From far and wide, O Canada, we stand on guard for thee.
God keep our land glorious and free!
O Canada, we stand on guard for thee,
O Canada, we stand on guard for thee.

The Installation

The Honourable Chief Justice Lance Finch

The Chief Justice administers the pledge of office to Simon Fraser University's new Chancellor, Dr Brandt C. Louie, and installs the Chancellor with these words:

"In the name of Simon Fraser University and at the request of the Board of Governors, I declare you, Brandt Channing Louie, duly installed as the Chancellor of the University and invest you with the authority and charge you with the responsibility pertaining to that office."

The Presentation

Dr Michael Stevenson

The President asks all the candidates for degrees to rise and presents them to the Chancellor with these words:

"Mr Chancellor, I present to you those scholars who have fulfilled the statutory requirements laid down by the Senate of this University, and request that you confer upon each one the degree for which he or she is now recommended."

The Admission

Dr Brandt Louie

The Chancellor then addresses the candidates:

"By virtue of the authority vested in me and in the Senate of this University, I hereby admit you to your various and several degrees."

This program is prepared more than a week before Convocation and therefore may not be complete.

University Heraldry

The University Coat of Arms was granted to the University in 1965 by the Lord Lyon King of Arms.

The heraldic description of the coat of arms is:

"Quarterly; 1st and 4th, Azure, three fraises Argent; 2nd and 3rd, Argent, three antique crowns Gules, in chief Gules an open book proper, binding and foreedges, Or, between two crosslets fitchée of the last."

The Coat of Arms was derived from that of the Clan Fraser. The name Fraser is said to have come from the French word "fraises," meaning strawberries, hence the Shield and flag each include the strawberry flower motif.

The mace was commissioned by the University architects, Erickson-Massey, and was presented to the University at the opening ceremonies on September 9, 1965. The mace is 61 inches long and weighs 23 pounds. Pieces of cut and polished jade, which were taken from the University's jade boulder in the reflecting pool, were set in silver by its designer, Haida artist Bill Reid. The mace is crowned by a silver stag's head, derived from the coat-of-arms of Lord Lovat, head of the Clan Fraser. The Fraser tradition was to fasten sprigs of yew in their bonnets before entering battle. The mace was carved from two hundred-year-old yew, gathered on Burnaby Mountain by a resident in the 1940s.

Lord Lovat presented the University with a claymore, or great sword, on September 9, 1965. The claymore was first used by a Fraser at the Battle of Culloden Moor in 1746. It was also used by a Fraser at the Battle of the Plains of Abraham in 1759. The claymore is approximately 36 inches long and weighs two pounds.

The flag was dedicated and flown for the first time at the Convocation ceremonies in June 1981.

Academic Dress

The regalia worn today by our graduates has a colourful history.

Regalia originated in the monasteries of the Middle Ages. At that time, university faculty were men of religion who wore the habit of their Order when teaching. Over time, their garments came to identify their university. In Europe, laymen did not commonly teach in universities until the 19th century. Only by 1858, for example, did British law no longer require university dons to be in holy orders. Nevertheless, professors continued to wear clerical garb, with modifications in cut and design.

Regalia colours often matched those of the university patron, or of the city in which the university was located; Simon Fraser regalia combines the red and royal blue of the Clan Fraser. (The University motto "nous sommes prêts," or "we are ready," parallels the Clan's "je suis prêt.")

The degree hood was originally part of the monk's habit - a carryall for food or other small items. Eventually, the hood became separate from the gown, variegated in colour, and emblematic of scholars and degrees from particular universities. Hoods in Canada and Europe are unique in design and colour to each degree and each university.

The history of the mortarboard worn by our Bachelors and Masters begins with high church dignitaries in the 16th century. These officials wore hats consisting of little more than a cap with a raised, squared crown. By the 18th century, the crown had evolved into a cloth-covered board, and the wearers into the deans and rectors of universities. The 19th century saw the top knob replaced by a tassel, and the cap become required student attire. Reminded of the square board masons used to hold mortar, students dubbed the headgear a "mortarboard"—college slang of the day.

Doctoral hats are patterned after the Florentine hats in the time of the Medici. Students purchased hats of the appropriate university colours when continuing with advanced studies after completing the Bachelors degree.

DR. BADER

Mr. Chancellor, Dr. Alfred Bader belongs to that select few whose life represents the perfect marriage of intellect and passion. A chemist, art collector and philanthropist, Alfred Bader has fashioned a life of innovation, achievement, cultivation and generosity from beginnings fraught with hardship, danger and injustice.

Born in Austria, he moved to England to escape Nazi persecution. In 1940, he was wrongfully deported as an enemy alien to Canada, where he was interned in a prisoner-of-war camp for two years. Such treatment might have discouraged many, but Alfred Bader was undaunted. After his release, he studied at Queen's University, where he proved to be a brilliant student who, in three successive years, was awarded a B.Sc. in engineering chemistry, a B.A. in history, and an M.Sc. in chemistry. In 1950, he received his Ph.D. from Harvard University. Subsequently, he co-founded the Aldrich Chemical Company. When his company merged with Sigma to become Sigma-Aldrich, he took leadership and in the ensuing years until his retirement, he served as a member of the board of this billion-dollar enterprise.

From early boyhood, and all through the years of building a highly successful business, Alfred Bader's love of fine art nurtured and sustained him. He devoted years of study to art, immersing himself in the history of 17th Century Dutch and Flemish painting, and later expanding his interests to include French, Italian, and German artists. Initially, his knowledge and appreciation of painting revealed itself in his company's catalogue and in the journals of Sigma Chemicals, their covers graced with works from his private collections. In 1961 he opened Alfred Bader Fine Arts. Since then as collector, dealer, lecturer and curator, he has earned the admiration and respect of artists and art lovers around the world.

Chemistry and art have enhanced Alfred Bader's life, and he in turn has enriched ours immeasurably. A kind and gracious philanthropist, he has established several awards in chemistry including the Alfred Bader Award for Organic Chemistry of the Canadian Society for Chemistry. To show his abiding affection for Queen's University, he has endowed two chairs and sponsored several fellowships and awards at that institution. In 1994, he donated Herstmonceux Castle in Sussex to his alma mater. His generosity has also extended to other Canadian universities as well as numerous causes overseas.

Mr. Chancellor, the Senate of this University is pleased to honour this distinguished scientist, inventor, entrepreneur, art connoisseur, collector, and philanthropist and I ask that you now confer upon Dr. Alfred Bader the degree Doctor of Science, *honoris causa*.
