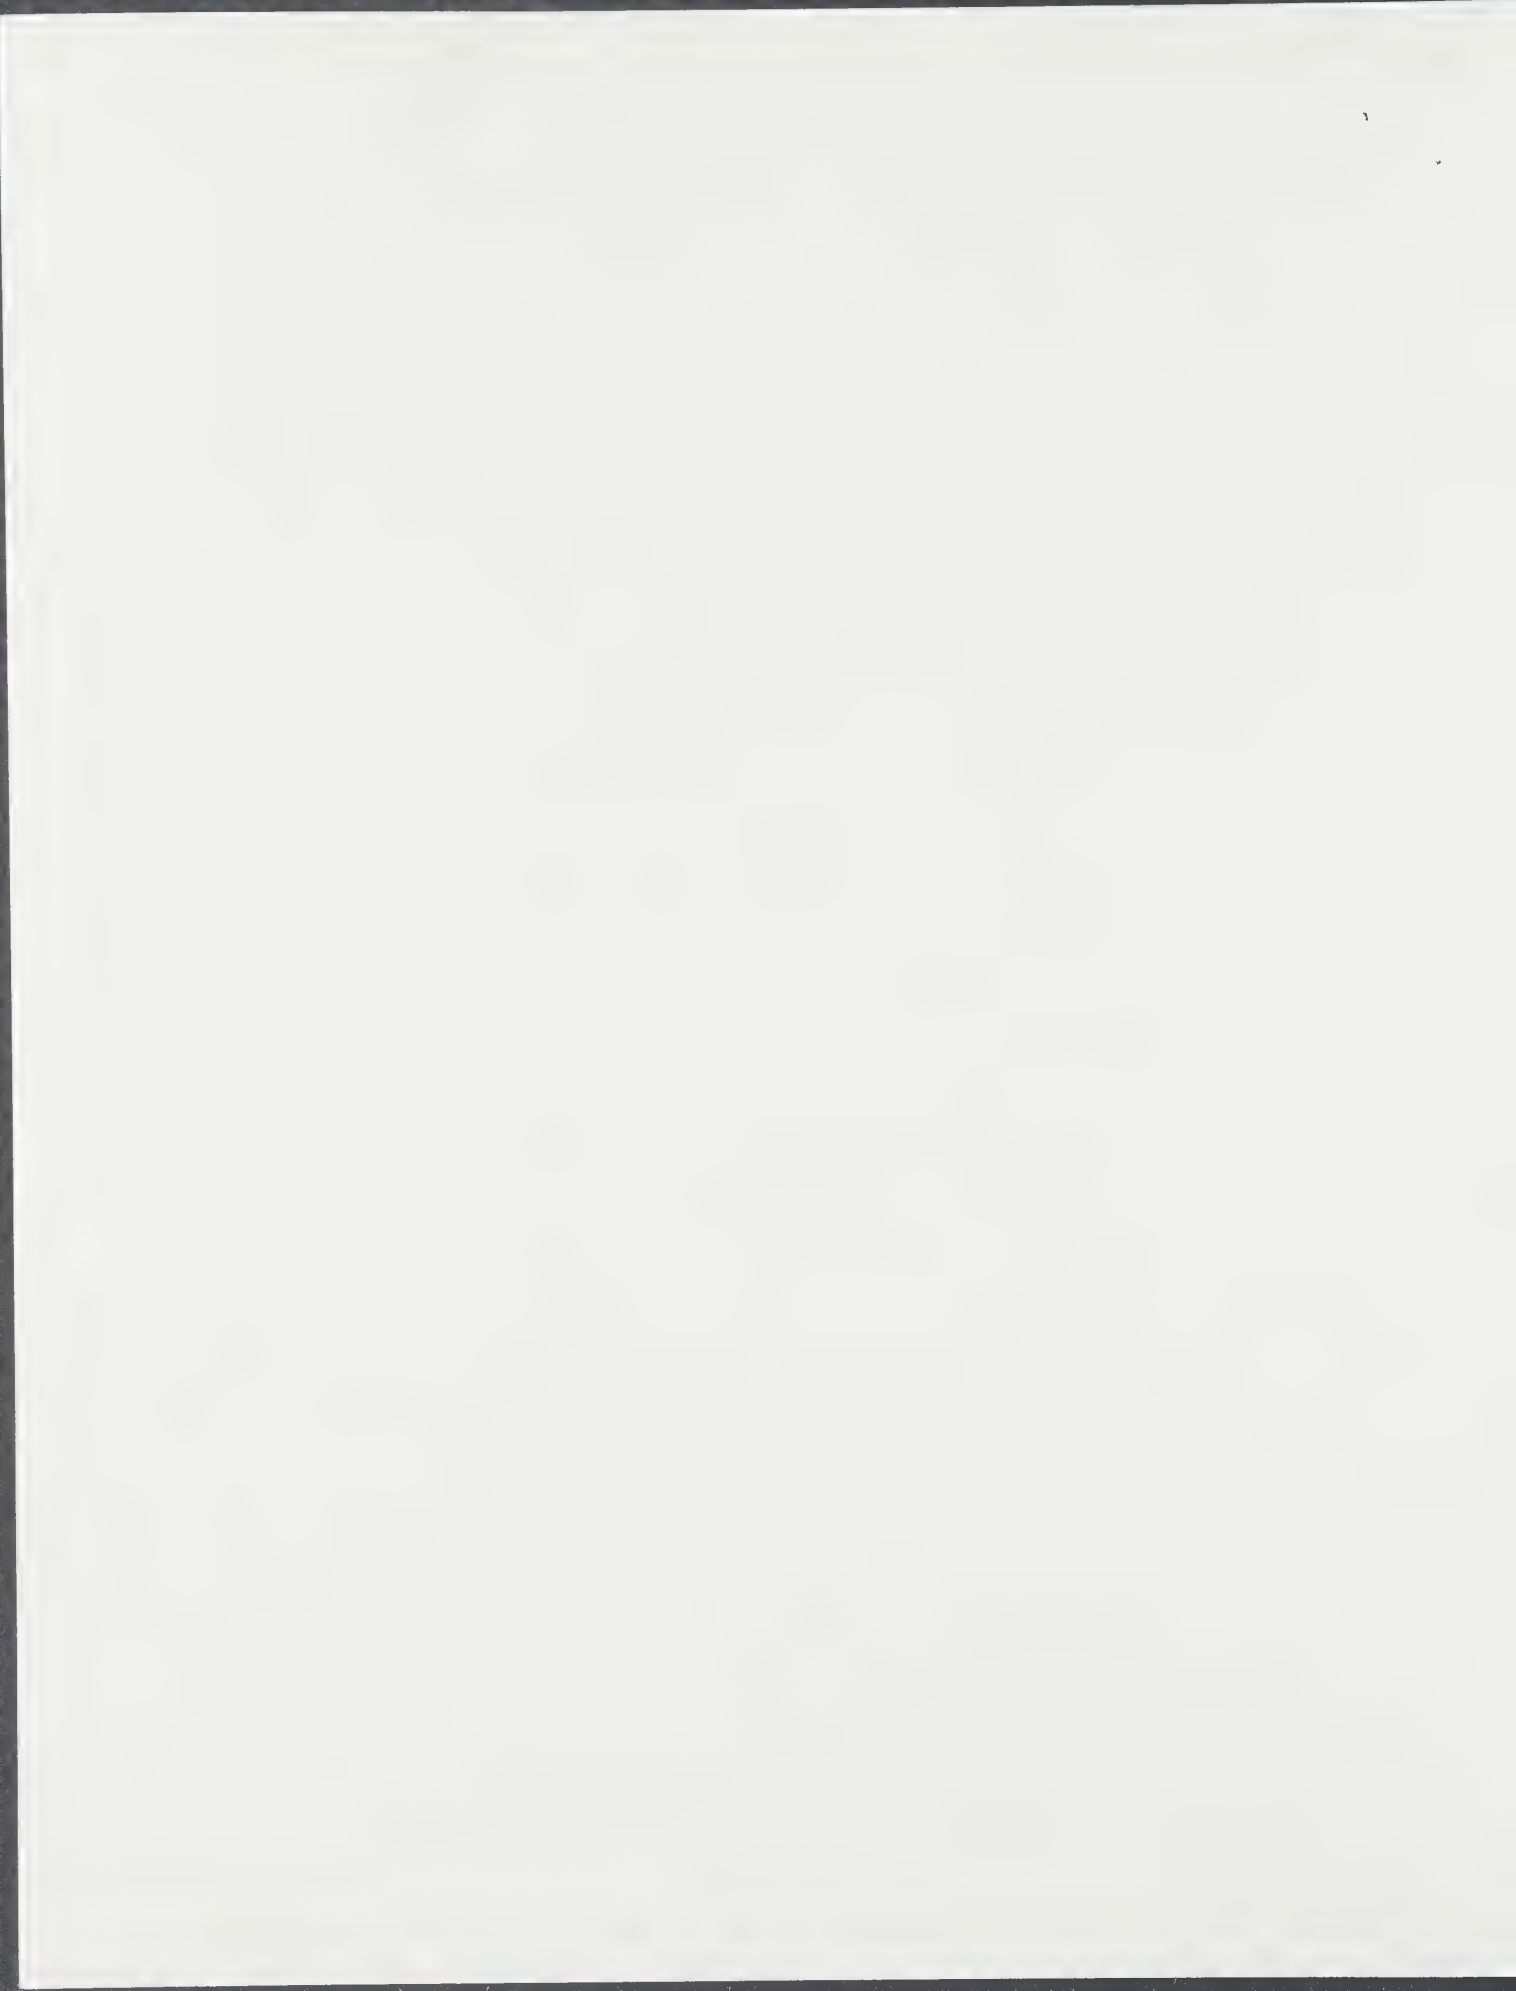

It is conceivable that our staying with Clifford might not be convenient, and then we would probably stay with one of Clifford's several sons and their families. Perhaps you could call Clifford on Wednesday evening just to ascertain where we are staying.

It would be great if you could pick us up on Thursday morning, and starting at the UBC on Thursday at 9:30 would be just fine.

I know that I am scheduled to speak at the UBC on "The Adventures of a Chemist Collector" at 10:30 on Thursday and on Loschmidt at 10:30 on Friday. For both talks, I will require two slide projectors, and we will bring our own packed Kodak carrousels.

Early Friday afternoon, I am to speak on the history of Aldrich Chemical Company, and for that would like to use an overhead projector to show all sorts of interesting transparencies.

I believe that Mr. Don Kossuth of the Queen's Alumni Association would like me to speak to the alumni on Thursday evening, and of course, we'll look forward to that. Incidentally, if you talk to Mr. Kossuth (whose address I don't have), you might mention that we will also require two slide projectors for that talk.

Professor Edward Piers

March 28, 1995

Page 2

Of course, we would enjoy meeting chemists at the UBC, entirely at their convenience. You probably know that David Dolphin has written what was probably the very best and funniest article for the *Aldrichemica Acta* on the life of Bob Woodward.

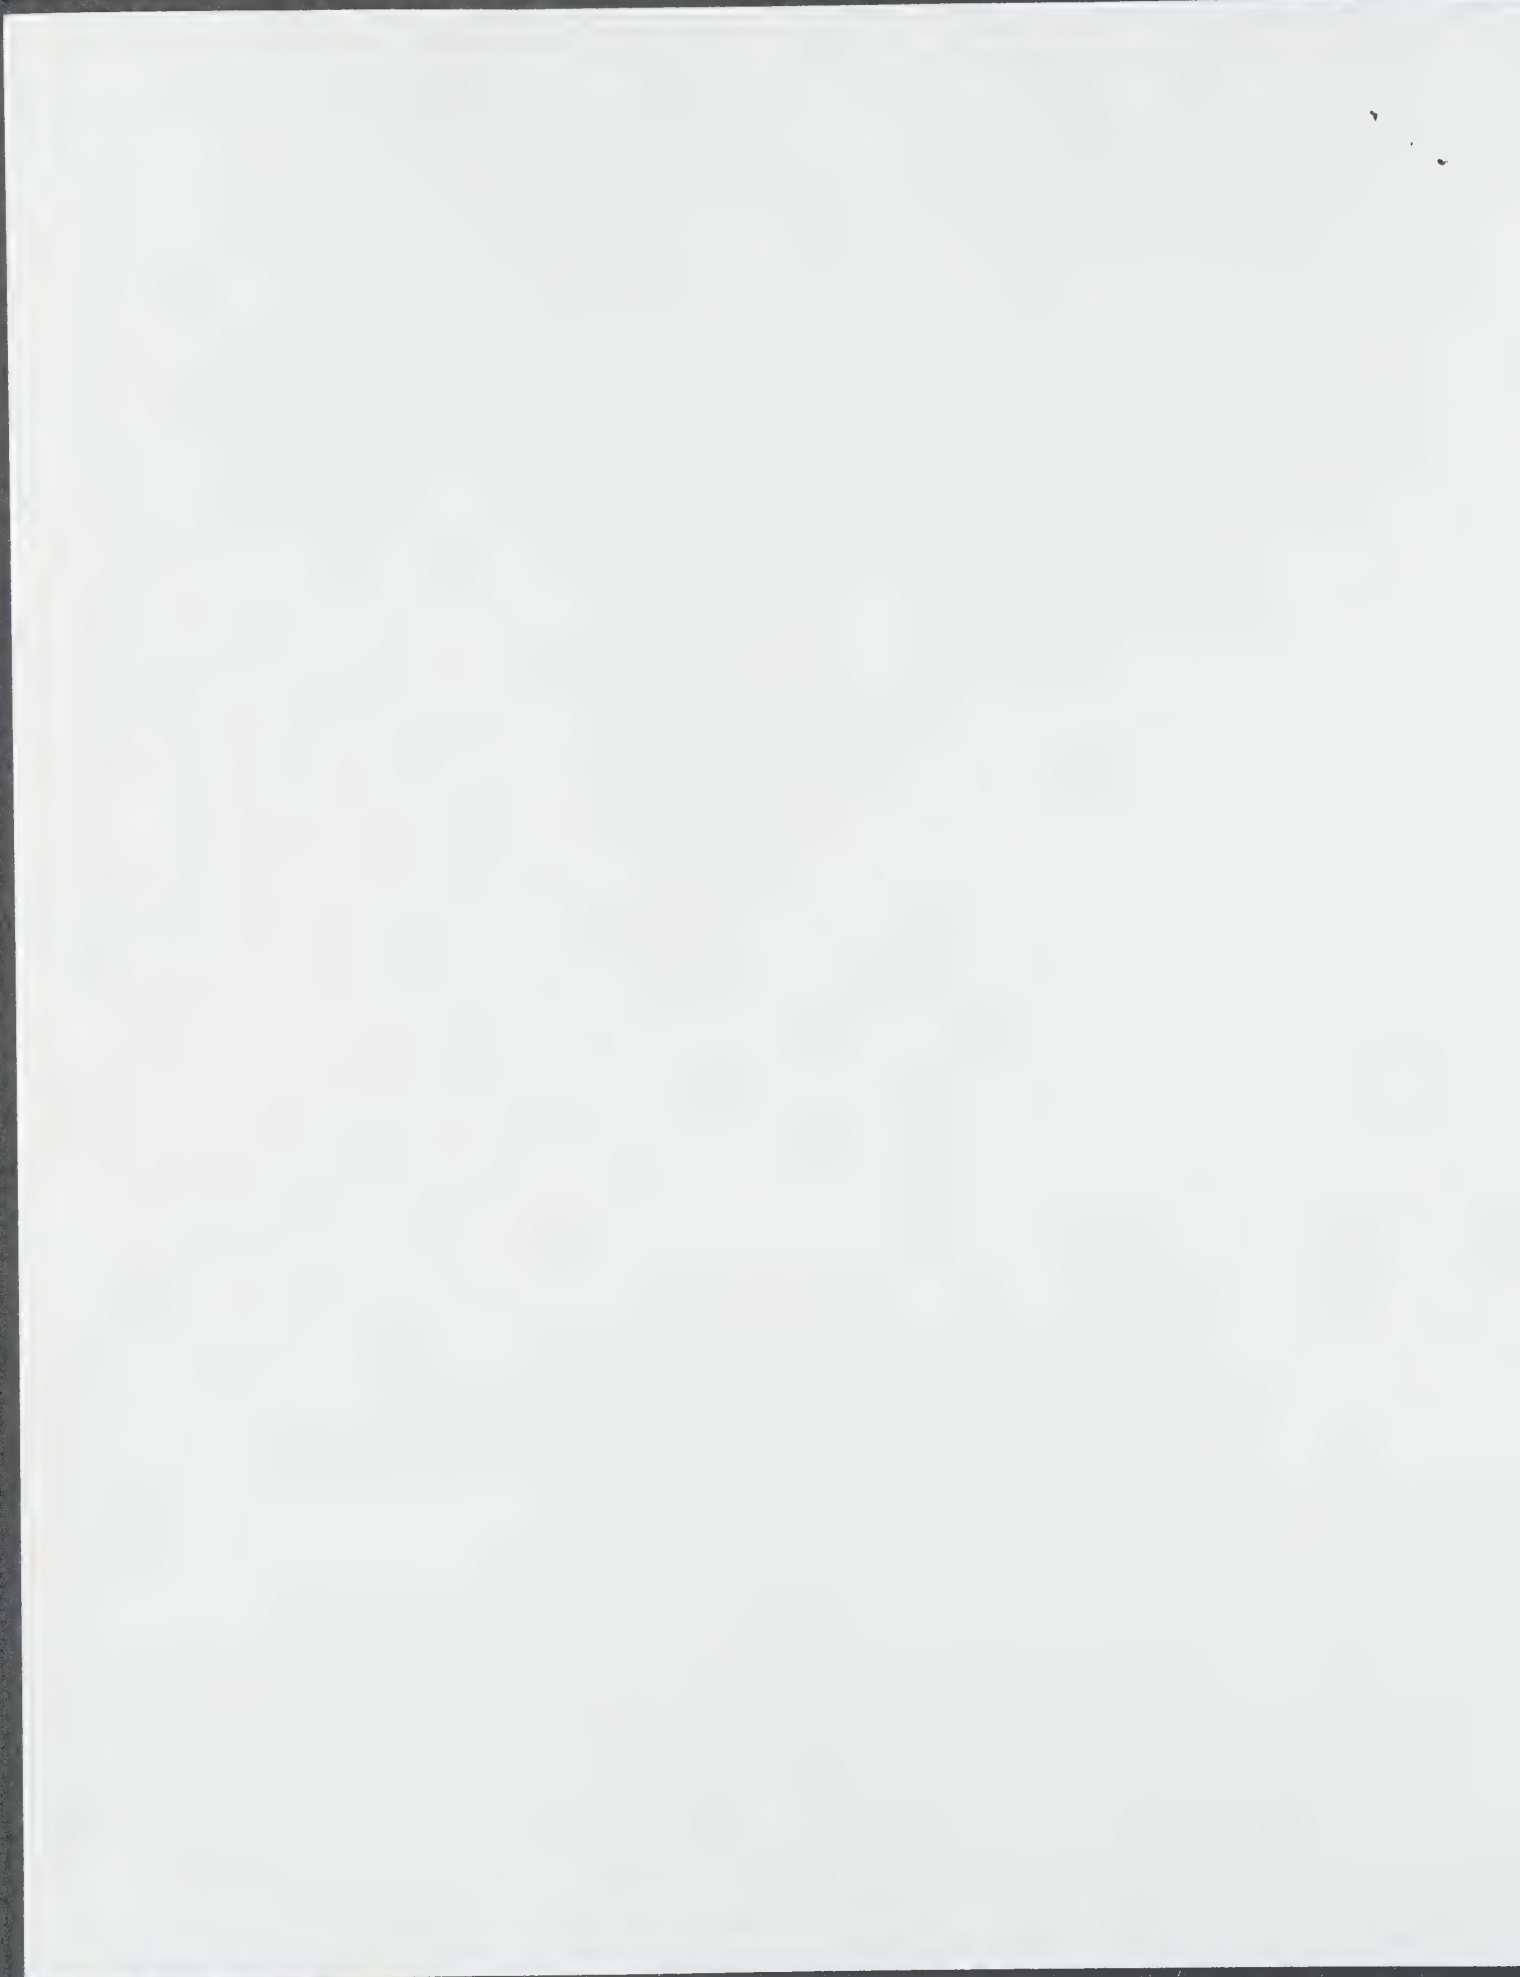

I will have the first copy of *The Adventures of a Chemist Collector* with me, and I think that you will enjoy seeing your very good picture taken in Winnipeg in May of last year.

Of course, we very much look forward to dinner with you on Friday evening.

Best regards, as always,

A handwritten signature in cursive script, appearing to read 'E. Piers', written in dark ink.

75th CSC Conference Lectures

Schedule for Dr. Alfred Bader's visit April 9-12th 1995

Sunday 9th April:

Dr. and Mrs. Bader arrive. Canadian 644 at 2:22 pm. Jean Cooley will meet plane.

Hotel MacDonald, 10065 100 Street

April 9 - 12

Confirmation number 6364

Non Smoking room with two double beds

Evening: dinner with Gerry Tertzakian. Gerry will pick up the Baders at 4:30-5:00 and arrange for their transportation to the hotel after dinner.

Monday 10th April:

8:00 am Baders picked up by Dr. Ron Kratochvil and taken to CBC Radio
7909 51 Avenue

8:40 am CBC Interview - 5 minutes air time on Edmonton AM

Morning Chemistry Department Dr. Bader's office in the Chemistry Department will be
W3-39B, Phone (403) 492-3687

11.00 am talk at U of A Chemistry Department V-107

"Josef Loschmidt - The Father of Molecular Modelling"

12:30 pm Lunch, Faculty Club with Ron Kratochvil, John Vederas, Dick Peter

2:00 pm Afternoon and Dinner Dr. and Mrs. Norman Jones

7.00 pm (approximately) at the Edmonton Art Gallery. Transportation arranged by the Jones.

7.00-8.00 pm Gallery will be open for viewing.

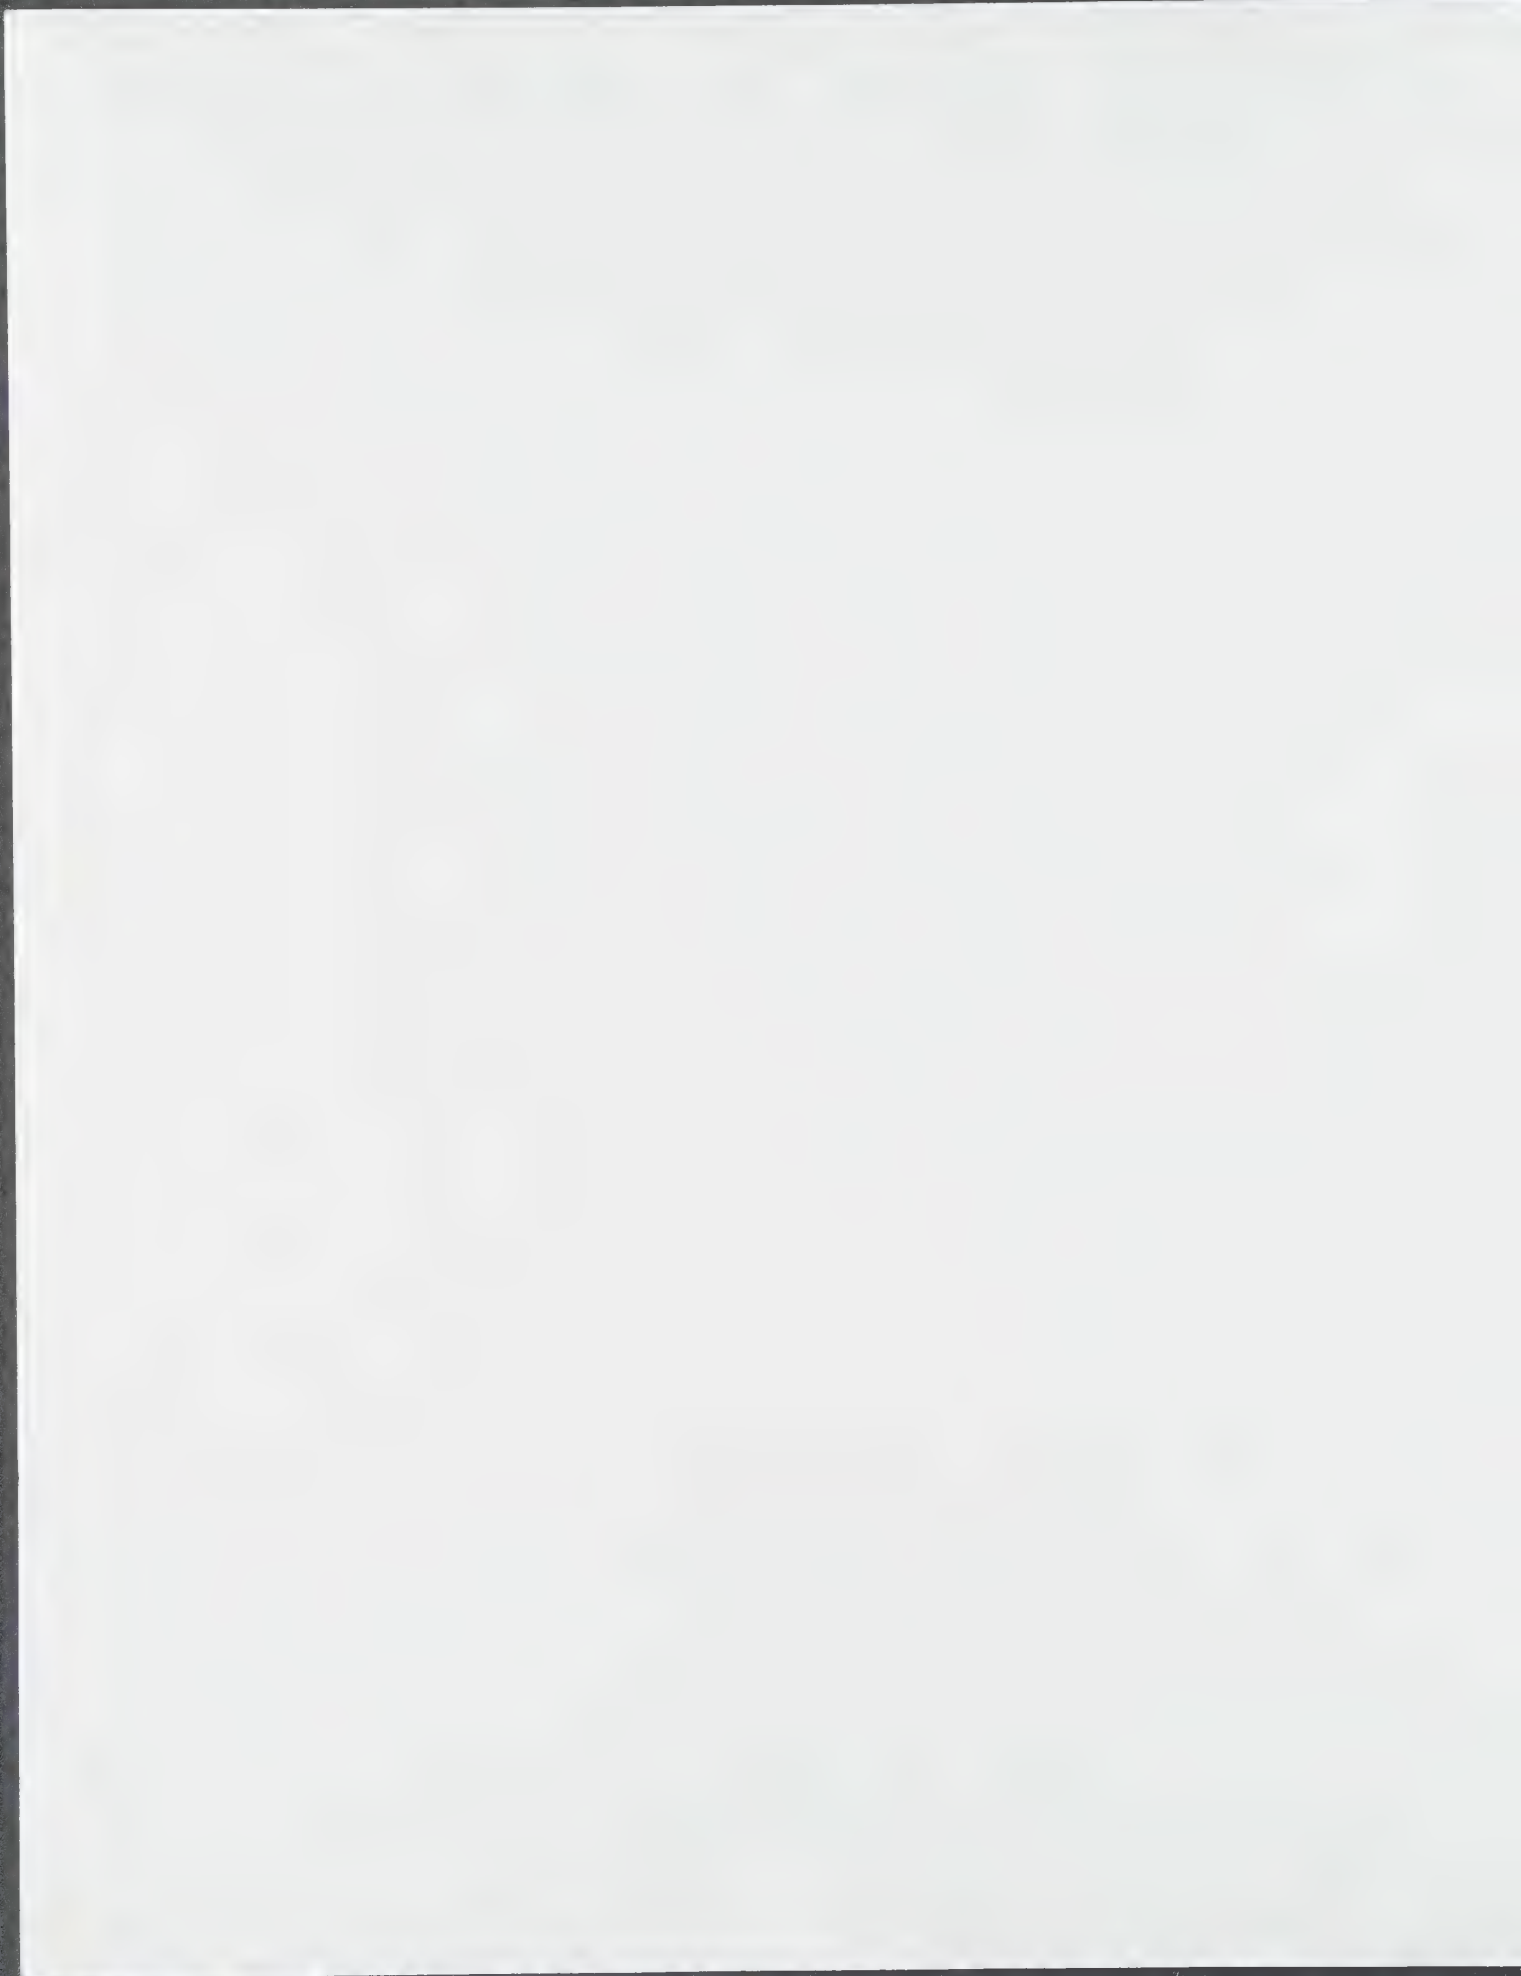

8.00 pm Talk "The Adventures of a Chemist-Collector"

Light refreshments/informal discussions following talk.

Transportation to Hotel by Jean Cooley or Ron Kratochvil. Transportation also for the Jones.

434-4889

Gerry Tertzakian
11/24/95

Schedule for Visit by Dr. and Mrs. Alfred Bader

(Sponsored jointly by the Department of Chemistry of the University of Alberta; the Edmonton Section of the Chemical Institute of Canada, and the Edmonton Art Gallery)

Sunday, 9 April 1995

Dr. and Mrs. Bader arrive at 2:22 pm from Vancouver on Canadian Flight #644. To be met for dinner and evening by Dr. and Mrs. Gerry Tertzakian. Reservations at Hotel MacDonald (by Dr. J. Cooley).

Monday, 10 April 1995

Ron Kratochvil to pick up at 8:00 am at hotel and take to CBC Radio Station for interview, then to Chemistry Department. Dr. Bader's office while in the Department will be W3-39B, Phone (403) 492-3687.

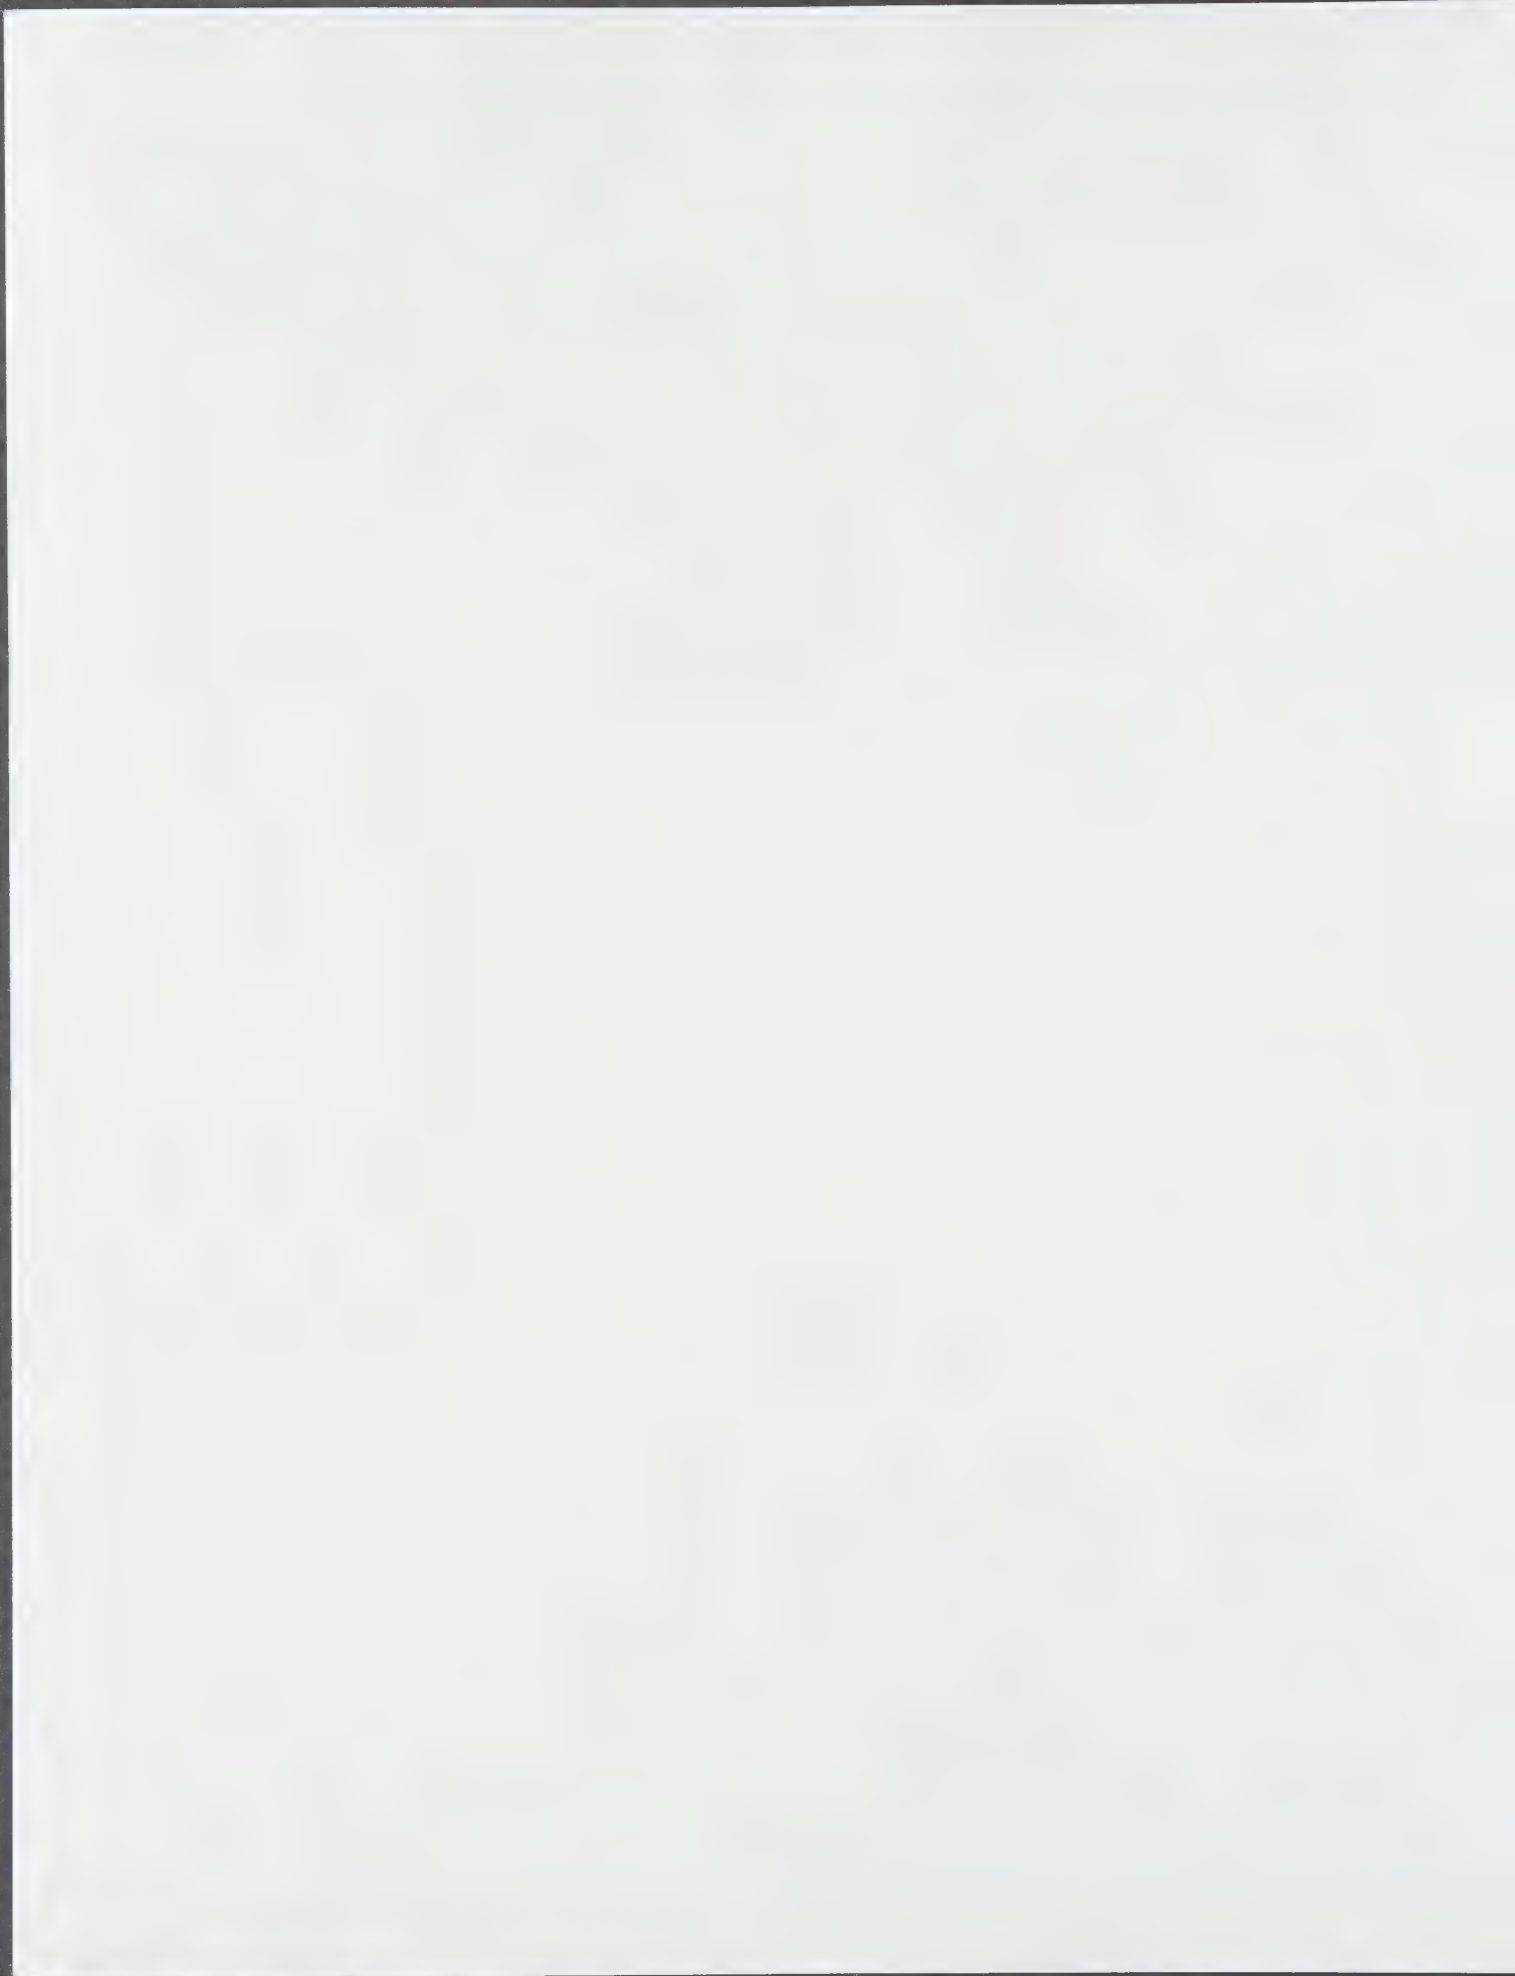

9:30 am	Bob Jordan, Acting Chair
9:45 am	Ron Kratochvil
11:00 am	Seminar, V-107 – Josef Loschmidt – The Father of Molecular Modelling
12:30 pm	Lunch, Faculty Club – Ron Kratochvil, John Vederas, Dick Peter
2:00 pm	Dr. and Mrs. Norman Jones, afternoon and dinner
7:00 pm	Edmonton Art Gallery, open for viewing prior to Dr. Bader's lecture
8:00 pm	Lecture – The Adventures of a Chemist-Collector, at Edmonton Art Gallery

Tuesday, 11 April 1995

9:00 am	Pick up at Hotel McDonald – Stan Brown
9:30 am	Stan Brown
11:00 am	Seminar, V-107 – History of the Aldrich Chemical Company
12:30 pm	Lunch, Faculty Club – President Rod Fraser
3:30 pm	To be arranged
5:30 pm	Dinner – Edmonton Section CIC members
7:30 pm	Lecture – The Bible Through Dutch Eyes (Rembrandt and the Jews), at Kings University College

Wednesday, 12 April 1995

Departure at 8:30 am on Northwest Flight #1022

Fax No. 414-277-0709

April 21, 1995

To: Ms. Kari Anderson Tobias
Fax: (613) 545-6777

Toronto

Dear Ms. Tobias:

In response to your fax of today, just a few comments:

We are coming to Toronto because Isabel will receive an honorary doctorate from Victoria University. However, that is not until May 18th, so on the 17th she is still Mrs. Isabel Bader.

For the last 40 years, I haven't known whether I am a chemist or an art historian first, but on reflection, it probably is chemist. Hence, could you please start the first paragraph with "Chemist, business leader, ..."?

Also, in the last paragraph, you express your thought that I will be talking about art restoration. I have given such talks, entitled *The Adventures of a Chemist Collector* and *The Detective's Eye*, at Queen's, but this particular talk will deal with the Rembrandt Research Project and the Collector, and the last paragraph might read:

"In his lecture and slide presentation, Dr. Bader will explore the fascinating world of art collecting, auctions and attributions. The audience will be introduced to beautiful paintings that were, at one time, called Rembrandt. They no longer are, but still are beautiful. Dr. Bader's passion for art and life will be conveyed in this engaging lecture."

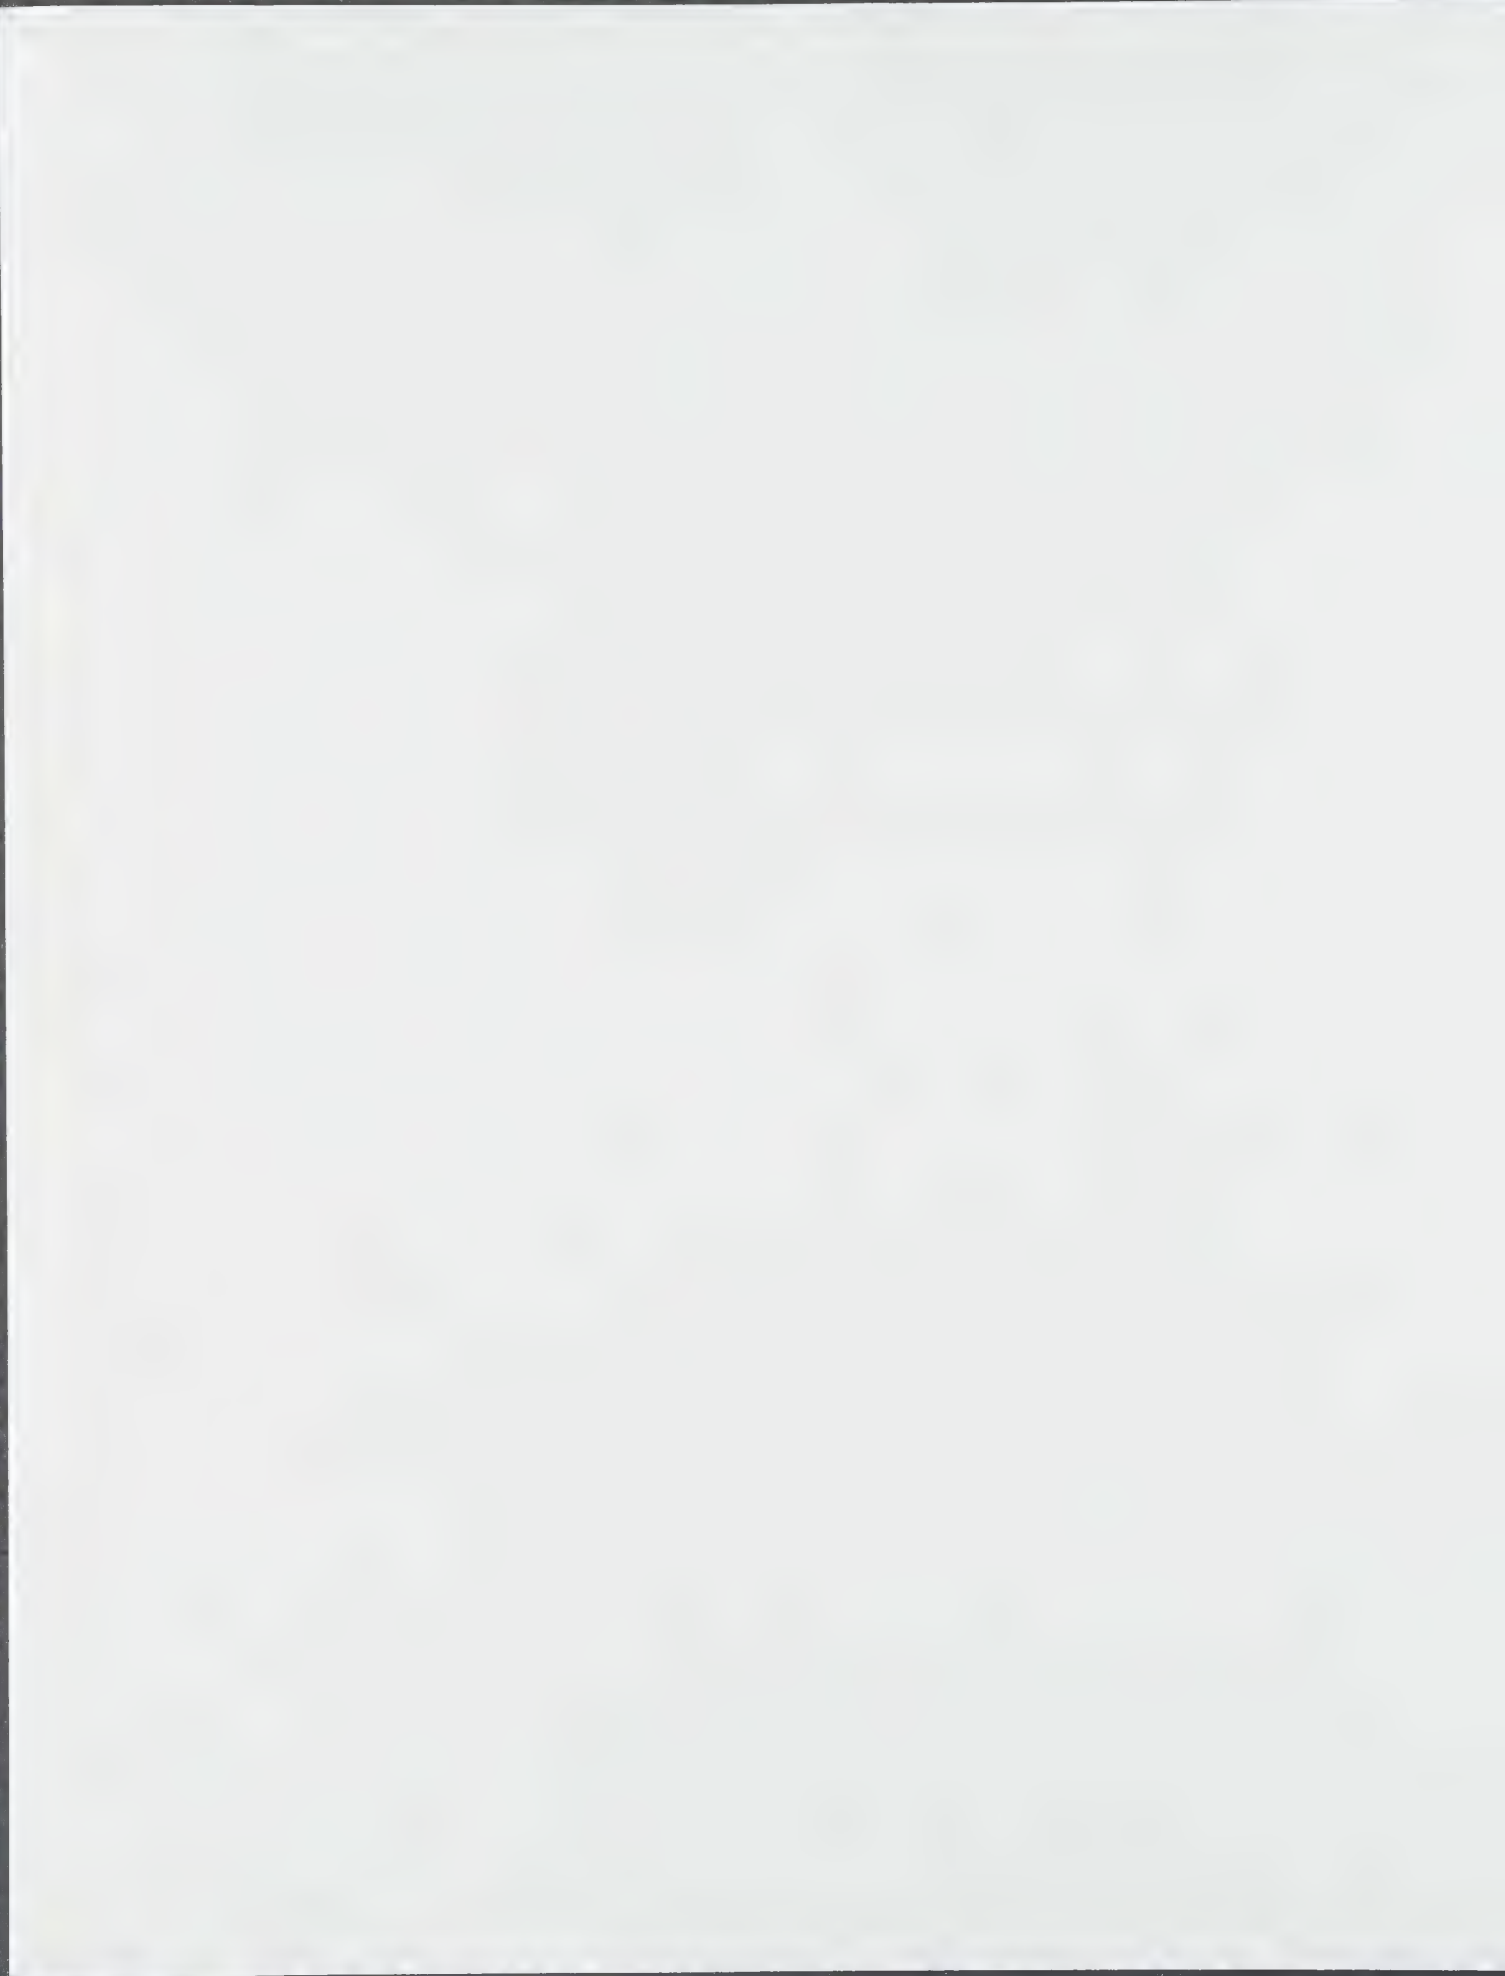

I will be in my office for only another ^{hour} hour. Later in the day, you can fax to my home at (414) 962-8322.

Best regards.

Sincerely,

Alfred Bader

AB/cw

FAX TRANSMISSION

Summerhill
Queen's University
Kingston, Ontario
K7L 3N6

To: Dr. Alfred R. Bader
Fax: 414-277-0709

From: Kari Andersen Tobias
Development Officer
Agnes Etherington Art Centre

Date: Friday, April 20, 1995

Pages: (Including this one) 1

Dear Dr. Bader:

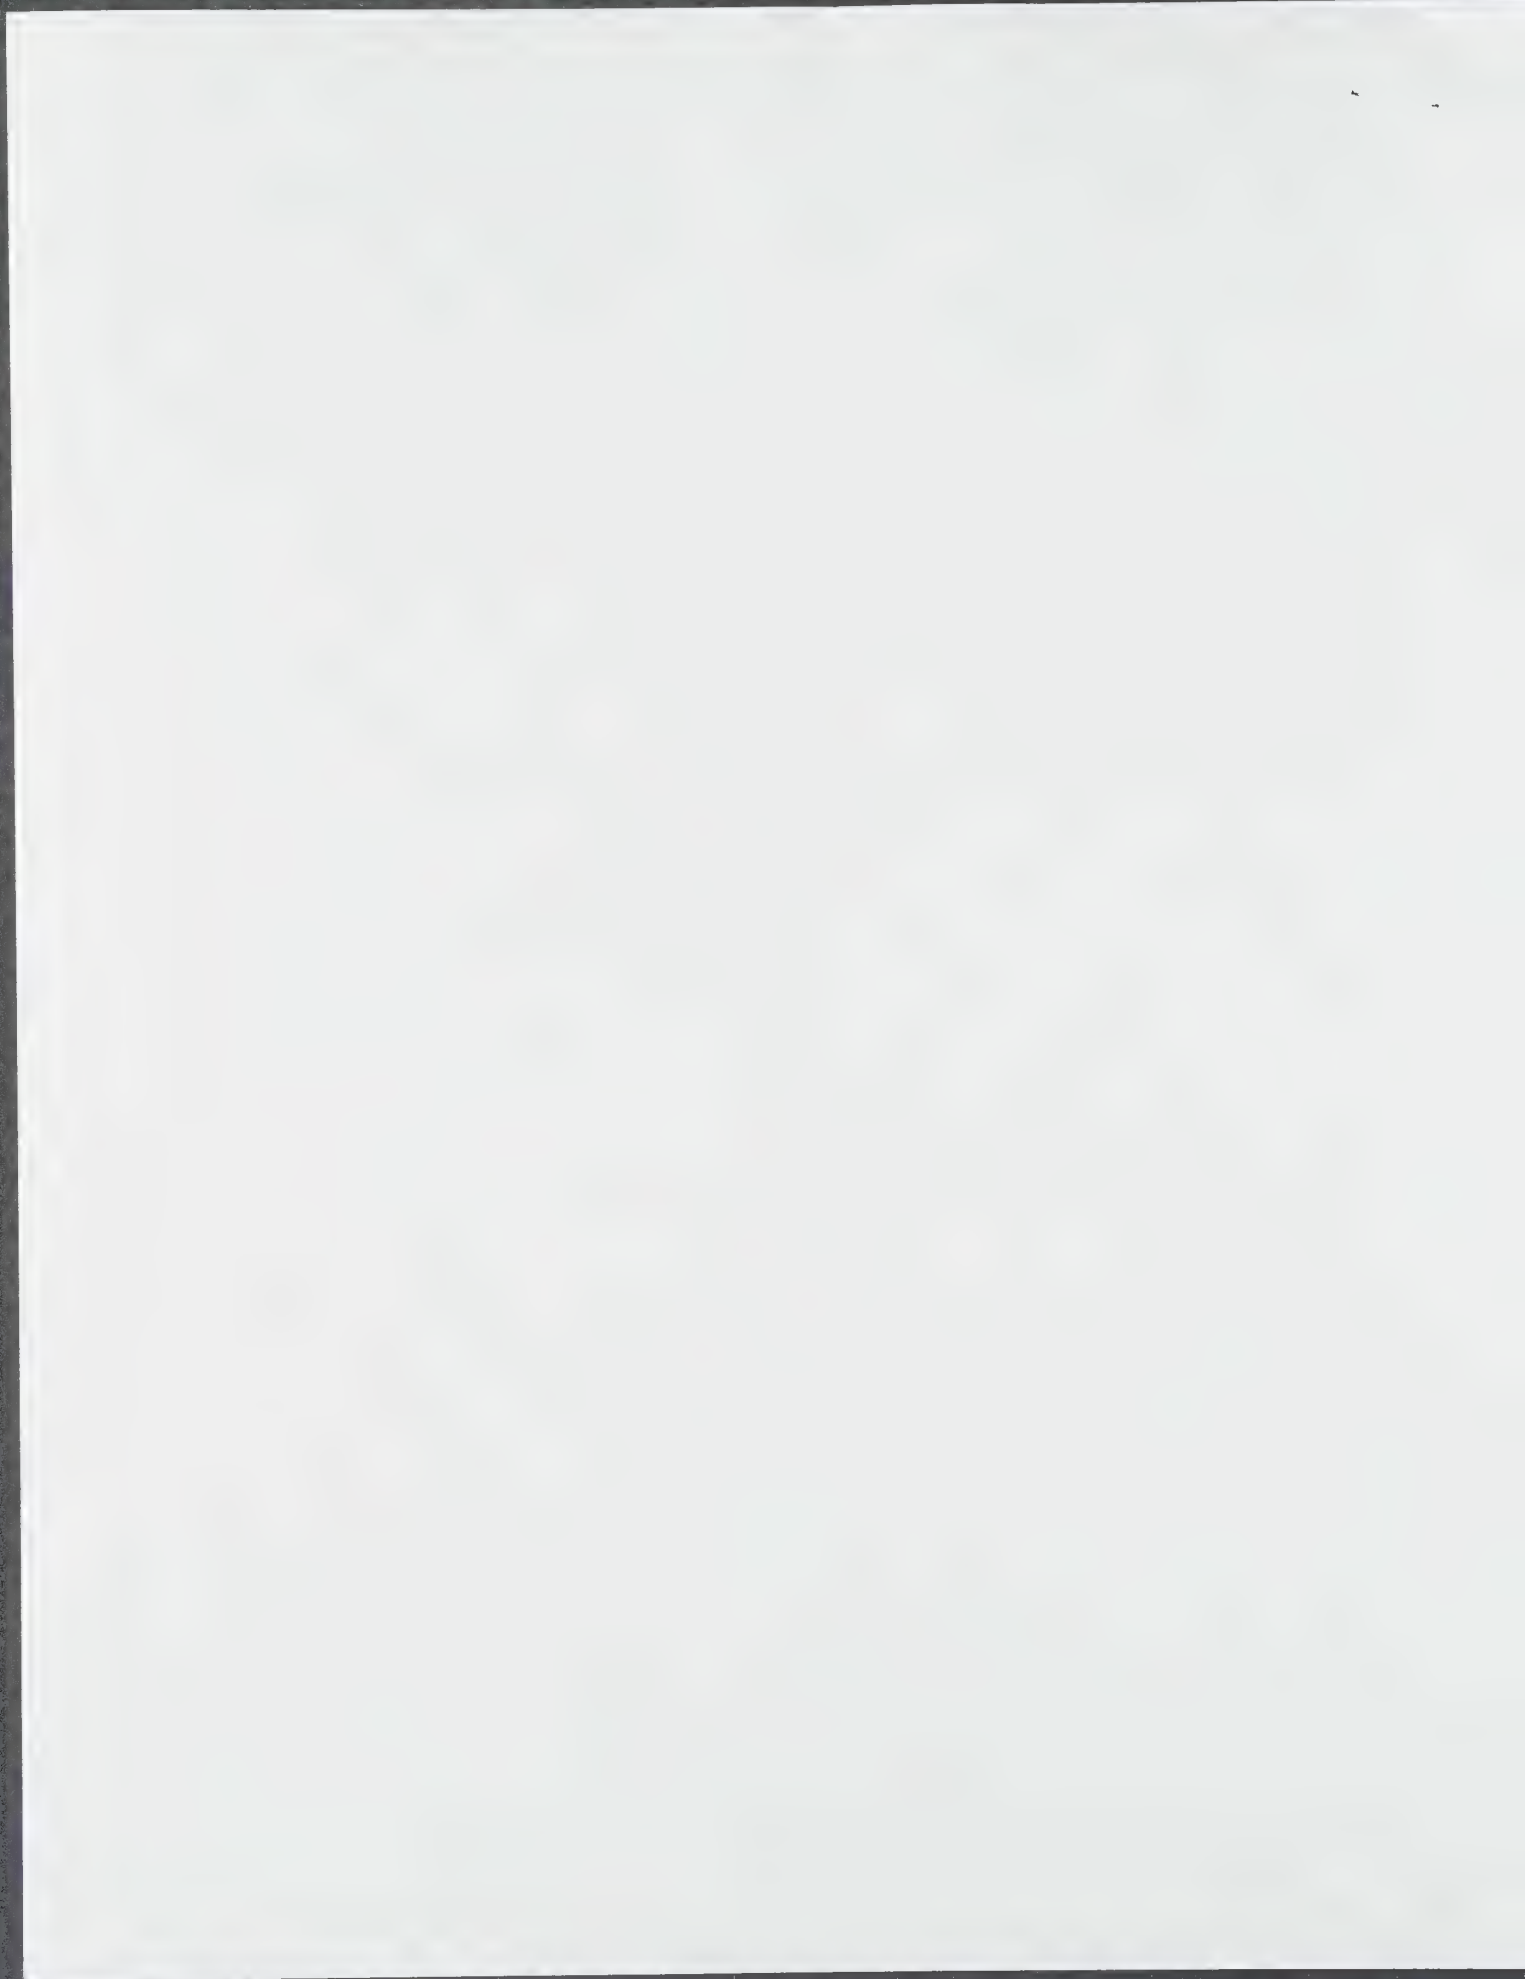

Please allow me to introduce myself to you again, as it has been quite a while since we last met. I am responsible for the fund-raising portion of the Agnes Etherington Art Centre's Expansion Project. I am working closely with Ivanka Franjkovic regarding your lecture series. I look forward to hearing you speak again. I am a Queen's Art History graduate, and naturally take great pleasure and interest in your presentations. I also thoroughly enjoyed listening to your interview with Vicki Gabereau on April 10.

The invitation to your talk is being sent to selected alumni very soon. I have attempted to prepare a brief summary of your diverse life experiences and to introduce the subject matter of your talk. Would you be kind enough to review this invitation prior to it being sent out? I know you are very busy, but I would appreciate any corrections or comments you may have.

Thank you for volunteering to meet with the Honorable Art Eggleton. Trish Howorth at the Art Centre spoke with his assistant at his constituency office in Toronto. Mr. Eggleton's assistant indicated that it was not necessary to request a meeting because he already fully supports the project. We were very encouraged to hear this. We will update you on our lobbying efforts when we see you in May.

We would like to confirm the name of the talk you wish to give in Guelph. Will it be the Rembrandt Project?

Sincerely,

Chemist,

^B Business leader, philanthropist, renowned art collector and dealer Dr. Alfred Bader is one of Queen's most illustrious and dedicated alumni. After fleeing Nazi persecution, Dr. Bader was accepted by the University in 1941. After leaving Queen's, Bader earned a doctorate at Harvard and then founded Aldrich Chemical Company, one of the world's leading manufacturers of chemicals for research.

Dr. and Mrs. Bader are committed philanthropists who have made Queen's the beneficiary of some of their most generous gifts. They have promised to donate their collection of 17th-century Dutch paintings, which focuses on the School of Rembrandt, to the Agnes Etherington Art Centre at Queen's. This would be one of the most significant donations made to a Canadian museum in recent history. The Art Centre is planning an expansion that will accommodate this magnificent gift. The Baders also gave Herstmonceux Castle Estate in East Sussex, UK to Queen's. Following the Baders' vision, the University has renovated this historic site for use as an International Study Centre for students from around the world.

In his lecture and slide presentation, Dr. Bader will explore the fascinating world of art collecting, auctions and restoration. The audience will be introduced to ~~incredible~~ paintings that have been restored since their acquisition by the Baders. Dr. Bader's passion for art and life will be conveyed in this engaging lecture.

Itinerary for Queen's Alumni Events
For Dr. Alfred and Mrs. Isabel Bader

Vancouver

Thursday, April 6, 1995

- 5:30 pm Mrs. Katie Hill, Arts'50, and her husband Jim Hill will pick up Dr. and Mrs. Bader at the home of Mrs. Bader's brother, Mr. Clifford Overton. Mrs. Hill will telephone Mr. Overton to confirm the final arrangements. The reception will take place at the Reception Centre of the UBC Botanical Gardens.
- 6:00 pm Wine and Cheese Reception at UBC Botanical Gardens Reception Centre, 6804 S.W. Marine Dr. Non-alcoholic beverages will also be provided.
- 7:00 pm Dr. Bader's presentation followed by a further opportunity to mingle with the guests.
- 8:30 pm Dr. and Mrs. Bader will be taken to dinner by Mr. and Mrs. Hill who will also drive them back to Mr. Overton's house at the end of the evening. This departure time is flexible and is at the discretion of Dr. and Mrs. Bader and Mr. and Mrs. Hill.

Friday, April 7, 1995

- 2:30 pm Professor Edward Piets will drive Dr. and Mrs. Bader to the CBC Radio Studio.
- 3:30 pm Dr. Bader will be interviewed by CBC Radio Host, Vicki Gabereau. (Interview should last 20 to 30 minutes)

Saturday, April 8, 1995

- 1:00 pm Brenda and David McLean will pick up Dr. and Mrs. Bader at the home of Mr. Overton and host them to lunch. Afterwards they will take Dr. and Mrs. Bader to the Vancouver Art Gallery (VAG) where Mr. Brian Foreman, Coordinator of General Programs will give them a private tour of the Gallery. The VAG will be exhibiting a small collection of still life and landscape Dutch paintings from 1600 and 1700 which might be of interest to Dr. and Mrs. Bader.

Edmonton

Because the schedule arranged by Jean Cooley of the Canadian Society of Chemistry is very full

there is no opportunity to arrange a special reception with Queen's alumni during this visit. An arrangement has been made with Jean that Queen's alumni living in Edmonton will be invited to attend the two public lectures to be presented at the Edmonton Art Gallery and at King's University College.

The Branch Development Unit of the Department of Alumni Affairs has sent an invitation to alumni living in Edmonton. Alumni in attendance at the public lectures will wear a Queen's University Alumni Association name tag showing the Queen's flag.

Toronto

Wednesday, May 17, 1995

The Toronto Branch is very interested in having Dr. Bader speak to alumni. Details are still being worked out and we will consult with Dr. Bader as more information becomes available.]

Guelph

Monday, May 29, 1995

The Guelph Branch and the Kitchener/Waterloo Branch have planned to jointly host a coffee and seasonal dessert reception for Dr. and Mrs. Bader on the evening of Monday, May 29, 1995. Upon discussion with Professor Oakley we arranged that Professor Oakley will take Dr. and Mrs. Bader to their hotel in mid-afternoon on Monday.

- 5:00 pm Branch Development Coordinator, Ivanka Franjkovic will pick up Dr. and Mrs. Bader for dinner with the presidents of the two alumni branches and their spouses. She will also drive them to the reception and finally back to their hotel at the end of the evening.
- 7:30 pm Reception featuring coffee/tea and seasonal dessert.
- 8:00 pm Dr. Bader's presentation followed by a further opportunity to talk with the guests.
- 9:30 pm Ivanka Franjkovic will take Dr. and Mrs. Bader to their hotel. The departure time as indicated is flexible and is at the discretion of Dr. and Mrs. Bader.
